THE

DUBLIN UNIVERSITY CALENDAR

FOR THE YEAR

1903–1904.

VOL. I.

THE PRESENT MODE OF PUBLISHING THE UNIVERSITY CALENDAR.

In Hilary Term, 1900, the Board arranged that in future the Calendar should consist of the following parts, and be published at the following dates:—

Vol. I., to be published during the Long Vacation, and to contain full information as to the Ordinary and Honor Courses in Arts and in the Professional Schools, and to contain also the Undergraduate Ordinary Examination Papers.

Vol. II., to be published as soon as possible after the 1st of January in each year, and to contain:—the results of Ordinary and Honor Examinations held in Arts, and in the Professional Schools, and the Degrees conferred, during the past year; and the lists of—the Students on the College Books, the Senate, the University Electors, and the College Officers.

Vol. III., to be a Special Volume published from time to time as the Editor of the Calendar may think fit, and to contain the lists of Past Prizemen and Exhibitioners in Arts, and in the Professional Schools, of Graduates in Honors, of Honorary Degrees, of Degrees in the Professional Schools, of Provosts, Fellows, Scholars, Professors, Chancellors, Vice-Chancellors, and Representatives in Parliament, and of the Benefactors of Trinity College, all to be made as complete as possible. [*This Volume was published in July*, 1901, *as Vol. II., being a special Supplemental Volume for the year* 1901.]

The Supplement to the Calendar, to be published as soon as possible after the 1st of January, in each year, and to contain the Papers set at the Honor Examinations in Arts, and at the Examinations in the Professional Schools.

OFFICERS

OF THE

UNIVERSITY AND COLLEGE,

July 1, 1904.

Chancellor.

The Right Hon. Laurence, Earl of Rosse, LL. D.

Vice-Chancellor.

The Right Hon. Dodgson Hamilton Madden, LL.D.

Visitors.

The Chancellor (or in his absence the Vice-Chancellor).
The Lord Chief Justice.

Provost.

George Salmon, D.D.

Senior Fellows.

James William Barlow, M.A., *Vice-Provost.*
Benjamin Williamson, M.A., Sc.D., *Registrar.*
Thomas Kingsmill Abbott, B.D., Litt.D., *Senior Proctor.*
Thomas Thompson Gray, M.A., *Senior Dean and Catechist.*
John Pentland Mahaffy, D.D., Mus. Doc., *Senior Lecturer.*
Anthony Traill, LL.D., M.D., M.Ch., *Bursar.*
Francis Alexander Tarleton, LL.D., Sc.D., *Auditor.*

Junior Fellows.

[Those marked thus (*) are Tutor Fellows.]

Robert Yelverton Tyrrell, M.A., Litt.D.
George Lambert Cathcart, M.A.
William Snow Burnside, M.A., Sc.D.
Arthur William Panton, M.A., Sc.D., *Junior Bursar and Registrar of Chambers.*
Frederick Purser, M.A.
Louis Claude Purser, M.A., Litt.D.
*William Ralph Westropp Roberts, B.D.
*Edward Parnall Culverwell, M.A.

Alexander Charles O'Sullivan, M.A., M.D.
John Isaac Beare, M.A.
*Robert Russell, M.A., *Junior Dean.*
*Matthew Wyatt Joseph Fry, M.A.
*George Wilkins, B.D.
*Henry Stewart Macran, M.A.
*Edward John Gwynn, M.A.
Charles Jasper Joly, M.A.
*Gerard Alston Exham, M.A.
William Edward Thrift, M.A.
*J. Gilbart Smyly, M.A.
*George William Mooney, M.A.
*William Kennedy, M.A., *Junior Proctor.*
*Reginald Arthur Percy Rogers, M.A.
*William Alexander Goligher, M.A.
*John Fraser, M.A.

Representatives in Parliament.

	Elected.
Right Hon. Sir Edward Henry Carson, LL.D., ...	1892
James Henry Mussen Campbell, K.C., ...	1903

Honor Examiners for the Year 1904.

In Mathematics and Mathematical Physics.

The Professor of Mathematics.
The Professor of Natural Philosophy.
W. R. W. Roberts, B.D.
R. Russell, M.A.
J. Fraser, M.A.

In Classics.

The Regius Professor of Greek.
The Professor of Latin.
G. A. Exham, M.A.
G. W. Mooney, M.A.
W. Kennedy, M.A.

In Ethics and Logics.

H. S. Macran, M.A.
R. A. P. Rogers, M.A.
W. A. Goligher, M.A.

In Experimental Science.

The Professor of Chemistry
The Professor of Experimental Philosophy.
E. P. Culverwell, M.A.

In Natural Science.

The Professor of Comparative Anatomy and Zoology.
The Professor of Botany.
The Professor of Geology and Mineralogy.
King's Professor of the Institutes of Medicine.

In History and Political Science.

The Regius Professor of Feudal and English Law.
The Professor of Modern History.
The Professor of Political Economy.
G. A. Exham, M.A.

In Modern Literature.

The Professor of English Literature.
The Professor of the Romance Languages.
The Professor of German.
E. J. Gwynn, M.A.

In Legal and Political Science.

Professor C. F. Bastable, LL.D.
Professor G. V. Hart, LL.D.
Professor J. St. C. Baxter.

Honor Lecturers for the Year 1903–1904.

Mathematics.

W. R. W. Roberts, B.D.
R. Russell, M.A.
J. Fraser, M.A.

Classics.

G. A. Exham, M.A.
G. W. Mooney, M.A.
W. Kennedy, M.A.

Ethics and Logics.

H. S. Macran, M.A.
R. A. P. Rogers, M.A.
W. A. Goligher, M.A.

The Board nominates Special Courts of Examiners for Moderatorships, Fellowships, and Scholarships, which will be constituted as follows for the year 1904, a Member of the Board presiding in each Court Examiners for Moderatorships :—

Moderatorships, 1904.

Mathematics.—The Provost (*President*) ; the Professors of Mathematics and Natural Philosophy; W. R. W. Roberts, B.D.; E. P. Culverwell, M.A.; R. Russell, M.A.; J. Fraser, M.A.

Classics.—J. P. Mahaffy, D.D. (*President*); the Professors of Greek, Latin, and Ancient History; G. Wilkins, B.D.; G. W. Mooney, M.A.; W. Kennedy, M.A.

Ethics and Logics.—T. K. Abbott, Litt.D. (*President*); the Professor of Moral Philosophy; G. A. Exham, M.A.; R. A. P. Rogers, M.A.; W. A. Goligher, M.A.

Experimental Science.—A. Traill, LL.D. (*President*); the Professors of Chemistry and Experimental Philosophy; J. T. Jackson, M.A.

Natural Science.—B. Williamson, Sc.D. (*President*); the Professors of Comparative Anatomy and Zoology, of Geology and Mineralogy, of Botany, and the King's Professor of Institutes of Medicine.

History and Political Science.—T. T. Gray, M.A. (*President*); the Professor of Political Economy; J. Wardell, M.A.; L. C. Purser, Litt.D.

Modern Literature.—The Vice-Provost (*President*); the Professors of English Literature, Romance Languages, and German; J. P. Mahaffy, D.D.; J. G. Smyly, M.A.

Legal and Political Science.—F. A. Tarleton, LL.D. (*President*): Professor C. F. Bastable, LL.D.; Professor G. V. Hart, LL.D.; and Professor J. St. C. Baxter.

Fellowship, 1904.

Mathematics (*Pure and Applied*).—The Professors of Mathematics and Natural Philosophy; F. A. Tarleton, LL.D.; M. W. J. Fry, M.A.; Chas. J. Joly, Sc.D.

Classics.—The Professors of Greek and Latin; R. Y. Tyrrell, Litt.D.; J. G. Smyly, M.A.

Ethics and Metaphysics.—J. P. Mahaffy, D.D.; H. S. Macran, M.A.

Experimental Physics.—The Professor of Experimental Philosophy; A. Traill, LL.D.

Hebrew.—G. Wilkins, B.D.

Scholarship, 1904.

Classics.—The Professors of Greek and Latin; T. T. Gray, M.A.; J. P. Mahaffy, D.D.; R. Y. Tyrrell, Litt.D.; G. Wilkins, B.D.; E. J. Gwynn, M.A.; H. S. Macran, M.A.

Mathematics.—The Professors of Mathematics and of Natural Philosophy; W. R. W. Roberts, B.D.; R. Russell, M.A.

Experimental Physics.—The Professors of Chemistry and Experimental Philosophy; E. P. Culverwell, M.A.

PROFESSORS AND LECTURERS

Arranged in Chronological order according to the dates of the Foundations of their respective Offices.

Thus marked (*) are elected annually.
,, ,, (†) ,, ,, quinquennially.
,, ,, (‡) ,, ,, septennially.
,, ,, (**) ,, ,, decennially.

The following Professorships or Lectureships become vacant at the dates respectively affixed to them:—

Professorship of Ecclesiastical History,	1903, May 7.
Professorship of Chemistry,	1903, June 15.
Professorship of Irish,	1903, July 13.
Professorship of Biblical Greek,	1903, Oct. 29.
Professorship of Botany,	1904, *March 30.*
Professorship of Music,	1904, Nov. 10.
Professorship of Geology and Mineralogy,	1904, Oct. 16.
Professorship, Reid, of Penal Legislation, &c.,	1904, July 3.

Regius Professor of Divinity.

[Founded 1607 (?1600) as Professorship of Divinity; made a Regius Professorship, 1761.]

First Election.		Last Election.
1888. Mar. 31.	John Gwynn, D.D.	
	Assistants:	
	*James Walsh, D.D.	Nov. 20.
	*Thomas Sterling Berry, D.D.	Nov. 20.
	*James G. Carleton, D.D.	Nov. 20.
1898. Feb. 5.	†Newport J. D. White, B.D.	**1903.** Feb. 5.
	*Hugh Jackson Lawlor, D.D.	Nov. 20.

Regius Professor of Physic.

[Founded 1637.]

1898. Dec. 17.	James Little, M.D.	

‡ *Regius Professor of Laws.*

[Founded 1668.]

1888. Mar. 24.	Henry Brougham Leech, LL.D.	**1902.** Mar. 24.

Donegal Lecturer in Mathematics.

[Founded 1675.]

1884. Feb. 2.	Arthur William Panton, M.A., Sc.D.	

‡ *Professor of Anatomy and Chirurgery.*

[Founded 1711.]

1903. June 20.	Andrew Francis Dixon, M.B., Sc.D.	

First Election.		Last Election.
	**Chief Demonstrator.*	
	R. A. Stoney, M.B.	Nov. 20.
	‡ *Professor of Botany.*	
	[Founded 1711.]	
1869. Jan. 23.	Edward Perceval Wright, M.A., M.D. *Assistant:* Henry H. Dixon, Sc.D.	1897. May 10.
	‡ *Professor of Chemistry.*	
	[Founded 1711.]	
	[Vacant.]	
	Assistant: E. A. Werner. *Demonstrator:* C. W. Ramsden.	
	* *University Anatomist.*	
	[Founded 1716.]	
1895. April 19.	Sir Charles Bent Ball, M.D., M.Ch.	Nov. 20.
	Archbishop King's Lecturer in Divinity.	
	[Founded 1718.]	
1888. June 30.	John Henry Bernard, D.D.	
	Assistants:	
	*W. R. W. Roberts, B.D.	Nov. 20.
	*George Wilkins, B.D.	Nov. 20.
	*Charles Irvine Graham, B.D.	Nov. 20.
1898. Feb. 5.	†Newport J. D. White, B.D.	1903. Feb. 5.
	*James Houghton Kennedy, D.D.	Nov. 20.
	*Hugh Jackson Lawlor, D.D.	Nov. 20.
	‡ *Professor of Hebrew.*	
	[Founded by the Board of Erasmus Smith, 1724.]	
1900. Oct. 20.	George Wilkins, B.D.	
	Lecturers in Hebrew.	
	*J. I. Beare, M.A.	Nov. 20.
1898. Feb. 5.	†Newport J. D. White, B.D.	1903. Feb. 5.
	*William Kennedy, M.A.	Nov. 20.

First Election.		Last Election

Erasmus Smith's Professor of Natural and Experimental Philosophy.

[Founded 1724.]

1901. Mar. 23.	William Edward Thrift, M.A.	

Assistant:—James T. Jackson, M.A.

Erasmus Smith's Professor of Oratory.

[Founded 1724 as a Professorship of Oratory and Modern History; the Modern History was made a separate Chair in 1762.]

1867. June 27.	Edward Dowden, LL.D., Litt.D.

[Founded 1761.]

1902. Dec. 18.	John Isaac Beare, M.A.	

† *Regius Professor of Feudal and English Law.*

[Founded 1761.]

1891. Jan. 17.	George Vaughan Hart, LL.D.	1901. Jan. 17.

Erasmus Smith's Professor of Mathematics.

[Founded 1762.]

1879. April 19.	William Snow Burnside, M.A., Sc.D.	

Erasmus Smith's Professor of Modern History.

[Founded 1762.]

[Vacant.]

† *Professor of Music.*

[Founded 1764.]

1894. Nov. 10.	Ebenezer Prout, Mus. Doc.	1899. Nov. 10.

Professor of the Romance Languages.

[Founded 1778 as Professorship of Italian and Spanish.]

1867. June 27.	Robert Atkinson, LL.D., Litt.D.	

Professor of German.

[Founded in 1778 as Professorship of French and German; the Chair of French is now merged in that of Romance Languages.]

1866. Nov. 24.	Albert Maximilian Selss, LL.D.	

First Election. | Last Election.

Royal Astronomer of Ireland, on the Foundation of Dr. Andrews.

[Founded 1783.]

1897. Nov. 30. — Charles Jasper Joly, M.A.

Assistant:—Charles Martin.

**Donnellan Lecturer.*

[Founded 1794.]

1902. Nov. 29. — (*for* 1903–1904). Frederick Walker Macran, B.D.

† *Professor of Political Economy.*

[Founded 1832.]

1882. Mar. 25. — Charles Francis Bastable, LL.D. — 1902. Dec. 3.

† *Professor of Moral Philosophy.*

[Founded 1837.]

1901. Nov. 30. — Henry Stewart Macran, M.A.

† *Professor of Biblical Greek.*

[Founded 1838.]

1898. Oct. 29. — Robert Henry Charles, D.D.

† *Professor of Irish.*

[Founded 1840.]

1896. April 18. — James Edward Harnett Murphy, M.A. — 1898. July 13.

Professor of Civil Engineering.

[Founded 1842.]

1887. June 30. — Thomas Alexander, M.A.I.

Assistant:—Walter E. Lilly, M.A., M.A.I.

‡ *Professor of Geology and Mineralogy.*

[Founded 1844.]

1897. Oct. 16. — John Joly, M.A., Sc.D.

University Professor of Natural Philosophy.

[Founded 1847.]

1902. Feb. 8. — Frederick Purser, M.A.

Assistant:—Matthew W. J. Fry, M.A.

First Election.		Last Election
	‡ *Professor of Surgery.*	
	[Founded 1849.]	
1873. Nov. 8.	Edward H. Bennett, M.D.	1901. Dec. 15.

William C. Stubbs, M.A.
Sir James Creed Meredith, LL.D.

A Meeting of the Senate for the nomination of Members of Council will be held on Wednesday, October 28, 1903, being the fourth Wednesday of the Month, and on Wednesday, October 26, 1904.

Ordinary Meetings of the Council are held on the first and fourth Wednesdays after the commencement of lectures in each term, but if in Hilary Term either of these days should fall on Ash Wednesday, then the meetings are held on the second and fifth Wednesdays after lectures commence. In Michaelmas Term the second meeting is held on the second Wednesday in December. In the years 1903 and 1904 the days of meeting will be:—1903, Nov 4, Dec. 9; 1904, Feb. 10, March 2, May 11, June 1, Nov. 9, Dec. 14.

Literary and Scientific Societies of Trinity College.

COLLEGE HISTORICAL SOCIETY.

FOUNDED 1770.

President.

The Right Hon. Lord Ashbourne.

OFFICERS AND COMMITTEES, SESSION, 1903–1904.

Auditor.

J. M. Fitz Gerald.

The object of the Association is the encouragement of investigation in all branches of Experimental Science.

General Meetings are held at least once each month during Term, for reading Papers and exhibiting Experiments, in the Engineering School Buildings, Trinity College, Dublin. The Chair is taken at 8 p.m., tea being provided by the Association at 7.30 p.m. Members have the privilege of bringing one guest to each General Meeting. A Medal in Photography is awarded annually at the close of each Session, the Rules and Conditions of which may be had on application to either of the Secretaries.

All Graduates as well as Undergraduates of the University are eligible for Membership. The Annual Subscription is Five Shillings. No Entrance Fee. Further information may be obtained on application to any of the Officers.

This Association and the Biological Sc. Association jointly possess a fine Electric Lantern and Projecting Microscope (obtained at a cost of about £150, which was defrayed by private subscription aided by a College Grant). Lantern Exhibitions, open to all Students of Trinity College, are held at short intervals during Term. They commence at 8 o'clock.

DUBLIN UNIVERSITY ENGINEERING STUDENTS' SOCIETY.

SESSION, 1903–1904.

President.

Thomas Alexander, M.A.I.

Vice-Presidents.

A. Panton, Sc.D., F.T.C.D.

E. W. French.
S. E. Taylor.
G. Adams.
W. R. F. Manning.
J. W. Horne.
R. Doupe.

The object of the Association is the encouragement of the study of Church Music among Students, especially among Divinity Students, that they may be able hereafter to take an intelligent interest in the Music of their Parish Churches.

The services of Mr. Charles G. Marchant, Mus. Bac., Organist of the College Chapel and of St. Patrick's Cathedral, have been secured, to give instruction in part-singing to the Members on two days in each week (*Monday at 2.45 p.m., and Wednesday at 11 a.m.*). During Michaelmas and Hilary Lecture Terms there is Choral Evensong in the College Chapel on Wednesdays at 5 o'clock, at which the Members of the Association form the Choir.

INDIAN, COLONIAL, AND HOME CIVIL SERVICE.

OPEN Competitive Examinations for the following Services, viz.:—

The Civil Service of India;
Eastern Cadetships in the Colonial Service;
Clerkships (Class I.) in the Home Civil Service;

are held concurrently each year. The Examinations commence early in August.

The limits of age for the several services are as follows, viz.:—

Civil Service of India . .	21-23	on 1st January, 1903.
Eastern Cadets . . .	21-24	,, 1st August, ,,
Home Civil Service (Class I.) .	22-24	,, 3rd August, ,,

The Regulations respecting the competition in next August are not yet published, but the following extracts, taken from the rules relating to the 1892 competition, will give some idea of its nature:—

"The Regulations governing the Open Competition for admission into the Indian Civil Service have been framed with a view to the principle regarded by Lord Macaulay's Committee, in 1854, as essential, viz., that the object of the Competition should be to secure for the Indian Civil Service officers who 'have received the best, the most liberal, the most finished education that their native country affords.' The scheme of examination has accordingly been made to embrace most of the subjects of the Honour Schools in the Universities of Great Britain and Ireland. In administering the scheme, the Civil Service Commissioners, concurring with Lord Macaulay's Committee in the opinion 'that no Candidate who may fail should, to whatever calling he may betake himself, have any reason to regret the time and labour which he has spent in preparing himself to be examined,' desire to avoid all disturbance of the general course of University studies, and to render it possible, with due regard for the principle of Open Competition, for those who have graduated with honours at the Universities, to attend the examination for the Indian Civil Service with good prospects of success. The appended Syllabus shows in outline the intentions of the Commissioners with regard to the extent and character of the examination in those subjects which seem to require further definition. The scope of the examination in the subjects not mentioned in the Syllabus is sufficiently defined in the scheme published in the Regulations themselves. The Examiners will be instructed to keep the standard in each subject up to the level of the highest course of study pursued in the Universities."

Candidates admitted to compete for all three, or any two, of these classes of appointments will be required to pay a consolidated fee of £6.

As regards the classes in Trinity College which prepare for this Examination, see page 57*.

For full information as to the rules of the Examination, Candidates should apply to the Secretary, Civil Service Commission, Westminster, S.W.

University Lectures in Oriental Languages for Selected Candidates for the Civil Service of India.

On the 13th October, 1877, a communication was received by the Provost and Senior Fellows from the Secretary of State for India, stating that Trinity College had been placed on the list of the Institutions in which Selected Candidates for the Civil Service of India will be permitted to reside during their year of "Probation."

Arrangements have been made enabling selected Candidates for the Civil Service of India to complete their studies in Oriental Languages with the aid of Special Lectures given by Professors of the University.

The Lectures in Indian Languages will be arranged so as to secure to the Candidates their choice of any *three* Languages, including Sanskrit, Bengali, Mahratti, Hindi, Hindustani; Persian; Arabic; Tamil, Telugu; and Burmese.

Candidates will be required to elect at the beginning of the Term the Languages in which they wish to be prepared.

Three Lectures in each Language will be given weekly during each of the three Terms of the year, except in Sanskrit and Arabic, in each of which five Lectures weekly will be provided.

Sophisters having credit for full attendance on two of these special courses of Lectures can claim professional privileges, see under "Course in Arts."

Students who desire to reside in Trinity College, Dublin, during their year of probation, after passing the Open Competition for the Indian Civil Service, will be allowed to put their names on the College Books without Entrance Fee; the College and University Fees during their residence will therefore be £8 8*s.* half-yearly. They will be allowed Residence and Commons on the same terms as other Students, and will not be required to pass Terms in Arts while pursuing their special studies.

The total cost of a year's residence should not exceed £120.

The Lecturers appointed by the Board of Trinity College are as follows:—

Sanskrit and the Neo-Sanskritic Languages,	Professor R. Atkinson.
Arabic and Persian, ...	Professor Stanley Lane-Poole.
Tamil and Telugu, ...	Mr. Charles Kough.
Hindustani and Hindi, ...	Mr. W. Hoey.
History of India, ...	Mr. W. Hoey.
Indian Law, ...	Dr. W. E. Ormsby, late Judge of the High Court of Travancore.

The Board offer annual Prizes of £10 in Sanskrit, £10 in Arabic, £5 in Hindustani, and £5 in Persian.

It may be added that the Law Courts, Police Courts, &c., in Dublin, afford ample opportunities for Candidates to observe the practice of the Law in its various branches.

Candidates intending to reside in Trinity College are requested to communicate with Mr. L. C. Purser, Trinity College, Dublin, who will give any further information which may be required.

REGULATIONS AS REGARDS THE INDIAN, COLONIAL, HOME (Class I.), AND CIVIL SERVICE CLASSES.

1. These Classes are open to all Candidates for the Examination for the Indian, Colonial, and Home Civil Service (Class I.), whether those Candidates belong to Trinity College or not.

2. The Course of Study will be divided, during the current Academic year, 1903–1904, into two Sessions (a Winter Session, from October 19th to March 19th, and a Summer Session, from April 11th to July 2nd); in each of which Sessions not less than two hours of teaching per week will be given in each Class, except during the Christmas (December 19th to January 9th) and Easter Vacations (March 19th to April 9th). This teaching will comprise not only specific instructions directed entirely to the requirements of the Examination, but also guidance to the several Candidates as to the course of private reading which will best suit the needs of each.

3. It is proposed, for the Academic year, 1903-1904, to offer instruction in the following subjects:—

1. English Literature and Composition.
2. Greek Language and Literature.
3. Latin Language and Literature.
4. Pure Mathematics.
5. Applied Mathematics.
6. Mental and Moral Science.
7. Political Economy.
8. Political Science.
9. Roman Law.
10. Ancient History (Greek and Roman).
11. General Modern History.
12. English History (especially English Constitutional History).
13. French Language and Literature.
14. German Language and Literature.
15. Chemistry.
16. Physics.
17. Botany.
18. Geology.
19. Zoology.

4. Frequent Examinations will be held in each subject; and no Candidate can be allowed to attend any Class unless he undertakes beforehand to present himself for these Examinations.

At the end of the Winter Session a General Examination will be held in all the subjects in which instruction has been given; and Prizes will be awarded by the Board, varying from £2 2*s.* to £4 4*s.*, to every Candidate who is considered to have shown merit of a high order.

5. A Student who belongs to Trinity College shall pay *either* (1) Five Guineas Entrance Fee to the Classes and a Special Fee of $2\frac{1}{2}$ guineas for each Class which he attends during the Winter Session, and $1\frac{1}{2}$ guineas for each Class he attends during the Summer Session; *or* (2) he may pay no Entrance Fee, but in that case he shall pay a Special Fee of $3\frac{1}{2}$ guineas for each Class which he attends during the Winter Session, and $2\frac{1}{2}$ guineas for each Class which he attends during the Summer Session.

A Student who does not belong to Trinity College shall pay *either* (1) Five Guineas Entrance Fee to the Classes, and a Special Fee of $3\frac{1}{2}$ and $2\frac{1}{2}$ guineas for each Class which he attends in the Winter and Summer Sessions respectively; *or* (2) he may pay no Entrance Fee, but in that case he shall pay a Special Fee of $4\frac{1}{2}$ guineas and $3\frac{1}{2}$ guineas for each Class which he attends in the Winter and Summer Sessions respectively.

Students who have once paid the Entrance Fee will not be required to pay it again for any subsequent year in which the Classes are continued.

Candidates can obtain further instruction in any subject during the month of July on payment, for that month, of an additional Fee. Notice that this instruction will be required must be given not later than the first week of June.

All Fees must be paid to the Registrar of the Classes previous to attendance at any Class. No Lecturer will receive the name of any Student unless he is shown the Registrar's receipt for the Fees.

Students wishing to join these Classes are requested to communicate with the Registrar of them, Dr. L. C. Purser, 24, Trinity College, Dublin, who will supply any further information which may be required.

EXTRACT FROM THE REGULATIONS UNDER WHICH COMMISSIONS IN THE ARMY MAY BE OBTAINED BY UNIVERSITY CANDIDATES.

January, 1903.

COMMISSIONS in the Cavalry and Infantry of the Line may be granted to Graduates in Arts, or anyone who has passed the Examination for the Degree of B.A. at the University of Dublin, or to Students who have passed the Final Examination of the Senior Freshman year, or the Final Examination of the School of Engineering.

Candidates who are not Graduates will be required to have resided during the customary period for at least one year as members of the University.

Notice will be given, from time to time, of the number of vacancies which will be allotted half yearly to University Candidates. In case there should be more Candidates than vacancies, the required number will be selected by competition among the said Candidates at the ensuing June or November Examination for admission to the Royal Military College. Should there be no competition, Candidates will be required to qualify in Geometrical Drawing at one of the Examinations, unless they have passed the Final Examination of the School of Engineering. The Examinations will be held in London, and at such other centres as the Civil Service Commissioners may appoint. The fee for Examination in London will be £2; at any other centre, £3. The limits of age will be as follows:—

For Students who have passed the Final Freshman Examination, or the Final Examination of the Engineering School, . 17 to 22

For Graduates, ... 17 to 23

These limits of age will be ruled by the 1st of July for the Summer, and by the 1st of December for the Winter Examinations.

A Graduate or Student of Dublin University who is unmarried and, in the opinion of the Commander-in-Chief, in all respects suitable to hold a Commission in the Army, and who is desirous of being a Candidate for a Commission in the Army, must obtain the necessary forms. These will be furnished on application by letter addressed to the Secretary, Civil Service Commission, Burlington Gardens, W., and will include a form of application for permission to attend the Examination, a "Form A" and a "Form of Particulars" required by the War Office. These

forms must be filled up in the Candidate's own handwriting, and must be received by the Secretary of the Civil Service Commission not later than the 1st April or 1st September respectively.

No form of application received after that date will be accepted, unless accompanied by an explanation satisfactory to the Civil Service Commissioners, and no form received after the 1st May or 1st October can be accepted under any circumstances.

The forms should be accompanied by the following papers:—

(*a*) An extract from the register of his birth, or, in default, a Certificate of his baptism, or other documentary evidence, accompanied by a declaration made by one of his parents or guardians before a magistrate, giving his exact age.

(*b*) A certificate from the head of the College either (1) that the Candidate is a Graduate, or (2) that he has passed the required University Examination.

(*c*) If the Candidate holds a Commission in the Militia, a recommendation from the Commanding Officer of the Regiment.

Certificates of moral character need not be forwarded, but every Candidate will be required to name, on Form A, two responsible referees well acquainted with him during the four years of his life immediately preceding the date of his application.

A Candidate who may have been unsuccessful at his first Examination will be allowed further opportunity of competing, provided he has not exceeded the limits of age.

Due notice will be given of the dates on which the Examinations will be held.

The successful Candidates will be inspected by Medical Boards in London, Dublin, and Edinburgh, and no Candidate will be accepted unless recommended by this Board physically fit for His Majesty's service.

The Board have discretionary power to recommend a Candidate slightly below one or other of the conditions as to height, weight, chest measurement, &c., generally required, in a case in which they are satisfied that he will fulfil them at the time of his passing the Examination in Military subjects.

The recommendation of the Board will in all cases be absolutely final.

A Candidate will be required to qualify in the Military Subjects, at the Examination for Army Commissions held for Militia Officers in March and September, not later than the third Examination held after he passes the literary Examination.

NOTE.—When the number of University Candidates is less than the number of Commissions offered, the Authorities of the War Office will accept the Certificate of the Professor of Engineering

in Trinity College in lieu of the usual Examination in Geometrical Drawing.

Candidates can receive instruction in connexion with the Engineering School, and Certificates are granted to Students who answer up to the required standard at an examination held by the Professor.

EXAMINATIONS FOR WOMEN.

REGULATIONS FOR THE YEAR 1904.

THE Examinations will commence on Wednesday, June 22nd.

A Ladies' Superintending Committee shall be constituted, to conduct the Examinations, of which no head of any educational establishment shall be a member.

The Registrar of Examinations for Women will exercise a general supervision over the conduct of all the Examinations.

Candidates are requested to apply to one of the Secretaries for the necessary "Forms," *which should be filled up and returned on or before the 15th of June*, 1904.

Every Candidate presenting herself for Examination will be required to pay a University fee of Two Pounds, payable to the Secretary at least two days previous to the Examinations. *No Candidate can be admitted to the Examination unless the fees have been paid.*

(The Secretaries are—Miss Salmon, Provost's House, Trinity College; and Mrs. Mahaffy, 38, North Great George's-street.)

EXAMINATION FOR CERTIFICATES.

An Examination for Certificates of Dublin University will be held in one of the Halls of Trinity College concurrently with the Midsummer Entrance Examination.

The Certificate will indicate that the Candidate has passed the Examination for Matriculation in Dublin University.

The Examination commences at 10 o'clock, A.M., and lasts two days.

No Certificate will be granted to a Candidate whose aggregate marks are less than 30 per cent. of the total amount obtainable in all the subjects named in the Course.

The subjects of Examination are as follows (being the same as those for the Matriculation Examination of T. C. D.):—

English Composition.
Arithmetic.
Algebra (the first Four Rules, Fractions, and Simple Equations).
Euclid, Books I., II., and III.
English History.
Modern Geography.
Latin.
Greek, *or* French, *or* German.

In Latin and Greek, Candidates will be examined *vivâ voce* in any two authors of each Language that they may select. The quantity of each author to be presented for Examination should not be less than the equivalent of two Books of Virgil, or Xenophon, or of a Greek play.

In Foreign Languages, Candidates will be examined *vivâ voce* in the following prescribed books:—French, Voltaire, Charles XII., or German, Schiller's Belagerung von Antwerpen; papers will also be set containing passages (unprescribed) for translation from these Languages, and passages for translation from English into the same.

Further Examination for High Places.

Those among the successful Candidates who obtain sufficiently high marks will be selected by the Registrar for a further Examination for High Places.* This additional Examination will last for one day, and on the general result of the three days' Examination the selected Candidates will be arranged in order of merit, and their names, together with those of the Schools from which they present themselves, will be published.

Special Certificates will be issued to those who are so selected.

The subjects for the further Examinations are :—

Unseen Passages from Greek Authors and Greek Prose, or English Literature of the nineteenth century.
Unseen Passages from Latin Authors.
Greek and Latin Grammar and Ancient History.
Geometry and Algebra.
French *or* German (passages being set for translation into and from English).

Trinity College Scholarship.

A Scholarship of Twenty-five Pounds, tenable for one year, the gift of the Board of Trinity College, will be awarded at the Examination for Women in 1904.

No one can be admitted as a Candidate who shall have completed her eighteenth year before the 1st of April, 1904.

No lady who has previously obtained a Certificate from Dublin University is eligible for this Scholarship.

The Scholarship will be offered to that Candidate who shall obtain the highest sum of marks at the Matriculation Examination and further Examination for High Places.

In ascertaining the "sum of marks" of a Candidate for this Scholarship, no mark will be taken into account which does not represent at least one-fourth of the maximum merit.

The successful Candidate must undertake to pursue her studies for one year at some place of superior instruction, approved by the Board of Trinity College.

The Board reserves to itself the right to divide, award in part, or withhold the Scholarship at its own discretion.

Charles Wilkins Memorial Prize.

A sum of £190 having been subscribed by the fellow-students and friends of the late Charles James Wilkins to found a Prize as a Memorial of him, the Board of Trinity College, in consideration of receiving that amount, have liberally consented to grant annually a sum of Ten Pounds, the value of which in books will be given as the "Charles Wilkins Memorial Prize" for the best answering in Mathematics at the Further Examination for High Places, and at a Special Examination to be held the day after the Examination for High Places.

The following is the Course for the Special Examination :—

Trigonometry, to the end of Solution of Plane Triangles.
Taylor's Geometry of Conics, Part I., Chaps. 1 to 4 (both inclusive).
Salmon's Conic Sections, the Right Line and Circle (omitting methods of abridged notation).

* Candidates for the Charles Wilkins Memorial Prize will be allowed to compete in the further Examination in Mathematics only, independent of such selection.

Examination in Religious Knowledge.

Candidates may also present themselves for Examination in Religious Knowledge, and separate Certificates will be given in this branch of study. The following will be the subjects of Examination in the year 1904:—

Genesis and Exodus; the Gospel of St. Luke and the Acts of the Apostles; Row's Manual of Christian Evidences.

All Candidates are expected to be acquainted with the Revised Version of the books set for examination.

Miscellaneous Prizes.

Any surplus of the Fees which may remain after defraying the expenses of the Examinations will be expended on Books to be awarded as Prizes to the most meritorious of the Candidates, provided sufficient merit be shown.

W. KENNEDY, F.T.C.D.,
Registrar of Examinations for Women.

ADDITIONAL REGULATIONS PASSED BY THE BOARD OF TRINITY COLLEGE IN THE YEAR 1903.

Rules respecting Examination of Women in Michaelmas Term.

1. Women who have obtained a Certificate at the Trinity College Examinations may be examined in the same Honor Courses as the Junior Freshmen in Michaelmas Term, at the same time, but in different rooms.

2. Those who have already obtained Honors in this Examination may, under the same conditions, be examined in any of the Courses for Moderatorships.

3. Such Candidates shall be marked and classed in exactly the same manner as the Trinity College Students; and Special Certificates shall be given to those who pass a successful Examination.

4. This arrangement, being of an experimental character, shall apply to the years 1903 and 1904 only.

5. The amount of Fees to be charged for admission to these Examinations shall be One Guinea and Two Guineas respectively.

RULES RESPECTING EXAMINATIONS IN THE THEORY, HISTORY, AND PRACTICE OF EDUCATION.

1. Two Examinations have been instituted, one in the Theory and History of Education, and the other in the Practice of Teaching.

2. No candidate shall be admitted to the latter Examination who has not passed the first.

3. Any person shall be admitted to the first Examination who can produce satisfactory evidence of good moral character and adequate scholastic attainments.

4. Any person shall be deemed to have attained the requisite educational standard who has—

1. Graduated in any University of the United Kingdom; *or* who has
2. Passed the Final Freshman Examination of the University of Dublin or the corresponding Examination of the University of Oxford or of Cambridge; *or* who is a
3. First Class or Second Class Teacher under the Board of National Education in Ireland, and is approved of by the Commissioners; *or* who shall produce
4. Evidence of such other qualifications as may be deemed by the Senior Lecturer and Examiners to be equivalent to the foregoing.

I. Examination in Theory and History.

5. The subjects of the first Examination shall include

A. The Theory of Education—

(*a*) The Scientific Basis of the Art of Education.

(*b*) Elements of the Art of Education.

B. History of Education in Europe since the revival of Learning.

6. For this Examination the following books have been appointed—

A. Theory of Education—

(*a*) Stout (G. F.), M.A., *Manual of Psychology* (University Tutorial Series, W. B. Clive.)
[Introduction, book i., omitting chap. 3; book iii., division i.; book iv., first five chapters.]

(*b*) Fitch (Sir J. G.), *Lectures on Teaching* (Cambridge University Press).
Garlick (A. H.), *A New Manual of Method* (Longmans).
Findlay (J. J.), *Principles of Class Teaching* (Macmillan).

B. History of Education—

Quick (R. H.), *Essays on Educational Reformers* (Longmans).

A CERTIFICATE will be issued to each candidate who satisfies the Examiners.

II. EXAMINATION IN PRACTICE.

7. Candidates who have been engaged in teaching in a school for not less than one year to the satisfaction of the principal teacher of the school, and who have passed the first Examination, shall be admitted to the second Examination.

8. The second Examination shall consist in—

A. Examination of a class taught by the candidate.

B. Inspection of a class while being taught.

C. *Viva Voce* Examination of teacher on subjects arising from the inspection.

[*The regulations are given in detail below.*]

A DIPLOMA will be issued to each candidate who satisfies the Examiners.

The Examination for Certificates will be held half-yearly in April and in September. In 1904 these Examinations will take place on April 22nd and on September 23rd.

The Examination for Diplomas will be held in April and September on such days as may be found most convenient to the candidates who have entered their names. Due notice will be given in each case.

Candidates must send in their names, and evidence of their qualifications, to the Senior Lecturer not later than March 1st and August 1st respectively.

The fee payable for each Examination is £1 1*s*. for Graduates or Undergraduates of Trinity College, Dublin; and £2 2*s*. for other candidates; but a Candidate who fails will be allowed to present himself on payment of £1 1*s*.

Regulations for the Examination for Diploma in the Practice of Teaching.

1. Each candidate shall select out of the following list *five* subjects, in which he will be prepared to give lessons, and forward that list of five to the Senior Lecturer, so that it is received at least one week before the date of Examination.

1. Arithmetic. 2. Algebra. 3. Euclid. 4. Elementary Science. 5. English Literature. 6. History. 7. English Grammar and Composition. 8. Physical and Descriptive Geography. 9. Kindergarten. 10. Object Lesson. 11. French. 12. Latin. 13. Greek.

2. The day before the Examination, he should, between the hours of 10 and 11, call on the Senior Lecturer, who will prescribe (*a*) three specific half-hour lessons which he is to prepare; (*b*) the hour and school at which he is to present himself next day.

3. On the day of Examination, the candidate will be informed which of the three lessons he will be required to give, and a suitable class will be provided for him to instruct. The Examiners will be at liberty to require the candidate to give a second lesson if they think it desirable.

N.B.—The candidate should bring whatever apparatus or accessories he may require, except blackboard and chalk.

4. The candidate will be expected to submit notes of the prescribed lessons.

5. In addition to the prescribed lesson, the Examiners hold themselves at liberty to call on the candidate to give an easy quarter-hour lesson in one of the subjects which he offers. This lesson is to be given without previous special preparation.

EXAMPLE.—A candidate selects, say, the following five subjects, and forwards his selection a week previous to the Examination:—
1. Arithmetic. 2. Euclid. 3. Object Lesson. 4. History. 5. Geography.

On the day before the Examination, he is directed to prepare three lessons, say (1) Introductory lesson to Euclid, Book II.; (2) Henry II.'s relations with the Church; (3) A piece of Chalk.

On the day of Examination, he is directed to give the lesson on (3), viz. A piece of Chalk, and to submit his notes on the three lessons.

As an unprescribed lesson, he is called upon to give a short account of, say, the Rivers of England.

UNIVERSITY APPOINTMENTS ASSOCIATION.

An Association has been formed, under the sanction of the Board of Trinity College, with the object of assisting Students and Graduates of the University to obtain appointments and employments at home and abroad.

The Executive Committee of the Association will keep a Register of Students and Graduates desiring appointments, with a record of their qualifications. They will collect and supply to those who register, information as to posts vacant, either at home or in the Colonies, in the various branches of the Civil Service, in Law, Medicine, Engineering, Scholastic work, business, &c.; and will endeavour to place applicants in communication with Boards, Firms, Agencies, &c., who desire to find men to fill such posts.

Those who wish to place their names on the Register should supply personal references and full details as to their qualifications. The Committee will not undertake to recommend for an appointment any applicant of whose fitness they are not satisfied.

The Committee hope that Graduates who reside at a distance will join the Association as corresponding members, and will co-operate by keeping the Secretary informed as to openings that may offer in different lines.

The work of the Association began in Michaelmas Term, 1902. Its books for the present are kept in Mr. Miller's Office.

All communications should be addressed to the Secretary.

Committee.

The Registrar, *ex-officio*, Chairman.
Thomas Alexander, M.A.I., Professor of Engineering.
John I. Beare, M.A., Regius Professor of Greek.
John Joly, Sc.D., Professor of Geology.
Robert Russell, M.A., Fellow and Tutor.
William E. Thrift, M.A., Professor of Experimental Philosophy

Secretary

Edward J. Gwynn, M.A., Fellow and Tutor.

THE

DUBLIN UNIVERSITY CALENDAR.

INTRODUCTION.

UNIVERSITY OF DUBLIN, TRINITY COLLEGE.

§ I. THE UNIVERSITY OF DUBLIN was founded by Queen Elizabeth, A.D. 1591. On the third day of March in that year, a College was incorporated by Charter or Letters Patent, as "the Mother of an University,"[a] under the style and title of "The College of the Holy and Undivided Trinity, near Dublin, founded by Queen Elizabeth."[b]

Previous to the year 1873, the Provostship, Fellowships, and Foundation Scholarships of Trinity College could only be held by Members of the Church of Ireland. This restriction was sanctioned by Parliamentary enactments in the case of the Provostship and Fellowships (33 Geo. III. c. 21). With regard to the Foundation Scholarships, the limitation arose solely from certain provisions in the College Statutes. All these restrictions were removed by the Act 36 Vict. c. 21. The preamble to this Act recites that it is expedient "that the benefits of Trinity College, and the University of Dublin, and of the schools in the said University, as places of religion and learning, should be rendered freely accessible to the nation," and that all restrictions, tests, and disabilities should be removed.

§ II.—GOVERNMENT.—The mode in which the government is constituted may be collected from the historical sketch which will be found at the beginning of Volume III. of the Calendar for 1901.

The Crown, except when limited by Act of Parliament, is supreme. Subject to the control of Acts of Parliament and Royal Statutes, the government is in the hands of the Provost and Senior

[a] "Unum Collegium mater Universitatis . . . pro educatione, institutione et instructione juvenum et studentium in artibus et facultatibus, perpetuis futuris temporibus duraturum, et quod erit et vocabitur Collegium Sanctæ et Individuæ Trinitatis, juxta Dublin, a serenissimâ Reginâ Elizabethâ fundatum."—*Charta Reg. Eliz. anno regni tricesimo quarto*

[b] For an account of the various Charters and Royal Letters affecting Trinity College see "Statuta Collegii atque Universitatis Dublinicnsis," 1875.

Fellows, in conjunction with the Visitors, but in most matters relating to education, as specified in detail below, they act conjointly with the Council, and in matters relating to the conferring of Degrees, the sanction of the Senate is required.

The VISITORS are the Chancellor of the University (or, in his absence, the Vice-Chancellor) and the Lord Chief Justice of Ireland.

The SENATE, or Public Congregation, of the University, consists of the Chancellor, or, in his absence, of the Vice-Chancellor, or Pro-Vice-Chancellor for the time being, and such Doctors or Masters of the University as keep their names on the books of the College in accordance with such regulations as the Provost and Senior Fellows enact. (See p. 20.)

The Caput of the Senate consists of the Chancellor, or Vice-Chancellor, or Pro-Vice-Chancellor, the Provost, or, in his absence, the Vice-Provost, and the Senior Master non-regent,[a] who is elected by the Senate.

The Senate is convened only by the Chancellor, or, in his absence, the Vice-Chancellor or Pro-Vice-Chancellor, each of whom, when presiding, has power to adjourn or dissolve its meetings, and has a casting vote. The Chancellor, or in his absence, the Vice-Chancellor or Pro-Vice-Chancellor, is bound to convene the Senate, on a requisition presented to him by the Provost and Senior Fellows, and the Senate shall meet at such time, and for such purpose, as shall be stated in such requisition.

Whenever the office of Chancellor becomes vacant, the Provost and Senior Fellows must, within one calendar month, propose to the Senate the names of three persons, from amongst whom the Senate must elect a Chancellor within one month from the day of such proposal. In computing these periods, the interval between the 1st of July and 1st of October shall not be taken into account, nor shall an election take place during such interval. If the Senate decline or omit to elect, the nomination of the Chancellor passes to the Crown. The Vice-Chancellor continues to hold his office during the vacancy of the office of Chancellor, and, during such vacancy, has power to convene the Senate for the purpose of electing a Chancellor, and has authority to exercise all the functions and duties of the Chancellor, until the election of the Chancellor.

The Vice-Chancellor, if unable to attend any of the meetings of the Senate, is empowered, by writing under his hand and seal, to appoint a Pro-Vice-Chancellor for that special occasion.

The Provost and Senior Fellows have power to alter, amend, and repeal all laws, rules, or by-laws heretofore existing, and to

[a] Each Master of Arts is called a regent during the three years following the time he took that Degree. The name originated from the duty formerly imposed on such Masters of regulating the disputations of the Schools.

make new rules and laws, from time to time, for the more solemn conferring of Degrees by the Senate; provided always that no such new laws, or alteration of existing laws, shall be of force or binding upon the University, until they shall have received the sanction of the Senate lawfully assembled.

No law, rule, by-law, or grace whatsoever, for the conferring of Degrees, or any other purpose, can be proposed to the Senate, which has not been first proposed to and adopted by the Provost and Senior Fellows. The Chancellor or Vice-Chancellor presiding is empowered to prohibit any such law or grace from being proposed to the Senate.

Gowns are worn at meetings of the Senate.

The COUNCIL consists of the Provost; or, in his absence, the Vice-Provost; and sixteen members of the Senate, namely, four members elected by the Senior Fellows; four by the Junior Fellows; four by the Professors who are not Fellows, and four by those members of the said Senate who have not voted nor been entitled to vote at the last election of any existing member or members of the same Council, either as Senior Fellows, as Junior Fellows, or as Professors. The members elected to the Council hold office for four years.

At every election of members of the Council, every elector of each class is entitled to a number of votes equal to the number of persons to be elected to the Council at such election of that class, and may give all such votes to any one candidate, or may distribute them among the candidates as he thinks fit.

The Council nominates to all Professorships, except those the nomination to which is vested in some other body or persons by Act of Parliament, or by the directions of private founders, and except also the Professorships in the School of Divinity. Such nomination is subject to the approval of the Provost and Senior Fellows. In the event of the said Provost and Senior Fellows refusing their approval to the nomination of the Council, the Chancellor decides whether the grounds for such refusal are sufficient. If they appear to him to be insufficient, he declares the person nominated by the Council to be duly elected. If not, the Council proceeds to a fresh nomination. If no election shall take place within the space of six calendar months from the date of the vacancy, or from the time of the creation of any new Professorship, the right of nomination and election for the purpose of filling up such vacancy, or of appointing to such new Professorship, lapses to the Chancellor. No person, being at the time a member of the Council, shall be nominated by the Council to any Professorship.

Except so far as is otherwise provided by Act of Parliament, or by direction of private founders, any proposed new rules or regulations respecting studies, lectures, and examinations (other than those connected with the School of Divinity, with which the Council

has no authority to interfere), and also any proposed new rules or regulations respecting the qualifications, duties, and tenure of office of any Professor in any Professorship now existing, or hereafter to be constituted, except the Professors and Professorships connected with the said School of Divinity, and any proposed alterations in any existing rules or regulations respecting such studies, lectures, and examinations, qualifications, duties, and tenure of office, save as aforesaid, require the approval both of the Provost and Senior Fellows, and of the Council.

All such new rules and regulations and alterations in any rules or regulations may be originated either by the Provost and Senior Fellows, or by the Council.

No new Professorship can be created or founded by the Provost and Senior Fellows without the consent of the Council.

§ III. TEACHING.—The Examining Staff consists of the Provost, Fellows, and Professors.

The Lecturing Staff consists of the Junior Fellows and Professors.

The greater part of the teaching in the obligatory Courses in Arts is performed by the Junior Fellows. To Professors selected from among them is entrusted for the most part the instruction which is given in the highest departments of these Courses. Special Lecturers are selected to lecture Candidates for Honors.

Under the present regulations a new Fellow is elected every year by the Provost and Senior Fellows, after an Examination held in pursuance of the Statutes.

From the early Statutes it would seem to have been originally intended that the Fellows should carry on the special instruction required by Students desirous of qualifying themselves for particular Professions. But the growing requirements of the Professional Schools, especially the Medical, prevented this design from being carried out, and the special instruction required for the four Professional Schools of Divinity, Law, Medicine, and Engineering, is now, for the most part, delivered by Professors elected to teach special subjects.

Outside the regular Courses in Arts, and the branches of study required in the Professional Schools, there are various departments of learning for the cultivation of which Professorships have been from time to time founded.

§ IV. DEGREES are publicly conferred by the Chancellor or Vice-Chancellor, in the Senate or Congregation of the University.

The Grace of the House for a Degree in any Faculty having first been granted by the Provost and Senior Fellows, must pass the Caput before it can be proposed to the rest of the Senate, and each member of the Caput has a negative voice. If no member of the Caput objects, the Proctor, in a prescribed form of words, *supplicates* the Congregation for their public Grace; and, having

collected their suffrages, declares the assent or dissent of the House accordingly; if the *placets* be the majority, the Candidates for Degrees are *presented* to the Senate by the Regius Professor of the Faculty in which the Degree is to be taken; or, if it be a Degree in Arts, by one of the Proctors: they then advance in order before the Chancellor, who confers the Degree according to a formula fixed by the University Statutes,[a] and after which the Candidates then subscribe their names in the Register.

Public Commencements for the conferring of Degrees are held four times in each year on days published in the Almanac. A *Diploma* is sometimes given to those who are fully qualified for a Degree, but whose circumstances may render it inconvenient for them to wait for the public Comitia; but such persons can exercise none of the rights and privileges connected with their Degree until they have appeared at Commencements, and have had the Degree publicly conferred on them by the Chancellor or Vice-Chancellor. An exception to this rule has been made in favour of members of the University who are resident in the Colonies or Foreign Countries. (See page 12.)

The following Regulations with regard to the order to be observed in conferring Degrees at the Public Commencements have been sanctioned by the Vice-Chancellor:—

I. The Chancellor announces the opening of the Comitia. At the Winter Commencements the Senior Master non-regent is elected, on the proposition of the Chancellor and the Provost; and the two Proctors and the Registrar make the statutory affirmation.

II. The Senior Proctor supplicates for the Licenses in Medicine, in Surgery, and in Engineering. The Junior Proctor supplicates for the Degrees of Bachelors in Arts. The Senior Proctor supplicates for the other ordinary Degrees.

III. The Senior Lecturer introduces the Moderators to the Chancellor, who presents them with their Medals. The Senior Lecturer introduces the Respondents to the Chancellor, who presents them with their Certificates.

IV. Licenses in Medicine, in Surgery, and in Engineering are conferred.

V. Candidates for Honorary Degrees are presented to the Senate, and admitted by the Chancellor.

VI. Candidates for Ordinary Degrees are presented and admitted. Candidates in Arts are presented by the Proctors:

[a] See the forms of presentation and supplication, and also the forms of suspension and absolution, in the University Statutes.—*Stat. Univ.* after cap. xi. The forms for conferring Degrees are given in cap. v.

other Candidates by the Professors of their respective faculties. In presenting the Candidates the following order is observed:—

1. Bachelors in Music who are not Graduates in Arts.
2. Doctors in Music who are not Graduates in Arts.
3. Bachelors in Arts.
4. Bachelors in Music who are Graduates in Arts.
5. Bachelors in Engineering.
6. Bachelors in Surgery.
7. Bachelors in Medicine.
8. Bachelors in Law.
9. Masters in Engineering.
10. Masters in Surgery.
11. Masters in Arts.
12. Bachelors in Divinity.
13. Doctors in Music, who are Graduates in Arts.
14. Doctors in Literature.
15. Doctors in Science.
16. Doctors in Medicine.
17. Doctors in Laws.
18. Doctors in Divinity.

No Grace for a Degree will be presented to the Senate, unless the Candidate shall have communicated with the Proctor, at latest, the day before the Commencements.[a]

A General Meeting of the Senate is held annually in Trinity Term, for the transaction of ordinary business. At this Meeting of the Senate no Degrees are conferred.

TERMS AND EXERCISES

REQUIRED FOR THE SEVERAL DEGREES.

TERMS in this University are kept during the Undergraduate Course, either by Lectures or by Examinations. But Terms in Divinity, Law, Medicine, and Engineering, must be kept by attendance on the Lectures of the Professors, and therefore require residence either in the College or its vicinity.

To take the Degree of *Bachelor of Arts*, the Student must keep the Terms required by the Rules of the College.—(See below under the head, "Course in Arts.") He must pass two stated Examinations—one at the end of his second year, the other at the termination of the University Curriculum.

A Master of Arts must be a B.A. of three years' standing.[b]

A Doctor in Science must be a Bachelor of Arts of at least three years' standing.[b] The primary test for the Doctorate shall be original published work in Science submitted by the Candidate. The Examiners appointed to report on the merit of the work submitted by a Candidate shall have power, if they shall consider it necessary, to question the author personally on it and on cognate subjects.

---

[a] Order of the Board, June 30, 1873.

[b] When the time at which a higher Degree can be taken is said to be reckoned from the taking of the Degree of Bachelor of Arts, or of any Faculty, the time may be reckoned from the date at which, according to the laws and statutes of the University, the Degree of Bachelor might have been taken. Thus a man is of proper standing to take the Degree of M.A. three years after he has *passed* the Examination for the B.A. Degree. With this condition, the inferior and superior Degree may be taken on the same day.

Any graduate applying to the Registrar to have the Private Grace of the Provost and Senior Fellows for the Degree of Doctor of Science or Doctor of Literature must as a preliminary step lodge with the Bursar the sum of Ten Pounds, to be paid to the Examiners who are to inquire into the scientific or literary claims of the applicant: in the event of the Degree being granted, this sum will be allowed in part payment to the Senior Proctor of the fee of twenty-five pounds for the Degree.[a]

A Doctor in Literature must be of the same standing as a Doctor in Science.

The other Regulations in reference to this Degree are precisely similar to those which hold good in the case of a Doctor in Science.

A Bachelor in Divinity must be a Bachelor of Arts of three years' standing.[b] He must likewise have undergone a special Examination in Divinity before the Regius Professor, according to Rules prescribed by the Provost and Senior Fellows with the consent of the Regius Professor.

Candidates for this Degree will be required to show a general knowledge of the Scriptures of the Old and New Testament, of Ecclesiastical History, and of Dogmatic Theology, and also to have made a special study of some particular branches.

Examinations.—As a general rule, the Professor requires that Candidates shall be examined in the Course annually appointed for Examination for Theological Exhibitions (see under Divinity School, "Theological Exhibitions"). It consists of six Divisions, viz.:

I. Old Testament,
II. Hebrew,
III. New Testament,
IV. Articles and Liturgy,
V. Ecclesiastical History, and
VI. Patristic Theology.

Candidates for B.D. Degree are permitted to bring up any one or more of these Divisions, in any order, at any one of the three Examinations which are annually held in March, June, and December, and to reserve the rest for any subsequent Examination or Examinations. They are required to give notice to the Professor a month before the Examination at which they propose to present themselves, stating at the same time in what divisions of the Course they desire to be examined. Each Candidate, when he gives such notice, must send to the Senior Proctor an examination fee of one guinea for each Division specified in his notice. The fees so paid by the Candidate will, in case he obtains the Degree, be allowed (to an amount not exceeding six guineas) in part payment of the Degree fee of £13 15*s*.

[a] Resolutions of Board and Council, June 7, and March 5, Meeting of Senate, June 20, 1890.

[b] See note b, p. 6.

The Professor, on sufficient reason being shown him, may make different arrangements for a Candidate's Examination. Application for such special arrangements must be made three months before the Commencements at which the Candidate desires to obtain his Degree.

Candidates who do not hold the Divinity Testimonium will further be examined in the following:—

Division VII.

Butler's Analogy.
Pearson on the Creed (Articles ii.–v., viii., ix., xii.).
Davison on Prophecy.
Browne on the Articles.
Paley's Horæ Paulinæ.
Mozley on Miracles.

Thesis.—As a proof that the Candidate has, in addition to the general course of reading, made a special study of some particular branch, he must send the Regius Professor a Thesis on a subject chosen by himself, with approval of the Professor, printed or legibly written, two months before the day of Commencements. The Thesis should be accompanied with references to the authors consulted in its composition.

A Doctor in Divinity must be a Bachelor in Divinity of five years' standing.[a] He must likewise present to the Regius Professor a *printed* Thesis, in which he has treated of and explained some portion of Doctrine from the Holy Scriptures, or of the History of the Church, or of Dogmatic Theology. It is desirable that the Candidate, before printing his Thesis, should have the subject approved of by the Professor. This Thesis he must send to the Professor two months before the day of Commencements, and at the same time he must lodge with the Bursar a sum of £5, to be paid to an Examiner who will be appointed to assist the Professor in deciding on the merits of the Thesis. In the event of the Degree being granted, such sum will be allowed in part payment to the Senior Proctor of the fee of twenty-six pounds for the Degree.[b]

A Bachelor in Laws must have taken the Degree of Bachelor of Arts. He must also have passed a Special Examination in the subjects of the curriculum of the Law School.[c] For details see "Law School."

A Doctor in Laws must be a B.A. of three years' standing,[a] and must have taken the degree of LL.B.

---

[a] See note b, p. 6

[b] The University of Dublin Tests Act (36 Vict., chap. 21) abolishes the necessity formerly imposed on Candidates for the Degree of Bachelor or of Doctor in Divinity of subscribing the declaration of the Royal Supremacy, the Liturgy of the United Church of England and Ireland, and the Thirty-nine Articles.

[c] Resolutions of Board and Council, June 8 and 5, 1878. Meeting of Senate, June 29, 1878.

Candidates may obtain the Degree in any of the following ways:—

(1). By passing an Examination in the principles of Political Philosophy, Constitutional History, and International Law.

(2). By presenting to the Regius Professor of Civil Law, for the consideration of the Examiners, a printed Thesis, composed by the Candidate, on a subject in the Law Course approved of by the Professor.—The Candidate will be liable to be examined on subjects connected with his Thesis.—The Thesis must be presented to the Professor one month before the Commencements, and, if it be approved by the Professors of the Law School, a copy shall be deposited in the College Library.

(3). The Degree of LL.D. may also be obtained by a Candidate who is the author of a published work connected with legal or political science, of merit sufficient, in the judgment of the Examiners, to entitle the Candidate to the Degree.

Candidates for Degrees qualifying by methods (2) or (3) are required to notify to the Registrar of the Law School, one month before the Commencements, the particular qualifications which they propose to offer for their Degrees.

A Bachelor in Medicine must have taken the Degree of Bachelor of Arts, and must have spent five years in the study of Medicine. Before the Grace of the House can be obtained, the Candidate must pass a public Examination in the Hall before the Medical Professors.

A Doctor in Medicine must have taken the M.B. Degree, and must be of M.A. standing.[a] He must also read a Thesis publicly before the Regius Professor of Physic[b] or must undergo an Examination before the Regius Professor, according to regulations to be approved of by the Provost and Senior Fellows.

A Bachelor in Surgery must be a Bachelor of Arts, and have spent five years in the study of Surgery and Anatomy. Before the Grace of the House can be obtained, the Candidate must pass a public Examination in the Hall before the Professors of the School.

A Master in Surgery must be a B. Ch. of three years' standing,[a] and must produce satisfactory evidence of having been engaged for not less than two years from the date of his registration in the study or practice of his profession. He must then pass an Examination[b] in Surgery and Surgical Anatomy.[c] Graduates in Surgery of the University of Dublin, of not less than ten years' standing, may be recommended for the Degree of M. Ch. by the vote of the Court of Examiners on such Examination as they shall determine.[c]

A Bachelor in Obstetric Science must have graduated in Medicine, have attended a Winter's Course of Lectures in

[a] See note b, p. 6.
[b] The regulations respecting the Degrees in Medicine and Surgery are given below under the title "School of Physic," in the chapter on the Professional Schools.
[c] Resolutions of Board and Council, March 5, and February 9, 1887.

Midwifery at a recognized School, have practised Midwifery for six months at a recognized Hospital or Maternity, and must pass an Examination in Practical Midwifery, Gynæcology, and Obstetrical Anatomy.[a]

A Master in Obstetric Science must have graduated in Medicine and in Surgery, and have spent two years at least in the study of Obstetric Science. Before the Grace of the House can be obtained, the Candidate must pass a public Examination before the Professors of the School of Physic.

A Bachelor in Civil Engineering must have taken the Degree of Bachelor of Arts. He must also have spent two years at least in the study of Civil Engineering, and have creditably passed all the Examinations of the School.[b]

A Master in Civil Engineering must have taken the Degree of Bachelor of Civil Engineering; he must also have practised for three years as a Civil Engineer, after having obtained the Degree of B.A.I.

A Bachelor in Music must have matriculated in Arts, but is not required, as in the other Faculties, to proceed with the Arts Course. To matriculate, the Candidate must pass an Examination in Latin and English Composition; Arithmetic, Ordinary Rules, Algebra to Simple Equations; Euclid, Books i. ii. and iii.; English History, Modern Geography; and any two Greek, and any two Latin, Authors of their own selection. For Greek, Candidates for Degrees in Music may substitute French, German, or Italian. He will be required to translate easy passages from these languages at sight, and to translate a passage of English into them.

Candidates for Degrees in Music will be examined at their Matriculation in Acoustics; no knowledge of Mathematics, beyond that of Arithmetic, being required.

The following Book on the subject is recommended :—

Sedley Taylor, "On Sound and Music."

Bachelor in Music.—The Examination will be divided into two parts :—

1. *Preliminary Examination* to include—
   - (*a*) Harmony up to four parts from a figured bass.
   - (*b*) The addition of three parts to a given melody, placed in any voice.
   - (*c*) Counterpoint up to four parts (*combined* counterpoint not required).
   - (*d*) A general knowledge of Beethoven's pianoforte sonatas.
   - (*e*) The history of English Church Music from Tallis to Purcell, both included.

[a] Resolution of Board and Council, April 30 and May 11, 1887. Meeting of Senate, June 22, 1887.

[b] *Stat. Univ.*, cap. vii. See under "Engineering School."

2. *Further Examination*—

Candidates proceeding to the second examination for Mus. Bac. must send to the Registrar of the School of Music, not later than two months before the date of the Examination, an exercise, vocal or instrumental, in not less than four movements, containing specimens of two-part canonic, and four-part fugal writing. If vocal, a portion to be for four-part chorus, and a portion for one or two solo voices, and the accompaniment for string quartet. If the exercise be instrumental, it must be in strictly classical form.

If the exercise be approved by the Examiners, the Candidate shall proceed to a further Examination, consisting of:—

(*a*) Harmony up to five parts on a figured bass.
(*b*) The addition of four parts to a given melody, placed in any voice.
(*c*) Counterpoint up to five parts, including combined counterpoint.
(*d*) Double counterpoint.
(*e*) Canon in two parts.
(*f*) Fugal construction.
(*g*) A knowledge of Bach's "Wohltemperirtes Clavier."
(*h*) The history of the Oratorio, as treated by Handel, Haydn, and Mendelssohn.

N.B.—Exercises need not be publicly performed unless the Candidate desire it, and then at his own expense.

Bachelors in Music of the University of Oxford or of Cambridge are admissible *ad eundem* to the Degree of Mus. Bac. in the University of Dublin, on payment of the necessary fees (£10).

Doctor in Music.—A Doctor in Music must have taken the Degree of Bachelor in Music. He must send to the Registrar, not less than two months before the date of Examination, a work for voices and orchestra, comprising:—

(*a*) An overture.
(*b*) At least one choral movement in eight real parts.
(*c*) At least one solo with orchestra.
(*d*) Specimens of canonic and fugal writing.

If the exercise be approved by the Examiners, the Candidate will proceed to a final Examination in—

(*a*) Harmony and counterpoint up to eight parts.
(*b*) Double and triple counterpoint.
(*c*) Canon up to four parts.
(*d*) The writing of a fugue in not more than four parts.
(*e*) The instrumentation of a given passage.
(*f*) A general acquaintance with the lives and works of the Great Masters.

N.B.—All the several Musical Examinations will be held concurrently, twice a-year, in June and December, on days

announced in the Calendar, and will be conducted partly on paper and partly *vivâ voce*.

Fees.—Fee for Matriculation, ...	£15
Bachelor of Music,[a]	10
Doctor of Music, ...	20

Admission of Candidates residing in the Colonies or Foreign Countries.—A Student of the University who is engaged in any civil, ecclesiastical, or other profession in the Colonies, is allowed (although not present in the Senate) to proceed to his Degree upon the following conditions[b]:—

1. That he is of the proper Standing for taking the Degree.
2. That he has passed all the Lectures and Examinations necessary for his Degree.
3. That he has transmitted in writing the Exercises for the Degree to the Regius Professor of the proper Faculty, and that they had been approved of.
4. That he has transmitted letters testimonial which satisfied the Provost and Senior Fellows of the Candidate's fitness for the Degree in regard to character.

Under similar conditions a similar privilege is extended to residents in any foreign country, the letters testimonial of character being in this case signed by the British Ambassador or Consul.[b]

Admission "ad eundem Gradum."—Graduates in Arts of the Universities of Oxford and Cambridge are admissible *ad eundem* to all Degrees they have received in their own Universities, on attainment of the standing and payment of the fees required for the same Degrees in the University of Dublin. Satisfactory evidence of character and conduct, with the credentials of the Degree sought, to be produced in every case.[c]

Fees to be Paid by Graduates of Oxford and Cambridge.—Graduates of Oxford and Cambridge who come to take the "ad eundem" B.A. Degree must pay the ordinary Replacement Fee (£9 3*s*.), and the Ordinary Fee for the B.A. Degree (£1), in all, £10 3*s*.[b]

Graduates of Oxford and Cambridge who desire to present themselves at the Examination for the LL.B. Degree must first pay fees for the same amount as for the *ad eundem* B.A. degree.[b]

The Senior Proctor receives the Fees for all the above Degrees, with the exception of those for the Degree of Bachelor of Arts, which are payable to the Junior Bursar.

Testimoniums.—A fee of thirty shillings must be paid on taking out the Testimoniums of the following Degrees:—Sc.D., Litt.D., M.A.O.; a fee of ten shillings on taking out the Testimoniums of M.A., M.A.I., LL.B., LL.D., B.D., D.D., Mus. Bac., Mus. Doc.[c]; the fees for taking out the Testimoniums of the other Degrees, namely:—B.A., B.A.I., M.B., M.D., B.Ch., M.Ch., and B.A.O., are included in the fees charged for the Degrees in the preceding Schedule.[d]

N.B.—As some inconvenience may be occasioned to Graduates by unavoidable delay in the issue of Testimoniums, all Students requiring the Testimoniums of their Degrees during the Summer Vacation are requested to make application for them before the 30th of June. As a general rule, Testimoniums of Degrees will not be issued during the Vacation.

Professional Diplomas and Licenses.—The conditions on which the University grants Diplomas in Medicine, Surgery, and Obstetric Science and Licenses in Civil Engineering, will be found below, under the Regulations of the several Professional Schools.

[a] A fee of £5 only is paid for the Degree of Bachelor in Music by Candidates who are Graduates in Arts. (Order of the Board, March 14, 1868.)
[b] Order of the Board, June 30, 1873.
[c] Order of the Board, Feb 22, 1890.
[d] Order of the Board, Oct. 24, 1866.

REPRESENTATION OF THE UNIVERSITY IN PARLIAMENT.

JAMES I., by his Charter dated May 12, A.D. 1613, first granted to the University the right of returning two Burgesses to represent it in Parliament. By the Act of Union in the year 1800 (40 Geo. III. c. 38, Art. 4), the number of representatives was reduced to one[a]; but by the Irish Reform Bill (2 & 3 Will. IV. c. 88), the right of electing two Members has been restored to the University.

The right of voting at the election of Members to serve in Parliament for the University of Dublin was originally confined to the Fellows and Scholars of Trinity College. By the Reform Act, 2 & 3 Will. IV. c. 88, it was extended to every person, being of the age of twenty-one years, who had obtained, or thereafter should obtain, the Degree of Master of Arts, or any higher Degree, or a Scholarship or Fellowship in the said University, subject to certain provisions regulating the registration of the names of the electors. These regulations were altered by the Statute of 5 & 6 Vict. c. 74, which provides,—

"That all persons *with whom the College shall have compounded* for a gross sum of £5 for their respective lives, under the provisions of the late Act (2 & 3 Will. IV. c. 88), shall be entitled to have their names continued on the books of the University for their respective lives, and to vote at any election, without any further payment.

"Every person whose name shall be upon the College Books of the said University, and who shall have obtained a Fellowship or Scholarship, or the degree of Master of Arts, or any higher degree in the University, and every person who shall hereafter obtain a Fellowship or Scholarship, or the degree of Master of Arts, or any higher degree in the University, and who upon the removal of his name from the College Books, or after he shall have taken such degree, shall be desirous of having his name replaced or retained on the books of the University for the purpose of voting, shall, before the 1st day of December next after his name shall be so removed from the College Books, or after he have taken such degree, pay to the College the sum of £5, and thereupon his name shall be placed or retained upon the books of the University, and he shall be entitled to vote, for his life, without any further payment.

"No person shall be entitled to vote by reason of a degree of a purely honorary nature.

---

[a] "That it be the Fourth Article of Union that four lords spiritual of Ireland, by rotation of sessions, and twenty-eight lords temporal of Ireland, shall be the number to sit and vote on the part of Ireland in the House of Lords of the Parliament of the United Kingdom, and one hundred commoners (two for each county of Ireland, two for the City of Dublin, two for the City of Cork, *one for the University of Trinity College*, and one for each of the most considerable cities, towns, and boroughs), as the number to sit and vote, on the part of Ireland, in the House of Commons of the Parliament of the United Kingdom."

"Every person having his name on the College Books shall be considered, for all purposes of this Act, as having his name on the books of the University; but the payments to be made by such person shall be regulated by the rules and Statutes of the College."

A further change in the laws relating to the University Franchise was made by the Act 31 & 32 Vict. c. 112. By the 33rd section of this Act, it is enacted that

"Every person who has heretofore obtained or who shall hereafter obtain a Fellowship or Scholarship, or the Degree of Master of Arts, or any higher Degree, not of a purely honorary nature, in the University of Dublin, and who shall be desirous of having his name placed or retained on the books of the said University, for the purpose of voting at any election of Members to serve in Parliament for the borough of the University of Dublin, under the provisions of section 4 of the Act of the session of the 5th and 6th years of the reign of her present Majesty, chapter 74, may require the Registrar of the said University to place or retain his name upon the books of the said University, without any payment whatsoever, anything in the said section to the contrary notwithstanding: Provided always, that no person shall be entitled to vote at any election of a member or members to serve in Parliament for the said borough of the University of Dublin, unless his name shall have been upon the books of the said University for a period not less than two months previous to such Election."

Section 34.—"In the month of December, in the year 1869, and in every succeeding year, the Registrar of the said University of Dublin shall make out an alphabetical list of the names of the Electors entitled to vote at any election for Members to serve in Parliament for the said University; and the said Registrar shall cause copies of such list to be printed on or before the 1st day of January, in the year 1870, and in every succeeding year, and shall give a copy of such list to any elector applying for the same, upon being paid 2*s.* 6*d.* for each copy; and the said Registrar shall each year publish a copy of such list in the University Calendar, when such Calendar shall be published, or in some one or more of the public journals having general circulation in Ireland."

VOTING PAPERS AT ELECTIONS.

By the Act 24 & 25 Vict. c. 53, electors may in future record their votes by means of voting papers, and need not attend in person at the poll. The preamble of this Act recites, that "it is expedient to afford greater facilities for voting to the electors at elections for Burgesses to serve in Parliament for the Universities of *Oxford*, *Cambridge*, and *Dublin*." Each elector is hereby empowered to nominate any other elector or electors of the same University to deliver for him at the poll a voting paper containing his vote.

Every such voting paper shall bear date subsequently to notice given by the Returning Officer of the day for proceeding to election, and shall contain the name or names of the Candidate or Candidates thereby voted for, and the name or names of the elector or electors authorized, on behalf of the voter, to tender such voting paper at the poll. Such voting paper (the aforesaid date and names being previously filled in) shall, on any day subsequent to notice given by the Returning Officer of the day for proceeding to election, be signed by the voter in the presence of a Justice of the Peace for the County or Borough in which such voter shall be then residing.

No person shall be entitled to sign or vote by more than one voting paper at any election. An elector may vote in person, notwithstanding that he has duly signed and transmitted a voting paper to another elector, if such voting paper has not been already tendered at the poll.

By the Act 31 & 32 Vict. c. 65, s. 1, the declaration required to be made by the elector tendering the voting paper of another elector is repealed, and the following substituted in its stead:

"I solemnly declare that I verily believe that this is the paper by which A. B. [the voter] intends to vote, pursuant to the provisions of the Universities Elections Acts, 1861 and 1868."

By section 3 of the same Act, voting papers may be signed in the Channel Islands, in the presence of the following Officers, viz.:—*Jersey and Guernsey*—The Bailiffs or any Lieutenant Bailiff, Jurat, or Juge d'Instruction. *Alderney*—The Judge of Alderney, or any Jurat. *Sark*—The Seneschal or Deputy Seneschal.

Trinity College.

ORDER OF RANK IN THE COLLEGE.

THE several orders in the College are the following:—

1. The PROVOST or Head of the College; who must be not less than thirty years of age.[a]

2. FELLOWS; who were formerly bound to enter into Priest's Orders, except five: one of whom was elected *Medicus*, by the Provost and Senior Fellows; and two others were elected *Jurista juris Civilis* and *Jurista juris Anglici*, respectively.[b] This obligation to take Holy Orders was removed by the Act 36 Victoria, chap. 21.

3. NOBLEMEN, SONS OF NOBLEMEN, and BARONETS, who are matriculated as such under the title of *Nobilis*, *Filius Nobilis*, and *Eques*.

4. DOCTORS in the several Faculties, BACHELORS IN DIVINITY, and MASTERS OF ARTS, SURGERY, OBSTETRIC SCIENCE, and CIVIL ENGINEERING. All Doctors and Masters, Ex-Fellows, and Ex-Scholars, having their names on the Books of the University, are entitled to vote at the election of Members to represent the University in Parliament; but have no Collegiate privileges or duties, unless their names are kept on the College Books.

5. BACHELORS IN CIVIL LAW, MEDICINE, SURGERY, OBSTETRIC SCIENCE, and CIVIL ENGINEERING, and BACHELORS OF ARTS. They are not required to keep their names on the University or College Books in order to entitle them to proceed to the higher Degrees.

6. FELLOW-COMMONERS, who have the privilege of dining at the Fellows' Table.

7. SCHOLARS, who are on the foundation, being members of the Corporation of the College (see under Scholarship).

The number of Scholars is seventy, of whom thirty were formerly termed natives (*Hibernici*),[c] but this distinction has been abolished by King's Letter, 8 Geo. IV.

8. PENSIONERS, namely ordinary Students in Arts.

---

[a] *Stat. Coll.* cap. ii.

[b] Vide *Stat. Coll.* cap. xviii., *Stat. I. Georgii III. de Professoribus*, &c., cap. v., and *Stat.* 18 *Vict.*

[c] *Stat.* cap. xxi.

9. SIZARS, who are Students of limited means, having their commons free of expense, and being exempted from annual fees. They were formerly nominated, one by each Fellow, and eight or more (provided the number of thirty were not exceeded) by the Provost. They are now admitted annually by an examination (see "Sizarships").

COLLEGE CHARGES.

I. *Undergraduate Fees.*—Before the name of any Student can be placed upon the College Books, the amount of Entrance Fees specified below must be paid to the Junior Bursar.[a] The payment must be made when the result of the Entrance Examination is declared.

The following statements contain the practice with regard to Arts Fees, but those headed (*a*), (*b*), (*c*), and (*d*), contain all the information required by Students.

(*a*). For Pensioners, the Entrance and half-yearly Fees are fifteen pounds and eight guineas respectively; for Fellow-Commoners, thirty pounds and sixteen guineas respectively, and for *Filii Nobilium*, sixty pounds and thirty-two guineas respectively. Sizars pay £1 1*s.* 3*d.* Entrance Fee, and are exempt from half-yearly Fees.

(*b*). Students who enter after the March quarter in any year, and present themselves at the Trinity Term Examination in April or May, or the Trinity Lectures, or the Hilary Term Supplemental in June, or the Michaelmas Term Examination in October, must pay the first half-yearly fee before presenting themselves for any Term Examination or Lectures; and they must pay a second half-yearly Fee at the end of October.

Students who enter after the March quarter, and do not present themselves for any of the above Examinations or Lectures, pay the first half-yearly Fee in the April of the succeeding year.

The names of Students who enter between the end of March Quarter and the 1st of November are not placed upon the College Books unless the payment to the Junior Bursar entitles them to be put in the existing Junior Freshman Class.[b]

(*c*). A Student who goes through his Course in the regular way (*i.e.* without dropping a Class) will pay to the Junior Bursar, in addition to the Entrance Fee, eight half-yearly Fees, payable in April and October in each year; and no Student can rise to the standing of a Candidate Bachelor until he has made the last of these half-yearly payments. Students should remember that the

[a] In the case of those who intend to present themselves at a Term Examination on the day following the day of Entrance, this payment must therefore be made *on the day of Entrance*.

[b] Resolution of Board, July 1, 1886.

fee of one pound for the conferring of the Degree must be paid to the Junior Bursar on or before the day preceding the Commencements at which they present themselves.

No Student will be allowed to be a Candidate for Moderatorship, or at the Special B. A. Degree Examination in Trinity Term, unless his Fees for the current half-year shall have been paid *before* the first day of Examination.

The half-yearly Fees become due at the end of the March and September quarters, but Students are allowed to delay the payment till the Friday before the first Saturday in May or November respectively. Fees despatched by post are counted as received on day on which they are posted. A Student sending Fees by post should state his Class and Tutor, in addition to his own name.

Half-yearly Fees should be paid on or before the Friday which precedes the first Saturday of May or November, and any Student whose Fees are not paid on that day must pay with them the Tardy Payment charge of 3*s.* for that and every succeeding Friday in May or November for which the Fees remain unpaid, until the first Saturdays of June and December, on which days the names of all Students whose Fees have not been paid are struck off the books, and can only be replaced on payment of a Fee of 15*s.*, in addition to the half-yearly Fee.

In addition to the half-yearly Fees, some Students incur Incidental Expenses, due as Rent of Chambers, Commons, Punishments, and so forth, and these must be paid to the Junior Bursar, together with the half-yearly Fees.

Sizars, whose incidental expenses are not paid before the first Saturday in June and the first Saturday in December, respectively, are forthwith struck off the Books, and their Sizarships vacated.

(*d*). Students who drop a year, whether from inability to keep the requisite Terms, or from any other cause, should always consult their Tutors before paying the half-yearly Fees then due, or next to become due; and when so doing, they should state whether they belong to, attend, or purpose to join any of the Professional Schools.

(*e*). A Student whose name has gone off the books can always replace in any Class in which the Terms he has kept entitle him to be placed, provided he pays the replacement Fee of 15*s.*, and that the half-yearly payment or payments which he makes on replacement, taken with those which he has previously made, include all those paid in regular course by the Students in the Class which he joins on replacing, viz. one half-yearly Fee in the April and one in the October of each Freshman and Sophister year for which he claims credit. But it is especially to be observed that if, in the April or October of any year, a Student who is not allowed by the Senior Lecturer to keep his Class, should nevertheless pay the half-yearly Fee then due, *such payment does not count as a payment for the April or October of the Class from which he is put down*, but as a

repetition of the payment previously made by him as a member of the Class to which he is put down, and such payments are not taken account of in determining the amount to be paid on replacement.

In determining the time for which the name of a Student who replaces remains on the Books without further payment, the half-yearly Fee paid on replacement is considered as having been paid at the date on which it became due by the members of the Class which the Student joins—thus a payment made after March 21st will keep the Student's name on the Books till the first Saturday in December, unless it counts as a payment made in the previous half year, in which case the name goes off on the first Saturday in June.

Replacement.—A Replacement Fee of fifteen shillings must *always* be paid to the Junior Bursar for the replacement of the name of any Student which has been removed from the Books.

In addition, the full amount of the College Fees must be paid, see (*e*) above, except in the following cases:—

1. Replacement for the purpose of getting Degrees conferred, or competing for Law Prizes.[a]

2. Graduates of the University are allowed to go in for the Final Examination of the Divinity School, and Students who have passed the B.A. Examination are allowed to go in for the Final Examination of the Engineering School, on payment of a *Liceat ad Examinandum* Fee of one guinea. The names of Students so replaced are removed from the Books immediately after the Examination.[b]

3. Graduates of the University are permitted to replace their names on the Books, during the first year from taking the Degree of B.A. without payment of the College Fees, for the purpose of competing for any Prizes which are open to Students in their Bachelor years. The names of any Students so replaced are removed from the Books immediately after the Examination.[c]

In the case of all Prize Examinations at which, under existing Rules, Students presenting themselves for Examination are required to have their names on the College Books, the list of Prizes awarded shall be certified by the Junior Bursar before being laid before the Board for confirmation.

4. See Divinity School, § VI., for rules with regard to Theological Exhibitions.

II. *Charges for Doctors in the several Faculties, Masters, and Members of the Senate.*—Resident Doctors and Masters pay the sum of £4 half-yearly. The regulations for payment are the same as those already given under the head of Undergraduates.

The Fees payable by Members of the Senate are regulated by the following Decrees of the Provost and Senior Fellows:[d]

WHEREAS, by the Royal Letters Patent bearing date the 24th day of July, in the twenty-first year of the reign of Her most Gracious Majesty

[a] Order of the Board, July 5, 1870. [b] Orders of the Board, May 2, and June 23, 1885.
[c] Order of the Board, June 19, 1897.
[d] Jan. 22, 1859; Jan. 31, 1872; June 12, 1875; Jan. 12, 1884; June 28, 1890; Feb. 24, 1903.

Queen Victoria, it is amongst other things enacted, that the Senate of the University of Dublin shall, as heretofore, consist of the Chancellor, or, in his absence, the Vice-Chancellor, or Pro-Vice-Chancellor for the time being, and of such Doctors and Masters of Arts of the University as shall have and keep their names on the Books of Trinity College, in accordance with such regulations and conditions as the Provost and Senior Fellows of the said College shall enact:

We, therefore, the Provost and Senior Fellows, in pursuance of the powers vested in us, do hereby enact and DECREE:

1. That no change shall be made in the Fees heretofore payable by Doctors and Masters holding Rooms in the College, or in attendance on Collegiate or Professional Lectures, or presenting themselves at Examinations.

2. That all Doctors or Masters of Arts, whose names are now on the College Books (*i. e.* on January 31, 1872), and who are not resident nor in attendance on Lectures, as aforesaid, shall be permitted to retain their names on the Books of the College as Members of the Senate, without further payment.

3. That all Doctors or Masters of Arts (except as hereafter provided), whose names are not on the College Books, shall be required to pay, on replacing their names, the accustomed charge of £4 15*s.* for the half-year in which such replacement is made; after which their names shall be retained on the College Books as Members of the Senate, without further payment.

4. That the names of all Doctors and Masters of Arts, who have been University Students, or First Senior Moderators who have obtained a large Gold Medal, or Senior Moderators who have obtained two Gold Medals, shall be replaced and retained on the College Books as Members of the Senate, without charge.

5. That Ex-Fellows of the College, according to ancient privilege, shall be permitted to retain their names on the College Books without any charge.

6. That the Members for the University in Parliament, and ex-Members, shall be permitted to retain their names on the College Books free of all charge.

RESIDENCE, AND DUTIES OF RESIDENT STUDENTS.

RESIDENCE, as a part of Academic discipline, is not enforced in the University of Dublin, nor is it necessary in itself for keeping Terms. Yet for Professional Students, residence either in the city or in the College is indirectly necessary.

Rooms.—Chambers in the College are granted by the Provost on application from the Tutor of the Student who proposes to reside. On obtaining Rooms, a sum of money is deposited with the Registrar of Chambers, which is intended as security against any injury that they may sustain, and is returned on vacating the Rooms, if all claims of the College be first satisfied. The deposit for Rooms varies from £8 to £30; and the annual rent varies from £4 to £18. Most of these Chambers are intended to accommodate two Students, in which case each Student in occupation pays only half rent and half deposit. If, however, a Student, from any cause, should be the sole occupant of such Rooms, he is always liable for the entire rent during whatever time the sole occupation continues.

A list of the Chambers vacant within the College is hung up at the Chief Steward's lodge, near the Gate. Students can see the different sets of vacant Chambers on application to the Clerk of the Works, and when they have decided which sets they prefer, they should communicate with their Tutors, giving a list containing the particulars of two or three sets of Chambers, in the order in which they prefer them, so that in case the Rooms first applied for are granted to other Students, the Tutors can apply for the other Rooms. An application for a double set of Chambers must be made on behalf of two Students jointly. If the Rooms applied for be granted, the deposit must be paid to the Registrar of Chambers within a fortnight, or else the right to the Rooms lapses. The deposit is returned, when the Rooms are vacated and the keys given up to the Chief Steward.

No Student is allowed to reside in Chambers registered in the name of another, without a written permission from the Provost, stating the period during which such temporary occupation may continue. The Chambers of any Student who allows another person to occupy them, either wholly or in part, without such permission, are immediately declared vacant.

The following Regulations concerning the occupation of Chambers have been made by the Board[a]:—

1. The Chambers of Resident Students, except Scholars, and Students attending Lectures in one of the Professional Schools, are to be vacated at the close of the Quarter in which they shall be of standing to be admitted to the A. B. Degree.

2. Students attending Lectures in the Professional Schools shall be permitted to retain their Chambers till the expiration of the Trinity Term of the Junior Bachelor year, but not longer, without special permission from the Board.

3. The Chambers of Ex-Scholars and Ex-Sizars shall be vacated at the close of the September Quarter next after the expiration of their Scholarships and Sizarships.

4. No Student who shall have passed the standing of Candidate Bachelor shall be admissible as a Candidate for Rooms, or for a re-grant of Rooms vacated under the provisions of the aforesaid Regulations, unless he has previously obtained the consent of the Board.

5. Graduate Students above the standing of Junior Bachelor, who may obtain permission to occupy Rooms, shall pay a higher rent than that paid by ordinary Undergraduate Students.

6. After each Term a return shall be made to the Board of the Students holding Chambers in College who have not attended Lectures, and the Chambers of those Students who have failed to attend during two Terms in the year shall be forfeited unless their Tutors shall satisfy the Board that there have been reasonable grounds for such failure.

7. The Rooms of all Students whose accounts are not paid on the first Saturdays in June and December, respectively, shall be declared vacant on those days by the Registrar of Chambers.

---

[a] Resolutions of the Board, June 1877, March 16, 1878, January 20, 1883, June 23, 1885, and July 1, 1886.

8. The Registrar of Chambers is empowered to charge Students, who may change their rooms, and neglect to give the keys of their vacated Rooms to the Clerk of the Works, the rents of both Rooms until the deposit be transferred.

9. The Registrar of Chambers is authorized (in case Students fail to give up their Rooms in time) to charge the occupier rent as if his name were on the Books, provided that the sum charged do not exceed the deposit.

10. The Provost is permitted, if he think fit, to grant Rooms to Students who have entered College at the Midsummer Entrance or at the October Entrance, and who have paid the Entrance Fee of £15, even though their names be not on the College Books in the existing Junior Freshman Class.

Attendance on Divine Service.—All Students who are members of the Church of Ireland or England, and who reside within a distance of one mile and one-half from the College, are required to attend Divine Service in the College Chapel, both on Sundays and week-days.[a] The Junior Dean is directed to bring the names of such Students as are negligent in their attendance under the notice of the Provost or Senior Dean. Students resident within the College, who presistently neglect to comply with the regulations on this point, are liable to be deprived of their Rooms.

The hours of Divine Service in the College Chapel are the following:—On Sundays and holidays,[b] Morning Prayer is read at 9.45 a.m., and Evening Prayer at five o'clock. On week-days, not holidays, Morning Prayer is read at half-past eight o'clock, and Evening Prayer at five o'clock. The Order for Morning and Evening Prayer is shortened in the Chapel on *ordinary* week-days, by the omission of certain prescribed portions. On Sundays and holidays, as also at Evening Prayer on Saturdays, and the eves of such holidays as have vigils, all Students must wear surplices, with the hoods belonging to their Degrees, if they be Graduates. But on Ash-Wednesday and Good Friday gowns are worn.

The Holy Communion is administered on all the greater Church Festivals, and on other days fixed by the Provost, which are notified in the University Calendar. The Offertory is applied in aid of the General Sustentation Fund of the Church of Ireland.

After Morning Prayer on Sundays, a Sermon is delivered by one of the Professors of Divinity, the Donnellan Lecturer, or one of the University Preachers for the year.

After Evening Prayer on Fridays and Sunday, the Evening Preachers deliver in turn a short sermon (called a *Common-place*) "ad modum Theologicæ concionis."

Students in residence, who are members of the Presbyterian Church in Ireland, are required to lodge with the Junior Dean

[a] Some whose residence is very distant are excused from Week Chapel, on attending Morning Prayer on Sundays. The general limit of distance is about a mile from the College.

[b] On days of Public Examination, Morning Prayer is read at half-past eight o'clock.

a certificate of attendance upon one of the Presbyterian Churches of the city signed by the Minister of that Church.[a]

Corrections.—At half-past ten o'clock on Saturday mornings, the Junior Dean attends in the Hall, and reads out the names of all Students who have been punished for neglect of duties or other offences during the week. It is the interest of those who can excuse themselves to be present, and if their excuses are admitted by the Dean the fines are taken off.

Commons of Resident Students.—All Students resident in College, unless specially excused by the Provost, must dine in the Commons Hall, except during the summer vacation. They must take care to put their name on Commons by application to the Clerk of the Buttery, as soon as they come into residence.

The Rules now in force with regard to Commons are as follows[b]:—

1. That all Fellow-Commoners and Pensioners under the standing of M.A., and holding Chambers in the College, be uniformly charged, in addition to the Chamber-rent now paid to the Registrar of Chambers, a certain specific sum per week for certain portions of the year; and that the sums thus accruing be considered as contributions to a *Commons Fund.*

2. That these charges be, for each Fellow-Commoner, seven shillings and six pence per week, and for each Pensioner five shillings; said charges to be levied for all the solid weeks in each Term in which Undergraduate Lectures shall be given, including the first and last of such weeks, or for so many of those weeks in any Term as the Student holds Chambers without actually giving up the keys of the same to the person entitled to receive them.

3. That these charges be made by the Clerk of the Buttery Books, from the Quarterly Chamber-rent list furnished by the Registrar of Chambers, against all persons liable to the same; and be introduced in the half-yearly accounts payable to the Junior Bursar, among the incidentals of the past half-year, under the name of *Commons Fund.* All persons, however, to whom Chambers may be granted within any of the periods above specified, are not to be considered liable to these charges until the ensuing Term.

4. That the weekly sums thus charged be allowed in the regular Commons Charge to each Student, and the remainder, or variable part of the Commons Charge, be payable to the Clerk of the Buttery Books.

5. Students shall be allowed to put their names on Commons by paying for a time not less than half a week.

Students residing habitually at a distance from Dublin, and coming to Dublin to attend the Examinations of their Class, are allowed to put their names on Commons on the days on which these Examinations are held.[c]

6. The Junior Dean shall be required to impose a fine of 5*s.* a week upon all Students, actually resident in College, whose names shall not

[a] Resolutions of Board and Council, May 15 and 19, 1886.

[b] Resolutions of the Board, April 28, 1877, July 8, 1878, March 20, 1886, March 26, 1887, and July 5, 1890.

[c] Resolution of the Board, November 22, 1890.

be on Commons at all times except during the long Vacation; it being understood that the 5*s.* a week Commons Fund shall be considered an equivalent to this fine during the week in which Commons Fund is imposed.

7. No Student's name shall be placed on the Commons List without previous payment to the Clerk of the Buttery of the amount due for the period during which his name is placed on Commons. This rule is to apply in the case of sons of Fellows and Professors.

N. B.—The *variable* part of the Commons Charge during Term is about equal to the *fixed* part, which is charged in the half-yearly accounts under the foregoing Rules.

Ten Scholars, or other Students, who are called *Waiters*, are annually appointed to say Grace before and after meat in the Commons Hall.[a]

The Grace must be repeated *memoriter*, and in Latin, in a form prescribed by the Statutes of the College.[b]

Night-Roll.—All Students resident in the College, below the standing of B.A., are required to attend night-roll, which is called by the Junior Dean every night at nine o'clock. After night-roll no Student is permitted to pass the College gates without a written order from the Dean.

Those who are late for night-roll may return their names at the gate before twelve o'clock. Not more than *two* such returns in any week will be allowed to a Junior Freshman, or *three* to a Senior Freshman, or *four* to a Junior Sophister, or *five* to a Senior Sophister. Fellow-Commoners are allowed in each class one more such return than Pensioners. Those who return their names more frequently than their standing allows are fined as *tardy;* and those who do not return their names at all are considered as being absent from College, and severely fined, unless they are able to give a satisfactory reason for the omission. The College gates are closed at twelve o'clock, and the name of each Student who comes into College after that hour is specially returned to the Junior Dean, and a fine is inflicted, unless such Student has previously obtained a written permission from him.

---

[a] Resolution of the Board, Nov. 21, 1873. [b] *Stat. Coll.* cap. xvi.

Course in Arts.

ENTRANCE.

1. THE mode of admission into this University is by passing an Examination.

The Senior Lecturer is authorized to allow a Graduate in Arts of any University chartered under the Crown to have his name placed on the College Books on payment of the Entrance Fee, without passing the Matriculation Examination.[a]

The Senior Lecturer is also authorized, upon due inquiry, to admit Students who have passed the Matriculation Examination at the University of the Cape of Good Hope to enter without further Examination.[b]

Every person desirous of becoming a Student in Arts must, at his Entrance, place himself under the tuition of one of the Tutor Fellows who receive Pupils. The Collegiate interests of the Pupil are under the guardianship of his Tutor. Students may enter as Fellow-Commoners or Pensioners. But a Nobleman, the son of a Nobleman, or a Baronet, may enter as *Nobilis*, *Filius Nobilis*, or *Eques*. Students of limited means may compete for Sizarships, and, if successful, may enter as Sizars. Students entering after March 21, and at or before the Autumn Entrance in October, are permitted to join the Junior Freshman Class which was formed in the previous November, on payment of the half-year's fees due by members of that class, in addition to the Entrance Fee (see under 'College Charges').

There are five Matriculation or Entrance Examinations in the year. Of these, the Midsummer Entrance in Trinity Term, and the Autumn Entrance at the commencement of Michaelmas Term, are known as the Principal Entrance Examinations. They last for two days, and those among the successful candidates who obtain sufficiently high marks are selected by the Senior Lecturer for a further Examination for High Places at Entrance. This additional examination lasts for one day, and on the general result of the three days' examination, the selected candidates are arranged in order of merit, and their names, together with those of the Schools from which they present themselves, are published at the conclusion of the Examination. The Senior Lecturer is authorized to issue Special Certificates to those who are so selected.[c]

---

[a] Resolutions of Board and Council, November 20 and 26, 1879; December 16, 1882; February 14, 1883.

[b] Resolution of the Board, March 3, 1900.

[c] In Calendars bearing date prior to 1892, the names of the Candidates who obtained High Places at Entrance are inserted under the title—Placed in the First Division.

The two Principal Entrances and two of the other Entrance Examinations are held on the days immediately previous to the four Examinations of the Junior Freshman Class (including the Hilary Supplemental Examination in June), so as to enable students from a distance to pass a Term Examination as well as the Entrance without unnecessary loss of time. The fifth Entrance is held immediately before the Michaelmas Lectures begin. The dates of these Examinations may be found in the Almanac, and are also given under the heading 'Days of Examination.' In addition, the Senior Lecturer grants a Special Examination to such Students as are unable to present themselves at the regular Examinations, on reasonable grounds being given. The Entrance Examinations commence at 10 a.m.

2. Course for Principal and Ordinary Entrances.

English Composition: Arithmetic; Algebra (the first Four Rules, Fractions, and Simple Equations); Euclid, Books i., ii., iii.; English History; Modern Geography; Latin with Latin Composition *and any one of the following Languages*:—Greek: French, Voltaire, Charles XII.: German, Schiller's Belagerung von Antwerpen. In Greek and in Latin students may select any two Greek and any two Latin authors. (The quantity of each author to be presented for examination should be not less than the equivalent of two Books of Virgil, or Xenophon, or of a Greek play.) The Examination in French and German will be partly *vivâ voce* in the prescribed books, and partly by papers, containing passages (unprescribed) for translation from these Languages, and passages for translation from English into the same.

Additional Examination for High Places at Principal Entrances.

Unseen passages from Greek and Latin authors; Greek and Latin Grammar and Ancient History; Greek Prose Composition; Geometry and Algebra; and French *or* German, passages being set for translation into and from English.

---

3. Entrance Course for Students not taking the Art Course.

Musical Degrees.

Candidates for Musical Degrees, who are not also taking out the Arts Course, are permitted to substitute any Modern Foreign Language for Greek at the Entrance Examination, and they are examined in Acoustics (including Applications of Arithmetic to Acoustics) in addition to the ordinary Entrance Course. They are recommended to read Sedley Taylor "On Sound and Music."

4. Prizes obtainable in connexion with Entrance.

1st. Sizarships in Classics, Science, Hebrew, and Irish. The regulations respecting the Course, Privileges, &c., are given below.

2nd. Reid Sizarship, tenable by natives of the county of Kerry only.

3rd. Twelve Junior Exhibitions, value £25 a year, tenable for two years. The Regulations are given under the heading 'Exhibitions.'

4th. The Kidd Scholarship, value about £76 per annum, tenable for four years. The Examination for this Scholarship is held each fourth year, unless vacancies should occur oftener. See under Kidd Scholarship.

5th. Two Exhibitions annually, not exceeding £50 each per annum, and tenable for four years, open to students coming from South Africa, one at least to be given to a student intending to enter the Medical School. See under Exhibitions awarded to students from South Africa.

6th. Twenty-two Entrance Prizes,[a] namely, a First Prize of £5 and a Second Prize of £2 in each of the following subjects (provided sufficient merit be shown by the Candidates):—

1. Greek Verse.
2. Latin Verse.
3. Greek Prose.
4. Latin Prose.
5. English Literature and Composition.
6. English History and Modern Geography.
7. French.
8. German.
9. Hebrew. (*Hebrew Sizars are not eligible for this Prize.*)
10. Experimental Science.
11. Natural Science.

A student may compete for one or more of these Prizes. The names of the successful Candidates, and the Schools from which they present themselves, are published at the conclusion of the Examinations.

These Examinations are held early in Michaelmas Term, and are open to all Students who have not completed their nineteenth year before the 1st of June immediately preceding the Examination,[b] and who are commencing the Junior Freshman Year, *i.e.*, to those Students who have entered since March 21st, and have not paid any half-yearly fee. They commence at 10 a.m.

The following Books are recommended:—

In English Literature—Macaulay's Essays on Addison, on Clive, and on Moore's Life of Byron; Trench's English Past and Present; A. Hamilton Thompson's History of English Literature (Murray), chaps. ii. and iv. to xxii. inclusive, omitting Notes and Illustrations; Shakspere's Merchant of Venice, King Richard II., and Macbeth (Clarendon Press Series); Milton's Paradise Lost, Books iii., iv., and Comus.

In English History and Modern Geography—

Green's Short History of the English People.
Gardiner's Students' History of England.
Mrs. J. R. Green's Henry II. } 130 marks.

Clyde's Geography. . . . . 70 marks.

(Students are recommended to use Gardiner's Atlas of English History.)

[a] The Greek and Latin Prizes are the gift of the Vice-Chancellor.
[b] Resolution of the Board, Dec. 1, 1900.

The Courses appointed in French, German, and Hebrew are as follows:—

French—Souvestre, Au coin du feu; Bridge, French Literature (Chaps. xi.–xx.), pp. 156–281; Corneille, Horace, Le Cid.

German—Schiller's Wilhelm Tell, and Geschichte des dreissigjährigen Krieges, Books II. & III.
Hauff's Gedichte und Märchen.

The merits of the Candidates in French and German will be tested by conversation, translation, composition, and questions in Grammar and Literary History.

Hebrew—Grammar (including written exercises on the paradigms of nouns and verbs) and first eight Psalms.

The Course appointed in Experimental Science consists of two sub-courses, Experimental Physics and Chemical Science, which are as follows:—

Experimental Physics.

Candidates will be expected to be familiar with elementary physical principles, such as those necessary to explain the use of levers, cog-wheels, whistles, pumps, lenses, magnets, the magnetic effects of electric currents, the measurement of atmospheric pressure by the mercurial barometer.

There will be a practical examination in which their ability to make simple physical measurements may be tested by requiring them to measure lengths, areas, volumes, weights, velocities, accelerations, the pressures of liquids, or the focal lengths of lenses. They should be able to plot their results on squared paper, draw plans to scale of the things they measure, and plot the paths of rays of light passing through or reflected by plane surfaces.

They will be expected to be familiar with the metric system.

Chemical Science.

Physical and Chemical changes of matter—how distinguished. Elements and compounds. Law of definite proportions—Equivalents.

Water—its chief physical and chemical properties—its ultimate composition—Analysis—Electrolysis—Chief properties of hydrogen and oxygen. Synthesis of water. Laws of gaseous combination. Elementary ideas relating to molecules and atoms. Avogadro's law. Water as a solvent—Natural waters. Peroxide of hydrogen. Valence—law of multiple proportions.

Atmospheric Air—the principal substances contained in it—how they are recognised—their condition in air. Relations by air to processes of combustion and animal respiration. Nitrogen—its chief compounds with oxygen and hydrogen. Acids, alkalies, salts—their general characters.

Carbon—its forms. Allotropism. The two oxides of carbon—their chief physical and chemical properties and relations. The hydrides of carbon, marsh gas and olefiant gas. Coal gas and the nature of flame.

Deductions of formulæ and solutions of simple chemical problems.

At the *Practical part* of the examination, candidates will be expected to recognise one or more of the elements or compounds named above, or to prepare any of them. They may also be asked to perform simple quantitative operations illustrating general principles, such as—the action of heat on a metallic salt, the displacement of one metal by another from solution, or the measurement by the volume of a gas evolved.

NOTE.—Systematic qualitative analysis is not required at this stage.

The course appointed in Natural Science consists of three sub-courses, Botany, Zoology, and Physiography, which are as follows:—

Botany.

The general characteristics of the Chief Types of Flowering Plants.

The general structure and physiology of the same.

Scott's Introduction to Structural Botany, Vol. I.

Some practical acquaintance with the Dissection of Flowers will be required of the Candidates.

Zoology.

The anatomy of the Lobster or Cray-fish, the Dog-fish, the Frog, the Fowl or Pigeon, the Rabbit.

General principles of the Physiology of the Circulatory, Respiratory, Muscular, and Nervous Systems.

General principles of Classification.

Physiography.

Huxley's Physiography.

The Examiners are—

For Greek and Latin Verse and Prose:—The Regius Professor of Greek and the Professor of Latin.

For English History and Modern Geography:—The Professor of Modern History and one Examiner appointed by the Board.

For English Literature and Composition:—The Professor of English Literature and one Examiner appointed by the Board.

For French:—The Professor of the Romance Languages and one Examiner appointed by the Board.

For German:—The Professor of German and one Examiner appointed by the Board.

For Hebrew:—The Professor of Hebrew and one Examiner appointed by the Board.

For Experimental Science:—The Professor of Natural and Experimental Philosophy and the Professor of Chemistry.

For Natural Science:—The Professors of Botany, of Geology and Mineralogy, and of Zoology and Comparative Anatomy.

Sizarships.

Sizars are Students of limited means, who have their commons free of expense, and are exempted from annual fees. The Entrance fee for Sizars is £1 1*s.* 3*d.*

The poverty of the Candidates is one of the qualifications to be inquired into before they are admitted Sizars. Candidates for Sizarship are required to send in to the Senior Lecturer, on or before the 1st day of June in each year, a statement proving that they are persons of limited means and entitled to compete for admission on the ground of poverty; and only those persons who appear to the Senior Lecturer to be qualified are permitted to compete.

A Student who has been already a Candidate for Sizarship three times is considered ineligible, and will not be admitted a fourth time to the Examination.

Students who enter College as Sizars are permitted to hold their Sizarships for four years. In the event of any person who is already a Student of the College being admitted a Sizar, the duration of his Sizarship shall not exceed four years from the Sizarship Examination next succeeding his entrance into College. Sizars who fail to keep their class, or who drop a class without the express permission of the Board, *ipso facto* vacate their Sizarships.

The Examination for Sizarships is held annually on days fixed by the Board, between Trinity Sunday and the end of Trinity Term, and marked in the University Almanac for the year. The Examination commences at 9.30.

Candidates for Sizarship who have not already entered College are required to pass all the subjects of the Entrance Examination to the satisfaction of the Senior Lecturer.[a]

Classical Sizarships.—Candidates for Classical Sizarships will be examined by papers in passages selected from the following Course:—

Homer, Iliad, Books i.–xii.
Demosthenes, Philippics, De Coronâ.
Euripides, Hecuba, Orestes, Phœnissæ.
Xenophon, Anabasis.
Horace.
Virgil, Eclogues and Georgics.
Livy, Books vi.–x., both inclusive.
Cicero, Philippic Orations, i.–viii., inclusive.
Terence, Andria, Heautontimorumenos, Adelphi.

They will also be examined by papers in Greek and Latin passages not comprised in the above Course, in Greek and Latin Grammar, Ancient Geography, Greek and Roman History, English Prose Composition, and Greek and Latin Prose Composition.

They will also be examined, *vivâ voce*, in two Greek and two Latin authors. The books appointed for the *vivâ voce* Examination for the present year are as follows:—

Greek.—Plato, Apologia Socratis; Euripides, Troades.
Latin.—Sallust; Horace, Odes.

[a] Resolution of Board and Council, June 21 and 25, 1884.

Mathematical Sizarships.—Sizarships are given in each year for proficiency in Mathematics.[a] The Course consists of the Mathematical Honor Course for the Junior Freshman year.

Hebrew Sizarships.—To encourage the study of Hebrew, one Sizarship is usually given annually to the best answerer in the English and Latin Prose Composition and the *vivâ voce* portion of the Examination for Classical Sizarships, together with the following Course of Hebrew :—

Hebrew Grammar.
Exodus, Chaps. i.–xx., inclusive.
Psalms, i.–xli., inclusive.

In determining the election to the Hebrew Sizarship, equal weight is allowed to the answering in Classics and in Hebrew.

No Student is elected to a Sizarship for answering in Hebrew unless the Examiners report him to the Senior Lecturer as having positive merit of a high order.[b]

Irish Sizarships.—For the encouragement of the study of Irish, one Sizarship is usually given annually to the best answerer in the following Course of Irish :—

O'Donovan's Irish Grammar.
Wright's Irish Grammar.
Neilson's Irish Grammar.
Translation from Irish into English, and from English into Irish.
The Four Gospels, and Epistles to the Romans and the Hebrews, in Irish.
The Gospels to be translated from Greek into Irish.

The Examination is conducted partly by written questions, and partly *vivâ voce*. No Sizarship is awarded to any Candidate, unless the Senior Lecturer considers that sufficient merit has been shown.

Reid Sizarships.—In the scheme approved by the Master of the Rolls, filed 7th August, 1888, it was directed that the income of the Reid Sizarship bequest should be applied to found additional Sizarships or Exhibitions in the nature of Sizarships, "not to exceed five in number, open only to Students of limited means, natives of the County of Kerry, who, having failed to obtain ordinary Sizarships, may be deemed to have shown sufficient merit. Such Exhibitions to be held on conditions similar in all respects to those upon which ordinary Sizarships are held in the said College, and not to preclude such Exhibitioners from obtaining any other Exhibitions or Prizes, for which an ordinary Sizar would be eligible, and the said College shall determine the annual stipend to be allowed to each such Exhibitioner, or the privileges in lieu of such stipend, in such way, as to place him, with respect to

[a] The number awarded depends upon the merits displayed by the Candidates for the various Sizarships.
[b] Order of the Board, November 8, 1856.

exemption from fees, free commons and free rooms, on a footing similar to that of ordinary Sizars."[a]

UNDERGRADUATE COURSE.

5. *Explanation of Terminology.*

There are three Terms in each *Calendar* year, *i. e.* Hilary Term, beginning on January 10, and ending on March 25; Trinity Term, beginning on April 15, and ending on June 30; and Michaelmas Term, beginning on October 10, and ending on December 20. If, however, Easter happens to fall within the limits of Hilary or of Trinity Term, that Term is increased by an additional week.

The Academic Year commences in the beginning of November, *i. e.* with the Lectures of the Michaelmas Term. Afterwards, in the beginning of Hilary Term, there are the Hilary Term Examinations in the subjects of the Michaelmas Lectures. Then follow the Lectures of Hilary Term, and the Trinity Term Examinations, and finally the Lectures of Trinity Term and the Examinations of Michaelmas Term, which close the Academic Year, which therefore extends from November to November.

Freshmen and Sophisters.—During the first Academic Year, Students are called Junior Freshmen; during the second Academic Year, Senior Freshmen; during the third and fourth years, Junior and Senior Sophisters; then Junior, Middle, and Senior Bachelors; but a Student belonging to the Junior Bachelor Class is called a Candidate Bachelor, not a Junior Bachelor, until he has actually taken the B.A. Degree. Graduates who are of standing[b] entitling them to take out the Master of Arts Degree are called Candidate Masters.

By a *rising Junior Freshman* is meant a Student who, having matriculated, has not yet entered on his actual Junior Freshman year.

A Student is said to have credit for a Term, or to have kept the Term, when he has passed the Examination held in that Term (or a Supplemental Examination in the same subjects), or has attended with diligence the Lectures given in the *preceding* Term[c]; but the latter clause of this rule does not apply to the Michaelmas Terms

[a] It was also arranged that the residue (if any) of the income of the Reid Sizarship endowment might be applied in paying the usual fees to the Examiners at the Examinations for such Sizarships, and in such manner as the Board of Trinity College might think best calculated to encourage superior education in the said County, as for instance, by assigning from time to time stipends to such Schoolmasters as may distinguish themselves in preparing Students for Trinity College, Dublin, such stipends to be given on condition that such Master or Masters shall undertake to prepare, free of expense, as Day-Scholars, a certain number of boys of limited means for the Sizarship Examination of the College, or in such other way as to the said College may seem most effectual and expedient for the promotion of superior education in the said County.

[b] See note b, p. 6.

[c] But see § 21 for special rules with regard to the keeping of Terms in their Freshman years by Students who have passed a Test Examination for Privileges.

of the Senior Freshman or Senior Sophister years, that is to the Final Freshman and Degree Terms, academic credit for which can not be obtained by attendance on Lectures during Trinity Term, but is only secured by passing the Final Freshman and Degree Examinations, or the supplemental Examinations in the same subjects.

6. *Course of Study.*

The regular period of Study extends over four years, but there are provisions by which a Student can obtain his Degree in less than four calendar years; for instance, under certain circumstances, a Student entering in October may obtain his Degree in about two years and eight months.

In the ordinary course a Student who enters before the 21st of March in any year, is placed in the Junior Freshman Class which commenced in the previous November. But a Student entering on or after the 21st of March and before the Junior Freshman Examination in October is permitted to join the existing Junior Freshman Class (*i. e.* that formed in the previous November) on payment of the half-yearly fee of eight guineas paid in April by members of that class; and if he passes the Trinity Term Examination in April, or the Hilary Supplemental Examination in June, or the Michaelmas Examination in October, he will begin the Senior Freshman year in the November succeeding his Entrance. Such a Student is said to have saved his year, and it will be necessary for him, as for any other member of the Class, to pay a second half-yearly Fee on or before the first Friday in November. Thus the total amount of the Fees payable during the Course is the same whether the year be saved or not.

In the Senior Sophister year a similar advantage is sometimes granted. A Student who obtains the necessary permission from the Senior Lecturer (see § 11) is allowed to rise from the Senior Sophister Class to the Candidate Bachelor Class in the June instead of the November of his Senior Sophister year on payment of the Fees necessary to entitle him to be placed in that Class. The names of such Students are kept on the books until the following June without further payment, and the total amount of the Fees payable is not increased.

A Student who desires to avail himself, to the full extent, of the benefits of a University Education, should, in addition to the Ordinary Course, take the Lectures and Examinations in some one or more of the various Honor and Prize Courses. He may also attend such of the Professorial Lectures as deal with subjects of interest to him.

To obtain the B.A. Degree it is necessary that the Student shall keep eight Terms in all, viz. the Final Freshman, with three previous Freshman Terms, and the Degree, with three previous Sophister Terms. These Terms cannot be arbitrarily selected. In each of

the four academic years, *i. e.* from November to November, a Student must obtain credit for at least one Term. In the Junior Freshman and Junior Sophister years, this term must be kept by Examination, while in the Senior Freshman and Senior Sophister years, it must be either the Hilary or the Trinity Term. If the Student fail to keep the compulsory Term within the academic year, he loses his class (see § 14).

The following rules give the modes in which the Student is permitted to fulfil these requirements:—

7. Junior Freshman Year.

[*See* § 21 *for special rules with regard to the keeping of Terms in their Freshman years by Students who have passed a Test Examination for Privileges.*]

In the Junior Freshman year, a Student *must* obtain credit for one Term *by Examination*, otherwise he will not be allowed to become a Senior Freshman in November, but will be put down to the Class then commencing the Junior Freshman year. It is advisable, though not absolutely necessary, that he should also obtain credit for a second Term, either by Lectures or Examination.

Students who are Members of the Church of Ireland or of England, or of the Presbyterian Church in Ireland, must keep one Catechetical Term at least (see under "Catechetical Course," § 34).

In June there is a Supplemental Examination in the subjects of the Hilary Term, but only Students who have not already credit for a Term *Examination* are permitted to present themselves at this Examination. (Students should observe that, in accordance with § 5, attendance on the Michaelmas Term Lectures and passing the Supplemental Hilary Examination in June entitle the Student to credit for a single Term only, *i.e.* Hilary Term.)

8. Senior Freshman Year.

[*See* § 21 *for special rules with regard to the keeping of Terms in their Freshman years by Students who have passed a Test Examination for Privileges.*]

A Senior Freshman who has kept at least two Terms (one by Examination, § 7) in his Junior Freshman year may keep the Senior Freshman year as explained in (*a*) or (*b*).

(*a*). He may *keep either* the Hilary Term[a] *or* the Trinity Term,[b] and then pass the Final Freshman in October (or if he desire, he may supplement the Final Freshman in the succeeding January or April);

Or—

(*b*). He may *omit both* the Hilary Term[a] and the Trinity Term,[b] provided that he supplements the Trinity Examination in October. He may then supplement the Final Freshman in either the following January or April. (Failure to pass the Trinity Supplemental in October involves loss of the year to a Student coming under this rule.)

[a] That is, the Michaelmas Lectures *or* the Hilary Examination.
[b] That is, the Hilary Lectures *or* the Trinity Examination.

A Senior Freshman who has kept one Term only (by Examination, § 7) in his Junior Freshman year may keep the Senior Freshman year as explained in (*c*), (*d*), or (*e*).

(*c*). He may *keep both* Hilary Term[a] and Trinity Term,[b] and may then pass the Final Freshman in October, or supplement it in the succeeding January or April;

Or—

(*d*). He may *omit either* the Hilary Term[a] or Trinity Term,[b] and then either supplement the omitted Term in October, and supplement the Final Freshman in January or April; or else he may supplement the omitted Term in January, and supplement the Final Freshman in April;

Or—

(*e*). He may *omit both* the Hilary Term[a] and the Trinity Term,[b] and supplement the Hilary, Trinity, and Final Freshman Examinations in October, January, and April, respectively.

Catechetical Terms must be kept in the Senior Freshman year, as given under "Catechetical Course," § 34.

In the case of Army Candidates permission is occasionally given by the Board to come up for the Final Freshman Examination in the April preceding the regular date. Such Students must then pay both the April and November Fees.[c]

9. The name of a Senior Freshman who does not pass the Final Freshman in October is nevertheless continued on the books as a Junior Sophister until it has become impossible for him to fulfil the above requirements. During this period he is allowed to attend Junior Sophister Lectures, but under no conditions can he obtain any academic credit for such attendance. When it becomes impossible for him to fulfil the above requirements, he is put down into the Senior Freshman Class. No Senior Freshman Student can be awarded a Prize at the Michaelmas Examinations of his Class unless he has passed the Final Freshman Examination for the same Term. No Student is allowed to compete for Honors at any Junior Sophister Examination unless he has previously passed the Final Freshman Examination.

10. Junior Sophister Year.

In the Junior Sophister year, a Student *must* obtain credit for one Term *by Examination*, otherwise he will not be allowed to become a Senior Sophister in November, but will be put down to the Class then commencing the Junior Sophister year. It is advisable, though not absolutely necessary, that he should also obtain credit for a second Term, either by Lectures or Examination.

11. Senior Sophister Year, and Degree Examination.

A Senior Sophister who has kept at least two Terms (one by Examination, § 10) in his Junior Sophister year

[a] That is, the Michaelmas Lectures *or* the Hilary Examination.
[b] That is, the Hilary Lectures *or* the Trinity Examination.
[c] Order of the Board, April 25, 1903.

may keep the Senior Sophister year and the Degree Examination as explained in (*a*) or (*b*).

(*a*). He may *keep either* the Hilary Term[a] *or* the Trinity Term,[b] and then go up for the Degree Examination in December, or at any subsequent Examination; or he may present himself for Moderatorship in October or November.

But if a Student coming under this rule keep the *Hilary Term*,[a] he may, by the special permission of the Senior Lecturer, be raised to the standing of a Candidate Bachelor on payment of the half-yearly fee due before the Student becomes a Candidate Bachelor, and he would then be entitled to present himself at the Degree Examination in June. The names of such Students remain on the College Books till the first Saturday in the succeeding June.

In granting this permission regard is had to the merit which the Student has shown at the Final Freshman and other Examinations, as well as the importance to the Student of obtaining the Degree at the earlier date. Students seeking this privilege must make application to the Senior Lecturer on or before June 1.

In cases of extreme urgency the Board sometimes allow Senior Sophisters to answer for their Degree in April.

Or—

(*b*). He may *omit both* the Hilary Term[a] and the Trinity Term,[b] provided that he supplements the Trinity Examination in October. He may then go up for the Degree in either the following January or at any subsequent Examination. (Failure to pass the Trinity Supplemental in October involves loss of the year to a Student coming under this rule.)

A Senior Sophister who has kept one Term only (by Examination, § 10) in his Junior Sophister year may keep the Senior Sophister year and the Degree Examination as explained in (*c*), (*d*), or (*e*).

(*c*). He may *keep both* Hilary Term[a] and Trinity Term,[b] and may then pass his Degree in December, or at any subsequent Examination; or he may present himself for Moderatorship in October or November;

Or—

(*d*). He may *omit either* the Hilary[a] or Trinity Term,[b] and then either supplement the omitted Term in October, and go up for his Degree in January, or at any subsequent Examination; or else he may supplement the omitted Term in January, and take his Degree in April;

Or—

(*e*). He may *omit both* the Hilary[a] and the Trinity Terms,[b] and supplement the Hilary and Trinity Examinations in October and January, taking the Degree in April.

12. Senior Sophisters who, at the beginning of November, have kept no Term in the Senior Sophister year, are put down into the Class then beginning the Senior Sophister year.

All other Senior Sophisters are raised, at the beginning of November, to the Junior Bachelor Class, ranking either as Candidate Bachelors or Candidate Bachelor Supplementalists, according as they had or had not, at the conclusion of the Examinations in

[a] That is, the Michaelmas Lectures *or* the Hilary Examination.
[b] That is, the Hilary Lectures *or* the Trinity Examination.

the preceding April, kept the three Sophister Terms required before the Degree. But Students who, at the end of April, have kept the three Sophister Terms, may be raised in October, on payment of the half-yearly Fee then due, and may thereupon present themselves at the Moderatorship Examinations.

A Candidate Bachelor Supplementalist may present himself at any Senior Sophister Ordinary or Supplemental Examination, as a Supplementalist in the work of that Examination, and may proceed to the Degree in any Term subsequent to that in which he keeps the last of the required Sophister Terms.

13. No Student is entitled to present himself as a candidate at the Moderatorship or December Degree Examinations of his class unless he fulfils the conditions in (*a*) or (*c*); but in exceptional cases he may be allowed to do so by special permission of the Board, provided that he would be entitled to present himself for the Supplemental Degree Examination in the following January.

14. In all cases in which a Student loses his Class he enters on the new Class with credit for all the Terms he has kept. Thus, if a Student who has kept the Trinity Term of his Senior Freshman year, is put down from the Junior Sophister Class to the Senior Freshman Class, he is counted as having kept the Trinity Term of that year, and he need not obtain fresh academic credit by keeping it over again.

Mode of obtaining Credit for the various Terms.

As stated in § 5, Terms may be kept either by Examination or by Lectures.

15. *Keeping of Arts Terms by Examination.*[a]

A Student presenting himself for Examination is required by the Senior Lecturer to answer satisfactorily in each separate subject, or group of allied subjects, for which he is liable. A slight deficiency in one subject may, however, be counterbalanced by marked proficiency in others, provided the previous record of the Student does not indicate persistent neglect of the deficient subject. Special attention is paid to the mark in English Composition.

The name of a Student presenting himself at an Examination must be on the College books *before the day of that Examination.*

The October Final Freshman Examination lasts three days; all the other Term Examinations, including the Degree, last for two days. On the first day papers are set; on the second day the candidates are examined *vivâ voce.* The hours of the Term Examinations are, in the forenoon, from half-past nine to twelve, and in the afternoon, from two to four or five, except during the

[a] See note a, p. 34.

months of December and January, in which the afternoon hours are from one to three or four; on the *vivâ voce* days, however, the hour of termination of the Examination depends on the number of candidates; and a Student must remain in the Examination Hall until all his *vivâ voce* Examinations are completed.

Students must wear academicals at all Arts Examinations other than Entrance and Sizarship.

Students residing habitually at a distance from Dublin, and coming to Dublin to attend the Examinations of their Class, may put their names on Commons on the days on which these Examinations are held. They should communicate with the Clerk of the Buttery (Registrar's Office) at or shortly after 12 o'clock on the day of the Examination.

A programme, giving the hours at which the different papers are set, is posted on the notice board at the Front Gate, a day or two before the Examination.

16. *Keeping of Arts Terms by Lectures.*[a]

Students in order to obtain credit for a Term by attendance at Tutorial Lectures are required to attend five-sixths of the number of Lectures appointed for the Term; but the Senior Lecturer may on the recommendation of their Lecturer, and without reference to the Board, grant terms to Students who shall have attended not less than three-fourths of the whole.[b]

Students seeking credit for a Term by Lectures must, at the commencement of such Term, register with the Clerk of the Books their places of residence for that Term, and during Term notify any change of residence. If this rule be not observed, credit for the Term cannot be allowed.

Students keeping the Term by Lectures can ascertain the hours at which they are to attend, as well as the names of their Lecturers, from the notices posted at their Tutors' Rooms.

Terms may also be kept by attendance on Lectures in the Indian and Home Civil Service School, which see.

No Lectures are held on Church Holidays marked in capital letters, or upon days marked thus (†) in the Almanac.[c]

Honor Lectures.—A Student keeping the Term may substitute one or more of the Honor Courses of Lectures for the corresponding Course or Courses of ordinary Lectures. For information regarding these Lectures see "Honor Lectures and Examinations."

A Student who in any Term obtains Honors in all the Subjects for which he would be liable, is entitled to claim credit for that Term, except in the case of the Final Freshman and Degree Examinations. A Student who obtains a Moderatorship is not required to compete at the ordinary Degree Examination.

---

[a] See note a, p. 34.
[b] Resolution of the Board and Council, June 1, 1894.
[c] Resolution of the Board, June 24, 1882.

Freshman Students who have passed a Test Examination, may obtain credit for a Term prior to the Final Freshman Examination, by attending *one* Course of Honor Lectures, or by getting an Honor in any subject. (See § 21.)

The Lectures, both Ordinary and Honor, are, as a rule, chiefly devoted to the new business of the Term.

17. *Catechetical Terms.*

The Catechetical Examinations are on the day following the Term Examinations, but candidates from a distance are examined on the last day of the Term Examinations.

Catechetical Terms may be kept by Lectures, which commence at 9.30 a.m. in the Examination Hall on the days appointed in the Almanac, and are continued at the same hour on the succeeding Saturdays.

18. The Languages required during the Freshman years, in addition to Latin, are one of the following:—Greek, French, German.

The Examinations in French and German will be partly *viva voce* in the prescribed books. Papers will also be set containing passages (unprescribed) for translation from these languages, and passages for translation from English into the same.

Latin Composition forms a part of every Latin Examination.[a] In the translation of selected passages from the Classical authors, separate weight will be allowed for the style of the English Composition.

The books named under English Composition are intended to supply subjects for English Composition. A few questions will also be set on the substance of the books.

The letters *p.* or *v. v.*, or *p.* & *v. v.*, added in parentheses after a subject in the following Course, denote that the Examination in that subject is customarily conducted by *papers*, or *viva voce*, or in *both ways*.

19. Junior Freshman Year.

Throughout the Junior Freshman year, a Student keeping a Term by Examination must answer in Languages and all the rest of the prescribed subjects. Students keeping a Term by Lectures must attend two Courses of Lectures, one Course in Science and one in Languages. But Junior Class Engineering Students may substitute the Mathematical Lectures of the School for the ordinary Science Lectures, and see § 21 for privileges granted to Students who have passed a Test Examination.

---

[a] Resolutions of the Board and Council, June, 1877.

Subjects for Michaelmas Lectures and Hilary Examination.

MATHEMATICS, ...	Euclid, Books I., II., III., VI., and Definitions of Book V. (*p.* & *v. v.*). Arithmetic. Algebra, the first Four Rules, Fractions, Surds, Simple and Quadratic Equations (*p.*).
LANGUAGES (*p.* & *v. v.*), . .	Latin, Horace, Odes III., IV., with Latin Composition, *and one of the following*:— Greek, Xenophon, Hellenica, Bk. i. French, Fénelon, Télémaque, Bks. I.–IV. German, W. F. Riehl, Burg Neideck.
ENGLISH COMPOSITION, . .	Milton, Paradise Lost, Books I., II.; Scott, Old Mortality (*p.*).

Subjects for Hilary Lectures and Trinity Examination.

MATHEMATICS, ...	Euclid, as before (*p.* & *v. v.*). Arithmetic and Algebra, as before (*p.*). Trigonometry, to the end of Solution of Plane Triangles (*p.*).
LANGUAGES (*p.* & *v. v.*), . .	Latin, Cicero, Pro Milone, with Latin Composition, *and one of the following*:— Greek, Homer, Odyssey VI., IX. French, Massillon, Petit Carême. German, Sudermann, Die Heimkehr.
ENGLISH COMPOSITION, . .	Milton, Comus; Dryden, Essay on Dramatic Poesy (ed. Arnold), pp. 1–99 (*p.*)

Subjects for Trinity Lectures and Michaelmas Examination.

MATHEMATICS, ...	Euclid as before (*p.* & *v. v.*). Arithmetic and Algebra, as before (*p.*). Trigonometry, with the use of Logarithms (*p.*).
LANGUAGES (*p.* & *v. v.*), . .	Latin, Livy, Book XXI., with Latin Composition, *and one of the following*:— Greek, Herodotus, Book VIII., to the end of chapter 99. French, Chateaubriand, Atala. German, Uhland's Gedichte, Balladen und Romanzen.
ENGLISH COMPOSITION, . .	Pope, Rape of the Lock, and Characters of Men; Swift, Battle of the Books (*p.*).

Junior Freshmen who as Medical Students desire to substitute a Professional Course for Languages after the Junior Freshman

year, must substitute for Herodotus and Livy the following Special Course:—

SPECIAL COURSE, Easy Greek and Latin passages will be set for translation into English, with grammatical questions.
Easy English sentences for translation into Latin.
An Elementary Paper on Greek and Roman History and Geography.

Candidates will be permitted to bring with them Greek and Latin Dictionaries for use at this Special Examination.

No Student will be allowed to present himself at this Examination unless he has passed a previous Junior Freshman Examination, and notice of his intention to present himself at the Special Examination must be given to the Senior Lecturer at least a week before the Examination.

Candidates obtaining an average of 40 per cent. in the Classical portion of this Examination, and passing in the Science and English, will be allowed to substitute one or other of the three following Courses for Languages in the Arts Course in the Senior Freshman, Junior Sophister, or Senior Sophister years:—

[A.]

LECTURES—
Winter, ... Physics and Chemistry.
Summer, ... Chemistry.

EXAMINATION—
Previous Medical Examination in Physics and Chemistry at close of year.

[B.]

LECTURES—
Winter, ... Anatomy.
Summer, ... Botany and Zoology.

EXAMINATIONS—
Previous Medical Examinations in Botany and Zoology at close of year, and Class Examinations in Anatomy and Histology.

[C.]

LECTURES—
Winter, ... Advanced Anatomy and Physiology.
Summer, ...

EXAMINATION—
Previous Medical Examination in Anatomy and Institutes of Medicine (Practical Histology and Physiology).

20. Senior Freshman Year.

In the Senior Freshman year Languages and all the other subjects (with the exception of an alternative allowed in Mathematics

at the Final Freshman Examination) are compulsory on all Students *other than* (*a*) *Students who have passed a special Test Examination*, see § 21, or (*b*) *Medical Students who, having passed the required special Examination in October, come under the rules given above* (see "Subjects for Michaelmas Term, Junior Freshman Year"), *and may therefore substitute one of the Professional Courses for Languages both at Lectures and Examinations.* Subject to these exceptions, Students keeping the Term by Lectures must attend Lectures in both Science and Languages.

Credit for Michaelmas Term cannot be obtained by attending the Lectures in Trinity Term, but only by passing the Final Freshman Examination.

Junior Class Engineering Students may substitute the Mathematical Lectures of the Engineering School for the Ordinary Science Lectures.

Honor Lectures.—Students may substitute *either* the Honor Lectures in Mathematics *or* those in Logics, for the ordinary Science Lectures.

Subjects for Michaelmas Lectures and Hilary Examination.

MATHEMATICS, . . .	Euclid, as before (*v. v.*). Arithmetic and Algebra, as before (*p.*). Trigonometry, as before (*p.*).
LOGIC, ...	Abbott's Elements of Logic (*v. v.*).
LANGUAGES (*p.* & *v v.*),	Latin, Cicero, Orations against Catiline, with Latin Composition, *and one of the following* :— Greek, Plato, Apologia Socratis. French, Souvestre, Un Philosophe sous les toits. German, Schiller's Gedichte. Third Period.
ENGLISH COMPOSITION,	Addison: Spectator Club (ed. Arnold). Gray: Poems (ed. Bradshaw) (*p.*).

Subjects for Hilary Lectures and Trinity Examination.

MATHEMATICS, . . .	Euclid, as before (*v. v.*). Arithmetic and Algebra, as before (*p.*). Trigonometry, as before (*p.*).
LOGIC, ...	As before (*v. v.*).
MATHEMATICAL PHYSICS,	Statics;—Composition and Resolution of (*a*) Forces meeting in a point, (*b*) Parallel Forces. Moments. Couples. Centre of Parallel Forces and of Gravity. General conditions of equilibrium of coplanar Forces. Friction. Work. Simple Machines.[a] (*p.* & *v. v.*).

[a] To those who do not possess a text-book dealing with the above Course, Loney's "Mechanics and Hydrostatics" (University Press, Cambridge) is suggested.

LANGUAGES (*p.* & *v. v.*),	Latin, Terence, Adelphi, with Latin Composition, *and one of the following* :— Greek, Sophocles, Œdipus Tyrannus. French, Erckmann-Chatrian, Le Blocus. German, Halm's Griseldis.
ENGLISH COMPOSITION,	Goldsmith : Traveller and Deserted Village. Johnson: Lives of Addison, Pope, and Swift (*p.*).

Subjects for the Final Freshman Examination.

(*Trinity Lectures and Michaelmas Examination.*)

N.B.—*Euclid, Trigonometry, and Geometrical Drawing are alternative subjects at the Final Freshman Examination, and Candidates are required to answer in but one of these subjects. Except that any Candidate who has not previously qualified in Trigonometry must take that subject.*

MATHEMATICS, . . .	Arithmetic and Algebra, as before (*p.*). *Alternative Subjects* :— Euclid, as before (*p.* & *v. v.*). Trigonometry, as before (*p.*). Geometrical Drawing.
LOGIC, ...	As before (*v. v.*).
MATHEMATICAL PHYSICS,	Statics, as before. Dynamics :—Velocity and Acceleration. Motion in a straight line. Mass, Force, and Weight. Connexion between Mass and Weight of the same body. Absolute Unit, Poundal. Composition and Resolution of Velocities, Accelerations and Forces. Motion of a particle on smooth and rough inclined planes. Equality of Action and Reaction. Atwood's Machine and other simple cases of rectilinear motion of two bodies connected by an inextensible string passing over a smooth pulley. Projectiles. Momentum and Impulse. Impact or Collision. Uniform circular Motion. Harmonic Motion. Pendulum and determination of *g*. Work, Energy, and Horse-power.[a] (*p.* & *v. v.*).
LANGUAGES (*p.* & *v. v.*),	Latin, Virgil, Æneid, Books IV., VI., with Latin Composition, *and one of the following* :— Greek, Homer, Iliad, Books XXII., XXIV. French, P. Mérimée Colomba. German, G. Freytag, Aus dem Staat Freidrich's des Grossen.

[a] See note a, p. 43.

ENGLISH COMPOSITION, Shakspere, Macbeth; Bacon's Essays, the following selection—Truth; Death; Revenge; Adversity; Goodness, and Goodness of Nature; Atheism; Superstition; Travel; Counsel; Innovations; Friendship; Discourse; Riches; Nature in Men; Custom and Education; Youth and Age; Studies (*p.*).

At each Final Freshman Examination those Students who obtain 40 *per cent.* and upwards, and whose answering in the several subjects is considered satisfactory by the Senior Lecturer, are distributed into three Classes, the names in each Class being arranged in the order of the percentages obtained. The minimum standards of Classes are:—First Class, 60 *per cent.*; Second Class, 50 *per cent.*; Third Class, 40. Of the remaining Candidates, those whose answering is considered by the Senior Lecturer to be sufficient are allowed the Examination, and their names are arranged in alphabetical order as Unclassed Candidates.

The Jellett Prizes for General Answering, value £5 and £3 respectively, are awarded on the result of this Examination (see under "Jellett Prizes").

The award of the Senior Exhibitions (value £25 per annum for two years) depends partly on the marks obtained at this Examination (see under "Senior Exhibitions.")

21. Modification of the Arts' Course of the Freshman Years.

In order to enable Students who are proved to possess a competent knowledge of Classics (with English Composition), or Mathematics, or both, to devote themselves to special studies earlier than they can at present, the following scheme has been adopted by the Board and Council.

Examination for Students desiring Privileges in the Freshman Years.

To prove that Students possess a competent knowledge of Classics or Mathematics, or both, a Test Examination will be held in Michaelmas Term before the beginning of Lectures, and will be open to all rising Junior Freshman Students, and to all rising Senior Freshman Students.

The subjects for this Examination will be:—

1. *Classics*, . . (*a*) Xenophon, Hellenica, Book i.; Plato, Apologia Socratis; Horace, Odes iii., iv.; Cicero, Pro Milone.
   (*b*) Latin Composition.
   (*c*) An English Essay.

2. *Mathematics,* (*a*) Euclid: Books i., ii., iii., iv., vi. (and Definitions of v.).
(*b*) Arithmetic.
(*c*) Algebra (including Quadratic Equations).
(*d*) Trigonometry (to the end of the solution of Plane Triangles).

This Examination will last for two days, and will be conducted partly by papers and partly *vivâ voce.* The standard of questions and marking will be that of ordinary Term Examinations of the Junior Freshman year. In order that a Student may pass in either Classics or Mathematics, it will be necessary for him to obtain at least 40 per cent., and satisfy the Court of Examiners, in that subject.

Any Student who shall have obtained 30 per cent. in Classics or in Mathematics at the Junior Exhibition Examination, will be allowed credit for the Classical or Mathematical portion of the Test Examination.

Privileges and Duties of those who have passed the Examination in both Branches.

§ 1. Students who have passed this Examination in both Classics and Mathematics will be privileged to choose among the following ways of proceeding, in order to qualify for admission to the Final Freshman Examination, viz.:—

1. All such Students, both Professional and others, may proceed by keeping three Terms, one of which must be by Examination in the Junior Freshman year, and one at least either by Lectures or Examination in the Senior Freshman year. These Terms may be kept (*a*) as at present, by attendance at the ordinary Tutorial Lectures, or by passing the ordinary Term Examinations; (*b*) by attendance at Honor Lectures, or by obtaining Honors. Credit for a Term of Lectures will be allowed (on the written recommendation of the Lecturers) for diligence at one Course of Honor Lectures, except at the Trinity Term Lectures of the Senior Freshman year; and credit for a Term Examination will be allowed to a Student who obtains an Honor in any subject, except in the Michaelmas Term of the Senior Freshman year.

(But attendance at Lectures in one Term, and obtaining an Honor in the following Term, will give credit for only one Term.)

NOTE.—Students who desire to obtain credit for a Term by attendance at Classical Honor Lectures will be required to attend the Tutorial Honor Lectures and the Honor Lectures in Classical Composition.

Medical Students.

2. Medical Students may proceed by attending, in their First Medical year as *Junior Freshmen,* to the satisfaction of the Senior Lecturer, the Lectures and Demonstrations in the preliminary Science work of the First Medical year (viz. Chemistry and

Physics, Botany and Zoology), and also passing the Previous Medical Examination in that work; and in their Second Medical year, as *Senior Freshmen,* by passing a full ordinary Term Examination, or by obtaining an Honor in any subject, or by attending one Term of Tutorial Lectures in the Science of the Michaelmas or Hilary Terms, or the Supplemental Lectures referred to in Note to 2 and 3, or by attending Honor Lectures in any subject, to the satisfaction of the Lecturer.

Failure to pass Previous Medical Examination.

NOTE.—If such Medical Student in the Junior Freshman Class shall have kept the Lectures in the preliminary Science work of the First Medical year, and at the beginning of November shall be found not to have passed the previous Medical Examination in that work, he will be allowed to proceed with the Senior Freshman Class; but unless he passes the preliminary Science portion of the Previous Medical Examination in November or January following, he will forfeit all further privileges, and accordingly he will be required to keep two full Arts' Terms as at present, either by Lectures or Examination in his Senior Freshman year before he can be admitted to the Final Freshman Examination.

Engineering Students.

3. Engineering Students may proceed by attending in the First Engineering year *as Junior Freshmen,* to the satisfaction of the Senior Lecturer, the Lectures in that year's work of the Engineering School and passing the Junior Class Examination; and in their Second Engineering year, by proceeding *as Senior Freshmen* in the same manner as the privileged Medical Students above.

NOTE.—If such Engineering Student in the Junior Freshman Class shall have kept the Lectures of the Junior Engineering year, and at the beginning of November shall be found not to have passed the Junior Class Examination, he will be allowed to proceed with the Senior Freshman Class; but he will forfeit all further privileges arising from the Test Examination, and accordingly he will be required to keep two full Arts' Terms as at present, either by Lectures or Examination, in his Senior Freshman year before he can be admitted to the Final Freshman Examination.

Supplemental Science Lectures for Senior Freshman Students in Trinity Term.

NOTE TO 2 AND 3.—Courses of Supplemental Lectures in the Science work of the Michaelmas and Hilary Terms of the Senior Freshman year will be delivered in Trinity Term to Senior Freshmen Medical or Engineering Students who have fulfilled the requirements of their Junior Freshman year specified in 2 and 3;

and satisfactory attendance at one of these Courses of Lectures will give credit for the required Term in the Senior Freshman year.

Rising Senior Freshmen Professional Students.

4. Students who, in the Junior Freshman year, have proceeded as specified in 1, and join the Medical or Engineering School as rising Senior Freshmen, may proceed—

(*a*) In case they have credit for only one Term in the Junior Freshman year, by satisfactorily attending the Lectures in the preliminary Science work of the First Medical year, or the Lectures of the First Engineering year; and passing the Examinations of their respective Schools;

(*b*) In case they have credit for two Terms in their Junior Freshman year, by satisfactorily attending the Lectures in the preliminary Science work of the First Medical year, or the Lectures of the First Engineering year.

But in both cases Students will be required, *as Senior Freshmen*, to obtain credit for one Term in Arts as in 1, or to attend one Term of Tutorial Science Lectures as stated above in 2 and 3.

NOTE.—Such Students as are referred to in (*a*) will not be allowed to present themselves for the Final Freshman Examination until they have passed, if Medical Students, the Previous Medical Examination in the preliminary Science work; and if Engineering Students, the Junior Class Examination.

Privileges and Duties of Students who have passed the Examination in one Branch only.

§ 2. Students who have, at the Test Examination, passed in Classics but failed in Mathematics, or *vice versa*, will have the privileges and duties enumerated in § 1; with this restriction, however, that, before they are allowed to present themselves with their Class for the Final Freshman Examination in October, they will be required to have obtained credit in the Ordinary Arts' Course for three Terms in the subject in which they have failed at the Test Examination, one of these Terms to be kept by an Examination in that subject in the Junior Freshman year, and one at least (by Lectures or Examination) in the Senior Freshman year.

But such Students may present themselves as rising Senior Freshmen at the next Test Examination in the subject in which they have failed, and, if they qualify therein, obtain the privileges stated in § 1. But failure to qualify then will involve loss of a year to such Students as have not already obtained credit for a Junior Freshman Term by Examination in that subject.

Supplementing Senior Freshman Examinations.

§ 3. If a Student shall be found in the October of his Senior Freshman year to have failed to fulfil the requirements set forth above, he will not be allowed to present himself with the other members of his Class at the Final Freshman Examination in October, but may then, as at present—(*a*) if one Term in arrear, supplement the last omitted Senior Freshman Examination, and pass the Supplemental Final Freshman Examination in the following January or April; or (*b*) if two Terms in arrear, supplement the Hilary Senior Freshman Examination in October, and the Trinity Senior Freshman Examination in January, and pass the Supplemental Final Freshman Examination in April.

22. Junior Sophister Year.

In the Junior Sophister year, Mathematical Physics, Logic, and English Composition are compulsory on all Students, as is also Astronomy for the Trinity and Michaelmas Terms.

Students who, in any Term, have Professional Privileges (as specified in § 23), are only required to take up the compulsory subjects in order to obtain credit for that Term in Arts.

Divinity Students are required to take up Greek and Latin (see under *Divinity School General Rules*), nor are they exempted on obtaining Professional credit in another School.

Medical Students who, as Junior Freshmen, have passed the Special Michaelmas Examination may substitute for Languages one or other of the Courses marked [A], [B], or [C], § 19.

All other Students are required to select one or other of the four optional Courses, namely:

(1) Languages (*i.e.* any two of the following four—Greek, Latin, French, German); (2) Experimental Science; (3) Natural Science; (4) History.

A Student selecting French or German will be required to write a translation from English into French or German, in addition to answering in the books named in § 24.

A Student may take up different optional subjects in different Terms throughout the Sophister years, except that in the Senior Sophister year he cannot keep a Term *by Lectures* in Experimental or Natural Science unless he has, as a Junior Sophister, kept at least one Term in those subjects respectively. No such restriction, however, applies to Examinations.

Keeping of Terms by Lectures.

There is one course of Lectures in the compulsory subjects of the Term, and Students with Professional Privileges obtain credit for the Term by attending it.

Students seeking credit for Divinity Lectures may keep the classical portion of the Term by attendance on Greek and Latin Lectures, or Greek and Hebrew Lectures, or they may substitute for the Classical Lectures an Examination (held at the conclusion

of the Lectures) in Greek and Latin, or Greek and Hebrew. But they cannot substitute Hebrew for Latin at the regular Term Examinations.

Each of the four languages is represented by one half-course of Lectures, and attendance on two half-courses is necessary to keep the Term in Languages.

To obtain credit in Experimental Science, Junior Sophisters must attend the Lectures in Experimental Physics and those in Inorganic Chemistry, as well as Laboratory Instruction, for which last a fee of two and a-half guineas must be paid to the Junior Bursar for each Term.[a] The Term in Experimental Science cannot be kept by attendance on Lectures during Trinity Term.

The arrangements as to the Professional Lectures in French, German, and Experimental and Natural Science are posted on the Tutors' doors at the beginning of Term.

Honor Lectures.—All Sophisters who have obtained Honors in Classics may substitute the Lectures of the Professors of Greek, Latin, or English Literature, for the Ordinary Lectures in either Greek or Latin.

Either the Course of Honor Lectures in Mathematical Physics, or that in Logics, may be substituted for the Ordinary Lectures in Mathematical Physics. Science Honormen may substitute the Lectures of the Professors of Mathematics and Natural Philosophy for the ordinary Science Lectures.

23. Professional Privileges.

Junior Sophisters, not in the Divinity School, who are keeping a Term in Arts by Lectures (or by the Examination at the commencement of the following Term), can obtain Professional Privileges by—

(*a*) Attending, during the Term, three-fourths of the Lectures of two of the Professors of Law, and passing the Examinations held at the conclusion of those Lectures;

Or,

(*b*) Attendance, during the Term, on Hospitals or Dissections, provided the Student be matriculated in Medicine;

Or,

(*c*) Attendance at three-fourths of the Professional Lectures of the Engineering School during the Term.

Or,

(*d*) Attendance, during the Term, by Candidates for Indian Civil Service, on two full Courses of the Special Lectures provided by the College for such Candidates.

But no Professional Privileges are allowed for a second attendance on the same course of Professional Lectures.

[a] Students who have paid their Chemistry Fee to the Junior Bursar for the Michaelmas Lectures are permitted to attend the *Lectures* in Chemistry in Hilary Term without additional payment: but they cannot obtain credit for the Term in Arts without attending the Laboratory; nor can they obtain credit in Arts for attendance on the Junior Sophister Honor Lectures in Experimental Physics without obtaining the permission of the Senior Lecturer.

24. Subjects for Michaelmas Lectures and Hilary Examination.

Compulsory Subjects:—

LOGIC,	As read in Senior Freshman year (*v. v.*).
MATHEMATICAL PHYSICS,	Mechanics:—as read in Senior Freshman year. Hydrostatics[a]:—Pressure at a point in a fluid. Resultant pressure over an area. Archimedes' Principle. Methods for determining specific gravity. Relation between the volume, pressure, and temperature of a gas. Weight of a given volume of a gas at a given temperature and pressure. Barometers. Diving-bell. Water Pumps. Air Pumps. The Siphon. Pressure Gauges. Balloons.[a] Optics:—Galbraith and Haughton's Manual (*p.* & *v. v.*).
ENGLISH COMPOSITION,	Burke: two Speeches on America (in Clarendon Press Selections). Cowper: Task, Bks. 1, 2 (*p.*).

Optional Subjects:—

1. LANGUAGES (any two of the following four.)

GREEK,	Thucydides, Bk. II. (*p.* & *v. v.*).
LATIN,	Tacitus, Annals, Bk. XI. (*p.* & *v. v.*).
FRENCH,	Molière, Misanthrope (*p.* & *v. v.*).
GERMAN,	Goethe, Hermann (*p.* & *v. v.*).

2. EXPERIMENTAL SCIENCE (detailed syllabus given below) (*p.* & *v. v.*).
3. NATURAL SCIENCE—Botany and Zoology—(detailed syllabus given below) (*p.* & *v. v.*).
4. HISTORY—Student's Gibbon, chaps. 10, 11, 12, 19, 20, 21, 22, 23, 24, 26, 27, 28, 31, 32, 33, 34, 38, 39 (*p.* & *v. v.*).

Subjects for Hilary Lectures and Trinity Examination.

Compulsory Subjects:—

LOGIC,	As before (*v. v.*).
MATHEMATICAL PHYSICS,	Mechanics, Hydrostatics, and Optics, as before (*p.* & *v. v.*).
ASTRONOMY,	Parker's Astronomy (Longmans, Green, & Co.) (*p.* & *v. v.*).
ENGLISH COMPOSITION,	Byron: Childe Harold, Cantos 3, 4. Essays of Elia, 1st series (*p.*).

Optional Subjects:—

1. LANGUAGES (any two of the following four).

GREEK,	Demosthenes, Olynthiacs I., II., III. (*p.* & *v. v.*).
LATIN,	Juvenal, Sat. iii., viii., x., xiii. (*p.* & *v. v.*).
FRENCH,	Racine, Britannicus (*p.* & *v. v.*).
GERMAN,	Lessing, Minna (*p.* & *v. v.*).

[a] See note a, page 43.

2. Experimental Science (detailed syllabus given below) (*p.* & *v. v.*).
3. Natural Science—Botany and Zoology (detailed syllabus given below) (*p.* & *v. v.*).
4. History—English and French History to the year 1485 (Gardiner's Student's England and the Student's France are recommended) (*p.* & *v. v.*).

Subjects for Trinity Lectures and Michaelmas Examination.

Compulsory Subjects:—

Logics, ...	Locke's Essay on the Human Understanding: Introduction; Book II. to chap. xxvi. inclusive (omitting sects. 10 to 20 of chap. i., sects. 10 to end of chap. xiii., chap. xv., and sects. 11 to 71 of chap. xxi.); Book III. (omitting chaps. vi. to viii.) (*v. v.*).
Mathematical Physics, . .	As before (*p.* & *v. v.*).
Astronomy, ...	As before (*p.* & *v. v.*).
English Composition, . .	Scott: Waverley. Coleridge: Ancient Mariner, Christabel (*p.*).

Optional Subjects:—

1. Languages (any two of the following four.)

Greek, ...	Æschylus, Prometheus Vinctus (*p.* & *v. v.*).
Latin, ...	Horace, Satires (*p.* & *v. v.*).
French, ...	Guizot, Civilisation en Europe (*p.* & *v. v.*).
German, ...	Goethe, Gedichte (Ed. Selss) (*p.* & *v. v.*).

2. Experimental Science (detailed syllabus given below) (*p.* & *v. v.*).
3. Natural Science—Botany and Zoology (detailed syllabus given below) (*p.* & *v. v.*).
4. History—English and French History from 1485–1815 (*p.* & *v. v.*).

25. Syllabus of the Experimental Science Course.

The Course in Experimental Science consists of two Sub-Courses, Experimental Physics and Chemistry, in each of which Candidates are required to answer, and which are as follows:—

Experimental Physics.

Candidates must understand the theory of, and know how to use, the instruments mentioned. They must understand the principles involved in the measurements and experiments, and be able to make calculations founded on them, and may be required to perform those marked thus *. Courses are provided in the Physical Laboratory for Students requiring practical instruction in Physical Measurements. They are desired to pay special

attention to the principle of the Conservation of Energy, as illustrated in the various branches of Experimental Physics.

Hilary Examination.

General Properties of Matter:

Measurement of space (length, area, volume), time and mass (vernier, micrometer screw, pendulum clock, balance).
Characteristics of solids, liquids, and gases (compression, and shearing strains and stresses).
Measurement of pressure (mercurial and aneroid barometer, liquid manometer).
Measurement of density (specific gravity bottle,* hydrostatic balance,* hydrometers of variable immersion*).
Measurement of compressibility of gases (Boyle's tube*).

Heat:

Measurement of temperature (construction of mercurial thermometers, centigrade and Fahrenheit scales, maximum and minimum thermometers).
Measurement of coefficients of expansion for temperature of solids, liquids, and gases (Roy and Ramsden's method for solids;* Dulong's method,* and apparent expansion in glass* for liquids; air thermometer method* for gases).
Maximum density of water (Hope's experiment).
Experiments on force of contraction (tiring of wheels, &c.).
Machines founded on expansion of solids (metallic thermometers, compensated pendulums).
Measurement of density of a gas (Regnault's experiments).
Measurement of quantities of heat (method of mixtures*).
Measurement of specific heats (water calorimeters,* Dulong and Petit's law).
Laws of fusion and evaporation (boiling, effect of presence of other gases, distilling*).
Measurement of relation of temperature and pressure of saturated vapours (manometer tube method*).
Measurements of latent heats of fusion and evaporation (water calorimeter*).
Freezing mixtures, cooling by evaporation.
Measurement of mechanical equivalent of heat (Joule's experiment).

Trinity Examination.

As before, and in addition:—

Electricity:

Laws of electric action (Coulomb's balance for repulsion).
Distribution on one conductor (proof plane,* hollow conductor*).
Distribution on two conductors (induction, ice pail experiment,* Leyden jar).
Electroscope (gold leaf, charging,* and testing* kind of electrification).
Electric discharges (spark and brush, points and lightning conductors, heating, chemical, and magnetic effects).
Machines transforming mechanical into electric energy (cylinder and plate machines, electrophorus).
Laws of magnetic force (torsion balance).

Laws of magnetic induction (magnets* and magnetic* substances).
Molecular nature of magnetism (broken magnets).
Terrestrial magnetism (declination, dip*).
Laws of magnetic force due to electric currents (tangent and reflecting galvanometers, electro-magnets).
Electromotive force due to chemical action (zinc, copper, and dilute sulphuric acid, amalgamation).
Polarization of cells (bichromate, Daniell's, Grove's and Bunsen's, and Le Clanché cells).
Laws of electrolysis (gas* and copper voltameters,* electroplating,* lead batteries).
Measurement of heat due to electric current (calorimeter,* glow and arc lamps).
Ohm's law (arrangement of cells).
Measurement of resistances (Wheatstone's Bridge*).
Measurement of electromotive forces (high resistance galvanometers*).

MICHAELMAS EXAMINATION.

As before, and in addition:—

Sound:

Students must understand the nature of musical intervals, of tone, and of vowel sounds, and how to measure—

1. The pitch of a note by means—(α) of a syren; (β) of a graphic method.
2. The velocity of sound—(α) in a string, and (β) in a gas, by measuring the length of an internode.

Light:

Students must know how to measure—

1. The relative intensities of two lights.
2. The angle between two plane reflecting surfaces.
3. The refractive index of a prism.
4. The focal length of a convex lens.
5. The position of the lines in a spectrum.
6. The angle of polarization by reflection.
7. The positions of the planes of extinction of polarized light in microscopic crystals.
8. The wave-length of light by means of a grating.

CHEMISTRY.

The Examinations are confined to the leading facts and principles of the Science. Candidates are expected to be familiar with the methods used in the deduction of formulæ, and with the solution of such chemical problems as are referred to in the Course.

HILARY EXAMINATION.

Reynolds' Experimental Chemistry, chaps. I–XVII. inclusive.

Practical.—Preparation and identification of the gaseous and other elements included in the above Course.

TRINITY EXAMINATION.

Reynolds' Experimental Chemistry, to the end of chap. XXV.

Practical.—As before, but including all non-metals, with systematic analysis for single acid radicals.

MICHAELMAS EXAMINATION.

Reynolds' Experimental Chemistry, to the end of chap. XLV.
Practical.—Qualitative analysis for a single metal.

26. Syllabus of Course in Natural Science.

Students are required to have a practical, as well as a theoretical, knowledge of the subjects of Examination.

HILARY EXAMINATION:—

ZOOLOGY, . . . Macalister, Invertebrates (London Science Class-Book Series): Protozoans and Polyps.
BOTANY, ... Strasburger's Text-Book of Botany, Part I., Section 2, Histology.

TRINITY EXAMINATION:—

ZOOLOGY, ... As before, with Macalister, Invertebrates (London Science Class-Book Series): Worms and Molluscs.
BOTANY, ... Strasburger's Text-Book as before, with Section 1, Morphology.

MICHAELMAS EXAMINATION:—

ZOOLOGY, ... As before, with Macalister, Invertebrates (London Science Class-Book Series): Articulates: with the Demonstrations of the Professor.
BOTANY, ... Strasburger's Text-Book, as before, with Section 3, Physiology.

27. Senior Sophister Year, and Degree Examination.

In the Senior Sophister Year, and at the Degree Examination, Astronomy, Ethics, and English Composition (and for Hilary and Trinity Terms, Logics), are compulsory on all Students. A choice is permitted to the Student in respect of the five remaining Courses of Mathematical Physics, Languages, Experimental Science, Natural Science, and History and Political Science.

Students not exempted by attendance in the Professional Schools must take up *two* of the optional subjects.

At the Hilary and Trinity Examinations, *Divinity Students* must take up Classics, but obtain the Professional Privilege of omitting the other optional subject, provided they have full attendance on the Lectures of Archbishop King's Lecturer, or the Regius Professor, and one of the Assistants, during the Term preceding the Examination at which they present themselves; at the Degree Examination, they can claim the same privilege provided they have credit for a similar professional attendance for the *entire year* (*i. e.* the *three* Terms) either preceding the December Degree Examination of their Class,[a] or preceding the Degree Examination at which they present themselves.

Law Students[b] who have not been allowed Professional Privileges

[a] That is, at the Michaelmas, Hilary, and Trinity terms of his Senior Sophister year.
[b] Resolution of the Board, November, 1897.

in Law as Junior Sophisters may, by attending three-fourths of the Lectures delivered in any Term by each of two Professors, and passing the Examination held at the conclusion of these Lectures, obtain the Professional Privilege of being required to answer in only one optional course at the succeeding Term Examinations in Arts: but they will be allowed a like privilege at the B.A. Examination only if they have similar credit for the three Terms in their Senior Sophister year with each of the two Professors.

Law Students[a] who have been allowed Professional Privileges as Junior Sophisters, and who have obtained credit for a Senior Sophister Term by attending three-fourths of a Course of Lectures, and who have passed the Examination in Law held at the conclusion of those Lectures, will be allowed the above Professional Privilege at the succeeding Term Examination in Arts: but will be allowed a like privilege at the B.A. Degree Examination only if they have obtained credit as above for the three Terms in Law of their Senior Sophister year, and have been classed at the General Examination in that Course held in Trinity Term.

At the Hilary and Trinity Examinations, *Medical, Engineering*, and *Indian Civil Service Students* who fulfil the conditions in (*b*), (*c*) or (*d*) of § 23, obtain the Professional Privilege of being required to answer in only one of the optional Courses: but at the Degree Examination they can only claim a similar Professional Privilege if they have credit for Professional attendance as specified in (*b*), (*c*), or (*d*), § 23, for the *entire year* (*i. e.* the *three* Terms) either preceding the December Degree Examination of their Class[b], or preceding the Degree Examination at which they present themselves.

At each Degree Examination, those Students who obtain 45 per cent. and upwards, and whose answering in the several subjects is considered satisfactory by the Senior Lecturer, are distributed into three Classes, the names in each Class being arranged in the order of the percentages obtained. The minimum standards for Classes are:—First Class, 65 *per cent.*; Second Class, 55 *per cent.*; Third Class, 45 *per cent.*

Of the remaining Candidates, those whose answering is considered by the Senior Lecturer to be sufficient are allowed the Examination, and their names are arranged in alphabetical order as Unclassed Candidates.

Candidates placed in the First Class are called Respondents, and are entitled to receive honorary Testimoniums, which are publicly presented to them by the Chancellor or Vice-Chancellor, at the Commencements at which they are admitted to their Degreee, and their names are permanently recorded in the Calendar immediately after those of the Moderators.

[a] Resolution of the Board, November, 1897.
[b] That is at the Michaelmas, Hilary, and Trinity Terms of his Senior Sophister Year.

The Degree can also be obtained on the result of the Moderatorship Examination, see § 33.

A Candidate whose name is on the books of the College, and who has passed the Degree Examination, can present himself at any Commencements, in order that the Degree may be conferred upon him, provided that he shall have paid the Degree Fee of one pound to the Junior Bursar on the day before the Commencements *at latest*. If his name be not on the Books, he must also pay the Replacement Fee of fifteen shillings to the Junior Bursar.

Keeping of Hilary or Trinity Terms by Lectures.

Senior Sophisters attending Lectures do not obtain credit for the Term, unless the Senior Lecturer be satisfied, either from their answering in the Junior Sophister year, or from a Special Examination, that they possess a competent knowledge of Astronomy.[a]

There is one Course of Science Lectures in each Term, which represents not only the compulsory subjects, but also the optional subject of Mathematical Physics. Hence a Student having Professional Credit in Law, Physic, Engineering, or in the Indian Civil Service School, obtains credit for the Term in Arts by attendance on this Course of Lectures. A Divinity Student must attend this Course, and also a Course in Greek and Latin, or Greek and Hebrew, or he may substitute for Classical Lectures an Examination at the conclusion of the Lectures, as in the Junior Sophister year. The ordinary Lectures in Greek are on Mondays, Wednesdays, and Fridays, and in Latin on Tuesdays, Thursdays, and Saturdays in the Senior Sophister year. The Hebrew Lectures are on Tuesdays and Thursdays.

All other Students must attend the Lectures in one of the optional Subjects of Languages, Experimental Science, Natural Science, or History and Political Science, in addition to the Science Lectures representing the compulsory Subjects and Mathematical Physics.

In Experimental Science, Laboratory attendance is necessary, as in the Junior Sophister year, and the arrangements as to Chemistry Fees are the same also.

No Senior Sophister, with the exception of an Engineering Student who has passed the Final Examination in Engineering, can obtain Credit for attendance on *Lectures* in Experimental Science who has not obtained Credit for a Junior Sophister Term in the same subject; and no Senior Sophister can obtain Credit for attendance on *Lectures* in Geology who has not, as a Junior Sophister, obtained Credit for Botany and Zoology.[b] To keep the Term in Experimental or Natural Science requires attendance during three days per week only.

---

[a] Resolutions of Board and Council, February 24 and 14, 1883.
[b] Resolutions of the Council (previously adopted by the Board), December 17, 1884.

No Academic Credit can be obtained by attendance on the Trinity Arts Lectures in the Subjects of the Degree Examination.

Honor Lectures.—Senior Sophisters who have obtained Honors in Mathematics may substitute the Lectures of the Professors of Mathematics and of Natural Philosophy for the Ordinary Lectures representing Ethics, Astronomy, and Mathematical Physics. Those who have obtained Honors in Classics may substitute Professorial Lectures for Classical Ordinary Lectures, as in the Junior Sophister year.

28. Subjects for Michaelmas Lectures and Hilary Examination.

Compulsory Subjects:—

Astronomy (*p.* & *v. v.*),	As read in Junior Sophister year.
Ethics and Logics (*p.* & *v. v.*), ...	Stewart's Outlines of Moral Philosophy. Part II. Locke, as read in Junior Sophister year, with Book IV., chaps. i. to xi., both included (omitting chap. vii.).
English Composition (*p.*),	Wordsworth: Rolfe's Selection, pp. 50–142. Carlyle: Essays on Burns and Johnson.

Optional Subjects:—

1. Mathematical Physics (*p.* & *v. v.*),	Mechanics, Hydrostatics, and Optics, as in Junior Sophister year.
2. Languages (any two of the following four) (*p.* & *v. v.*).	*Greek*—Aristotle, Nicomachean Ethics Book II. *Latin*—Cicero, de Officiis, Book I. *French*—V. Hugo, Les Chants du Crépuscule. *German*—Schiller, W. Tell.
3. Experimental Science (*p.* & *v. v.*), ...	As in Course given below.
4. Natural Science (*p.* & *v. v.*), ...	As in Course given below.
5. History and Political Science (*p.* & *v. v.*),	Walker, Brief Text-book of Political Economy, Part ii., Part iii. omitting chap. 2; Mill's Representative Government (omitting chaps. 4, 7, 8, 9, 10, and 16.) Selections from Adam Smith's *Wealth of Nations* in Economic Classics (edited by Ashley), Introduction Book i., chaps. 1–7; Book ii., Introduction and chaps. 1, 3: Book iv., chaps. 1, 2, 8, 9.

Subjects for Hilary Lectures and Trinity Examination.

Compulsory Subjects:—

ASTRONOMY (*p.* & *v. v.*),	As before.
ETHICS AND LOGICS (*p.* & *v. v.*), ...	Stewart, as before. Locke, as before. Butler's Analogy, Introduction, and Part I. (omitting chap. i.). Butler's Dissertation on Virtue.
ENGLISH COMPOSITION (*p.*),	Macaulay: Essays on Lord Clive and Horace Walpole. Tennyson: Selections by Rowe and Webb.

Optional Subjects:—

1. MATHEMATICAL PHYSICS (*p.* & *v. v.*), ...	As before.
2. LANGUAGES (any two of the following four) (*p.* & *v. v.*),	*Greek*—Plato, de Republica, Book I. *Latin*—Virgil, Georgics, I. IV. *French*—Montaigne, Essais, II., chap. xii. *German*—Heine, Buch der Lieder.
3. EXPERIMENTAL SCIENCE (*p.* & *v. v.*), ...	As in Course given below.
4. NATURAL SCIENCE (*p.* & *v. v.*), ...	As in Course given below.
5. HISTORY AND POLITICAL SCIENCE (*p.* & *v. v.*),	Walker, Part iv. omitting chap. 6, Part vi. (chaps. 3, 4, 8). Bagehot, English Constitution. Selections from Adam Smith's *Wealth of Nations* in Economic Classics (edited by Ashley), Book i., chaps. 8–11; Book ii., chap. 4; Book v., chaps. 1, 2.

Subjects for Degree Examination.

(TRINITY LECTURES AND MICHAELMAS EXAMINATION.)

Compulsory Subjects:—

ASTRONOMY (*p.* & *v. v.*), . .	As before.
ETHICS (*p.* & *v. v.*), ...	Stewart and Butler, as before. Butler's Sermons, Preface and Sermons, I. II. III. VIII. IX.
ENGLISH COMPOSITION (*p.*), .	J. S. Mill: Inaugural Address at St. Andrew's University. Shakspeare: Hamlet.

Optional Subjects:—

1. Mathematical Physics (*p.* & *v. v.*), ...	As before.
2. Languages (any two of the following four), (*p.* & *v. v.*),	*Greek*—Aristophanes, Clouds. *Latin*—Horace Epistles, including the Art of Poetry. *French*—Boileau, Satires. *German*—Schiller, Abfall der Niederlande.
3. Experimental Science (*p.* & *v. v.*), ...	As in Course given below.
4. Natural Science (*p.* & *v. v.*), ...	As in Course given below.
5. History and Political Science (*p.* & *v. v.*),	Mill, Walker, Bagehot, and Adam Smith (as before).

29. Syllabus of Course in Experimental Science.

Experimental Physics.

(Hilary Examination.)

As before in Junior Sophister year, and in addition:—

General Properties of Matter:

Measurement of gravitation (time of vibration of simple pendulum*)
Molecular theory of structure of solids, liquids, and gases (diffusion).
Measurement of compressibility of solids and liquids (piezometer).
Measurement of elasticity of solids (stretching,* bending,* torsion*).
Calculation of work done by elastic forces.

Heat:

Calculation of force of expansion by temperature.
Hygrometry (chemical, Daniell's and Dyne's dew point, wet and dry bulb,* hygrometers).
Calorimetry (Lavoisier's and Bunsen's ice calorimeters).
Convection of heat (hot air and hot water warming apparatus).
Measurement of conductivity for bad conductors (cooling of jacketed hot water tin*).
Measurement of diffusivity for good conductors (Ingenhaus's experiment by melting wax).
Laws of Radiation (null method with thermopile*).
Equality of radiating and absorbing powers.
Selective absorption of transparent bodies (Melloni's experiments*).
General principle of steam engine (furnace, boiler, cylinder, condenser, piston, crank, eccentric, slide valve).

(Trinity Examination.)

As before and in addition:—

Electricity:

Measurement of electrostatic capacity of a conductor (quadrant electrometer and standard capacity).
Comparison of moments of magnets (deflection method*).

Lines of force due to magnets and currents (magnetic curves*).
Laws of electro-magnetic induction (Faraday's experiment*, Arago's disc,* Lenz's law, law of induced electro-motive force).
Machines transforming electro-magnetic into mechanical energy (Morse telegraph, telephone and microphone, electric bell).
Machines transforming mechanical into electro-magnetic energy (Clarke's magneto, Gramme dynamo).
Machine altering electro-magnetic energy (Ruhmkorff's coil).
Peltier's thermo-electric effect (thermopile).

(Degree Examination.)

As before.

Chemistry.

(Hilary Examination.)

Reynolds' Experimental Chemistry, to the end of chap. LIII.
Practical.—Analysing any simple salts.

(Trinity Examination.)

Reynolds' Experimental Chemistry, to the end of chap. LX.
Practical.—As before, with identification of common organic acids.

(Degree Examination.)

Reynolds' Experimental Chemistry, to the end of chap. LXVII.
Practical.—As before.

30. Syllabus of Course in Natural Science.

Hilary Examination.

Geology, ...	Huxley, Physiography.
Zoology	As in Junior Sophister year, with Macalister, Vertebrates (London Science Class-book Series (Fishes)).
Botany, ...	Strasburger's Text-Book—The Thallophyta. With all the business of the Junior Sophister Year.

Trinity Examination.

Geology, ...	As before, with Page's Introductory Text-book of Geology, edited by Lapworth.
Zoology, ...	As before, with Macalister, Vertebrates (London Science Class-Book Series): Reptiles and Birds.
Botany, ...	Strasburger's Text-Book—The Bryo- and Pterido-phyta. With the business of the Junior Sophister Year, and that for the previous Hilary Examination.

	DEGREE.
GEOLOGY, ...	As before.
ZOOLOGY, ...	As before, with Macalister, Vertebrates (London Science Class-Book Series): Mammals.
BOTANY, ...	Strasburger's Text-Book—The Phanerogamia to p. 463, with the following:—Ranunculaceæ; Papaveraceæ; Cruciferæ; Leguminoseæ; Rosaceæ; Umbelliferæ; Compositæ; Solanaceæ; Labiatæ; Euphorbiacæ; Liliaceæ; Graminaceæ. The business of the Junior Sophister Year, and that of the two previous Examinations.

31. Admission of Students from the Universities of Oxford and Cambridge.

Students in Arts, of the Universities of Oxford and Cambridge, desiring to become Members of the University of Dublin, will be allowed credit for their previous Academic attendance, according to the following rules :[a]—

1. Students in Arts who have kept, by residence, three Terms at Oxford, and have passed the Examination called "Responsions," will be entitled to be placed in the Senior Freshman Class.

The same standing will be allowed to Cambridge Students who have kept, by residence, two Terms, and have passed the "Previous Examination."

2. Students in Arts who have kept, by residence, six Terms at Oxford, and have passed the "First Public Examination," will be entitled to be placed in the Junior Sophister Class.

The same standing will be allowed to Cambridge Students who have kept, by residence, four Terms, and passed the "Previous Examination."

3. Oxford Students who have kept, by residence, nine Terms, and have passed the "First Public Examination," will be entitled to be placed in the Senior Sophister Class.

The same standing will be allowed to Cambridge Students who have kept six Terms, and passed both parts of the "General Examination."

4. Students in Arts who have kept, by residence, twelve Terms at Oxford, and have passed the "First Public Examination," will be admitted to the Examination for the Degree of A. B.

The same privilege will be allowed to Students who have kept nine Terms at Cambridge, and have passed both parts of the "General Examination for the Degree."

---

[a] Adopted by the Board, April 23, 1878, and by the Council, May 15, 1878.

5. Students from Oxford or Cambridge desiring to be placed on the Books of Trinity College, Dublin, must produce, in addition to their Certificate of the Terms kept by residence, a Certificate of good conduct, signed by the Head of their College or Hall, or by the Censor of Non-Collegiate Students.

32. Recognition of Arts Studies of certain Colonial and Indian Universities and Colleges.

The University of Dublin is prepared to recognize the Arts studies of the following Colonial and Indian Universities, and such others as the Board and Council may from time to time direct to be added to that list[a]:—

The Universities of Adelaide, Allahabad, Bombay, Calcutta, Cape of Good Hope, Madras, Melbourne, M'Gill (Montreal), New Brunswick, New Zealand, The Punjab, Sydney, Tasmania, Toronto.

The privileges in Arts granted to the Students of such Universities are as follows:—

Any Student producing the proper Certificates that he has passed two years in Arts studies at such Universities or Colleges, and has passed the Examinations belonging to that period, will be entitled to put his name on the College books as a Senior Freshman, or Student with one year's credit; with this reservation, that if it shall appear that the Course of Arts which he has pursued does not include all the subjects of the Junior Freshman year, the Senior Lecturer may require him to qualify by Examination in the omitted subject or subjects within one month after his name shall have been entered on the books.

33. Honors and Prizes.

A number of Studentships, Scholarships, Exhibitions, Prizes, Honors, and Sizarships, are awarded each year to deserving Students, both in the Arts Course and in the Professional Schools. A summary of these is given on page 156.

It is a condition precedent to the award of every Prize that sufficient merit must be shown.

Some of the Honors and Prizes specially connected with the regular Undergraduate Course are enumerated below. For further particulars concerning these and the other Prizes, see under 'Honor Examinations,' 'Scholarships,' 'Moderatorships,' and 'Special Prizes.'

[a] Resolution of the Board and Council, March 10, 1900.

For Prizes obtainable in connexion with Entrance, see § 4.

Prizes obtainable at Lectures.

Premiums, of the value of £1 10*s.* in books are awarded each Term for proficiency in Classical Composition, on the recommendation of the Lecturer, to Freshmen Students attending Honor Lectures in Classics, and keeping the Term.

The Professors of English Literature, of the Romance Languages, and of German, are each authorized to recommend for a Prize of the value of £2 in books, in Composition, the best Candidate among the Students attending his Class during the Term.

Catechetical Premiums.

Catechetical Premiums of the value of £2 in books are awarded in accordance with the conditions given under 'Catechetical Course,' § 34.

Term Honor and Prize Examinations.

In each Term, Examinations are held, at which Honors of the First and Second Rank are awarded to Candidates who exhibit sufficient merit. In Michaelmas Term, Prizes to the value of £4 and £2 are awarded to the Candidates who obtain First and Second Honors respectively.[a] The successful Candidates can select Books, to the value of their Prizes, at the University Booksellers, and can have the College arms stamped on the covers of bound Books; in the case of Prizes in Experimental or Natural Science, Scientific Instruments, with an inscription thereon, may be substituted for books, if approved by the Senior Lecturer on the report of the Professor; or the successful Candidates may, on the recommendation of their Tutors to the Bursar, apply the amounts gained to the payment of their College Fees or Incidentals then due.

The marks at certain of these Examinations count towards the Senior Exhibitions (see under 'Senior Exhibitions').

Subjects of Honor and Prize Examinations.

(*a*) Mathematics.	(*e*) Natural Science.
(*b*) Classics.	(*f*) Modern History and Political Science.
(*c*) Logics, or Logics and Ethics.	(*g*) Modern Literature.
(*d*) Experimental Science.	(*h*) Legal and Political Science.

[a] The following Order of the Board with regard to the duties of the University Booksellers in Dublin, was made on May 20, 1843:

"It is ordered by the Board that the Students who obtain College Premiums may direct the College Booksellers to procure for them any suitable books as Premiums which continue to be offered for sale in the priced catalogues of London, Dublin, or Edinburgh, and at the prices marked in the said catalogues; and when the selling price of a book is recognised by the Trade as having fallen below the publication price, the College Booksellers are to supply the book at such recognised reduced price.

"This notice is to be printed and put in two conspicuous places in the Booksellers' Shop."

No Student who has dropped a Class will be allowed to present himself, as a Candidate for Honors, at any Examination, in a subject in which he has previously obtained Honors at the corresponding Examination of the Class from which he has dropped.

All Junior and Senior Sophister Candidates for Honors in Hilary and Trinity Terms are required to give at least one week's notice of their intention to present themselves at these Examinations.[a]

Moderatorship and Medal Examination.

A Student who desires to graduate in Honors at the Degree may substitute one of the Moderatorship Examinations for the ordinary Degree Examination. Moderatorships are granted in each of the eight subjects of the Honor Courses.

Of the successful Candidates in the eight departments, there are two ranks, called Senior and Junior Moderators.

The Senior Moderators receive gold medals, and the Junior Moderators silver medals; which are given to them publicly before the University, by the Chancellor or Vice-Chancellor, at the Commencements at which they are admitted to their Degrees. The first Senior Moderator in each department receives a large gold medal, if specially recommended by the Court of Examiners.

Prizes are also awarded to the Moderators in order of merit.

A Student who has dropped a Class after the Michaelmas Examination of the Junior Sophister year, or who has dropped more than one Class, will be allowed to compete at any of the Moderatorship Examinations, but, if successful, he will not be placed in the order of merit amongst the Moderators, but will be added to the list as a Supplemental Moderator, Senior or Junior; and he will not be entitled to the Exhibition of £10, awarded to Scholars who become Senior Moderators[b] (see page 111).

A Student who would not be entitled to present himself at the ordinary Degree Examination until January, will not be permitted to compete for a Moderatorship unless he previously obtains the special permission of the Board.

A Student who fails in obtaining a Medal may nevertheless be allowed the Degree on his answering at the Medal Examination, provided a special recommendation to that effect be made by the Court of Examiners, and his name may then be placed at the foot of such class as the Senior Lecturer may determine.

No Student will be allowed to be a Candidate at the Moderatorship Examination unless his Fees for the current half-year shall have been paid before the first day of Examination.

---

[a] Order of the Board, May 3, 1902.
[b] Order of the Board, March 30, 1859, Resolution of the Board, June 20, 1896.

34. Catechetical Course.

Students who are members of the Church of England or Ireland, or of the Presbyterian Church in Ireland,[a] and who are not in Holy Orders, are required to keep Catechetical Terms.

Catechetical Lectures commence on the days specified in the University Almanac at half-past nine o'clock, and are held every Saturday morning during Term at the same hour, for the two Freshman Classes only.[b] Catechetical Examinations are held at the beginning of each Term (immediately after the Term Examinations), for the benefit of those Students who have not been resident during the preceding Term.

Rules relating to Catechetical Terms and Examinations.—To rise from the Class of Junior Freshman to that of Senior Freshman, one Catechetical Term or Examination, at least, is required. Credit for it must be obtained *in the Junior Freshman year* by all Students, except those who enter in October, and rise to the Senior Freshman Class, but fail to pass the Michaelmas Catechetical Examination. Such Students will be permitted to Supplementalize a Junior Freshman Term in the Senior Freshman year.

On the second afternoon of the Supplemental Hilary Arts Examination of Junior Freshmen in June, there is a Supplemental Examination in the Catechetical subject of the Hilary Examination; but only Junior Freshmen who have not already credit for a Term of Catechetical Lectures, or for a Catechetical Examination, are permitted to present themselves at this Examination.

To rise from the Class of Senior Freshman to that of Junior Sophister, four Catechetical Terms or Examinations must be kept in the two Freshman years, of which two at least must be in the Senior Freshman year, and one must be the Trinity Term of Lectures, or the Michaelmas Examination of that year.[c]

If a Student fail to obtain, either by Lectures or Examination, credit for the Senior Freshman Michaelmas Catechetical Term, he must supplementalize it on the second afternoon of either the Hilary or Trinity Junior Sophister Arts Examination.[d]

If either the Hilary or Trinity Term of the Senior Freshman year shall have been omitted, it may be supplementalized, in order to complete the required number of Terms, at the corresponding Michaelmas and Hilary Catechetical Lectures of the Senior Freshman Class, or at the Hilary or Trinity Junior Sophister Arts Examination (second afternoon).

Credit for two Terms in the same College term will only be given if one of the two is kept by lectures, and the other by Examination.

---

[a] Resolution of the Board, and Council, May 15 and 19, 1886.
[b] Resolution of the Board, November 30, 1889.
[c] Order of the Board, March 6, 1880.
[d] Junior Sophisters presenting themselves at a Supplemental Examination for the Little-Go may take the Catechetical Examination on the afternoon of the second day.

To a Student who exhibits peculiar merit, either at Lectures or at an Examination, a Premium in books of the value of £2 is awarded, unless such a Premium has been previously obtained in the same year, in which case a Certificate is awarded instead.

The fact of having obtained a Prize in the earlier part of the year does not debar a Senior Freshman from being awarded one of the Prizes offered at the end of Trinity Term, or at the Michaelmas Term Examination[a].

Catechetical Lectures and Examinations for Presbyterian Students are conducted by persons nominated by the Presbytery of Dublin whose names have been submitted to and approved of by the Board.

The Results of the Examinations are submitted to the Catechist, in order that he may be satisfied as to the merit of those recommended for Prizes.

The Presbyterian Students are granted Prizes by the Board of the same amount and in the same proportion as the Students of the Church of Ireland.

Subjects of Catechetical Examinations.—The following Table contains the subjects of the Catechetical Lectures and Examinations:—

N. B.—The subjects printed in Italics are to be considered as additional for Honors, and are not required generally.

JUNIOR FRESHMEN.

Mich. Term and Hilary Exam.	The Gospel of St. Luke. *The three other Gospels.*
Hilary Term and Trinity Exam.	The Acts of the Apostles. *Paley's "Horæ Paulinæ"* (Church of Ireland). *Stalker's Lives of Christ and of St. Paul* (Presbyterian Church).
Trinity Term and Mich. Exam.	A.W. Robinson's "Church Catechism explained," omitting pp. 157–167 (Church of Ireland). *The same, including* pp. 157–167, *with a more minute knowledge of the Scriptural references in the volume* (Church of Ireland). Dr. Alex. Whyte on the Shorter Catechism, Questions 82–107 (Presbyterian Church). *Godet's Biblical Studies on the Old Testament* Essays iv., v., vi. (Presbyterian Church).

SENIOR FRESHMEN.

Mich. Term and Hilary Exam.	Genesis, and the first twelve chapters of Exodus (Church of Ireland). Genesis, and the first twenty chapters of Exodus (Presbyterian Church). *The remainder of Exodus, with the Books of Numbers and Deuteronomy.*

[a] See note c on previous page.

Hilary Term and Trinity Exam.	The two Books of Samuel, and first twelve chapters of first Book of Kings. *The remaining history from beginning of Joshua to end of second Book of Kings* (Church of Ireland). *The remainder of the Historical Books* (Presbyterian Church).
Trinity Term and Mich. Exam.	Paley's Evidences, Part I., Proposition i. (Church of Ireland). *Butler's Analogy, Part* II., *chapters* v. *and* vii. (Church of Ireland). Lindsay, The Reformation, Parts I., II., and IV. (Presbyterian Church). *Godet's Lectures in defence of the Christian Faith, Essays* i., v., vi. (Presbyterian Church).

A system of voluntary Catechetical Examinations is extended over the two Sophister years, and the Catechist is authorized to grant a special Certificate to Students who have passed with credit four of these Examinations, of which two at least must be in the Senior Sophister year, one being the Michaelmas Examination of that year.[a]

The Catechist is authorized to extend his Premiums to the Sophister Classes.[a]

Junior Sophisters (Church of Ireland).

Hilary Exam., . .	St. John's Gospel, in Greek and Revised Version. Barrett's Companion to the New Testament.
Trinity Exam., . .	Epistle to the Romans in Greek, and Revised Version. Westcott's Bible in the Church.
Michaelmas Exam.,	First Epistle to the Corinthians in Greek, and Revised Version. Blunt's Sketch of the History of the First Three Centuries.

Senior Sophisters (Church of Ireland).

Hilary Exam., . .	Epistle to the Galatians in Greek, and Revised Version. Anselm's *Cur Deus Homo*, in Latin.
Trinity Exam., . .	Epistle to the Hebrews in Greek, and Revised Version. Blunt's History of the Reformation Period. Jewel's Apology, in Latin.
Michaelmas Exam.,	English Bible. Boultbee on the Articles.

Junior Sophisters (Presbyterian Church).

Hilary Examination—

St. John's Gospel, in Greek, and Revised Version, with Naville's "The Christ."

[a] Resolutions of the Board, July 2, 1881, and March 8, 1885.

TRINITY EXAMINATION—

Epistle to the Romans, in Greek, and Revised Version, with Dr. David Brown's Handbook on the Epistle, and the "Philosophy of the Plan of Salvation," by an American Citizen.

MICHAELMAS EXAMINATION—

Epistle to the Galatians, in Greek, and Revised Version, with Mac Gregor's Handbook on Galatians, and Binnie on "The Church."

SENIOR SOPHISTERS (Presbyterian Church).

HILARY EXAMINATION—

Epistle to the Philippians, in Greek, and Revised Version, with Bishop Lightfoot's "Commentary."

TRINITY EXAMINATION—

Epistle to the Hebrews in Greek, and Revised Version, with Davidson's "Handbook on the Epistle to the Hebrews."

MICHAELMAS EXAMINATION—

English Bible, with M'Pherson's Handbook on the "Westminster Confession of Faith."

Honor Courses.

STUDENTS may become Candidates for Honors in the following subjects, at each Term Examination in the Undergraduate Course:

JUNIOR FRESHMEN,	Mathematics; Classics.
SENIOR FRESHMEN,	Mathematics; Classics; Logics.
JUNIOR SOPHISTERS,	Mathematics and Mathematical Physics; Classics; Logics; Experimental Science; Natural Science; Modern History; Modern Literature; Legal and Political Science.
SENIOR SOPHISTERS,	Mathematics and Mathematical Physics; Classics; Ethics; Experimental Science; Natural Science; History and Political Science; Modern Literature; Legal and Political Science.

Prize Examinations are also held in the following subjects, in the Michaelmas Term of the Senior and Junior Freshman years:

Modern History.
English Literature and Composition.
French.
German.
Experimental Science.
Natural Science.

At the B. A. Degree Examination, Students may graduate in Honors in eight subjects, viz.:—

Mathematics and Mathematical Physics.
Classics.
Logics and Ethics.
Experimental Science.
Natural Science.
History and Political Science.
Modern Literature.
Legal and Political Science.

The regulations by which the rank and value of the various Honors and Prizes are determined have been already given (see above, under the head "Honors and Prizes").

It is to be remarked, that at all Examinations for Honors except in Mathematics, Candidates are liable to be examined in the *ordinary* subjects of Examination of the Course in which they present themselves for Honors *in addition* to those specified below.

§ I.—Mathematics.

[The Student is liable to examination in any Term in the whole of the previous Honor Course. The following list contains only the subjects additional in each Term.]

Junior Freshmen.

Mich. Lect. and Hilary Exam.

- Algebra: Arithmetical and Geometrical Progression—Scales of Notation—Surds and Imaginary Quantities—Quadratic Equations and Simultaneous Equations of 2nd Degree—Permutations and Combinations — Binomial Theorem for Positive Integral Index—Hall and Knight's Higher Algebra, Chaps. i.–xiii. (inclusive).
- Trigonometry: to the end of the Solution of Plane Triangles, excluding Logarithms.
- Geometry: Deductions from Euclid. Elementary Theory of Maxima and Minima—Mean Centres — Perspective — Transversals—Inversion—Poles and Polars—Coaxal Circles. Casey's Sequel: to end of Section vii., Book vi.

Hilary Lect. and Trinity Exam.

- Algebra: Binomial Theorem—Logarithms—Exponential and Logarithmic Series — Partial Fractions — Continued Fractions — Algebraic Series. Hall and Knight's Higher Algebra, Chaps. xiv., xv., xvi., xvii., xxiii., xxiv., xxv., xxix.
- Burnside and Panton's Theory of Equations: Chaps. i., ii., iii., iv.
- Trigonometry: Numerical Solution of Triangles—De Moivre's Theorem—Exponential Forms of Trigonometric Functions — Trigonometric Series.
- Geometry: Analytical Geometry of the Right Line, Salmon's Conic Sections, Chaps. i., ii., iii., and v.

Trinity Lect. and Mich. Exam.

- Convergency of Series: Hall and Knight's Higher Algebra, Chap. xxi.
- Solution of Cubic — Biquadratic — Sturm's Theorem—Horner's Method of Solving Numerical Equations, Burnside and Panton's Theory of Equations, Chaps. v., vi., vii., viii., x. from Art. 96 to end, xi. from Art. 108 to 111 (inclusive).
- Williamson's Differential Calculus: Chaps. i., ii., iii.
- Salmon's Conic Sections, Chaps. vi., vii. and x.
- Spherical Trigonometry: The Relations between the Sides and Angles of a Spherical Triangle, the Radii of Inscribed and Circumscribed Circles, and Spherical Excess.

Senior Freshmen.

Mich. Lect. and Hilary Exam.

- Burnside and Panton's Theory of Equations, Chap. xiii., omitting Applications to Geometry.
- Williamson's Differential Calculus: Chaps. v., to Art. 112, ix. and xii.
- Williamson's Integral Calculus: Chap. i.
- Williamson and Tarleton's Dynamics: Chaps. i., ii., iii., and iv.
- Minchin's Statics: Chaps. i., ii., and iii.

Hilary Lect. and Trinity Exam.

- Salmon's Conic Sections: Chaps. xi., xii., and xiii.
- Taylor's Geometrical Conics (smaller edition).

  Note—*Geometrical or Analytical Solutions of questions will be accepted unless the Candidates are restricted by the Examiner to one method or the other.*
- Williamson's Integral Calculus: Chaps. ii., iii., and iv.
- Williamson and Tarleton's Dynamics: Chaps. v. and vi.
- Minchin's Statics: Chaps. iv., v., vi., and viii.

Trinity Lect. and Mich. Exam.

- Salmon's Conic Sections: The Abridged Notation of the Line, Circle, and General Conic, and Properties of two or more Circles, chaps. iv., viii., ix., and xiv.
- Williamson's Differential Calculus: Chaps. vi., viii., xiii. to Art. 277 Chap. xix.
- Williamson's Integral Calculus: Chaps. v., vi., to Art. 99, vii., and viii.
- Williamson and Tarleton's Dynamics: Chap. vii.
- Minchin's Statics: Chaps. vii., ix., and x.

Junior Sophisters.

Mich. Lect. and Hilary Exam.

- Salmon's Geometry of Three Dimensions—Articles 1–57, 58–80, 81–121 (all inclusive).
- Minchin's Statics—Chaps. xi. to end of Article 168 and xii.
- Williamson and Tarleton's Dynamics—Chaps. viii. and ix.
- Williamson's Integral Calculus—Chaps. ix. and x.
- Forsyth's Differential Equations — Chaps. ii. Articles 13–22, inclusive, and v. Articles 108, 109, 110.

Hilary Lect. and Trinity Exam.

- Williamson and Tarleton's Dynamics—Chap. x.
- Tarleton's Introduction to the Mathematical Theory of Attraction—Chaps. i., ii. to end of Article 17, iii., and iv. to end of Article 52.
- Minchin's Statics—Chap. xiii. Articles 198–219, inclusive.
- Besant's Hydromechanics—Chaps. i.–v., inclusive.
- Forsyth's Differential Equations—Chaps. i., the remainder of ii., iii., and iv. (omitting Articles 64 and 67 to end of Chap.).

Trinity Lect. and Mich. Exam.

- Williamson and Tarleton's Dynamics—Chap. xi. to Article 268, inclusive.
- Tarleton's Introduction to the Mathematical Theory of Attraction—to end of Chap. iv., with omissions as in the Course for Moderatorship.
- Godfray's Astronomy.
- Burnside and Panton's Theory of Equations—Chaps. xiv., xv., xvi. to Article 179, inclusive. (The candidates are also recommended to read the Chapter in Salmon's Higher Algebra on Linear Transformation.)
- Forsyth's Differential Equations — Chaps. iv. Articles 67 to end, v. Articles 83–92, inclusive, 101, 102, vi. Articles 113–116, inclusive, and viii. Articles 146, 147, 150–174, inclusive.

Senior Sophisters.

Mich. Lect. and Hilary Exam.

- Tarleton's Introduction to the Mathematical Theory of Attraction—The remainder of the book as in the Course for Moderatorship.
- Williamson and Tarleton's Dynamics—to end of Section 1, Chap. xii., omitting Articles 270, 279.
- Forsyth's Differential Equations—Chap. ix. to Article 207, inclusive.
- Salmon's Geometry of Three Dimensions—Articles 122–205, inclusive.

Hilary Lect. and Trinity Exam.

- Williamson and Tarleton's Dynamics—the remainder of Chap. xii., and Chap. xiii., omitting Articles 305–310, inclusive.
- Williamson's Introduction to the Mathematical Theory of the Stress and Strain of Elastic Solids—the first four Chaps., omitting Section 3, Chap. i., and Article 69.
- Salmon's Geometry of Three Dimensions—Arts. 262–274, 288–294, 300–313, 358–361, 364–366, 375, 376, all inclusive.
- Forsyth's Theory of Functions—the first four Chaps.

§ II.—Classics.

The principle on which the Honor Examinations in Classics are conducted is to test the proficiency of the Student on the following points:

First. As to his minute and critical knowledge of certain defined portions of the Greek and Latin authors.

Secondly. As to his general and independent knowledge of the Greek and Latin languages, and their literature, to be proved by his ability to write an accurate version of passages from the prescribed Honor Course, and also from Classical works not prescribed; as well as to answer, in writing, general questions connected with the languages, and their literature.

Thirdly. As to his power of expressing the full meaning and force of an ancient author, by writing such a translation of a given passage as may deserve commendation, not merely for its correctness as a version of the original, but for its excellence as a piece of English Composition.

With these objects in view, the manner of conducting the Classical Honor Examinations is as follows:

1. Candidates for Honors will be separately examined, *vivâ voce*, in the text-books of the ordinary Classical Course (except at the Junior Freshman Hilary Examination), and in the portions of the Honor Course marked in Italics, in the following Table.

2. Passages will be proposed for written translation, taken from the works of the Greek and Latin writers named in the following list:—

JUNIOR FRESHMEN.

Mich. Lect. and Hilary Exam.	Euripides, *Medea*, *Bacchae*, Hercules Furens. Horace:—*Odes* I. II, *Epodes*, *Carmen Seculare*. Ovid's Heroides, edited by Palmer (Clarendon Press), I.–XIV., inclusive.
Hilary Lect. and Trinity Exam.	Homer:—*Odyssey*, XXI. XXII.; Odyssey, X.–XVII., inclusive. Cicero:—*Philippic* II.—Pro Sestio.
Trinity Lect. and Mich. Exam.	Herodotus:—*Book* I.; Books VI. VII. Livy:—*Books* XXII. XXIII.; Books XXIV. XXV.

SENIOR FRESHMEN.

Mich. Lect. and Hilary Exam.	Plato:—*Gorgias;* Phaedo. *Cicero in his Letters*, I.–XXXIII.; Cicero in his Letters XXXIV.-LXXX. (Tyrrell's Edition, published by Macmillan).
Hilary Lect. and Trinity Exam.	Sophocles:—*Œdipus Coloneus;* Antigone. Terence:—*Phormio.* Plautus:—*Miles;* Amphitruo.

TRINITY LECT. AND MICH. EXAM.	Homer:—*Iliad, Books* XXI. XXIII.; Iliad, Books XIII.–XX. Virgil:—*Æneid, Books* VIII. IX.; Æneid, Books VII.–XII. Ovid, Metamorphoses, Book XIII.

JUNIOR SOPHISTERS.

MICH. LECT. AND HILARY EXAM.	Thucydides:—*Book* I.; Books III. IV. Tacitus:—*Histories, Books* I.II.; Histories, Books III. IV.
HILARY LECT. AND TRINITY EXAM.	Demosthenes:—*De Corona.* Æschines:—In Ctesiphontem. Juvenal:—*Satires* I. IV. VII. XIV. Persius:—Satires I. II. III. V. VI.
TRINITY LECT. AND MICH. EXAM.	Æschylus:—*Agamemnon;* Septem contra Thebas. Lucretius:—*Books* I. II.; Books III. V. and VI.

SENIOR SOPHISTERS.

MICH. LECT. AND HILARY EXAM.	Aristotle:—*Nicomachean Ethics, Book* VI.; Nicomachean Ethics, Books I. III. IV. V. Cicero:—*De Officiis, Books* II. III.; De Finibus, Books I. II. III.; Tusculan Disputations, Book I.
HILARY LECT. AND TRINITY EXAM.	Plato:—*De Republicâ, Books* II. III.; De Republicâ, Books IV. V. Virgil:—*Eclogues; Georgics, Books* II. III. Horace:—*Epistles, including the Art of Poetry.*

3. One or more passages will also be proposed for written translation from the *other* works of Greek or Latin Prose or Poetical authors specified for each Examination, with a view of testing the Candidate's general knowledge of the languages.

4. Papers of questions will be proposed in Ancient History and Geography, Grammar, and General Literature, and also subjects for Composition in Greek and Latin Prose, Greek and Latin Verse.

5. During the first three years, Candidates for Honors will be regularly lectured and examined in definite portions of Ancient History, Literature or Philology; and, at each Examination, the Candidates will be liable to be examined in the portions appointed for the previous Examinations.

The following Table shows the prescribed Courses in History and Literature until further notice:—

JUNIOR FRESHMEN.

HILARY EXAMINATION.

Greek,	Mahaffy's Greek Literature, vol. I., chaps. 14 to 17.
Roman,	Tyrrell's Latin Poetry, chaps. 1 to 7.

TRINITY EXAMINATION.

Greek, . Mahaffy's Greek Literature, vol. I., chaps. 1 to 5.
Bury's History of Greece, chaps. 1, 2.
Roman, . How and Leigh's History of Rome, chaps. 31 to 52.

MICHAELMAS EXAMINATION.

Greek, . Mahaffy's Greek Literature, vol. II., chaps. 1, 2.
Bury's History of Greece, chaps. 3 to 8.
Roman, . How and Leigh's History of Rome, chaps. 17 to 30.

SENIOR FRESHMEN.

HILARY EXAMINATION.

Greek, . Bury's History of Greece, chaps. 9 to 11.
Roman, How and Leigh's History of Rome, chaps. 31 to 52.

TRINITY EXAMINATION.

Greek, . Bury's History of Greece, chaps. 12 to 15.
Roman, . How and Leigh's History of Rome, chaps. 1 to 17.
Tyrrell's Latin Poetry, chaps. 1, 2.

MICHAELMAS EXAMINATION.

Greek, . Bury's History of Greece, chaps. 1 to 8.
Roman, . Bury's Student's Roman Empire, chaps. 1 to 13.
Sellar's Virgil, chaps. 2, 3, 8 and 9.
Tyrrell's Latin Poetry, chap. 5.

JUNIOR SOPHISTERS.

HILARY EXAMINATION.

Greek, . Mahaffy's Greek Literature, vol. II., chaps. 4, 5.
Bury's History of Greece, chaps. 9 to 15.
Roman, . Bury's Student's Roman Empire, chaps. 14 to 21.

TRINITY EXAMINATION.

Greek, . Bury's History of Greece, chaps. 16 to 18.
Roman, . Bury's Student's Roman Empire, chaps. 14 to 25.
Tyrrell's Latin Poetry, chaps. 7, 8.

MICHAELMAS EXAMINATION.

Greek, . Mahaffy's Greek Literature, vol. I., chaps. 15, 16.
Haigh's Attic Theatre.
Roman, . Bury's Student's Roman Empire, chaps. 26 to end.
Tyrrell's Latin Poetry, chaps. 1 to 8.

§ III.—Logics and Ethics.

SENIOR FRESHMAN YEAR.

Honors in Logics are given at each Examination in the Senior Freshman year; and the following Course has been appointed, in addition to the ordinary subjects of Examination:—

N.B.—In all cases the Candidates for Honors in Trinity Term are liable for the Course of the preceding Term; and the Candidates in Michaelmas Term are liable for the Courses of the two preceding Terms.

Mich. Lect. and Hilary Exam.	Monck's Logic. Keynes' Formal Logic, Parts i., ii., iii.
Hilary Lect. and Trinity Exam.	Mill's Logic, Book ii. and Book iii.
Trinity Lect. and Mich. Exam.	Mill's Logic, Book iv. Bacon, Novum Organum, Book i. and Book ii., Aphorisms, i.–x. Bacon, De Augmentis Scientiarum, Book v.

These Examinations will be conducted both *vivâ voce* and by papers.

JUNIOR SOPHISTER YEAR.

The Honor Course in Logics for Junior Sophisters is as follows:—

Mich. Lect. and Hilary Exam.	Höffding's Psychology, pp. 1–220 (English Translation). Locke's Essay on the Human Understanding, Introduction and Books ii. and iii.
Hilary Lect. and Trinity Exam.	Locke's Essay on the Human Understanding, Book iv. Kant, Kritik of Pure Reason — Æsthetic. [Mahaffy and Bernard's *Kant's Critical Philosophy for English Readers* is recommended.]
Trinity Lect. and Mich. Exam.	Kant, Kritik of Pure Reason—Analytic. Schwegler's History of Philosophy (Stirling's Translation), Chapters 1–23, inclusive.

SENIOR SOPHISTER YEAR.

The Honor Course in Ethics for Senior Sophisters is as follows:—

MICH. LECT. AND HILARY EXAM.	Bishop Butler's Sermons (with Preface), except the Sermons on Public Occasions. Butler's Essay on Virtue. Aristotle's Nicomachean Ethics, Books I., II., III., and IV. (Aristotle's Terminology to be known in the original). Zeller on the Stoics, Chaps. X.–XIV.
HILARY LECT. AND TRINITY EHAM.	Aristotle's Nicomachean Ethics, Books VI.–X., inclusive. Zeller on the Epicureans, Chaps. XIX.–XXI. Mill, Utilitarianism.

§ IV.—EXPERIMENTAL SCIENCE.

Candidates in Experimental Science are required to answer in two Courses, one in Experimental Physics, the other in Chemistry. The following Syllabus is intended to indicate the general lines on which the Lectures and practical work will be arranged. The Examination in each Term will be more especially upon the work of the preceding Term, but at the same time Students will be liable for any of the previous work.

JUNIOR AND SENIOR FRESHMAN YEARS.

Prizes are given in Experimental Science at the close of the Junior and Senior Freshman Years. The Examinations for these Prizes are held in Michaelmas Term, on days specified in the University Almanac. The following Course has been appointed:—

JUNIOR FRESHMEN.

Course in Experimental Physics.

Methods of accurate measurement of length, area, volume, time, and mass. Plotting of curves, the slope and area of curves.

The parallelogram of forces, the laws of motion, the acceleration due to gravity, the pendulum and balance wheel, impulse, momentum, impact, the simple machines, the laws of friction, the laws of fluid pressure, the flow of liquids, Boyle's law, the measurement of atmospheric pressure, the density of solids, liquids, and gases, surface tension.

The use of lenses, magnifying glasses, and the micrometer eyepiece.

Practical Work.—Measurement by means of the vernier, micrometer screw, spherometer, callipers, balance, squared paper, planimeter, and specific gravity bottle; construction of measuring glasses; plotting of curves; measurement of the acceleration due to gravity, of the density of substances, of liquid and air pressure, of surface tension; determination of the focal lengths of lenses and mirrors; verification of the various laws referred to above.

Course in Inorganic Chemistry.

The subjects specified for Entrance Prizes; the general relations of gas density to molecular weight; the law of diffusion of gases and its experimental verification.

The usual methods of preparation and the chief properties of the non-metallic elements and of their principal compounds. Determination of the equivalents and atomic weights of the common elements and basicity of acids.

General characters of metals as compared with those of non-metals. Determinations of the electro-chemical relations of the metals under varying conditions.

Practical Work.—The experimental verification of equations expressing simple interactions and the systematic analysis of salts for negative radicals only, and simple quantitative experiments.

SENIOR FRESHMEN.

Course in Experimental Physics.

Characteristics of liquids, solids, and gases, compressive and shearing strains and stresses, Young's modulus of elasticity. Diffusion.

The simpler phenomena of Heat—

Temperature, the expansion of substances, calorimetry, the laws of fusion and evaporation, saturated vapours, the hygrometric state of the atmosphere, convection of heat.

The simpler phenomena of Magnetism and Electricity—

The laws of magnetic force, magnetic induction, magnetic effects of electric currents, methods of measuring current strength, development of heat in a simple circuit, measurement of electric pressures and resistances, Ohm's law, electromagnets, electric bells, telegraphs and telephones.

The simpler phenomena of Sound—

The vibrations of particles and bodies, wave motion, resonance, velocity of sound propagation in air, measurement of wave-length and frequency. Vibrating strings. Organ pipes.

The simpler phenomena of Light—

Reflection and refraction, prisms, lenses, indices of refraction, dispersion, photometry, the construction and magnifying power of telescopes and microscopes.

Practical Work.—Measurement of Young's modulus, coefficients of expansion, specific heats, latent heats of ice and steam, dew-point by Dines' hygrometer; plotting lines of magnetic force, measurement of moment of magnet and the horizontal component of the earth's force, electric currents, pressures, and resistances, measurement of velocity of sound in air, of wave-length and frequency, of the relative intensities of two lights, of the angle between two reflecting surfaces, and of refractive index. Verification of the various laws referred to in the above.

Course in Inorganic Chemistry.

Abnormal densities, dissociation, atmolysis, exothermic and endothermic reactions.

Metals.—Methods of separation from ores and chief properties of the common metals; production of their principal oxides, hydroxides, sulphides, and salts; preparation and crystallization of salts. Classification of crystalline forms. Isomorphism. Mitscherlich's law.

Law connecting specific heats and atomic weights of solid elements. Use of the atometer. Periodic classification of elements, as in Reynolds' Inorganic Chemistry.

Course in Organic Chemistry (Elementary).

The derivatives of Marsh gas and its homologues, fermentation, hydrolysis, and saponification, as represented by the first eight chapters of Reynolds' Organic Chemistry.

Practical Work.—Systematic analysis of simple salts and recognition of common organic acids. Determination of molecular weight of acids and bases. Volumetric estimation of acid and alkaline substances.

Honors in Experimental Science are given at each Examination in the Junior and Senior Sophister years.

JUNIOR SOPHISTERS.

Hilary Examination.

Course in Experimental Physics.

General properties of matter, moments of inertia, variation of atmospheric pressure with height, compressibility of solids and liquids, elastic properties of solids, torsion, flexure, work done by elastic forces.

Heat.—Mechanical equivalent of heat, air and platinum thermometers, weight thermometer, cubical expansion of solids, Regnault's experiments on the expansion of gases, maximum density of water, Regnault's experiments on steam pressure, critical temperature, pressure, and volume; change of volume accompanying change of state, Joly's steam calorimeter, wet and dry bulb hygrometer, chemical hygrometer, Bunsen's ice calorimeter, conductivity, diffusivity, radiation, equality of radiating and absorbing powers, selective absorption, diathermancy. The steam engine. Meteorology.

Practical Work.—Use of the cathetometer, dividing engine, chemical balance, Kater's pendulum, piezometer; use of weight and air thermometers, Joly's steam calorimeter and Bunsen's ice calorimeter, measurement of vapour density and pressure, wet and dry bulb hygrometer, correction for radiation in calorimetry, measurement of heat of combustion, specific heat of gases, conductivity, diffusivity, mechanical equivalent of heat.

Course in Chemistry.

Modern theories of solution, molecular volume and weight determinations, and Electro-Chemistry only so far as treated in Reychler's or Ostwald's Outlines of Physical Chemistry. Also unsaturated hydrocarbides and their chief derivatives, specially those of the C_nH_{2n} series, as in Reynolds' Organic Chemistry.

Practical Work.—Analysis of mixed substances containing not more than two metals. Detection of alkaloids and organic acids. Volumetric analyses involving oxidation and reduction.

Trinity Examination.

Electricity and Magnetism.

Molecular nature of magnetism, terrestrial magnetism, bifilar and vertical magnetometers, dip circle, declination circle; mirror galvanometer, magnetic system of units, ballistic galvanometer, magnetic permeability, electro-magnetic induction, construction of dynamos and motors, Ruhmkorff's coil, electrolysis, migration of ions, potentiometer, chemical batteries, polarisation, thermo-electricity, electrical radiation.

Electrostatics.—Laws of force, distribution on conductor, induction, electroscopes, condensers, machines, quadrant and guard-ring electrometers, electrostatic voltmeter, capacity.

Practical Work.—Use of bifilar magnetometer, dip and declination circles, mirror and ballistic galvanometers, voltameters, measurement of rate of migration of ions, use of potentiometer, measurement of capacity by quadrant electrometer and by ballistic galvanometer, measurement of low and high resistance, and of magnetic permeability.

Course in Chemistry.

The periodic relations and general properties of the rarer elements. Thermo-chemical changes. Spectrum analysis. The carbo-hydrates and synthetic sugars. Isomerism and stereo-isomerism. Benzene and its mono- and di-derivatives.

Practical Work.—General volumetric analysis and gravimetric estimations of single common metals as in Clowes' and Coleman's quantitative analysis. Experimental verifications of laws connecting electro-chemical properties of substances with molecular weight and constitution.

Michaelmas Examination.

Sound.—Graphic and analytical representation of vibration and wave-motion, compounding vibrations, interference, diatonic scale and temperament, intervals, summation and difference tones, vowel sounds, vibrations of bars and plates, compounding vibrations in rectangular planes,

Kœnig's flames, phonograph, resonators, Döppler's principle, photographic records.

Light.—Velocity of propagation, wave theory, reflection and refraction, rectilinear propagation and diffraction, interference, Newton's rings, rainbow.

Practical Work.—Use of syren, graphic measurement of frequency, determination of velocity of sound, Kundt's method, optical method of compounding vibrations, use of resonators, diffraction grating, biprism, Fresnel's mirrors, Newton's rings, plotting spectrum.

Course in Chemistry.

As in Ostwald's Outlines of Physical Chemistry, and Reynolds' Organic Chemistry.

Practical Work.—Preparation of simple organic substances, and determinations of their physical constants.

NOTE.—The quantitative practical work in Experimental Physics and Chemistry carried out and properly recorded during this year will be taken into account in deciding the merits of candidates.

SENIOR SOPHISTERS.

HILARY EXAMINATION.

Course in Experimental Physics.

Thermodynamics. — Indicator diagrams, isothermal and adiabatic changes, specific heats, efficiency, reversible engines, absolute scale of temperature, flow of gas through a porous plug. Kinetic theory of gases.

Electricity.—Alternating currents, dynamometers, Cardew's voltmeter, Kelvin balance, ammeters and voltmeters, self-induction and mutual induction, secohmmeter, transformers, characteristics of series, shunt, and compound dynamos, efficiency of electric transmission of power, B.A. measurement of the Ohm, Lorentz' method, induction motors, polyphase currents, theory of telegraphy.

Practical Work.—Taking indicator diagram, determination of effects of salts in solution on freezing and boiling points.

Measurement of coefficients of self- and mutual induction, capacity, strong magnetic fields, efficiency of motors and lamps, plotting characteristics of dynamos, standardising dynamometers and voltmeters.

Course in Chemistry.

In this year the order of the Junior Sophister Course will be followed at the Term Examinations, but fuller information will be expected in each branch, and students are advised to use for reference Richter's Organic Chemistry, Mendeleef's General Chemistry, Nernst's or Walker's Physical Chemistry, and Fresenius' Analysis.

Practical Work.—Extensions of that of the Junior Sophister year, and in addition applications of analysis to natural products.

Trinity Examination.

Course in Experimental Physics.

General properties of matter—Pressure in flowing fluid, spray distributors, momentum and energy of fluid, viscosity, electric chronograph, rates of diffusion, spheroidal state.

Light.—Colours, achromatism, anomalous dispersion, polarization, Fresnel's theory, double refraction, Nicol's, Rochon's, and Wollaston's prisms, wave surface in crystals, conical refraction, metallic reflection, quarter wave plate, Fresnel's rhomb, rings and crosses of polarized light, rotatory polarization, magnetic action on light, production of polarized light.

Practical Work.—Pressure in flowing fluid, measurement of coefficient of viscosity, of velocity of bullet electrically. Plotting anomalous spectrum, determination of focal lines for light through lens in direction inclined to axis, measurement of angle between optic axes of crystal, observation of internal and external conical refraction, measurement of rotatory power of sugar solutions, and of refractive index by polarizing angle.

Course in Chemistry.

See remarks relative to Course for previous Examination.

Practical Work.—Ultimate organic analysis and determination of constitution of selected organic substances; methods of chemical research.

Trinity Term.

During Trinity Term Lectures will be delivered on the Limited Courses for Moderatorship specified for the year.

Each student will take up for his Practical Work during Trinity Term a special subject for investigation.

---

§ V.—Natural Science.

Junior and Senior Freshmen Years.

Prizes are given in Natural Science, at the close of the Junior and Senior Freshman years. The Examinations for these Prizes are held in Michaelmas Term, on days specified in the University Almanac. The following Course has been appointed:—

Junior Freshmen.

Geology[a]—

Dynamical Geology; Surface Actions. Book III. Part ii., of Sir A. Geikie's Textbook of Geology, 3rd edition, is recommended.

[a] Junior and Senior Freshmen taking up Natural Science may attend with advantage the Michaelmas Term Lectures of the Professor of Geology, who will give any information required on application.

BOTANY—

Strasburger; Textbook of Botany. Part I., Section 2, Physiology.

ZOOLOGY—

Entrance Course as before. Anatomy of Earthworm, Insect, Anodon or Mya, Snail. Skull of Rabbit, Dog or Fox, Sheep or Goat, in detail. Arrangement of Teeth in Mammals. Structure of Heart and Breathing organs, and arrangement of large Arteries and Veins in Mammal and Fish. Protoplasm. Structure of typical cell. Classification of Mollusca, Arthropoda, Vertebrata.

SENIOR FRESHMEN.

GEOLOGY[a]—

Dynamical Geology; Plutonic Actions. Book III., Part i., of Sir A. Geikie's Textbook of Geology, 3rd edition, is recommended.

BOTANY—

Strasburger; Textbook of Botany. Part I., Section I., Morphology.

Candidates for this Course are advised to study in the Trinity College Botanical Gardens, cards of admission to which can be obtained from the Professor of Botany.

ZOOLOGY—

Entrance and Junior Freshman Course as before. Anatomy of Amœba, Paramœcium or Vorticella, Hydra, Tapeworm, Starfish. Life history of Frog, Insect, Tapeworm, Hydrozoon. Multiplication of cells. Structure of ovum and spermatozoon. Formation of morula and gastralu. Classification of Protozoa, Cœlenterata, Echinodermata.

Honors are given at each Examination in the Junior and Senior Sophister years.

JUNIOR SOPHISTER YEAR.

HILARY EXAMINATION.

ZOOLOGY, ...	The Ordinary Business, with the Professor's Lectures and Demonstrations in Michaelmas Term on Invertebrates, as far as Molluscs.
BOTANY, ...	The Ordinary Business, with the Professor's Lectures and Demonstrations in Michaelmas Term.

[a] Junior and Senior Freshmen taking up Natural Science may attend with advantage the Michaelmas Term Lectures of the Professor of Geology, who will give any information required, on application.

Trinity Examination.

Zoology, ... As before, with the Ordinary Business, and the Professor's Lectures and Demonstrations in Hilary Term on Molluscs, Fishes, and Amphibians.

Botany, ... As before, with the Ordinary Business, and the Professor's Lectures and Demonstrations in Hilary Term.

Michaelmas Examination.

Zoology, ... As before, with the Ordinary Business, and the Professor's Demonstrations in Trinity Term on Reptiles, Birds, and Mammals.

Botany, ... As before, with the Ordinary Business, and the Professor's Demonstrations in Trinity Term.

SENIOR SOPHISTER YEAR.

Hilary Examination.

Geology . . . . The Ordinary Business, with the Professor's Lectures and Demonstrations in Michaelmas Term.

Haughton: Lectures on Physical Geography.

Zoology, ... All the Zoology of the Junior Sophister Year.

Botany, ... All the Botany of the Junior Sophister Year, with Goebel, Morphology of Plants, pp. 1 to 139 (Thallophytes).

The following orders : Ranunculaceæ, Papaveraceæ, Cruciferæ, Violaceæ, Caryophyllaceæ, Geraniaceæ, Leguminosæ, Rosaceæ, Cucurbitaceæ, Umbelliferæ.

Trinity Examination.

Geology, ... As before.

Palæontology, . . The Professor's Lectures and Demonstrations in Hilary Term.

Zoology, ... All the Zoology of the Junior Sophister Year.

Botany, ... All the Botany of the Junior Sophister Year, with Goebel, Morphology of Plants, as before, and pp. 140 to 298 (Vascular Cryptogams).

The following orders :—Caprifoliaceæ, Compositæ, Primulaceæ, Apocynaceæ, Gentianaceæ, Solanaceæ, Labiatæ, Euphorbiaceæ, Urticaceæ, and Cupuliferæ.

§ VI.—Modern History and Political Science.

JUNIOR AND SENIOR FRESHMAN YEARS.

Prizes are given in Modern History, at the close of the Junior and Senior Freshman years. The Examinations for these Prizes are held in Michaelmas Term, on days specified in the University Almanac. The following Courses have been appointed:—

JUNIOR FRESHMEN.

English History, The Early Plantagenets.—Stubbs's "Early Plantagenets." Hutton's "Misrule of Henry III.," and "Simon of Montfort and his Cause."

Foreign History, Period, 285–1273 A.D.—Oman's "European History," 476–918 A.D. "Student's Gibbon," Chaps. vii.-xxxiv., both inclusive. "The Student's France," up to the death of Louis IX.

SENIOR FRESHMEN.

English History, Period, 1450–1509.—Gairdner's Houses of Lancaster and York. Miss Edith Thompson's Wars of York and Lancaster. Bacon's Henry VII.

Foreign History, Period 1273–1519.—Gibbon's Decline and Fall, Chap. 63 to end. Ashley's Edward III. and his Wars. Those portions of Hallam's Middle Ages, Chaps. 3, 5, 6, and The Student's France, which deal with the period.

JUNIOR SOPHISTER YEAR.

Honors are given in History at each Examination in the Junior and Senior Sophister years. The following Course has been appointed:—

[For the general facts in the histories of England and France, "The Student's Hume" and "The Student's History of France" may be consulted.]

Hilary, . . . *English History.*—Green's Making of England.

Foreign History, General Course.—Europe, 527–800 A.D. (Those portions of Gibbon's Decline and Fall, and Bryce's Holy Roman Empire, which deal with the period.)

Foreign History, Special Course.—Age of Charles the Great. (Einhard's Vita Karoli).

Trinity, . . . *English History.*—Green's Conquest of England.

Foreign History, General Course.—Europe, 800–1273 A.D. (Those portions of Gibbon's Decline and Fall, and Bryce's Holy Roman Empire, which deal with the period. Tout's European History, 918–1273, A.D.)

Foreign History, Special Course.—Age of Louis IX. (Joinville's Vie de St. Louis).

MICHAELMAS, . *English History*, Age of Elizabeth. (Creighton's Age of Elizabeth; Hallam's Constitutional History of England, Chaps. 3, 4, 5.)

Foreign History, General Course.—Europe in the Sixteenth Century. (Motley's Rise of the Dutch Republic, omitting Parts I. and II.; Ranke's Lives of the Popes, Books I. to V.; Johnson's Europe in the Sixteenth Century, 1494–1598, A.D.)

Foreign History, Special Course.—Age of Louis XI. Mémoires of Philippe de Commines, Books I. to VI.)

SENIOR SOPHISTER YEAR.

HILARY, . . . *Political Science and Economic History.*—Bluntschli's Theory of the State, Introduction, Books i. and ii.; Hewins' English Trade and Commerce.

History.—Europe in the 17th Century (1598–1715).

Books recommended—Wakeman's European History, 1598–1715. Gardiner's Thirty Years' War. Lodge's Richelieu. Voltaire's Siècle de Louis XIV. Rambaud's Histoire de la Russie, Chaps. xx. to xxiv., inclusive. Taylor's England under Charles II.

TRINITY, . . *Political Science and Economic History.*—Bluntschli's Theory of the State, Books iii., iv., v.: Toynbee's Industrial Revolution.

History.—Europe in the 18th Century (1715–1789).

Books recommended—Hassall's European History, 1715–1789. Voltaire's Siècle de Louis XV. Rambaud's Histoire de la Russie, Chaps. xxiv. to xxxii., inclusive. Longman's Frederick the Great. Lecky's History of England in the 18th Century, Chaps. viii., ix., x.

§ VII.—MODERN LITERATURE.

JUNIOR AND SENIOR FRESHMAN YEARS.

ENGLISH.

Prizes are given in English Literature and Composition, at the close of the Junior and Senior Freshman years. The Examinations for these Prizes are held in Michaelmas Term, on days specified in the University Almanac. Special weight is given to Composition in the Examination for these Prizes.

The Senior Lecturer, in consultation with the Examiners, decides on the number of Prizes to be awarded. The following Courses have been appointed:—

Junior Freshmen.

A. Hamilton Thompson's History of English Literature (Murray), Chaps. ii. and iv. to xxiii. inclusive; omitting "Notes and Illustrations."
Longer English Poems, edited by J. W. Hales.
Shakspere's Julius Cæsar, and As You Like It.
Wordsworth's Miscellaneous Sonnets, Parts I., II., and Poems dedicated to National Independence and Liberty, Part I. (as in editions of Wordsworth's arrangement).
Lamb's Essays of Elia, First Series (edited by Alfred Ainger).
Matthew Arnold's Essays in Criticism (First Series, omitting the last two Essays).
Tennyson's Works (Macmillan's edition in one volume), pp. 27–164.

Senior Freshmen.

Palgrave's Golden Treasury.
Coleridge's Lectures on Shakspere, pp. 183–394 (ed. Bell and Sons, 1883).
Shakspere's Hamlet, and The Tempest.
Spenser's Faërie Queene, Book I. (Clarendon Press Series).
Chaucer: Prologue and Knighte's Tale (Clarendon Press Series),
Ward's English Poets, Vol. IV.—Wordsworth, Coleridge, Southey, Scott, Byron, Moore, Shelley, Keats, Landor, Clough, Rossetti, with Introductions.

FRENCH AND GERMAN.

Prizes in French and Prizes in German are given at the close of the Junior and Senior Freshman Years. The Examinations for these Prizes are held in Michaelmas Term, on days specified in the University Almanac.

The Senior Lecturer, in consultation with the Examiners, decides on the number of Prizes to be awarded. The following Courses have been appointed:—

Junior Freshmen.

FRENCH, . . Lafontaine, Les Fables, Books VI. VII.
Erckmann-Chatrian, Le Conscrit, Waterloo.
Bridge, French Literature (Chaps. i.-x.).
GERMAN, . . Kugler's Geschichte Friedrichs des Grossen, Books II. and III.
Uhland's Gedichte.
Selss's Outline of German Literature (fourth edition, pp. 88 to end.

Senior Freshmen.

FRENCH, . . Racine, Athalie, Les Plaideurs.
Victor Hugo, Les Feuilles d'Automne.
Clarendon Press Series (French), Vol. v.
Bridge, French Literature.

GERMAN, . . Goethe's Gedichte.
Gutzkow, Zopf und Schwert.
Goethe's Faust, Part I.
Selss's Outline of German Literature.

In the Senior Freshman year, the Student will be expected to have acquired a sufficient knowledge of the language to be able to render into French *at sight* a passage from some English author.

Honors are given in Modern Literature at each Examination in the Junior and Senior Sophister years. All Candidates must answer in the English Language and Literature. No Candidate is examined in more than one Continental Language. The numbers of marks assigned to English, and to the other language which may be selected by a Candidate, are equal. The following Course has been appointed:—

JUNIOR SOPHISTER YEAR.

HILARY EXAMINATION.

ENGLISH, . . Chaucer, Clarendon Press Selections (ed. Morris), Chaucer, Introduction, and Squiere's Tale in Clarendon Press Selections (ed. Skeat).
Specimens of Early English, *second volume* (ed. Morris and Skeat), IV. XI. XIV.–XX., both inclusive, with Introduction.
Malory's Morte D'Arthur, Books I. VIII. XI. XIII. XXI.
Morris's Historical Outlines of English Accidence, to end of Chap. ix.

FRENCH, . . . *Texts.*—Molière, Les Femmes Savantes, Le Tartufe, Le Misanthrope; Voltaire, Zaire.

Grammar.—Brachet, Grammaire Historique, Book II.

Literature.—Demogeot, Hist. de la Littérature Française, pp. 214–248; 334–426.

GERMAN, . . . Auerbach's Barfüssele.
Goethe's Hermann und Dorothea.
Bürger's Gedichte.
H. Kluge's Geschichte der deutschen National-Litteratur, pp. 1–71, or §§ 1–30.

Trinity Examination.

English, . . Sir Thomas More's Utopia (Lumby's edition, Pitt Press Series)
Spenser's Faërie Queene, Book II.
Sidney's Apology for Poetrie (ed. Arber).
Lamb's Specimens of English Dramatic Poets (omitting the Specimens from the Garrick Plays).
Morris's Historical Outlines of English Accidence, to end of Chap. xiii.

French, . . *Texts.*—Regnard, Le Joueur, Le Légataire; Boileau, Art Poétique; Racine, Britannicus, Phèdre.
Grammar.—Brachet, Grammaire Historique, Book I.
Literature.—Demogeot, pp. 426–520.

German, . . Schiller's Gedichte.
Wieland's Oberon.
Lessing's Minna von Barnhelm.
H. Kluge's Geschichte der deutschen National-Litteratur, pp. 71–108, or §§ 30–44.

Michaelmas Examination.

English, . . Dowden, Shakspere, his Mind and Art (last edition).
Bacon's Essays: Of Truth, Of Adversity, Of Revenge. Of Atheism, Of Superstition, Of Travel, Of Innovations, Of Nature in Men, Of Building, Of Studies.
Shakspere: Macbeth, Hamlet, Lear, Othello, Midsummer Night's Dream, Romeo and Juliet, King Henry V.
Craik's History of English Literature (from Layamon to end of Vol. I.)
Morris's Historical Outlines of English Accidence, to end of Chap. xviii.

French, . . . *Texts.*—Montesquieu, Esprit des Lois (omitting Books VII. XIII. XV.–XVII. XXII.–XXVII.)
Guizot, Histoire de la Civilisation en Europe.
Grammar.—Brachet, Grammaire Historique.
Literature.—Demogeot, pp. 520–640, together with the parts appointed for the Hilary and Trinity Examinations.

German, . . . Goethe's Gedichte (ed. Selss).
Goethe's Wilhelm Meister's Lehrjahre, Books I. II. III. VI.
Körner's Leyer und Schwert.
H. Kluge's Geschichte der deutschen National-Litteratur, pp. 109–146, or §§ 45–50.

SENIOR SOPHISTER YEAR.

Hilary Examination.

English, . . Poetical Works of Milton (omitting Paradise Regained, and Paradise Lost, Books v. vi. vii. viii.)
Milton's Areopagitica, and Letter of Education.
Sir T. Browne's Religio Medici (W. A. Greenhill's edition).

French, . . . *Texts.*—V. Hugo, Les Chants du Crépuscule, Hernani.—Barbier, Les Iambes.—Soulary, Sonnets.
Literature.—Demogeot, pp. 248–334; 558 to end.

German, . . Schiller, Wilhelm Tell.
Freytag, Die Verlorene Handschrift, Part i.
Briefwechsel zwischen Schiller und Goethe, Part i., 1794–1797.
H. Kluge's Geschichte der deutschen National-Litteratur, pp. 147–202, or §§ 51–60.

Trinity Examination.

English, . . . Dryden, Absalom and Achitophel; Religio Laici.
Pope, Essay on Man, Moral Essays, Rape of the Lock, Eloisa to Abelard.
Swift, Gulliver (Lilliput and Brobdingnag). Addison, the "Sir Roger de Coverley" papers in the *Spectator* (Thomas Arnold's edition, Clarendon Press Series).
Johnson's Lives of Milton, Dryden, Pope, and Addison.

French, . . . *Texts.*—Montaigne, Essais, Book i., Chaps. 20, 24, 26. 31, 33, 37–40, 47, 51; Book ii., Chap. 12.
Villehardouin, Conquête de Constantinople.
Literature.—Demogeot, pp. 1–213.

German, . . . Heine's Buch der Lieder.
Scheffel's Trompeter von Säckingen.
Goethe's Egmont.
H. Kluge's Geschichte der deutschen National-Litteratur, pp. 202 to end of book, or §§ 61–67.

During the Sophister years, an increasing knowledge will be expected of the Etymology of French words as explained in Brachet's Dictionnaire, together with a considerable facility in French Composition, oral and written.

Subjects for English Essays will be proposed at each Examination. The proficiency of Candidates in the other languages will be tested by oral Examination, as well as by written versions from English, and Compositions in the language selected by each Candidate.

§ VIII.—Legal and Political Science.

The books mentioned in the following Courses are intended to define the scope of the examinations, and are recommended to the Students:—

Junior Sophisters.

MICHAELMAS LECTURES AND HILARY EXAMINATION.

International Law.

[Lawrence, *Principles of International Law.*]

Constitutional History.

[Medley, *Constitutional History*, omitting Chapters 8 and 11.]

Political and Economic Science: Theory of Production and Exchange.

[Marshall, *Elements of Economics*, Books 2, 4, and 5.]

HILARY LECTURES AND TRINITY EXAMINATION.

Roman Law: Law of Persons, Property, and Testament as treated in the Institutes.

[Justinian, *Institutes*, Books I., II.;
Sohm, *Institutes.*]

Constitutional Law.

[Dicey, *Law of the Constitution*, Last Edition, including Appendices.]

Political and Economic Science: Theory of Distribution and Consumption.

[Marshall, *Elements of Economics*, Books 3 and 6.]

TRINITY LECTURES AND MICHAELMAS EXAMINATION.

ROMAN LAW: LAW OF OBLIGATIONS AND ACTIONS.

[Justinian, *Institutes*, Book 3, title, 13 to end, Book 4 ;
Sohm, *Institutes*.]

ENGLISH LAW OF PROPERTY.

[Strahan and Baxter's *General View of the Law of Property*.]

LAW OF CONTRACT AND EVIDENCE.

[Anson, *Principles of the English Law of Contract* ;
Stephen, *Digest of the Law of Evidence*.]

POLITICAL AND ECONOMIC SCIENCE: FUNCTIONS OF GOVERNMENT AND FINANCE.

[Sidgwick, *Elements of Politics*, chapters 1–12, inclusive ;
Mill, *Political Economy*, Book v.]

Senior Sophisters.

MICHAELMAS LECTURES AND HILARY EXAMINATION.

JURISPRUDENCE AND LAW OF DOMICIL.

[Pollock, *First Book of Jurisprudence* ;
Holland, *Elements of Jurisprudence*, chaps. 1–10, inclusive.]

ENGLISH LAW.

[H. A. Smith, *Principles of Equity*, part I., chaps. 1–5, inclusive ;
Williams, *Real Property*, part 1 ;
Pollock, *Law of Torts*.]

POLITICAL AND ECONOMIC SCIENCE: COMMERCIAL PROBLEMS AND GENERAL THEORY OF THE STATE.

[Dunbar, *Theory and History of Banking* ;
Bluntschli, *Theory of the State*, Books 2, 6.]

HILARY LECTURES AND TRINITY EXAMINATION.

Jurisprudence and Roman Law.

[Maine, *Ancient Law*;
Holland, chaps. 11 to end.]

English Law.

[Williams, *Real Property*, Parts 2, 4, 5, and 6;
H. A. Smith, *Principles of Equity*, part I., chap. 6 to end.

Smith, *Leading Cases*. The following Cases with the notes:

Coggs *v.* Bernard;
Fletcher *v.* Ryland;
Thomson *v.* Davenport;
Vicars *v.* Wilcocks.]

Political and Economic Science: Development of Political Theories.

[Pollock, *History of Politics*;
Green, *Principles of Political Obligation*.]

EXAMINATION FOR MODERATORSHIPS.

In the Michaelmas Term of the fifth, or Candidate Bachelor, year, the B.A. Degree Examination includes Examinations for Moderatorships in each of the following subjects:—

1. Mathematics.
2. Classics.
3. Logics and Ethics.
4. Experimental Science.
5. Natural Science.
6. History and Political Science.
7. Modern Literature.
8. Legal and Political Science.

The Course appointed for Examination in each of these subjects is as follows:—

MODERATORSHIPS IN MATHEMATICS.

Pure Mathematics :— Salmon's Geometry of Three Dimensions—as in the Undergraduate Honor Course.

Salmon's Conic Sections—to end of Article 385, Chap. xviii.

Burnside and Panton's Theory of Equations—as in the Undergraduate Honor Course, and Chap. xx., Sections i. and ii.

Williamson's Differential Calculus—Chaps. i.–xix. (inclusive), xxi., and xxii.

Williamson's Integral Calculus—Chaps. i.–x., omitting in Chap. vi. Articles 104–110, 119–119a, 123–125, all inclusive.

Forsyth's Differential Equations—as in the Undergraduate Honor Course.

Forsyth's Theory of Functions—the first four Chaps.

Applied Mathematics :— Williamson and Tarleton's Dynamics—omitting Articles 270, 279, 305–310, inclusive.

Minchin's Statics—as in the Undergraduate Honor Course.

Basset's Hydrodynamics—Chap. i.; Chap. ii. Articles 20–26 (inclusive), 31, 32, 37, 38, 42, 44; Chaps. iii. and iv.

Tarleton's Introduction to the Mathematical Theory of Attraction—omitting Articles 24, 80, 81, 92–106, 121–126, 135, 136, with examples, except 1–4, Article 24; also omitting examples 5–9, Article 42; 2–14, Article 55; 9, 10, Article 131; and Article 87.

Williamson's Introduction to the Mathematical Theory of the Stress and Strain of Elastic Solids—omitting Section 3, Chap. i.; and Article 69.

MODERATORSHIPS IN CLASSICS.

This Course consists of two parts—one general, the other variable from year to year.

Candidates will be critically examined in a Special Course.

Special Courses for 1903.

GREEK, . .	Pindar, Isthmian Odes; and Bacchylides. Aristophanes, Wasps. Thucydides, III. Aristotle, Politics, I., II.
LATIN, . .	Cicero's Correspondence, Vol. v., pp. 217 to 370 (Tyrrell and Purser's Edition). Virgil, Georgics.

Special Courses for 1904.

GREEK, . .	Pindar, Isthmian Odes; and Bacchylides. Æschylus, Choephori. Aristophanes, Wasps. Thucydides, III.
LATIN, . .	Virgil, Georgics. Tacitus, Germania, Agricola, and Dialogue on Orators.

Passages will be set for translation, selected from the Greek and Latin classical authors generally. Candidates will be further examined in the higher Greek and Latin Grammar and Criticism, in the Political and Literary Histories of Greece and Rome, in Greek and Latin Composition, and in Comparative Philology. They will also be required to write English Essays on subjects connected with Ancient History and Literature.

The following Book is recommended as a source of knowledge in Comparative Philology:—

King and Cookson's Sounds and Inflexions in Greek and Latin. Part. i.—Phonology.

The Course in History consists of all the portions of the works of Grote, Mahaffy, Mommsen, Tyrrell, and Bury, read for Classical Honors in the last three years of the Undergraduate Course, together with Curtius' History of Greece, Books I. and II., and the Chapters of Mommsen's History of Rome relating to Literature and Art.

The numbers assigned as marks to the various subjects of Examination will be as follows:—

	Marks.
Four Papers of Passages, ...	80
Four Compositions, ...	60
Special Course (*viva voce*), ...	60
Essays, ...	25
Philology, ...	25
History and Literature, ...	50
	300

The arrangement of the Examination will be as follows:—

9 a.m. to 12 noon—1st day, Greek Prose Passages. 2nd day, Greek Verse Passages. 3rd day, Latin Prose Passages. 4th day, Latin Verse Passages.

1.30 p.m. to 4.30 p.m.—1st day, Greek Prose Composition (one hour and a-half), Greek Verse Composition (one hour and a-half). 2nd day, Latin Prose Composition (one hour and a-half), Latin Verse Composition (one hour and a-half). 3rd day, Essays (one hour and a-half), Paper in Philology (one hour and a-half). 4th day, Paper in History and Literature.

MODERATORSHIPS IN LOGICS AND ETHICS.

The following Books have been appointed for the Examination for these Moderatorships:—

LOGICS, . . Fraser's Selections from Berkeley.
Locke's Essay on the Human Understanding.
Green's Philosophical Works, Vol. I., pp. 1–161 (§§ 1–194).
Kant's Kritik of Pure Reason. [Mahaffy and Bernard's *Kant's Critical Philosophy for English Readers* is recommended.]
Schwegler's History of Philosophy, up to Kant, inclusive.
Kant's Kritik of Judgment, Part I., with Kant's Introduction.

ETHICAL SCIENCE, Aristotle, Nicomachean Ethics.
Zeller on Stoics and Epicureans (as in Honor Course).
Butler, Analogy, Part I., Fifteen Sermons and Essay on Virtue.
Kant's Theory of Ethics, translated by Abbott, omitting pages 84 to 324, inclusive, and Appendix.
Green's Prolegomena to Ethics, Book III.

Together with the Lectures of the Professor of Moral Philosophy, and a Special Work to be selected by the Honor Examiners and the Professor of Moral Philosophy, and submitted by them to the Council not later than June 25 in the year preceding the Examination.

Special Work for—

1904.—Spinoza, Ethics.

Special Works appointed for Moderatorships in Ethics and Logics in previous years.

1886 Berkeley's Three Dialogues.
1887 Spencer's First Principles.
1888 Hume's Treatise on Human Nature, and Green's Introduction.
1889 Descartes' Meditations.
1890 Spinoza's Ethics.
1891 Lewis's Psychology.
1892 Leibnitz, Nouveaux Essais.
1893 Plato's Republic.
1894 Kant's Kritik of Judgment, Part I. (Eng. Trans.).
1895 Kant's Kritik of Judgment, Part II. (Eng. Trans.).
1896 Aristotle's de Sensu and de Memoria, with the Lectures thereon of the Professor of Moral Philosophy.
1897 Plato, Gorgias and Protagoras.
1898, 1899 Wundt, Outlines of Psychology (English translation by Judd).
1900 Spinoza, Tractatus de intellectus emendatione.
1901 Descartes, The Principles of Philosophy.
1902 Descartes' Meditations.
1903 Plato, Republic. (*Plato's terminology to be known in the original.*)

MODERATORSHIPS IN EXPERIMENTAL SCIENCE.

The subjects of Examination for the Moderatorships in Experimental Science are—

1. Experimental Physics.
2. Chemistry, Inorganic and Organic.

The relative weights to be attached to the different subjects are as follows:—

Physics, ...	50 marks.
Chemistry, ...	50 ,,
	100 ,,

The Course in each subject consists of the Honor Courses of the Freshmen and Sophister Years, together with a Limited Course and a special investigation. Limited Courses in Physics and Chemistry are appointed from year to year. Such Courses count half the marks of Physics and Chemistry respectively.

The work done by the Candidates in the Physical and Chemical Laboratories of Trinity College during their Sophister years will be taken into consideration as part of the Moderatorship Examination.

Limited Courses for 1904.

Physics, ... Current Electricity.
Chemistry, . . . Optical Methods of Chemical Research.

MODERATORSHIPS IN NATURAL SCIENCE.

The subjects of Examination for Moderatorships in Natural Science are the following, each of which has equal weight:—

1.—Geology and Mineralogy.

All the Ordinary and Honor Courses of the Sophister years.
A Special Course to be announced each year.

Special Course for 1904 :—

The Sedimentary Rocks.

Students are recommended to consult Merrill's "Rocks, Rock-weathering, and Soils."

2.—Anatomy and Physiology.

A Special Course to be announced each year.

Special Course for 1904 :—

(*a*) Foliage leaves, their structure and functions.
(*b*) The Animal Cell.
(*c*) The Physiology of the Blood and Circulation.

3.—Botany.

All the Ordinary and Honor Courses of the Sophister years.
A Special Course to be announced each year.

Special Course for 1904 :—

Rosaceæ and Saxifragaceæ.

4. Zoology.

All the Ordinary and Honor Courses of the Sophister years.
A Special Course to be announced each year.

Special Course for 1904 :—

The Hydrozoa.

Candidates may with advantage consult the following works:—

Geology.—Green's Physical Geology, last edition, and the Professor's Lectures.

Anatomy and Physiology.—Foster, Text-Book of Physiology, last edition; Sach's Lectures on the Physiology of Plants (translated by H. M. Ward); Wiedersheim, Comparative Anatomy of Vertebrates (translated by Parker); Thomson, Outlines of Zoology, 3rd Edition; Parker and Haswell, Text-Book of Zoology; Kingsley's Text-Book of Vertebrate Zoology; Lankester's Treatise on Zoology, Part ii., pp. 8–37.

Botany and Zoology.—Goebel's Outlines of Classification (translated by Garnsey and Balfour); Strasburger, Hillhouse, Handbook of Practical Botany, 3rd ed.; Sir J. D. Hooker, Student's Flora of British Islands; Campbell, Mosses and Ferns; Thomson, as above; Sedgwick, Students' Text-Book of Zoology; Marshall and Hurst, Practical Zoology.

On all further matters of detail the Student can communicate with the Examiners.

MODERATORSHIPS IN HISTORY AND POLITICAL SCIENCE.

I.—General History. (2 Papers.) 250 marks.

General Outline of Ancient Greek and Roman History, to A.D. 285.

and General outline of Mediæval and Modern European History, from A.D. 285–1848.

Books suggested as suitable for reading—Bury's History of Greece; How and Leigh's History of Rome to the death of Cæsar; Bury's Students' Roman Empire; The Students' Gibbon; Lodge's Students' Modern Europe.

II.—Special Periods of Ancient or Modern History (books defined). (2 Papers.) 350 marks.

A. Ancient History.

1. Special period of Greek history with original authorities:

The Reign of Philip of Macedon (359–336 B.C.).

The Public Speeches of the Attic Orators dealing with the period.
Plutarch's Lives of Demosthenes and Phocion.
Hicks and Hill, Manual of Greek Inscriptions, Nos. 125 to 153, pp. 245 to 290 (ed. 1901).
Grote, History of Greece, chaps. 86 to 90 (inclusive).
Holm, History of Greece, Bk. III., chaps. 14 to 19 (inclusive).

2. Special period of Roman history with original authorities:

Fall of the Roman Republic (70–44 B.C.).

Cicero's Orations (with the Ancient Commentators), and Epistles, which deal with the period.
Sallust's Catiline.
Cæsar's Works.
Plutarch's Lives of Lucullus, Crassus, Cicero, Cæsar, and Cato the Younger.
Dio Cassius, Bks. XXXVI. to XLIV.
Mommsen's Roman History, Bk. V.

or **B.** Modern History, special period:—Europe, 1598–1715. (Books suggested: Memoirs of Sully; Memoirs of Cardinal de Retz; Memoirs of Saint-Simon; Coxe's "Memoirs of the Duke of Marlborough"; Vast's "Les grands traités du règne de Louis XIV."; Parts of Gardiner's "History of England," relating to Foreign and Irish affairs; Ranke's "History of England," principally in the 17th Century"; Gardiner's "Thirty Years' War"; Lodge's "Richelieu"; Voltaire's "Siècle de Louis XIV.," and "Charles XII."; J. F. Sargent, "Economic Policy of Colbert"; Hassall's "Mazarin"; Rambaud's "Histoire de la Russie"; Leger's "Histoire de l'Autriche-Hongrie.")

III.—Constitutional History. (1 Paper.) 100 marks.

A. Warde-Fowler's City State of the Greeks and Romans.
Text of the Treatise Ἀθηναίων πολιτεία.
Gilbert (G.), The Constitutional Antiquities of Sparta and Athens.
Greenidge (A. H. J.), Roman Public Life.

or **B.** Medley's Constitutional History of England, with text of some documents (Magna Charta, Petition of Right, Bill of Rights, Act of Settlement).
The text of the Habeas Corpus Act, and of the Acts of Union with Scotland and Ireland.

IV.—Political Science. (1 Paper.) 100 marks.

A. Aristotle's Politics.
Freeman's Comparative Politics.

or **B.** Bluntschli's Theory of the State.
Cornewall Lewis's On the Government of Dependencies (with Lucas's Introduction).

V.—Economic History. (1 Paper.) 100 marks.

The Examination in this subject will include:—
The outlines of Ancient Economic history.
or English Economic history.

The following books are recommended:—

A. Cunningham (W.), Western Civilization in its Economic Aspects. Part I. (Ancient Times).
Francotte (H.), L'industrie dans la Grèce ancienne. Book I., chaps. 1, 2, 4, 6, 7; Book II., chaps. 2, 7; Book III., chap. 4; Book IV., chaps. 4, 5.
Mommsen's Roman History (the portions in the following chapters which deal with Economics:—Book I., chap. 13; Book II., chap. 8; Book III., chap. 12; Book IV., chap. 11; Book V., chap. 11).
Levasseur (E.), Histoire des classes ouvrières, Book I.

or **B.** Warner (T.), Landmarks of Industrial History.
Ashley (W. J.), English Economic History.
Seebohm (F.), English Village Community, chaps. 1 to 5, 10, 11.
Hewins (W. A. S.), English Trade and Finance.
Toynbee (A.), The Industrial Revolution.

VI.—Essays. (1 Paper.) 100 marks.

MODERATORSHIPS IN MODERN LITERATURE.

The subjects of Examination are—

I. English Language and Literature.
II. French Language and Literature.
III. German Language and Literature.

All Candidates must answer in the English Language and Literature. No Candidate can take up more than one Continental Language and Literature.

N. B.—Candidates must inform the Examiners, before the end of the previous Trinity Term, in what Modern Language they intend to offer themselves.

The Courses in the several Departments are as follows:—

I.—*English Language and Literature.*

Hallam's Literary History, the parts relating to English Literature.
Craik's History of English Literature, Vol. II.
Chaucer (as in the Undergraduate Honor Course).
Spenser, Faërie Queene, Book I.
Milton (as in the Undergraduate Honor Course).
Shakspere, as in Freshman and Sophister years, and Henry IV., Parts I. and II., Merry Wives of Windsor, Antony and Cleopatra.
Dryden: Absalom and Achitophel.
Pope: Moral Essays, Rape of the Lock.
Cowper: The Task, Books I. and II.
Palgrave's Golden Treasury.
Johnson's Lives of the Poets, as in the Undergraduate Honor Course.
Carlyle's Past and Present.
Also the following Poems:—The Prisoner of Chillon; the Ancient Mariner; Christabel; The Excursion, Book I.; Hyperion; Adonais; Maud.

II.—*French Language and Literature.*

Molière, the parts read in the Junior Sophister year, together with L'Avare, L'Ecole des Femmes, La Critique de l'Ecole des Femmes, Le Bourgeois Gentilhomme, and Le Malade Imaginaire.
Ste.-Beuve, Portraits littéraires, Vols. I. and II.
V. Hugo, La Légende des Siècles; Ste-Beuve, Chateaubriand et son groupe littéraire sous l'empire, leçons i. to xxi., inclusive.
Géruzez, Histoire de la Littérature Française.
Demogeot, Histoire de la Littérature Française.

III.—*German Language and Literature.*

Lessing's Nathan der Weise.
Goethe's Wahrheit und Dichtung, Books XII.–XX.
,, Faust, Part I.
,, Minor Poems.
Schiller's Wallenstein's Lager.
,, Wallenstein's Tod.
Heine, Ueber Deutschland, Book III., Von Kant bis Hegel.
,, Die Romantische Schule, Books I., II., III.
L. Salomon's Geschichte der deutschen National-Litteratur des neunzehnten Jahrhunderts, Stuttgart, 1881.
H. Kluge's Geschichte der deutschen National-Litteratur.

The proficiency of Candidates in French or German will be tested by oral Examination, as well as by written versions from English, and Compositions in the language selected by each Candidate.

MODERATORSHIPS IN LEGAL AND POLITICAL SCIENCE.

The Candidates are liable to be examined in the subjects of the Honor Course.

The following Books, or portions of Books, are recommended, in addition to those mentioned in the Honor Course:—

Jurisprudence, International and Roman Law.

[Hall, *International Law*;
Pitt-Cobbett, *Leading Cases in International Law*:—The Cases on "Contraband," "Analogues of Contraband," and "Continuous Voyage";
Foote, *Private International Jurisprudence*;
Justinian, *Digest*, xviii., 1.]

English Constitutional Law and Legal History.

[Carter, *History of English Legal Institutions*, Book 1, and Book 2, chapters 1, 4;
Anson, *Law and Custom of the Constitution*.]

Real Property Law and Equity.

[Tudor, *Real Property Cases*. The following cases with the notes:

Cadell *v.* Palmer;
Seymor's Case;
Shelley's Case;
Forbes *v.* Moffatt;

White and Tudor, *Leading Cases*. The following cases with the notes:

Fletcher *v.* Ashburner;
Ackroyd *v.* Smithson.]

Criminal Law.

[Stephen, *Digest of Criminal Law*;
Kenny, *Cases on Criminal Law*. The cases comprised in Part i., and in Part ii. secs. 1 to 3 inclusive, and sec. 10.]

Political and Economic Science.

[Sidgwick, *Elements of Politics*, Chaps. 19–31, inclusive;
Hobbes, *Leviathan*, Chaps. 13–30, inclusive;
Mill, *Political Economy*, Book 3;
Rae, *Contemporary Socialism*;
Clare, *Money Market Primer*.]

Lectures.

THE Lecturing Staff in the University of Dublin consists of the Junior Fellows and Professors.

Lectures are delivered in all the Courses by which Terms may be kept in Arts, or in which Honors can be obtained at the Term Examinations, in the subjects which are studied in the four Professional Schools, and in various other departments of knowledge.

LECTURES IN ARTS WHICH COUNT TOWARDS THE KEEPING OF TERMS.

ORDINARY AND HONOR LECTURES.

Mathematics, Mathematical Physics, Classics, Mental and Moral Science, and Experimental Physics.

Lectures in the above subjects are delivered by the Tutor Fellows to the Students in Arts, at hours announced in each Term.

Special Lecturers are selected to lecture Candidates for Honors in Mathematics, Mathematical Physics, Classics, and Mental and Moral Science.

Chemistry.—The Professor of Chemistry lectures Senior and Junior Sophisters, in Michaelmas and Hilary Terms, in Chemistry.

Botany, Zoology, and Geology.—The Professor of Botany lectures Junior Sophisters upon three days in each week during six weeks of Michaelmas and of Hilary Terms. The Professor of Zoology lectures during the same period upon alternate days with the Professor of Botany. The Professor of Geology and Mineralogy lectures Senior Sophisters during the same period. In Michaelmas and Hilary Terms Demonstrations are given to Honor Students in Arts: in Botany, by the Professor of Botany, and in the Anatomy of the Invertebrates, by the Professor of Comparative Anatomy. Each of the Professors of Botany and of Zoology gives a Course of Demonstrations in Trinity Term. In Michaelmas Term the Professor of Geology and Mineralogy gives a second Course of Lectures on Mineralogy and Petrology.

French and German.—In each Term the Professor of the Romance Languages lectures, in French, Senior Sophisters on three days per week, and Junior Sophisters on three days. The Professor of German lectures, in German, Senior Sophisters on three days per week, and Junior Sophisters on three days. There

are also Honor Lectures in French and German during Term, and Students below Sophister standing may attend these lectures on payment to the Junior Bursar of a fee of one guinea per Term.

LECTURES FOR CANDIDATES FOR MODERATORSHIPS.

Mathematics and Mathematical Physics. — Erasmus Smith's Professor of Mathematics delivers Lectures on three days in each week. The University Professor of Natural Philosophy delivers Lectures three times a-week; the days and hours are fixed at the commencement of each Term.

Classics.—The Professor of Greek delivers Lectures on Tuesdays, Thursdays, and Saturdays, during Term. The Professor of Latin delivers Lectures on Mondays, Wednesdays, and Fridays, during Term. The Professor of Ancient History lectures during Term, on days of which public notice is given. The Professor of Sanskrit lectures on Comparative Grammar, on two days in each week, during Term.

Logics and Ethics.—The Professor of Moral Philosophy delivers Lectures during Term, of which public notice is given. Lectures are also delivered by the Mental and Moral Science Honor Lecturer of the Senior Sophister Class.

Experimental Science.—Candidates may attend the Lectures of the Professors of Experimental Philosophy,[a] and of Chemistry. Notice of the days and hours of these Lectures is given at the commencement of each Term. Candidates for Moderatorships in Experimental Science are entitled to attend the Laboratory of the Professor of Chemistry, from the 1st of November to the 30th of June, on payment of six guineas to the Bursar.

Natural Science.—Candidates may attend the Lectures and Demonstrations of the Professors of Botany and of Zoology. In Trinity Term the Professor of Geology and Mineralogy gives Demonstrations to Candidates for Moderatorships in Natural Science.

History and Political Science. — The Professor of History lectures in each week during Term. The Professor of Political Economy lectures on about two days each week during each of the three Terms.

Modern Literature.—Candidates may attend the Lectures already mentioned of the Professor of English Literature, of the Professor of the Romance Languages, and of the Professor of German. In Trinity Term, the Professor of German gives Prelections on some subject connected with the Literature of Germany, which are open to the public, and are advertised in the daily papers.

[a] The Honor Lectures of the Assistant may be substituted for the ordinary Lectures of the Professor.

LECTURES IN THE PROFESSIONAL SCHOOLS.

An account of these Lectures will be found under the head "Professional Schools." Lectures connected with the Professional Schools which are not intended for Professional Students exclusively are mentioned also under the head "Lectures in the Courses in Arts," "Miscellaneous Lectures," or "Public Lectures."

INDIAN AND HOME CIVIL SERVICE SCHOOL.

An account of these Lectures will be found under the head "Indian, Colonial, Home, and Civil Service Classes."

MISCELLANEOUS LECTURES IN ARTS.

Astronomy.—The Professor of Astronomy lectures on Mondays and Fridays in Hilary Term.

Experimental Science.—Any Graduate of Dublin University who desires to pursue a post-graduate Course of Instruction in the Physical Laboratory shall be permitted to do so on payment of six guineas for a Course extending over three Terms.[a]

Modern History and Political Economy.—The Professor of Modern History delivers, each Term, Courses of Lectures in accordance with arrangements made at the beginning of the Term. The Professor of Political Economy delivers a Course of, at least, nine Lectures during some one of the three Academical Terms, which are free to all Students.

English Literature.—The Professor of English Literature delivers Lectures on three days in the week during Term.

Hebrew Lectures.—All Students are permitted to attend Hebrew Lectures. The Professor of Hebrew delivers public Prelections from time to time as required by the Rules of Erasmus Smith's Board, and, in addition, lectures the Senior Class. Due notice of the hours at which these Lectures are held is given at the beginning of each Term. The Lectures of the Assistants are delivered on Tuesdays and Thursdays, at nine o'clock. For the regulations and subjects of these Lectures, see below, Divinity School, § v.

Irish.—The Professor of Irish lectures on two days in the week, during Term.

The Professor of Sanskrit and Comparative Philology lectures in each Term on Celtic Philology.

---

[a] Resolution of the Board, May 9, 1903

Arabic, Persian, and Hindustani.—The Professor of Arabic teaches Arabic, Persian, or Hindustani, to such Students as may present themselves for instruction, at the commencement of each Term, at the rate of three guineas per Term. The Professor also receives Pupils at any time, at the rate of four guineas for twenty, or one guinea for four private lessons.

The Board have authorized the Professor to give Certificates (similar to those given by the Professor of Hebrew) to such Students as he may, upon examination, think entitled to that distinction.

Sanskrit.—The Professor of Sanskrit receives Pupils, under the same regulations and conditions as the Professor of Arabic.

PUBLIC LECTURES.

The following Lectures are open to the public, as well as to all Students:—

The Prelections of—

The Professor of German.
The Regius Professor of Divinity.
Archbishop King's Lecturer in Divinity.
The Professor of Hebrew.
The Professor of Biblical Greek.
The Regius Professor of Laws.
The Regius Professor of Feudal and English Law.

The Lectures of—

The Professor of Astronomy.
The Professor of Ancient History.
The Professor of Moral Philosophy.
The Professor of Geology and Mineralogy.
The Professor of Ecclesiastical History.
The Professor of Irish.
The Professor of Comparative Anatomy to Medical Students.

Four Lectures of—

The Professor of Natural and Experimental Philosophy.
The Professor of Oratory.

DONNELLAN LECTURER.

The regulations on which this Lectureship was established are contained in the following extract from the Registry, dated February 22, 1794:—

"Whereas a Legacy of £1243 has been bequeathed to the College of Dublin by Mrs. Anne Donnellan, of the parish of St George, Hanover-square, in the county of Middlesex, spinster, for the encouragement of religion, learning, and good manners; the particular mode of application being left to the Provost and Senior Fellows:—

"RESOLVED:—1. That a Divinity Lecture, to which shall be annexed a salary, arising from the interest of £1200, shall be established for ever, to be called Donnellan's Lecture.

2. "That the Lecturer shall be forthwith elected from among the Fellows of said College, and hereafter annually on the 20th of November.

3. "That the subject or subjects of the Lectures shall be determined at the time of election by the Board, to be treated of in Six Sermons, which shall be delivered in the College Chapel after morning Service on certain Sundays, to be appointed on the 20th of November next after the election of the Lecturer, and within a year from said appointment.

4. "That one moiety of the interest of the said £1200 shall be paid to the Lecturer as soon as he shall have delivered the whole number of Lectures, and the other moiety as soon as he shall have published four of the said Lectures; one copy to be deposited in the Library of the College; one in the Library of Armagh; one in the Library of S. Sepulchre; one to be given to the Chancellor of the University; and one to the Provost of the College."

The foregoing regulations have been slightly modified by more recent orders of the Board, containing the following provisions:—

1. The Donnellan Lectureship shall be open to all Masters of Arts or Bachelors of Divinity of Dublin, Oxford, or Cambridge, being Clergymen.

2. The Lecturer shall be elected every year, on the last Saturday in November.

The fund is now invested in £521 18*s.* 5*d.* Bank of Ireland Stock, producing annually about £62 12*s.* 8*d.*

DONNELLAN LECTURER.

For 1903-1904, Frederick Walter Macran, B.D.

Subject—A Short Sketch of the History of English Christian Apologetics.

Fellowship and Scholarship Examinations.

THE following Regulations have been adopted by the Board, relative to the Examinations for Fellowships and Scholarships :—[a]

EXAMINATION FOR FELLOWSHIP.

1. The rules determining the conditions of election to Fellowship are fully set forth in Chap. VII. of the College Statutes.

2. The subjects of Examination are comprised in five principal Courses: viz., 1. Mathematics, pure and applied; 2. Experimental Science; 3. Classics; 4. Mental and Moral Science; 5. Hebrew.

3. The Board have no power to fetter the judgment of individual electors either as to the moral or the literary merit of Candidates; but the following scale has been adopted as representing the respective weights which, in the opinion of the Board, it is desirable to attach to the different subjects of the Examination :—

		Total.
Mathematics	Pure,	500
	Applied,	700
Classics,		800
Hebrew,		200
Mental and Moral Science,		500
Experimental Science,		300

Candidates in Classics are allowed to take up either Ancient History, or Comparative Philology including the Elements of Sanskrit, as alternate Courses, the papers in the two Courses being set concurrently.

4. The Examiners in the several Courses are required to report to the Board, whether, in their opinion, the answering of each Candidate is such as to entitle it to be taken into account in a final comparison of the answering in all the Courses.

5. Before the day of election every Candidate for Fellowship must send to the Provost his name, and the name of the county in which he was born.

6. The Examination for Fellowship lasts for twelve days, viz., Tuesday and Wednesday before Ascension Day, the week before Whitsun Day, and Tuesday, Wednesday, Thursday, and Friday, of Whitsun week.

[a] See the Decrees of the Board and Visitors, dated June 20, 1855; June 12, 1856; May 29, 1869; June 30, 1877; and April 2, 1887; and Resolutions of the Board of June 27, 1899, and June 23, 1900.

7. The hours of Examination are from 9 A. M. to 12, and from 2 P. M. to 5 P. M., on each day. The *vivâ voce* Examination of every Course is open to the public.

Candidates for Fellowship are required to give notice of their intention to compete, and of the subjects in which they propose to answer, not later than the 1st of February preceding the Examination.

SCHOLARSHIP.

1. Scholars are elected for merit in Classics, or in Mathematics or in Experimental Science. In order to distinguish them from the holders of other Scholarships they are termed Scholars of the House, or Scholars on the Foundation. The number of Scholars is seventy, and they have important privileges. They receive from the College an annual salary of £20 Irish money; they have their commons free of expense, and their rooms for half the charge paid by other Students[a]. The tuition fees of Pensioners who are elected to Scholarships is one guinea per quarter, and of Fellow-Commoners, two guineas. They hold their Scholarships until the end of the June Quarter of the fifth year following their election, or following the time at which they become or might have become Masters of Arts, whichever period terminates first. All fees payable by Scholars for Tuition terminate after the quarter in which they take the Degree of Bachelor of Arts.[b]

Exhibitions awarded to Scholars.

Any Scholar who has not dropped a Class after the Michaelmas Examination of his Junior Sophister year, nor dropped more than one Class, and who obtains a Senior Moderatorship at the Degree Examination, and does not obtain one of the Studentships, is awarded one of certain Exhibitions of small value, to which Students are appointed by the Provost and Senior Fellows, if such be then vacant, and such further Exhibition as shall raise the entire annual value of his Exhibition to £10.[c] The Exhibition is tenable for three years, provided the holder's Scholarship lasts so long.

Waiterships.

Before and after meat, grace was formerly said by certain of the Scholars in turn, who were called *Waiters*. This obligation was done away with by the Act 36 Victoria, chapter 21.

Ten Scholars, or other Students, are now annually appointed to say grace before and after meat in the Commons Hall, on the following conditions[d]:—

1. They shall each receive a salary of £10 per annum, to be paid quarterly, if the duty has been satisfactorily discharged.

[a] This does not apply to that portion of the rent imposed to defray expenses incurred in papering or painting.
[b] Decree of the Board and Visitors, December 18, 1858.
[c] Decree of the Board and Visitors, May 1, 1875.
[d] Resolution of the Board, Nov. 21, 1873.

2. They shall be annually selected by the two Deans, and the names of those selected shall be submitted to the Board for appointment to the office.

3. Regard shall be had, in the selection, to the general character of the Student for regularity, steadiness, and general good conduct, as such qualities are the best security that the duties of the office will be properly discharged.

The grace must be repeated *memoriter* and in Latin, in a form prescribed by the Statutes of the College.[a]

Keeping of Terms by Scholars.

The following Rules have been passed by the Board, with regard to the attendance by Scholars at Lectures:—

I. *Graduates.*—All Scholars who have actually passed the B. A. Degree Examination are exempted from suspension for non-attendance at Lectures.

II. *Undergraduates.*—1. Every Undergraduate Scholar shall be required to keep each Term, by attendance either at Lectures, or the subsequent Examination, on pain of being conditionally suspended.

2. Full attendance on the Lectures of the University Professors, such as would prove that an Undergraduate Scholar is engaged *bonâ fide* in preparation for the Moderatorship or Indian Civil Service Examinations, or in professional studies, shall be held sufficient to exempt him from suspension for that Term.

3. Any Undergraduate Scholar who shall have been conditionally suspended under the foregoing rule shall be restored on obtaining an Honor at a subsequent Examination.

4. Any Undergraduate Scholar who shall remain conditionally suspended for three Terms shall absolutely forfeit his salary for the past year, unless he shall produce to the Board satisfactory excuses for his neglect.

5. No student can compete for a Scholarship until after his name has been entered on the College books as a Junior Freshman, *i. e.* he cannot compete as a *rising* Junior Freshman. (See "Course in Arts," § 5.)

6. Any Scholar who shall fail to keep the Terms and Examinations necessary to enable him to proceed with his Class shall *ipso facto* forfeit his Scholarship, and no Scholar can have his name transferred to a lower Class without the express permission of the Provost and Senior Fellows.[b]

---

[a] *Stat. Coll.* cap. xvi.

[b] Queen's Letter, May 20, 1889.

Mode of Election.

1. On or before the day of election every Candidate for Scholarship must send to the Provost and each of the Senior Fellows, or to the Registrar[a], his name, and the name of the county in which he was born. The form in which this is generally done is as follows:

Ego, A.B. —— filius, natus in comitatu N., sub ferula —— educatus, Discipulatum a te humillime peto.

2. Candidates for Scholarships in Mathematics are examined in all the Pure and Applied Mathematics of the Undergraduate Honor Course for which a Junior Sophister Student would have been liable from his entrance up to the Trinity Examination of the Junior Sophister year inclusive.[b] In the Examination equal weight is assigned to Pure and to Applied Mathematics.

3. Candidates for Scholarships in Experimental Science are examined in the Honor Courses in Experimental Science for the Junior and Senior Freshman years, and for the Hilary and Trinity Honor Examinations of the Junior Sophister year.

Examination Papers are set in (*a*) Mathematics, (*b*) Experimental Physics, (*c*) Chemistry, and a Practical Examination is held in both Experimental Physics and Chemistry; 100 marks each are allotted to (*a*), (*b*), and (*c*), and 50 marks to each of the two Practical Examinations.

The Course in (*a*) Mathematics is based on the Course in Experimental Physics extending so far as is necessary for the proper study of Experimental Science, and including Elementary Analytical Geometry, Elementary Differential and Integral Calculus, a knowledge of the simple harmonic function, Mechanics, Hydrostatics, and Geometrical Optics.

If Candidates at this Examination show sufficient merit, the Board may elect not more than two of them to the vacant Scholarships.[c]

4. The Examinations for Scholarships in Mathematics are held on Monday, Tuesday, and Wednesday, in Ascension week, from 9 to 12 in the forenoon, and from 2 to 5 in the afternoon, of each day.

The Examinations for Scholarships in Experimental Science are held on Monday, Tuesday, Wednesday, and Friday, in Ascension week.

The subjects of Examination at the several hours will be published in Hilary Term, 1904.

---

[a] Resolution of Board, May 24, 1880.

[b] These are identical with the Honor Course for the corresponding periods as given in the present Calendar.

[c] Resolution of Board, June 16, 1900.

5. Candidates for Classical Scholarship are examined in all the Classics of the Undergraduate Honor Course for which a Junior Sophister Student would have been liable from his entrance up to and including the Trinity Examination of the Junior Sophister year. The Course for the *vivâ voce* Examination of the Candidates for Classical Scholarships will be as follows:—

GREEK PROSE AUTHORS.

Herodotus, Book I.
Thucydides, Book I.

GREEK POETS.

Homer, Iliad, Books XXI. XXII. XXIII. XXIV.
Homer, Odyssey, Books VI. IX. XXI. XXII.
Sophocles, Antigone, Œdipus Coloneus, Œdipus Tyrannus.
Euripides, Medea, Bacchae, Troades.

LATIN PROSE AUTHORS.

Cicero, Philippic II., De Senectute, De Amicitia, Cicero in his Letters (published by Macmillan), Letters I. to XXXIII.

LATIN POETS.

Virgil, Æneid, Books VII. VIII. IX.
Horace.
Terence, Adelphi, Phormio.
Plautus, Miles.
Juvenal, Satires I. III. IV. VII. VIII. X. XIII. XIV.

They are also examined in Greek and Latin Composition, in English Composition, and in Greek and Roman History. The Course in History until further notice will be:—

Bury, History of Greece to the death of Alexander.
How and Leigh, A history of Rome to the death of Cæsar.
Bury, Student's Roman Empire, Chaps. i. to xxv. (inclusive).[b]

The *Vivâ Voce* Course is divided among six Examiners.[a] Greek and Latin Verse Composition are both compulsory subjects.[b] The numbers assigned as marks to the various subjects of Examination are as follows[b]:—

	Marks.
4 Papers of Passages,	60
6 Marks for *Vivâ Voce*,	60
4 Greek and Latin Compositions,	60
English Essay on Classical subject,	15
Critical Paper,	20
Historical Paper,	35
	250

[a] Resolutions of Board and Council, June 11 and 17, 1887; May 28, 1902.
[b] Resolutions of Council (subsequently adopted by the Board), June 7, 1876; May 28, 1902.

6. The Examination for Classical Scholarships is held on Friday and Saturday of Ascension week, and on Monday and Tuesday of the week following, from 9 to 12 in the forenoon, and from 2 to 5 in the afternoon, of each day.

The subjects of Examination at the several hours are arranged as follows[a]:—

First Day,	Morning,	Greek Prose Authors (with *vivâ voce* concurrently).
	Afternoon,	Greek Verse Authors (with *vivâ voce* concurrently).
Second Day,	Morning,	Latin Prose Authors (with *vivâ voce* concurrently).
	Afternoon,	Latin Verse Authors (with *vivâ voce* concurrently).
Third Day,	Morning,	Historical Paper (two hours); English Essay on a Classical subject (one hour).
	Afternoon,	Critical Paper (three hours).
Fourth Day,	Morning,	Greek Prose Composition (one hour and a half); Greek Verse Composition (one hour and a half).
	Afternoon,	Latin Prose Composition (one hour and a half); Latin Verse Composition (one hour and a half).

[a] Resolution of the Board, June 16, 1900.

Studentships and Prizes awarded at the Degree Examination.

By the Royal Statute of 22nd Victoria, fourteen Studentships were founded in Trinity College, open to Candidates of all religious denominations, with a salary to be fixed by the Provost and Senior Fellows, not exceeding £100 per annum for each. By this Statute no Fellow can be elected to a Studentship; and in case any person holding a Studentship shall be elected a Fellow, his Studentship shall thereupon become vacant.

By the Royal Letters Patent of May 20, 1889, these Studentships were made tenable for a period not exceeding five years, and the number was reduced to ten.

The following regulations have been made by the Board,[a] under the authority of the foregoing Statutes, with respect to the election of Students:—

I. Two Students shall be elected annually if sufficient merit is shown, one from the Senior Moderators in Mathematics and Physics, and one from the Senior Moderators in Classics.

By the Royal Letters Patent of May 20, 1889, the Provost and Senior Fellows were empowered either to decline to elect to a Studentship, or to award a Studentship of reduced value, in case of insufficient merit: and also to divide the emoluments of a Studentship in cases of equality or closeness of answering between the Candidates.

II. A member of the Board shall preside at each Moderatorship Examination.

III. The results of the Moderatorship Examinations shall be the basis upon which the Board will elect to Studentships, according to the following regulations:—

1. In addition to the primary Courses, Mathematics and Physics, or Classics, the Board will take into account the answering of the Candidates in one other Moderatorship Course.

2. Students taking the Mathematical and Physical Moderatorship as a primary Course may take up Classics as a secondary Course, and *vice versâ*.

3. The weight to be assigned to the Primary and Secondary Courses respectively shall be in the proportion of 3 to 2.

4. A minimum shall be fixed for each Course, and the merit of each Candidate shall be measured by the excess of his answering above that minimum. The minimum in each Course shall be one-fourth of the total weight of the Course.

---

[a] March 30, 1859; November 2, 1889.

IV. The Examiners in each Course shall make a full report to the Board of the answering of the Candidates, and each Elector shall vote for the two Candidates whose answering, on the whole, shall appear to him the most distinguished; provided there be no objection to such Candidate on the score of moral character or conduct.

V. No person who shall drop more than one class will be permitted to be a Candidate for Studentship.

VI. No person will be permitted to be a Candidate for Studentship who shall have dropped a class after the Michaelmas Examination of his Junior Sophister year.

VII. No change in the mode of electing to Studentships shall be made, unless after a year's previous notice.[a]

VIII. In case any person holding a Studentship shall be elected to a Fellowship of any College in Oxford or Cambridge Universities his Studentship shall thereupon become vacant.[b]

In addition to the two Studentships which shall be annually filled up, Prizes will be awarded to deserving answerers at the Degree Examination, at the discretion of the Provost and Senior Fellows, in accordance with regulations of the Queen's Letter[c] of the 20th May, 1889.

The sum awarded to the Moderators, in 1902, amounted to £450.

BROOKE PRIZES.

On the 11th October, 1879, it was resolved by the Board, with the assent of the Misses Brooke:—

That two Prizes, equal in amount, and representing the interest of the sum of £2000 presented by the Misses Brooke, be constituted, to be given annually to the Candidates for Moderatorship who rank next in order, severally, to the Moderators who are appointed Students for Mathematics and for Classics, the Prizes to be called the Brooke Prizes.

The Fund is invested in Bank of Ireland Stock, and yields annually about £80 15*s.* 4*d.*; the Prizes are payable half-yearly in February and August, by the Bursar.

---

[a] Order of the Board, Dec. 8, 1866.
[b] Resolutions of Board and Council, December 14, 1878, and February 12, 1879.
[c] *Statutes*, Vol. II., p. 431.

Special Prizes.

In the case of all Prizes, the Board reserve the power of diminishing the amount of the Prize, or withholding it altogether, if insufficient merit has been shown by the Candidates, and, in the case of Prizes which are payable out of Special Trust Funds, the amount will further depend on the dividends in hand.

MADDEN PRIZE

AND

PREMIUMS AT THE EXAMINATIONS FOR FELLOWSHIPS.

The Provost and Senior Fellows, at every Fellowship Examination, grant Premiums to such Candidates as appear to them to deserve encouragement, and in such proportions as they consider merited by the answering.

In the year 1798, Madden's Prizes were first granted according to the conditions specified in the following extract from the codicil to the will of Samuel Molyneux Madden, Esq., dated August 7th, 1782:—

"Whereas I, Samuel Molyneux Madden, have, in the body of my last will and testament, bequeathed all my estate and property, situated in the Corporation of Belturbet, immediately after the demises therein mentioned, to be employed in promoting virtue and learning in Trinity College, in the County of Dublin, subject to such regulations as I shall exposit and declare in any codicil to my said will. In pursuance of that my design, I do hereby constitute and appoint the three persons immediately hereafter named to be Trustees for the carrying into execution that design, That is to say: The Right Honourable James Lord Viscount Lifford, Lord Chancellor of Ireland, the Most Rev. and Right Honourable Richard Robinson, Primate of all Ireland, and the Right Rev. Richard Woodward, Lord Bishop of Cloyne, humbly entreating those very worthy and highly respected persons to vouchsafe their protection and favour to a design so suited to their own excellent dispositions. I do further declare it to be my humble request and desire, that the Vice-Chancellor of Trinity College, for the time being, be one of the Trustees and Governors of the fund to be raised for the design and purpose aforesaid, and that the Lord Primate, for the time being, be also one of the Trustees and Governors of said fund, and to carry into execution my intent and design, as hereinafter mentioned. My will, intent, and request therefore is, that at every Examination for Fellowships in Trinity College, the whole produce of the said fund, during the preceding year, be given, in one undivided sum, into the hand of that disappointed candidate for the Fellowships whom the majority of his Examiners

shall, by certificate in writing under their hand, declare to have best deserved to succeed, if another Fellowship had been vacant. Provided always, that no premium thus provided be given to any disappointed candidate, in any year wherein there shall not be at least two disappointed candidates at the Examination, and also, provided always, that the Provost and Senior Fellows of the College do not diminish the premiums which through their zeal to encourage learning they generously bestow on the disappointed candidates for Fellowships at each Examination. And whereas there are some years wherein there are not any Examinations for Fellowships held, no vacancy having happened in the College, I do hereby desire that the revenue of my estate and fund, in every such year, be laid out in Government securities by my said Trustees, and the interest of such Government securities be added to the succeeding produce of the united fund aforesaid, and thus the premium be increased which shall be given to disappointed candidates in the succeeding years, and I do desire that this premium or bounty be confined to one only disappointed candidate for Fellowship, until the annual revenue of the fund arise to four hundred pounds, after which period the Trustees aforesaid may appropriate the further increase of the fund towards the constituting a bounty for a second disappointed candidate, or rather for a premium for the best Oration or Essay in Latin on such subject as the College shall annually choose, as such encouragement is greatly wanted. And further, in aid to the said intended fund, as the present revenue of the Estate in the Corporation of Belturbet is but £86 rent, I do hereby bequeath to the three Trustees aforenamed all my personal estate of what nature soever, after the death of my most dearly beloved wife, to be by them converted into money, and to be laid out in Government Debentures, and applied to the great end of encouraging virtue and learning in the College, where the youth of the nation are educated, and where most essential service may be expected from their care and patronage, and therefore I do hereby appoint the aforesaid Trustees my Residuary Legatees."

Until the year 1894, the property devised under this will was vested in and managed by individual trustees. By a decree of the Master of the Rolls, dated the 28th day of April, 1894, the Provost, Fellows, and Scholars were appointed trustees of the trust property; and, by Letters Patent, the Board of Trinity College were empowered to hold the lands devised by the will of Mr. Madden. All the trust property is now vested in and managed by the Board of Trinity College. It produces annually about £310, and is paid by the Bursar to the successful candidate after the Fellowship Examination.

PRIZES IN SUBJECTS CONNECTED WITH THE STUDY OF DIVINITY.

[See also under Divinity School.]

WALL BIBLICAL SCHOLARSHIPS.

In Michaelmas Term, 1858, the Rev. Charles William Wall, D.D., Vice-Provost, gave to the Provost and Senior Fellows the sum of £2000, for the purpose of founding Biblical Scholarships, in accordance with certain conditions submitted by him to the Board, and approved. Five Scholarships were accordingly founded (to be called "The Wall Biblical Scholarships"), tenable each for five years from the date of election, with a salary of £20 a year, one to be elected annually according to such regulations as the Provost and Senior Fellows shall from time to time enact, in conformity with the wishes of the Founder, as recorded in the Register of the College.

The following is the Course for Examination for the year 1904:

The First Book of Samuel in the Hebrew and Septuagint.

The Targum, on chapters i.–v.

The Syriac (Peshitto) Version of the Acts of the Apostles, chapters xv.–xxi.

Wall's "Proofs of the Interpolation of the Vowel-Letters in the Text of the Hebrew Bible," published in 1857; together with the Hebrew, Syriac, Chaldee, and Greek passages referred to in the several examples.

The following Articles in Hastings' Dictionary of the Bible:—1. The Septuagint. 2. Syriac Versions 3. Targums. 4. Language of the Old Testament. 5. Writing.

Driver on the Text of the Books of Samuel, pp. 1–179, and the Introduction.

Chwolson on the Quiescentes. (Hodges and Figgis.)

An easy passage in Syriac (unseen) will be set for translation, and a passage in English for translation into Hebrew.

The Examination for the present year will be held in Trinity Term, on the days marked in the Calendar. The names of Candidates must be on the College Books, and their standing, reckoned from Entrance, must be below that of M. A.

Candidates are requested to communicate their names and Collegiate standing to the Professor of Hebrew on or before the first day of Trinity Term.

The Scholarships are paid quarterly by the Bursar.

THE ELRINGTON THEOLOGICAL PRIZE.

At a general meeting of the Clergy and Laity, assembled in Dublin on the 4th day of March, 1837, to consider the best mode of commemorating the virtues, the learning, and the wisdom of the late Right Rev. Thomas Elrington, D.D., Lord Bishop of Leighlin and Ferns, and formerly Provost of Trinity College, Dublin, the following Resolutions were passed:—

"Resolved,—That, in the opinion of this Meeting, the conduct of the late highly-respected Bishop of Ferns was uniformly distinguished by an earnest desire and endeavour to do substantial good, without needless display or ostentation; especially by implanting and strengthening in the minds of all with whom he was at any time connected, whether those of future candidates for the ministry, or those of actual Ministers of the Church, or those of the members of the Church in general, a well-founded belief in the truth and doctrines of our Holy Religion, and a steady attachment to its primitive institutions, according to the form of Christianity established in the United Church of England and Ireland.

"That such a monument appears to us most appropriate to his character, and best calculated to do becoming honour to his memory, as shall be formed upon the principle of carrying forward those solid religious benefits which he was indefatigable in promoting during his life; a mode of testifying respect to which this Meeting is more inclined, by a consideration of the excellent personal representation of the late Prelate which already adorns the College Library.

"That, for the foregoing purpose, it is adjudged desirable to institute an annual Prize for one or more of the best Theological Essays, composed by Bachelors of Arts of Trinity College, Dublin, of not more than three years' standing.

"That the subject of the Essays be such as may direct the minds of the competitors to those topics in particular which were either discussed in the published works of the late Bishop, or were prominent objects of his solicitude; for example, the Evidence of our Holy Religion—the Constitution of the Christian Church—the Scriptural Character of the Doctrines, and the Apostolical Polity of our own Church—the necessity and validity of her Orders—and the just Claims and the solemn Engagement of her Ministers.

"That this Prize be denominated The Elrington Theological Prize; that the subjects be proposed, and the Prize awarded, by the Lord Bishop of Ferns, the Provost of Trinity College, and the Regius Professor of Divinity, all for the time being, in such way as they shall arrange among themselves; that the Essay or Essays be publicly read in the College Hall, at such time as the Provost shall appoint; and that the Prize consist of a selection of standard Theological works, of which the publications of the late Bishop, if attainable, as we trust they will be rendered by the filial piety of the present Regius Professor of Divinity, shall at all times form a part. This Prize cannot be obtained more than once by the same candidate."

The Essays, clearly and legibly written, with fictitious signatures, are to be given to the Provost, or to the Regius Professor of Divinity, on or before the 1st day of November in each year.

The foregoing Resolution has been altered so as to admit Graduates of the University of not more than *eight* years' standing (reckoned from the date of their B.A. Degree) to compete for the Prize. The subject will henceforth be announced two years before the date at which the Essays are to be sent in; and the value of the Prize will be £50.

Subject for 1903.—A Study of the Epistle of St. James.

Subject for 1904.—An Examination of the Apostolical Constitutions and of the cognate documents, with special view to those which have recently been made accessible.

Subject for 1905.—The Evidence for, and the Objective Reality of, the Resurrection of Our Lord.

PRIZES IN BIBLICAL GREEK.

THESE Prizes were founded by the Board in the year 1840. A sum of £15 is placed at the disposal of the Professor of Biblical Greek, to be given in Prizes to the best answerers at an Annual Examination, which is held in Hilary Term, on a day named in the Almanac.

Candidates for Prizes at this Examination must be at least of Junior Sophister standing.

Course for 1904.—Daniel; The New Testament Apocalypse.

ECCLESIASTICAL HISTORY PRIZES.

THESE Prizes were founded by the Board in the year 1851. They consist of two Premiums, one of £10, the other of £5, given at an Annual Examination, held by the Professor of Ecclesiastical History. The Examination is held in Trinity Term, and is open to such Students as shall have attended the Professor's Lectures during two Terms of the actual year in which they present themselves as Candidates.

Course for 1904.

The portion of Robertson's *History of the Christian Church* appointed for Archbishop King's Prizes.

Eusebius' *Ecclesiastical History*.

A special subject, to be announced at Lectures in Michaelmas Term.

The Professor's Lectures.

For the regulations concerning the "Robert King Memorial Prize in Ecclesiastical History," see under Divinity School.

PRIZES IN MATHEMATICS.

THE LLOYD EXHIBITIONS.

At a Meeting of the Subscribers to the Lloyd Exhibition Fund, held in Trinity College, on Saturday, the 16th of November, 1839, the Rev. J. H. Singer, D. D., in the Chair, it was agreed:—

I. That a sum of money having been subscribed for the foundation of Exhibitions in the University, to commemorate the talents and virtues of the late Provost Lloyd,[a] by the promotion of learning in the Institution to whose interest his life was devoted, the aforesaid sum shall be lodged in the hands of the Provost, the Professor of Natural Philosophy, and the Professor of Mathematics, for the time being, in Trust for the purposes declared in these resolutions.

II. That the interest of the aforesaid sum, and of such other sums as may at any time be added to it, shall be applied to the foundation of two Exhibitions, to be held for two years only.

III. That the appointment to these Exhibitions shall be made by a public Examination, under the following regulations:—

1. The Examinations shall be held in Michaelmas Term, annually, after the Michaelmas Term Examinations, and shall be open to such Students only as shall then be in the *rising* Senior Sophister Class.

2. No Student shall be admissible as a Candidate a second time.

3. The Exhibition shall be tenable only so long as the Student to whom it is awarded shall have his name on the College Books.

4. The Examiners shall be the Professors of Astronomy, Natural Philosophy, and Mathematics, and the Assistants to the Professor of Mathematics; or any three of them, as they shall agree among themselves.

5. The subject of Examination shall be a course of Mathematics and Physics, to be determined by the Examiners, subject to the approval of the Board.

IV. Any Exhibition which may fall vacant before the natural period of its expiration shall not be filled up, but its amount shall be added to the principal, for the augmentation of the fund; and the same rule shall be followed in case it should at any time happen that no Candidate of sufficient merit shall present himself.

The sum is invested in Bank of Ireland Stock, and produces annually about £34 12*s*. The Exhibitions are payable half-yearly by the Bursar in February and August.

[a] See list of Provosts, year 1831.

The following Course has been appointed for the Examination for these Exhibitions:—

Salmon's "Conic Sections."
Properties of Curves of the Third Degree.
Properties of Surfaces of the Second Degree.
Burnside and Panton's "Theory of Equations."
Williamson's "Differential Calculus"; "Integral Calculus."
Statics—Equilibrium of a Rigid and of a Flexible System.
Dynamics of a Particle and Motion Parallel to a Fixed Plane.
Newton's "Principia," Sects. 1, 2, 3.
Brünnow's "Spherical Astronomy," Introduction, and first three Sections.
Heath's "Geometrical Optics," Chaps. i.–ix. (both included).
Routh's Analytical Statics, Vol. I., Chaps. iv., v., and vi.

BISHOP LAW'S MATHEMATICAL PRIZES.

In the year 1796, the sum of £735 was given to the College by John Law, Bishop of Elphin, on condition that it should be applied to the purpose of encouraging the study of Mathematics, according to the following scheme:—

1. The sum of £20 to be given to that Junior Bachelor who shall pass the best Examination in Algebra, the application of Algebra to Geometry, and Spherical Trigonometry; and £10 to that Junior Bachelor who shall appear to be the second best proficient in the same subjects.

2. The Examination to be held on two days in Michaelmas Term, of which public notice is to be given on the first day of said Term, and the Premiums shall be adjudged on the last day of the same, or the day before it, if it should fall on a Sunday.

3. The Examiners of the Candidates for the Premiums to be the Professors of Mathematics, Natural Philosophy, and Astronomy.

4. The sum of £5 to be given, in turn, to each Professor, in order that he may entertain the other two Examiners at dinner, on the day that the Premiums are adjudged: the rotation to begin with the senior.

The second of these regulations, which was for some years in abeyance, is again in force. The date of the Examination is given in the Almanac. The result of the Examination is, however, declared before the last day of Term.

THE M'CULLAGH PRIZE.[a]

In November, 1854, it was resolved by the Subscribers to the M'Cullagh Prize Fund:—

1. That an Annual Prize of £30 be founded, to be called the M'Cullagh Prize.

2. That the competition for this Prize be open to all persons not being Fellows of Trinity College, or Professors in the University of Dublin, whose names shall be on the books of the said College, on the day appointed for the adjudication of the Prize, and for at least three days previously.

3. That this Prize shall, subject to the restriction in No. 7, be awarded to the best answerer at an Examination, to be held on a day fixed by the Examiners, and of which due notice shall be given.

4. That the subject of this Examination shall be a Course of Mathematics and Physics, or of either of these, to be fixed from time to time by the Examiners, as stated in No. 6.

5. That the Examiners for this Prize shall be the Professor of Astronomy, the Professors of Natural Philosophy, the Professor of Mathematics, the Donegal Lecturer, and the Assistant to the Professor of Natural Philosophy, or any three of them.

6. That the subject of each Examination shall be determined by the aforesaid six Examiners, or the majority of them, and publicly announced, at least one year previously to the day appointed for the Examination.

7. That if at any Examination the Examiners shall be of opinion that sufficient merit has not been shown by any of the Candidates, it shall in such case be competent for the said Examiners to withhold the Prize for that year; and that the sum or sums thus accruing shall form a surplus fund, from which Prizes may be adjudged to such disappointed Candidates for the M'Cullagh Prize as the Examiners may consider to be worthy of such encouragement.

8. That no person who has once obtained the M'Cullagh Prize shall be admitted as a Candidate a second time.

In 1875, a change was made in the investment of the Fund, which rendered the sum available in each year for Prizes £40. If, therefore, sufficient merit be shown, it is open to the Examiners to award in each year an additional Prize or Prizes, not exceeding in annual amount the sum of £10.

The Examination is held in Hilary Term.

Subject for 1904.—Theory of Generalized Coordinates in Dynamics, with Physical applications.

---

[a] See list of Fellows, year 1832.

THE MICHAEL ROBERTS PRIZE.[a]

On the 13th June, 1883, the sum of £200 was received from Mrs. Michael Roberts, to found a Prize in Mathematics, to be called the "Michael Roberts Prize."

The Michael Roberts Prize is awarded to the Student who, having passed the General Michaelmas Examination of the Senior Freshman Year, shall be judged by the Board to have answered best at the Mathematical Honor Examination of the Senior Freshmen in the Michaelmas Term.

The sum is invested in Bank of Ireland Stock, and yields annually about £7 10*s*. The Prize is payable half-yearly in February and August by the Bursar.

THE TOWNSEND MEMORIAL PRIZE.[b]

On the 19th December, 1885, a scheme, recommended by a final meeting of the Subscribers of a Fund in memory of the late Rev. Richard Townsend, was laid before the Provost and Senior Fellows, and adopted by them. It provided:—

1. That the balance of the Fund subscribed, after paying the cost of the Portrait in the Common Room, be invested in approved Trustee securities in the names of the Bursar of Trinity College, Rev. George Salmon, D.D., Benjamin Williamson, M.A., and George L. Cathcart, M.A., as Trustees for the purposes of the Fund.[a]
2. That an Annual Prize, payable out of the interest of the Fund, and depending on its amount, be founded in the University of Dublin, to be called "The Townsend Memorial Prize."

It then prescribed rules under which the prize was to be given to the best answerer at an annual examination, if sufficient merit were shown. Under these rules the prize was paid in 1886, in part, and once only in full, in 1889. The Board, therefore, in 1891, on the recommendation of a meeting of Mathematical Examiners, altered the rules for its adjudication to the following:—

In 1893, and subsequent years, the Townsend Memorial Prize will be awarded to the Junior Freshman who shall obtain the highest aggregate of marks in Mathematics at the Michaelmas Prize Examination, and either the Hilary or the Trinity Honor Examinations.

If in any year sufficient merit be not shown, it shall be in the power of the Trustees, on the recommendation of the Examiners, to withhold the Prize, and to add the surplus thus accruing to the Principal Fund.

The value of the Prize is about £23 4*s*. 4*d*.

---

[a] See list of Fellows, year 1843. [b] See list of Fellows, year 1845.

PRIZES IN CLASSICS.

BISHOP BERKELEY'S GOLD MEDALS.

In the year 1752, May 8, the Provost and Senior Fellows agreed to give annually, for ever, two Gold Medals for the encouragement of Bachelors of Arts in the study of the Greek Language; having received a benefaction of one hundred and twenty guineas, besides a die, from the Right Rev. Dr. George Berkeley, Lord Bishop of Cloyne, and late Fellow of Trinity College, for that purpose.

These Medals were formerly given to such Middle Bachelors as had attended the Lectures of the Regius Professor of Greek, with remarkable diligence, for two Academic years, commencing with the Term in which they had graduated in Arts.

Subsequently, by a Resolution of the Board of June 11, 1846, these Medals were put under the following regulations, which did not, however, come into operation until 1848:—

1. That the two Berkeley Medals, equal in value and honor, be henceforth given at an Examination in the Greek Language and Literature, to be held annually, in Michaelmas Term, before the 20th of November.

2. All Students who have been admitted to the Degree of Bachelor of Arts may become candidates for the Berkeley Medals; such candidates are required to attend at least three-fourths of the Lectures given by the Professor of Greek in each Term.

Finally, by a Resolution of the Board, dated November 15, 1856, these Medals were put under the following regulations:—

1. The two Berkeley Medals, with a distinction in honour of first and second, shall henceforth be given to the best answerers at an Examination in the Greek Language and Literature, to be held annually in Hilary Term.

2. All Students, whether Graduates or Undergraduates, under M.A. standing,[a] may become candidates for the Berkeley Medals.

3. No Student shall be allowed to be a candidate more than *three* times, nor to obtain the Medal more than once.

4. The books and subjects of the Examination are to be announced annually by the Regius Professor of Greek, in the University Calendar, subject to the approval of the Board.

5. The Examination shall be conducted by the Regius Professor of Greek, the Professor of Latin, and one Examiner nominated by the Board.

6. The candidates will be examined in Composition, in the manner of the author or authors who shall form on each occasion the subject of the Examination.

Subject for 1904.—Euripides, the following plays: Alcestis, Andromache, Cyclops, Electra, Iphigenia in Aulide, Iphigenia in Tauris, Phœnissæ.

Subject for 1905.—Plato, Republic.

[a] That is, within three years from the date of their B.A. Examination.

VICE-CHANCELLOR'S LATIN MEDALS.

On the 30th of January, 1869, it was resolved by the Provost and Senior Fellows to establish an annual Examination in Latin, similar to that held for the Berkeley Medals in Greek, and subject to the same Regulations. Two Gold Medals, called "The Vice-Chancellor's Latin Medals," are given to the successful Candidates.

The Examination is held annually in Michaelmas Term, on a day named in the University Almanac.

Subject for 1903.—Virgil.
Subject for 1904.—Ovid, Metamorphoses.

VICE-CHANCELLOR'S PRIZES.

In the year 1857 the following Resolutions, approved of by the Vice-Chancellor, were adopted by the Board, with reference to the Vice-Chancellor's Prizes:—

Resolved,—That for the existing Regulations respecting Vice-Chancellor's Prizes, the following Rules be substituted:—

That four Vice-Chancellor's Prizes for Composition be given in each year, viz., for the best Compositions on proposed subjects, in English Prose, English Verse, Greek or Latin Prose, and Greek or Latin Verse.

That the amount of each Prize be Twenty Pounds.

That these Prizes be open to all Students under the standing of M.A.,[a] having their names on the College Books.

That, in case of remarkable merit, arrangements be made for a public recitation of the Compositions.

That the Prize in each of the above departments be not awarded to any Student oftener than twice in succession, or than three times during his College Course.

That the subjects for the above Compositions be announced, on or before the 1st of June, in each year; that the Compositions, with fictitious signatures, be sent in to the Senior Lecturer, on or before the 1st of December; and that the Prizes be declared on the 1st of January following.

That the Examiners be the Regius Professor of Greek, the Professor of Latin, and the Professor of English Literature.

Subjects for the Prizes to be awarded in January, 1904.

Greek or Latin Prose—"The influence of Alexandria on Roman Institutions and Literature."

Greek or Latin Verse—"The death of Ulysses."

The Subjects in English Prose and Verse will be found under the head "Prizes in English."

---

[a] That is, within three years from the date of their B.A. Examination.

THE FERRAR MEMORIAL PRIZE.[a]

AT a meeting of the subscribers to the Ferrar Memorial Fund, held in Trinity College, on Wednesday, the 11th of November, 1874, the Rev. George Salmon, D. D., Regius Professor of Divinity, in the Chair, it was resolved:—

1. That the entire Fund subscribed be invested in Bank of Ireland Stock, in the names of the Provost of Trinity College, the Rev. George Salmon, D. D., and William Ewart, Esq., J. P., as trustees for the purposes of the Fund.

2. That an annual Prize, payable out of the interest of the Fund, and depending on its amount, be founded in the University of Dublin, to be called "The Ferrar Memorial Prize."

3. That the Prize be awarded, subject to the restriction of sufficient absolute merit, to the best answerer at an Examination to be held in Trinity College, on a day or days of which due notice shall be given.

4. That the subject of Examination for the Prize be a course of Comparative Philology, to be fixed from time to time by the Board of Trinity College, and duly announced in the University Calendar for each year.

5. That the competition for the Prize be open to all under the standing of M.A.—not Fellows of the College, or Professors of the University—whose names shall be on the books of Trinity College during the day or days of Examination.

6. That successful competition for the Prize in any year shall preclude the successful candidate from competition for it again in any subsequent year.

The Fund is at present invested in £191 5*s*. 6*d*. Stock of Bank of Ireland, producing annually about £22; but as the Examiners' Fees are paid out of the Fund, the annual value of the Prize is about £18 15*s*.

The Examination for the Prize is held in Trinity Term. The Course for the Examination is—

King and Cookson's Sounds and Inflexions in Greek and Latin.
Monro's Grammar of the Homeric Dialect.

THE TYRRELL MEMORIAL PRIZE.[b]

AT a meeting of the subscribers to a fund for establishing a Memorial in memory of the late W. G. Tyrrell, held on the 20th October, 1877, certain resolutions were unanimously agreed to, were sanctioned by the Board on December 1, 1877, and slightly modified on December 8, 1900, so that they now are as follows:—

1. That the Prize be a Biennial Gold Medal, to be awarded for the best Translations of passages into the four kinds of Classical Composition.

2. That the passages for the Compositions be announced in November each alternate year; the Compositions, with fictitious signatures, to be sent to the Senior Lecturer on or before the 1st of February following.

3. That the Competition be open to all Students under the standing of M. A., having their name on the College Books.

4. That the Examiners be the Regius Professor of Greek, and the Professor of Latin.

[a] See list of Fellows, year 1859.
[b] See list of Scholars, year 1871, and of Benefactions for 1877.

THE WILLIAM ROBERTS PRIZE.*

On the 13th December, 1884, the sum of £200 was received from Mrs. William Roberts, to found a Prize in Classics, to be called the "William Roberts Prize." This Prize is awarded to the Student who, having passed the General Michaelmas Examination of the Senior Freshman Year, obtains the highest marks at the Classical Honor Examination of the Senior Freshmen in the Michaelmas Term. The Fund yields annually about £7 10*s*.

MULLINS CLASSICAL EXHIBITION.

The late Inspector-General Mullins having bequeathed to the College a sum of £600, for the "foundation of an Exhibition, to be called the Mullins Classical Exhibition, in such Greek and Latin authors, and under such regulations as the Provost and Senior Fellows may from time to time determine," the Board adopted the following Resolutions in the year 1898:—

"The Exhibition shall be tenable for three years, and the Examination shall be held every third year, in Michaelmas Term.

"The course shall consist of works of Greek or Latin authors not included in the General University Curriculum. The authors to be studied for each Examination shall be prescribed by the Board.

"Besides answering in the prescribed course, candidates shall be required to write an original Dissertation, bearing on some part of the subject-matter of that course, or treating questions connected therewith."

The Fund is invested in Bank of Ireland Stock, and yields annually about £18 7*s*.

The following are the authors for Examination in 1904:—

Julian (ed. Hertlein).
Ammianus Marcellinus, Books xiv.–xxv., inclusive.

The Dissertation should be sent in before November 1, 1904.

Subjects suggested for the Dissertation.

1. Mithraic Worship in the Roman Empire.
2. Roman Financial Administration in the Fourth Century.
3. Higher Education in the Fourth Century.
4. The City of Rome under the Dynasty of Constantine.

It is to be distinctly understood that these subjects are merely suggested, and that candidates are at liberty to choose any subject for investigation they please, provided it be connected with the history of the period treated by the prescribed authors.

* See list of Fellows, year 1847.

THE MARSHALL PORTER MEMORIAL PRIZE.

In November, 1900, £500 Great Northern Railway 4 per cent. Debenture Stock was presented by the Right Hon. A. M. Porter, Master of the Rolls in Ireland, and Mrs. Porter, for the purpose of founding a prize in memory of their son, Andrew Marshall Porter, B.A., elected Scholar of the House in 1895, and University Student in 1897, who died on the 5th June, from wounds received in action, on the 31st May, 1900, at Lindley, in South Africa, where he was serving as a volunteer.

The following conditions were suggested by the Donors, and agreed to by the Board, November 3, 1900:—

1. The income derived from the investment shall be awarded each year as a prize to the candidate for Classical Scholarship who, having failed to obtain a Scholarship, shall have obtained the highest marks of any unsuccessful candidate, subject always to the same conditions as to conduct as apply to the election of Scholars.

2. In case of equality of marks amongst two or more eligible candidates, preference shall be given to him who shall have obtained the higher marks in Classical Composition. If the eligible candidates shall be equal in Classical Composition, the prize shall be divided.

3. The Board shall have power to withhold the prize in case the Examiners certify that no candidate is of adequate merit. In such case the interest on the fund for the year shall be added to the capital.

PRIZE IN LOGICS AND ETHICS.

THE WRAY PRIZE.

A SUM of £500 was given in 1848, by Mrs. Catherine Wray, widow of the late Rev. Henry Wray,[a] D. D., Vice-Provost and Senior Fellow of Trinity College, to found a Prize for the encouragement of Metaphysical Studies among the Undergraduates of the University of Dublin.

Students in the Senior Sophister Class are alone admissible as Candidates. The Examination is held in Hilary Term, on a day given in the Almanac. The Course for Examination is as follows:—

1. All the Logics and Metaphysics of the Senior Freshman and Junior Sophister years.
2. Butler's Works (as in Moderatorship Course).
3. A special Work to be selected by the Honor Examiners and the Professor of Moral Philosophy, and submitted to the Council not later than June 25 in the year preceding the Examination.

Special work for 1904:—Plato, Theætetus.

JELLETT PRIZES FOR GENERAL ANSWERING.

THE Rev. John Hewitt Jellett, D.D., late Provost of Trinity College, awarded Prizes for General Answering from 1884 to 1887. In the year 1889 the Rev. George Salmon, D.D., Provost of Trinity College, provided a fund for the payment of these Prizes. The Prizes are awarded under the following Regulations:—

Two Prizes for General Answering are given at the General Examination at the close of the Senior Freshman year. No Student is eligible for either of these Prizes who shall be elected to a Senior Exhibition, or who is excluded by the College Rules from competing for a Senior Exhibition. Subject to these exceptions, the Prizes are awarded to the two Students respectively who obtain the highest aggregate of marks at the above-mentioned Examination, provided that this aggregate be not less than 65 per cent. of the total amount of marks obtainable. The Fund is at present invested in £75 Stock of the Bank of Ireland, producing annually about £8. This is usually divided between the two best answerers in the ratio of 5 to 3, but, in case of equality of merit, the Board may, if they think fit, award a Prize of £4 to each of the two Students.

[a] See list of Fellows, 1800.

PRIZES IN EXPERIMENTAL SCIENCE.

EKENHEAD SCHOLARSHIP.

A SCHOLARSHIP, called "THE EKENHEAD SCHOLARSHIP," tenable for three years, was founded in 1879 by Mrs. Mary Dummett, in memory of her brother, Thomas Ekenhead, Esq.

This Scholarship, which is open only to natives of the county of Antrim, will be awarded to the best answerer (provided that sufficient merit be shown) at an Examination in Elementary Physics and Chemistry, to be held in the Trinity Term of every third year. Candidates must have their names on the College Books, and must not have passed the Examination (Moderatorship or General) for the Degree of A.B. An Examination will be held in Trinity Term, 1905, the appointed subjects of Examination being as follows:—

ELEMENTARY COURSE IN PHYSICS.

Density and Heat.

Comparison of weights (balance).
Measurement of pressure (barometer, manometer, Marriott's tube).
Measurement of surface tensions of liquids (capillarity).
Diffusion of liquids and gases (dialysis, viscosity).
Measurement of densities (specific gravity balance, specific gravity bottle, hydrometers).
Thermometry (mercurial thermometers, Fahrenheit and Centigrade scales).
Expansion of solids, liquids, and gases (Roy and Ramsden's, Dulong and Petit's, and Regnault's experiments, compensating pendulums, maximum density of water, air thermometers).
Measurement of densities of gases and vapours (Regnault's and Guy Lussac's methods).
Measurement of specific heats (method of mixtures, Dulong and Petit's law).
Changes of state (liquefaction, evaporation, and boiling).
Measurement of tension of saturated vapours (Regnault's experiments).
Measurement of latent heat (ice calorimeters, Carrè's freezing machine).
Measurement of heat of combustion.
Determination of mechanical equivalent of heat (Joule's experiments).
Work done by a body expanding (indicator diagram, steam-engine).

Electricity.

Production of electric currents by chemical action (Wollaston's, Daniell's, and Grove's cells).
Measurement of intensity of current (tangent galvanometer).
Laws of electrolysis (Faraday's experiments, voltameters, electrotyping).

Optics.

Laws of Reflexion and Refraction, experimentally considered; Prisms; Spectroscope; Lenses.

Chemistry.

Candidates are expected to give evidence of experimental knowledge in the following subjects:—

Modes of distinguishing physical and chemical change; Proofs of laws of constant composition; Definite and multiple proportions; Determination of equivalent and atomic weights; Distinctions of metals and non-metals; Characters and modes of preparation of chief non-metals, and of their acid and non-acid products; Composition of air, water, and coal-gas; The processes of combustion and of respiration in animals and plants; Detection of common acids and metals; Preparation and properties of the metals and their chief compounds; Spectra of the principal metals.

Candidates are also expected to perform simple chemical calculations.

The Ekenhead Scholarship is tenable for three years. The Fund is invested in Bank of Ireland Stock, producing annually about £33 12*s*., and is payable half yearly in February and August.

FITZGERALD MEMORIAL SCHOLARSHIP AND MEDAL.

On the death of George Francis FitzGerald, F.T.C.D., F.R.S., in the year 1901, a Committee was formed for the purpose of founding a FitzGerald Memorial, to take the form of a Scholarship for the encouragement of Research in Experimental Physics by Students of Trinity College. A sum amounting to over £1600 was collected, and was disposed of as indicated by the following resolutions, suggested by the Committee, and approved of by the Board on June 28, 1902:—

1. That the Fund be lodged in the names of the Provost of Trinity College, the Bursar, and the Erasmus Smith Professor of Experimental Philosophy; and that the management of the Fund be in the hands of the following Trustees, viz.: the Provost, the Bursar, the Erasmus Smith Professor of Experimental Philosophy, Prof. D. J. Cunningham, and Prof. John Joly.

2. That the Fund be in the first place applied to the foundation of a Scholarship for the encouragement of research in Physical Science by Students of Trinity College, Dublin, who have obtained the B.A. Degree of the University of Dublin, and who during the term of Scholarship are to carry out research in the physical Laboratory of Trinity College, under the direction of the Erasmus Smith Professor of Experimental Philosophy, and to take part in the practical instruction of Students in the Physica Laboratory.

3. That this Scholarship be known as the "FitzGerald Memorial Scholarship."

4. That the FitzGerald Memorial Scholarship be awarded annually on sufficient merit being shown by the candidate in his experimental work done in the Physical Laboratory of Trinity College, and in the Examination for Moderatorships in Experimental Science.

5. That the holder of the Scholarship be eligible for re-election under special circumstances, on the recommendation of the Trustees.

6. That secondly, a portion of the Fund be expended in founding a FitzGerald Medal, to be awarded to Students for research carried out in the Physical Laboratory of Trinity College, on the recommendation of the Trustees.

PRIZES IN HISTORY AND POLITICAL SCIENCE.

CLUFF MEMORIAL PRIZE.[a]

THE friends of the late James Stanton Cluff, both in this country and in England, desiring to express, by some permanent Memorial, their admiration of his talents, and their esteem for his character, have collected by subscription a sum of about £400, which has been devoted to the foundation of Prizes in Trinity College, Dublin, and University College, London—institutions with both of which he was closely connected.

The sum of £200 was presented to Trinity College and accepted by the Board on December 24, 1870.

The Prize was, prior to the year 1888, awarded to the best answerer at a Special Examination on a portion of Mediæval or Modern History.

Since 1888, by a Resolution of the Board and Council of June 2, and May 9, 1888, the Prize has been annually awarded to the best answerer at the Examination for Prizes in Modern History, held in the Michaelmas Term of the Junior Sophister Year. The Fund is at present invested in £99 10*s.* 8*d.* Stock of the Bank of Ireland, producing annually about £11 18*s.* 10*d.*

THE HELEN BLAKE NATIONAL HISTORY SCHOLARSHIP.

IN the year 1884, the sum of £2700 was bequeathed by Miss Helen Blake, for the purpose of establishing a Scholarship, to be called "The Blake National History Scholarship." The following Regulations in reference to this Scholarship have been adopted:—

1. An election of a Scholar on the above foundation shall be held every fourth year, and the Scholar so elected shall hold the appointment for four years.

2. The interest of £2700, the Fund handed over by the Lords of the Treasury to Trinity College, shall be paid annually to the Scholar so elected. This Fund, and the accumulated savings, have been invested in the purchase of £2300 four per cent. Debenture Stock of the Great Southern and Western Railway Company of Ireland, and in £95 0*s.* 11*d.* Bank of Ireland Stock: and about £92 is paid annually to the elected Scholar.

3. The Scholarship shall be awarded to the author of the best unpublished Essay on the History of Ireland, or such portions thereof, or cognate subject bearing thereon, or event, or series of events, connected therewith, as the Provost and Senior Fellows of Trinity College shall decide.

4. The subject for the Essay, within the limits aforesaid, for which the Scholarship shall be awarded, shall be announced publicly three years before the election.

5. The Electors shall be the Provost and Senior Fellows, who shall from time to time make and publish the arrangements for the Election of these Scholars.

[a] See list of Scholars, year 1853, and of Benefactions for 1870.

6. If the Provost and Senior Fellows shall decide that no Essay sent in is worthy of a Scholarship, no election shall take place on that occasion. And in this case the accruing interest shall be invested by the Provost and Senior Fellows to form a fund to be appropriated to the purposes hereinafter mentioned.

7. They may give a reward or rewards to unsuccessful Candidates, or apply a portion of the fund specified in No. 6 to defray the expenses of publication of Essays which may possess sufficient merit.

8. The Candidates for the Scholarship shall be resident Students of Trinity College, Dublin—the word Student being interpreted to include Members of Trinity College, under the Collegiate standing of Masters of Arts.*

9. The first election shall take place early in the year 1888.

10. Scholars so elected may retain their Scholarships after taking the M.A. degree, but they must reside in Trinity College, or its vicinity, under the penalty of forfeiting their Scholarships. And in case of such Scholarship being forfeited or ceasing to be tenable (otherwise than by the effluxion of time), the Provost and Senior Fellows may appropriate so much of the income of the fund as would otherwise be applicable to such Scholarship to the fund specified in No. 6 of these Regulations.

11. The subject for the Essay to which the Scholarship will be awarded in 1904 is:—The History of Trinity College, Dublin, from its foundation to 1702. Candidates are requested to observe that it is not a mere dissertation on the period that is required, but a narrative of facts. This narrative must be derived throughout from original sources, and every portion of it must be supported by reference to printed or manuscript documents. Candidates are invited to discuss the value of the authorities they use.

The Essays are to be sent in on or before November 1st, in the year of election.

DUNBAR INGRAM MEMORIAL PRIZE.

On December 2, 1896, J. K. Ingram, LL.D., Senior Fellow of Trinity College, gave a sum of £250 for the foundation of a Prize in Modern History, in memory of his son, T. Dunbar Ingram, and it was resolved—

"That a Prize be founded to be called the Dunbar Ingram Memorial Prize: that it be annually awarded to the student who, having passed the General Final Freshman Examination, shall obtain the highest sum of marks at the Honor Examination in Modern History held in the Michaelmas Term of the Senior Freshman year: that Candidates at that examination, who desire to compete for this Prize, shall be allowed to increase their sum of marks by answering in a special course on some historical period, changeable from time to time."

The sum is invested in Bank of Ireland Stock producing annually about £8.

The Special Course at present is *The Third Crusade*,—"Itinerarium Regis Ricardi" (ed. Stubbs, Rolls Series), and Archer's "Crusade of Richard I."

---

* See note to regulations regarding Berkeley Medal.

PRIZES IN POLITICAL ECONOMY.

In the year 1837, the Provost and Senior Fellows resolved to institute an Annual Examination in Political Economy, and to offer Prizes, one of £10, and a second of £5, for proficiency in that science.

The Examination is held in Trinity Term; it is conducted under the direction of the Professor of Political Economy, partly *vivâ voce*, and partly by written questions.

Students in the Bachelor Classes only, having their names on the College Books, are permitted to offer themselves as Candidates.

No Candidate who has once been awarded either of the Prizes can obtain a Premium a second time.

The Course consists of two parts, viz.:—

I. *General Course* (60 marks).

Candidates will be examined in—

(i) Economic Theory and History of Theories.
(ii) Economic History.
(iii) The Elements of Statistics.

II. *Special Course* (40 marks).

A special subject, variable from year to year, will be prescribed.

Special Subject for 1904.

"The Economic System of Ricardo."

The following are suggested as sources of information:—

Ricardo's *Works* (Ed. M'Culloch).
The collected editions of Ricardo's Letters to (i) Malthus, (ii) M'Culloch, (iii) Trower.

In and after 1906 these Prizes will be open to all students under M.A. standing.

WHATELY MEMORIAL PRIZE IN POLITICAL ECONOMY.

On the 13th of May, 1871, a communication was received by the Board of Trinity College, from the Committee of the Whately Memorial Fund, stating that, after defraying the expenses connected with the administration of the Fund, and the erection of a monument to the late Archbishop Whately, in St. Patrick's Cathedral, Dublin, there remained a sum of £411 17*s.* 1*d.*, New Three per Cents., and a small sum in cash. After paying the premium in 1872, there remained a sum of £364 19*s.* 6*d.*, New Three per

Cents., to the credit of the Fund. The entire Fund is now invested in £102 3*s*. 6*d*. Bank of Ireland Stock, and produces annually about £12 5*s*. The following proposal, relative to the Whately Prize, was adopted by the Board, June 21, 1886:—

The Prize will in future be awarded to the author of the best essay on a specified economic subject, which conforms to the conditions hereinafter stated.

Graduates of any chartered University in the United Kingdom will be eligible as candidates.

All essays, with fictitious signatures attached, are to be sent to the Senior Lecturer on or before the last day of September in the year in which the Prize is to be awarded. The subject will be announced at least one year previous to the date fixed for sending in the essays.

The Prize will be next awarded in 1907.

COBDEN PRIZE AND MEDAL.

In the year 1900 the Cobden Club granted a Prize of the value of £20, together with a Silver Medal, to be awarded every third year on the following conditions:—

1. The prize shall be for an essay on some subject connected with Political Economy.

2. The Candidates shall be members of the University below Masters' standing.

3. The adjudicators shall be two in number, one to be appointed by the University and one by the Donors.

4. The subject of the essay shall be fixed by the adjudicators.

5. The times when the adjudicators shall be appointed, the subject announced, and the essays sent in, shall be fixed by the University.

6. The Donors reserve the right of determining the Prize on giving three years notice to the University.

7. The prize shall be called the Cobden Prize.

In accordance with these conditions, the Board appointed Professor Bastable adjudicator.

The Prize and Medal will be next awarded in 1904.

Subject.

"The legal and economic conditions necessary for the maintenance of Peasant Proprietary."

Essays with fictitious signatures to be sent to the Senior Lecturer on or before October 1, 1904.

PRIZES IN ENGLISH.

VICE-CHANCELLOR'S PRIZES IN ENGLISH.

THE rules with respect to the Vice-Chancellor's Prizes in English Prose and English Verse have been given already under "Prizes in Classics."

Subjects for the Prizes to be awarded in January, 1904.

English Prose—"Mythology—theories as to its origin and development."

English Verse—"The Gipsies."

PRIZE IN EARLY ENGLISH.

IN the year 1865, with a view to encourage the study of Early English, the Committee of the Early English Text Society resolved to place annually at the disposal of the Professor of English Literature two years' sets of their Publications, to be given as a Prize for distinguished proficiency in that subject. The Prize is open to all Students. The date of the Examination is fixed by the Professor of English Literature.

The Course is as follows:—

1. Sweet's Anglo-Saxon Primer-Grammar.
2. Sweet's Anglo-Saxon Reader.
   Specimens of Early English (ed. Morris and Skeat), 2nd vol.

NEW SHAKSPERE SOCIETY'S PRIZE.

IN the year 1875, it was resolved by the Board and Council—

"That 'The New Shakspere Society's Prize' be given in each year for the best original contribution to the study of Shakspere, by any Student of Trinity College under the standing of M.A.: that any Essay read before the 'University Shakspere Society' may be used in competition for this Prize, if handed in to the Chairman on the evening on which the Essay has been read: that the Prize be not awarded to any Student oftener than once: that the Examiners be the Professor of English Literature, and another Examiner to be appointed by the Board: that the Essays competing for the Prize of the preceding year be sent in to the Senior Lecturer, on or before June 1st."

DOCTOR HENRY HUTCHINSON STEWART LITERARY AND MEDICAL SCHOLARSHIPS.

Regulations as to the Stewart Scholarships.

"The moiety of such clear annual income [as shall arise from the real and personal estate bequeathed by the late Doctor Henry Hutchinson Stewart], when paid to the Bursar of Trinity College, Dublin, shall be applied in the maintenance of so many Medical and Literary Scholarships as the said moiety, with the accretions thereto, shall from time to time afford, in the proportion of one Literary Scholarship, and two Medical Scholarships, or as near thereto as the circumstances of the case will admit; the number of such Scholarships available for the year to be prescribed by the Provost and Senior Fellows of Trinity College at the commencement of each Academical year. And one-third of the sum received by the Bursar to be appropriated in each year to the endowment of such Literary Scholarships, and the remaining two-thirds of the said sum to endowment of Medical Scholarships, the said Scholars to be chosen for proficiency in the respective subjects hereinafter mentioned: and in case the said moiety shall in any one year exceed the amount required for the maintenance of the said Scholarships, or in case the prescribed number of Scholarships shall not for any reason be filled up, the surplus income shall, at the discretion of the Provost and Senior Fellows, be either in the whole or in part reserved as a fund for granting of prizes to unsuccessful competitors for the Medical Scholarships hereby founded in the said College, or be accumulated until, with previous accretions, it shall be sufficient to afford an income for the maintenance of one or more additional Scholarships, such Scholarships to be maintained as Medical and Literary Scholarships in the same proportion as the original Scholarships.

"One Medical Scholarship at least shall be awarded for proficiency, to be ascertained by competitive examination in the subject of the treatment of Mental Diseases, according to a course to be prescribed by the Provost and Senior Fellows of Trinity College; and the remaining Medical Scholarship or Scholarships shall be awarded for proficiency to be ascertained by competitive examination in some or all of the following subjects—that is to say, Anatomy, Physiology, Chemistry, Physics, Botany, Materia Medica, or other cognate subjects, according to a course to be from time to time prescribed by the Provost and Senior Fellows of Trinity College; and all such Scholarships and Prizes shall be designated by the name of 'The Doctor Henry Hutchinson Stewart Medical Scholarships and Prizes;' and the Provost and Senior Fellows shall apportion the sum applicable to the endowment of Medical Scholarships in each year in such proportions as they shall consider advisable between the Medical Scholarships of each class.

"Each Medical Scholar elected for proficiency in the subject of the treatment of Mental Diseases shall, as the condition of retaining such Scholarship, be bound within six months from his election to such Scholarship to proceed to some recognized institution for the treatment of Mental Diseases, to be approved of by the Board of Trinity College, and there continue as either a resident or out-door pupil for such period, not less than six months, and under such conditions as the Provost and Senior Fellows shall by a general regulation prescribe: and on failure

to observe such condition, the said Scholarship shall in the discretion of the said Provost and Senior Fellows be liable to be declared vacant.

"The Literary Scholarship or Scholarships shall be awarded to the Student or Students who shall be certified by the Senior Lecturer to have obtained the highest aggregate of marks at the five several Honor Examinations in Modern Literature held in the Junior Freshman and Senior Freshman and Junior Sophister years, and all such Scholarships shall be respectively designated by the name of 'The Doctor Henry Hutchinson Stewart Literary Scholarships and Prizes.'

"No student shall compete for a Medical Scholarship other than the Scholarship for proficiency in the treatment of Mental Diseases, after the completion of his second year as a Medical Student in Trinity College, Dublin: and no person shall compete for a Scholarship to be awarded for proficiency in the treatment of Mental Diseases, but within two years after he shall have graduated as a Bachelor of Medicine.

"No person shall compete for a Medical Scholarship who is already the holder of a Medical Scholarship either in Trinity College or the Royal University; and no person shall be admitted to compete a second time for a Medical Scholarship.

"Each Scholarship, whether Medical or Literary, shall be held for the term of three years; and it shall not be incumbent on the Board of Trinity College to fill the vacancies available in any one year, if in their opinion the answering has not been such as to merit it."

In Michaelmas Term, the Senior Lecturer will add to the marks obtained by the Candidate at the three Examinations in Modern Literature of the Junior Sophister Year those obtained by him at the two Examinations in English, French, or German Literature held in the Freshman Years. If he has been awarded Prizes in more than one of these subjects in either of the Freshman Years, that in which he obtained the highest marks will alone be taken into account in awarding the Stewart Scholarship. The Junior Sophister who shall have obtained the highest aggregate of marks so made up, shall receive £20 a-year during three years, provided his answering be deemed sufficient. The Scholarship is paid quarterly by the Bursar.

For the Regulations respecting the Stewart Medical Scholarships see under the head "School of Physic, Prizes."

RICHARD F. LITTLEDALE PRIZE.

On January 18, 1892, Mr. Harold Littledale and other relatives and friends of the late Rev. Richard F. Littledale, D.D., contributed a sum of £228 14*s.* 6*d.* for the founding of a Prize in English Literature in commemoration of him, and it was decided that the Prize should be awarded annually to the student who, having passed the general Michaelmas Examination of the Senior Freshman Year, shall obtain the highest marks at the Michaelmas Senior Freshman Prize Examination in English Literature.

The sum is invested in Bank of Ireland Stock, and produces annually about £8 14*s.* 6*d.*

PRIZES IN ORIENTAL LANGUAGES.

HEBREW, CHALDEE, AND SYRIAC PRIZES.

Prizes to Graduates for the encouragement of the study of Hebrew were first instituted by a decree of the Board, dated February 22, 1794, and a fund set apart for the purpose. In the year 1800, this fund was considerably augmented by the munificence of Primate Newcombe, and the grant was continued by his successors in the See of Armagh, until the year 1871, when it was withdrawn, in consequence of the disendowment of the Church of Ireland.

In the year 1874, it was decreed by the Board that a sum not exceeding £40 should be given annually for Prizes in Hebrew, Chaldee, and Syriac.

All Students are now permitted to attend Hebrew Lectures, and the Professor is authorized to give a Certificate for one year's attendance. An Annual Examination is appointed to be held, at the end of each year, in Trinity Term, and Hebrew Premiums are awarded to the best answerers at this Examination, provided they have attended the three antecedent Terms of Lectures. For the subjects and regulations of this Examination, see "Divinity School," § v.

PRIZES IN ARABIC, PERSIAN, AND HINDUSTANI.

In Michaelmas Term, 1856, the Provost and Senior Fellows founded an annual Prize of £10 for proficiency in Arabic. An Examination is held annually in Trinity Term, of Students wishing to compete for the above Prize. No Student is admitted to this Examination unless he has studied under the Professor of Arabic for, at least, three Terms.

In 1872 an annual Prize of £5 was founded, to be given, under similar conditions, for proficiency in Hindustani or Persian.

PRIZE IN SANSKRIT.

In Michaelmas Term, 1856, the Provost and Senior Fellows founded an annual Prize of £5, which they increased in 1885 to £10, to be given for proficiency in Sanskrit, under conditions similar to those which hold good in reference to the Prize in Arabic.

MISCELLANEOUS PRIZES IN LANGUAGES.

PRIZES IN IRISH.

For the encouragement of the study of the Irish Language, in 1842 the Board resolved to place annually the sum of £20 at the disposal of the Professor of Irish, to be given in Premiums to such Students as shall distinguish themselves in the Irish Language. The Examination is held in Trinity Term, on a day named in the Almanac.

PRIZES IN ITALIAN AND SPANISH.

Examinations for Prizes in Italian, and for Prizes in Spanish, were instituted in 1875, and are held annually, usually in Trinity Term, when a First and a Second Prize in Italian, and a First and a Second Prize in Spanish, are awarded, if sufficient merit be shown. The Prizes are £4 and £2 respectively, in books, and are open for competition to all Undergraduates, but can be obtained only once by any Candidate.

Candidates are required to give one week's previous notice to the Senior Lecturer, stating the Language or Languages in which they desire to compete.

The following Courses have been appointed:—

ITALIAN.

Alfieri, Saul, Bruto Secondo, Agide.
Manzoni, I promessi Sposi (Chaps. I.–XII.).
Dante, Il Purgatorio, Cantos 1–20.

SPANISH.

Calderon, La vida es sueño, Il magico prodigioso
Cervantes, Don Quijote, Part I.
F. Caballero, La Gaviota.

Exhibitions.

JUNIOR AND SENIOR EXHIBITIONS.

In Trinity Term, 1870, it was resolved by the Board that, in pursuance of the Decree of the Board and Visitors, dated March 19, 1870, certain Exhibitions should be established in the College, subject to such changes as the Provost and Senior Fellows might from time to time ordain. In Trinity Term, 1875, the number of these Exhibitions was increased from forty to forty-eight.

I.—EXHIBITIONS AT ENTRANCE.

1. Twelve Exhibitions, of £25 a-year each, tenable for two years, shall be awarded in each year to Students in the rising Junior Freshman Class, who have entered within the year, provided sufficient merit be shown by the Candidates.

This rule has been modified by the following resolutions, adopted by the Provost and Senior Fellows, February 17, 1899 :—

I.—"That the Junior Exhibition Examination be open, not only to all Students in the rising Junior Freshman Class, but also to Candidates whose names are not on the College Books, who shall conform to the regulations as to age and to character already in force, and who shall pay a fee of £1 seven days before the commencement of the Examination.

II.—"The latter class of Candidates will not be elected to Exhibitions unless the Senior Lecturer be satisfied that they have qualified at this Examination in each of the subjects required at an Entrance Examination. If elected they will be required to place their names on the College Books according to the ordinary rules."

2. These Exhibitions shall be called the Junior Exhibitions.

3. The Examinations shall be held annually, in Michaelmas Term, on days notified in the University Calendar.

4. No Student will be allowed to be a Candidate who shall have completed his nineteenth year before the 1st of June immediately preceding the commencement of the Examination.

5. All Students intending to compete for these Exhibitions must forward their names, and a certified copy of their baptismal registry, or other satisfactory evidence of age, to the Senior Lecturer, at least three days before the commencement of the Examination.

6. No Student holding a Supplemented Erasmus Smith Exhibition, will be entitled to hold one of these Exhibitions.

7. An Exhibitioner losing his class in College, or not keeping his name on the College Books, will forfeit his Exhibition.

8. At the end of the Michaelmas Term Examinations each year, the Senior Lecturer shall report to the Board the names of any of the Junior Exhibitioners elected in the previous year who do not appear to have made satisfactory progress in the Junior Freshman year ; and the Board will then consider whether they will continue the Exhibition for the second year.

9. Any grave violation of College discipline will subject the holder of an Exhibition to forfeiture.

10. The Examination will last four days, beginning at 9.30 o'clock, A.M., and will be in the following Courses:—

Classics (360 marks).	Marks.
Compositions,	120
Unprescribed Passages,	120
Ancient History,	60
Vivâ voce (see below),	60
English (240 marks).	
An English Essay,	100
English Literature,	70
English History and Modern Geography,	70
French or *German* (100 marks).	
Science (300 marks).	
Arithmetic,	45
Algebra, to the end of Quadratic Equations,	90
Six Books of Euclid, with easy deductions,	90
Plane Trigonometry,	75

Each candidate shall bring up one[a] Greek, and one[a] Latin book of his own selection for *vivâ voce* Examination. He must send the Senior Lecturer notice of his selection at least one week before the Examination.

The Course in Algebra and Trigonometry will be:—

Algebra, The First Four Rules, Fractions, Surds, Simple and Quadratic Equations.

Trigonometry, To the end of Solution of Plane Triangles.

The Course in English will consist of:—

1. Trench, English Past and Present.
2. A. Hamilton Thompson's History of English Literature (Murray), Chaps. VI., VII., VIII., § 1 and § 2, XI., XII., XV., XVII., XIX., omitting Notes and Illustrations, with corresponding portions of Smith's Specimens of English Literature (from "Short Specimens," also published as "Smaller Specimens").
3. Milton, Paradise Lost, Book I.
4. Shakspere, Merchant of Venice.
5. English Composition.
6. History of England (Student's Hume).
7. Modern Geography (Clyde).

[a] As regards the definition of one book, the Senior Lecturer will accept an amount of any *classical* author equivalent, in Greek, to one book of Thucydides, or two books of Xenophon, or a Greek play, or three books of Homer; and, in Latin, to a book of Livy, or two books of Cæsar, or a speech of Cicero's not shorter than the *pro Milone*, or two books of Virgil.

11. The Exhibitions will be paid quarterly, through the Tutors of the respective Students—the first payment to be made at the close of the December quarter next following the day of election.

II.—EXHIBITIONS AT THE CLOSE OF THE SECOND YEAR.

1. Twelve Exhibitions of £25 a-year each, tenable for two years, shall be awarded, in each year, to Students who have passed the Michaelmas Examination, at the close of the Senior Freshman year.

2. These Exhibitions shall be called the Senior Exhibitions.

3. All Senior Freshmen intending to compete for these Exhibitions must forward their names to the Senior Lecturer, at least one week before the first day of the Michaelmas Senior Freshman Examination, in order that they may be placed in a separate division, and undergo a more strict and searching Examination by Examiners specially appointed.

4. The marks given at this Examination shall be arranged as follows:

Thirty in Pure Mathematics—viz., Euclid, Algebra, and Trigonometry.
Twenty in Applied Mathematics—viz., Mechanics.
Forty in Classics—viz., in the Greek and Latin authors appointed for the Examination, and in Latin Prose Composition.
Ten in Logic.
Ten in English Prose Composition.

5. After the close of the Prize Examinations in Michaelmas Term, the Senior Lecturer shall add to the total of the marks obtained by any Candidate for Senior Exhibitions at the General Examination—

Twenty-five per cent. of the sum of the marks obtained by such Student in Mathematics at the Prize Examination in Michaelmas Term, and the Honor Examination in either Hilary or Trinity Term;
Twenty per cent. of the sum of the marks obtained in Classics at the Prize Examination in Michaelmas Term, and the Honor Examination in either Hilary or Trinity Term;
Fifteen per cent. of the sum of the marks obtained in Logics at the Prize Examination in Michaelmas Term, and the Honor Examination in either Hilary or Trinity Term;
Twenty per cent. of the marks obtained at the Prize Examination in Modern History;
Twenty-five per cent. of the marks obtained at the Prize Examination in Experimental Science;
Twenty per cent. of the marks obtained at the Prize Examination in Natural Science; and
Twenty per cent. of the marks obtained at the Prize Examination in English Literature and Composition;
Fifteen per cent. of the marks obtained at the Prize Examination in French; and
Fifteen per cent. of the marks obtained at the Prize Examination in German.

In the case of a Student obtaining Honors in the same department at both the Hilary and Trinity Examinations, the highest marks are to be taken into account.

No marks obtained by a Candidate for Honors at any Examination for Honors at which he has not been awarded an Honor shall be allowed to count.[a]

6. The list of marks thus made up shall be submitted to the Board by the Senior Lecturer, with the names arranged in order of merit; and the Board will elect the twelve most deserving Candidates as Senior Exhibitioners, provided sufficient merit has been shown.

7. A Student who shall have dropped a class since his entrance will be ineligible.

8. An Exhibitioner losing his class in College, or not keeping his name on the College Books, will forfeit his Exhibition.

9. Any grave violation of College discipline will subject the holder of an Exhibition to forfeiture.

10. The Exhibitions will be paid quarterly, through the Tutors of the respective Students—the first payment to be made at the close of the December quarter next following the day of election.

These rules were subsequently altered[b] so as to exclude Scholars and Students holding at the time of election a Royal Scholarship, or a Supplemented Erasmus Smith Exhibition, or a Foyle College Exhibition, or a Kidd Scholarship, from the competition.

THE JAMES PATRICK KIDD SCHOLARSHIP.

THE following Regulations received the approval of the Board December 7, 1889:—

1. The Examination for the James Patrick Kidd Scholarship shall be held in Michaelmas Term.

2. Candidates for this Scholarship must either be in the Rising Junior Freshman Class, and have entered College not earlier than the first day of the preceding Trinity Term, or they must pay a fee of £1 seven days before the commencement of the examination; but one of the latter class of candidates will not be elected to the Scholarship, unless the Senior Lecturer be satisfied that he has qualified at this examination in all the subjects required at an Entrance Examination; and, if elected, he will be required to place his name on the College Books according to the ordinary rules.

3. The Course for the Scholarship shall be that prescribed in the University Calendar for Junior Exhibitions, with the same limit of age.

4. The Scholarship shall be tenable for four years, and shall be forfeited by the holder incurring any heavy Collegiate censure, such as public admonition or rustication, failing to proceed regularly with his Class without the leave of the Board of Trinity College, or failing to obtain in any year one Honor of the first rank, or two Honors of the second rank, or else obtaining such equivalent distinctions as are specified in the present Regulations for the tenure of Royal Scholarships as stated in the University Calendar.

---

[a] Resolutions of Board and Council, November 30, 1889, and March 2, 1901.

[b] Resolutions of the Board, February 20, 1875, June 1877, December 1884, November 1895.

5. Whenever in future a Kidd Scholarship shall be vacant, the next following ordinary Examination for Junior Exhibitions shall be suspended, and Candidates for Junior Exhibitions and School Exhibitions shall be required to compete at the Examination for the Kidd Scholarships and each of the twelve Candidates who come next in answering to the Student elected to the Kidd Scholarship shall be elected to a Junior Exhibition, provided that he satisfies the above condition as to age, and that he is not appointed to a Royal Scholarship, Supplemented Erasmus Smith Exhibition, or Foyle College Exhibition.

The Fund produces annually about £82 8*s.* 4*d.*, and about £76 is paid annually to the elected Scholar. The Scholarship was last awarded in 1901.

EXHIBITIONS AWARDED TO STUDENTS FROM SOUTH AFRICA.

On March 21, 1903, the Board passed the following scheme for the encouragement of Colonial Students :—

1. That two Exhibitions be offered annually to South African Students, each not exceeding £50 per annum, and tenable for four years.

2. That a sum not exceeding £25 be spent in South Africa for the purpose of advertising these Exhibitions, and of making known, at the same time, through an agent, the advantages offered to Students of Trinity College generally.

3. That such Exhibitions be given as the result of an examination in Arts held at Trinity College.

4. That one Exhibition be reserved for Medical students.

5. That in order to diminish, as far as possible, the expenditure of the Cista Communis, the fees paid by each of these Exhibitioners to the Tutorial Fund, and to the Medical and Engineering Professors be refunded to the Cista Communis.

6. That, in order to obtain any of these prizes, sufficient merit must be shown.

7. That, in the case of sufficient merit, a third prize be given, consisting of remission of half fees in Arts.

8. That, before payment of each instalment of such Exhibitions, the Bursar must be satisfied that the Exhibitioner has prosecuted his studies regularly, and paid all fees due by him to the College.

9. That the following qualifications be required :—

(*a*) Candidates must be under twenty-three years of age on the day of examination.
(*b*) Candidates must have resided in the Colony for at least three years previous to the examination.
(*c*) A certificate of character must be produced.

The course for this examination will be the same as that for Junior Exhibitions.

The examinations will also be held concurrently with that for Junior Exhibitions, unless it is found that March will be a much more convenient time for Students from South Africa, in which case, if there is sufficient competition, the Board may arrange to hold the examination in March.

Mr. Robert Exham, Victoria College, Stellenbosch, was appointed as agent to attend to the advertisements recommended in the above regulations.

EXHIBITIONS TO WHICH APPOINTMENTS ARE MADE WITHOUT EXAMINATION.

The following Exhibitions are awarded to Students by the Board without a special Examination; they are paid quarterly through the Tutors, and are vacated when the holders arrive at Master's standing[a]:—

Erasmus Smith Exhibitions.—These Exhibitions were founded by the Governors of Erasmus Smith's Schools, and the foundation was confirmed by Act of Parliament (10 Geo. I., 1723). Students elected by the Board of Erasmus Smith are entitled to priority in appointment to these Exhibitions: and those not so filled are disposed of by the Board. The annual value of a first-class Erasmus Smith's Exhibition is £7 7*s.* 8*d.*, and of a second-class do. £5 10*s.* 9*d.* There are 20 first-class and 15 second-class Exhibitions.

Downes Exhibitions.—The Downes Exhibitioners are selected, in accordance with the will of the founder, as expressed in the following passage of his will[b]:—

"I leave Fifty Pounds annually, to be given among five Students on the Divinity line, in the proportion of £10 each, at the discretion of the Provost and Senior Fellows; respect being had in such choice to narrow circumstances, and proficiency in learning; the said stipend to continue till they shall arrive to the standing of A.M., or shall die, resign, or leave College, and then to cease, and others to be appointed in their room; and to be determinable sooner in case of immoral behaviour, negligence in attending the Divinity Lectures, or incapacity in such Students, certified by the Divinity Lecturer."

The annual value of each Exhibition is £10 *Irish*, or £9 4*s.* 8*d.* present currency.

Worrall Exhibitions.—The Worrall Exhibitioners, in accordance with the will of the founder, are chosen by the Board from poor scholars, who have entered as Sizars, the sons of clergymen in the diocese of Dublin, or, in default of such, the sons of citizens

---

[a] In these cases *Master's standing* is to be counted from the time of the Student's obtaining the Exhibition, assuming that he has proceeded regularly with his Class. Resolution of the Board, March 3, 1894.

[b] College Registrar, p. 3, 1784.

of the city of Dublin. The Fund produces annually about £75 19*s.*, and the annual value of each Exhibition is £9 4*s.* 8*d.* When an Exhibition is declared to be vacant, the Tutors are invited to state to the Board the names of their pupils having the qualifications required by the founder's will, and such other circumstances as may guide the Board in their selection.

Crowe Exhibitions.—These Exhibitions were formerly limited to Students nominated by the representatives of the founders.

On the 28th March, 1874, a deed of grant of the right of presentation to the Crowe Exhibitions, by the Rev. Robert Blundell to the Provost, Fellows, and Scholars of Trinity College, from and after the decease of the said Robert Blundell, was laid before the Board.

The Exhibitions are to be given to "Sons of Clergymen of the Church of Ireland (giving the preference to sons of clergymen of the diocese of Tuam) intending to devote themselves to the ministry of the Church of Ireland," such Exhibitions to be given as a rule to Students at the commencement of their Divinity Course, and in all cases taking into account the poverty of the respective Candidates.

The endowment yields annually about £133 18*s.* 6*d.*, and the annual value of each exhibition is £15.

Span and Avary Exhibitions.—These Exhibitions are specially limited by the wills of the founders to poor Students. There were formerly two Span Exhibitions of £24 annual value each, but in consequence of the failure of the fund, none are being granted at present. There are two Avary Exhibitions; the annual value of each is £4 12*s.* 4*d.*: the Exhibitioners are nominated by the Provost from among the Sizars.

Clanbrassil, Stearne, Parsons, Yelverton, Griffith, and Briggs Exhibitions are elected to by the Board for general collegiate merit, the preference being generally given to Scholars on the foundation. The annual value of each is £4 12*s.* 4*d.*

The Stearne Fund yields annually about £50; the funds of the remainder yield a total income of about £26.

As these Exhibitions are payable out of Special Trust Funds which are liable to fluctuation, the Board reserve to themselves the power of discontinuing the payment of them, either wholly or in part, whenever the requisite amount is not forthcoming.

Exhibitions awarded to Scholars (*see page* 111).

Worth Exhibitions.—These Exhibitions were granted, in 1699, by the Hon. William Worth, of the city of Dublin, who granted for the purpose a charge of £20 Irish upon the funds of St. Stephen's Hospital, Cork, commonly called the Blue Coat School, founded by him.

William Worth appointed that four Students of Trinity College, Dublin, with a preference to natives of the city and county of Cork, should be selected by the Bishop of Cork, the Mayor of Cork, the heir-at-law of William Worth, and the Provost of Trinity College, and the income divided equally between them. In 1890 the Educational Endowments Commissioners framed a scheme for St. Stephen's Hospital, Cork, and directed that the £20 Irish shall be paid by the Governors of the Hospital to the Senior Bursar of Trinity College, and gave the Provost and Senior Fellows power to regulate the conditions, number, amount, and tenure of the Exhibitions.

The Board has decided that the selection of the Students shall be made as heretofore, and that the annual income of £20 Irish shall be divided into two Exhibitions, the Students to be elected for not more than two years, and to be capable of re-election.

REGULATIONS OF THE EXHIBITIONS ON THE FOUNDATION OF ERASMUS SMITH, ESQ.

By an Act of the Parliament of Ireland (10 Geo. I., c. 1, *Private*) it was provided that twenty yearly Exhibitions of £8, of the late Irish currency (being equal to £7 7*s*. 8*d*. of the present currency), and fifteen several Exhibitions of £6 a-year, Irish (being equal to £5 10*s*. 9*d*., present currency), shall from time to time, and at all times thereafter, be paid and payable out of the rents and profits of the lands of the Governors, to the like number of Poor Scholars, Members or Students of Trinity College, respectively, until they shall be otherwise provided for, removed, or take the Degree of Master of Arts in College, or be of standing to take such Master of Arts Degree. There is also a reduction of £5 (sterling) a-year in the rent of Chambers held by Exhibitioners; an Exhibitioner, who is also a Scholar, can obtain a reduction *either* as a Scholar *or* as an Exhibitioner, but not as both.

The following Rules are now in force. Information to be obtained at 40, Harcourt-street, Dublin.

1. That, for the benefit of the three Grammar Schools of the foundation of Erasmus Smith, at Drogheda, Galway, and Tipperary, and the pupils thereof, and for the encouragement of learning therein, ten of the said Exhibitions of £7 7*s*. 8*d*. shall be appropriated to the said three schools, and that five of these shall be increased or supplemented each year by an additional grant of £32 12*s*. 4*d*. to the sum of £40, and that five others of them shall be increased or supplemented by an additional grant of £17 12*s*. 4*d*. to the sum of £25, such supplemental sums or grants to be held subject to the regulations hereafter mentioned, and that the said several supplemental grants shall be known and distinguished as "Erasmus Smith's Grammar Schools' Supplemental Exhibitions."

2. That the said Erasmus Smith's Grammar Schools' Supplemental Exhibitions shall not be attached to any of the said three Grammar Schools in particular, but shall be open for competition equally to the pupils of all these schools, subject as hereinafter provided.

3. That one such Supplemental Exhibition of £32 12*s.* 4*d.*, and one such of £17 12*s.* 4*d.*, shall be offered for competition in each year to pupils of the said three Grammar Schools.

4. That the said Grammar Schools' Supplemental Exhibitions shall be open for competition only to such students of Trinity College, Dublin, as shall have been continuously for at least three years in all previous to their College entrance, pupils in some one or more of the said three Grammar Schools.

5. That no pupil of any of said Grammar Schools shall be qualified to compete for a Supplemental Exhibition who shall not have continued as a pupil at one of the said three Grammar Schools, if a Pensioner, until the October Entrance Examination in Trinity College, or if a Sizar, until the Sizarship Examination in Trinity College, immediately preceding in each case the Competitive Examination at which he may present himself.

6. That for the benefit of the Governors' High School in Harcourt-street, Dublin, and the pupils thereof, five of the said Statutory Exhibitions of £7 7*s.* 8*d.* each, shall be appropriated to the said High School, and shall be increased or supplemented each year by an additional grant of £22 12*s.* 4*d.* to the sum of £30, to be held subject to the regulations hereinafter mentioned, and shall be open for competition to pupils of the said High School only; and that the supplemental grants hereinbefore provided for the said High School shall be known and distinguished as "Erasmus Smith High School Supplemental Exhibitions."

7. That one such Supplemental Exhibition of £22 12*s.* 4*d.* shall be offered for competition in each year to pupils of the said High School.

8. That the said High School Supplemental Exhibitions shall be open for competition only to such students of Trinity College, Dublin, as shall have been continuously for at least three years previous to their College Entrance pupils in the said High School.

9. That no pupil of the said High School shall be qualified to compete for a Supplemental Exhibition who shall not have continued as a pupil thereat, if a Pensioner, until the October Entrance Examination, or if a Sizar, until the Sizarship Examination in Trinity College, Dublin, immediately preceding in each case the Competitive Examination at which he may present himself.

10. That the said supplemental grants for the said High School Exhibitions shall continue to be provided out of the income of the High School, so far as same will extend, and any deficiency shall be made good out of the general funds of the Governors.

11. That no student at any of the said Schools shall be qualified to receive any Supplemental Exhibition who shall at the time of such competitive examination have attained the age of twenty years.

12. That no Fellow Commoner shall be qualified to compete for any Supplemental Exhibition.

13. That the Provost and Senior Fellows of Trinity College, Dublin, be requested to continue to appoint examiners as heretofore, who shall on some convenient day in each year hold a competitive examination of such students as shall present themselves, and shall have entered from the three Grammar Schools of Erasmus Smith's foundation, or the said High School; and the course of learning forming the subject of such examination shall be that which is or shall be provided or authorized by the rules and regulations of Trinity College, Dublin, for the Examination for Junior Exhibitions.

14. That the Head Masters of the said Schools be directed to furnish to the Registrar, before the end of the first week of October in each year, a list of such of their pupils intending to enter Trinity College previous to the Examination for Exhibitions as are duly qualified, as hereinbefore provided, to compete for the Supplemental Exhibitions respectively.

15. That the Registrar shall forward a complete list of the pupils of said Schools so qualified to compete for the Supplemental Exhibitions to the Senior Lecturer of Trinity College before the end of the second week of October in each year.

16. That the Board of Trinity College be requested to continue to furnish, as at present, to the Governors at the close of each such Competitive Examination, at which any student having been a pupil of any of the said Schools may have presented himself for Examination, a detailed statement of the result of such examination, under the several heads of the subjects examined, setting forth not only the positive merits of each such student, but also his relative merits as compared with the several other persons who have submitted themselves to such examination, from whatsoever schools such other persons may have come, and also in such statement to give such other information respecting the examination as they may deem expedient to bring under the notice of the Governors.

17. That in case it shall appear from such statement that a student who shall have entered from any of the said schools, and shall be duly qualified according to these rules, shall be first in merit by reason of his having outstripped all competitors at such examination, wherever educated, he shall be entitled to receive an additional sum of £10 per annum; and such additional sum of £10 shall be deemed part of his Supplemental Exhibition.

18. That the Governors shall not be bound to award any Supplemental Exhibition upon the result of any such Competitive Examination to any of such competitors unless they consider his positive merit sufficient to deserve the same, and they shall have power to award a Supplemental Exhibition of a lower amount, if they shall consider the positive merit sufficient only to deserve such amount.

19. That no student shall be permitted to compete more than once at any such examination.

20. That any student who shall have obtained a Supplemental Exhibition shall be entitled to hold it for a period of five years, in case his name shall be so long continued on the books of Trinity College, and that proceeding regularly with his class he shall have obtained in each year of his Undergraduate Course one honor of the first rank or two honors of the second rank; the obtaining of such Supplemental Exhibition being reckoned as equivalent to an honor of the second rank obtained in the Junior Freshman year, a Moderatorship as an honor of the first rank in the Senior Sophister year, and an University Scholarship, in whatever year obtained, as equivalent to an honor of the first rank at the Term Examination in that year.

21. That success at the first Indian Civil Service Competitive Examination shall be reckoned as equivalent to an honor of the first rank, and that success at any of the subsequent Indian Civil Service Examinations shall be reckoned as equivalent to an honor of the second rank.

22. That a Supplemental Exhibition shall become forfeited in case the holder shall incur any heavy Collegiate censure, such as public admonition or rustication, or in case all the examinations of any year of his Course shall have elapsed without his having obtained in that year one honor of the first rank or two honors of the second rank, or what is to be deemed equivalent thereto as hereinbefore provided.

23. That the Supplemental Exhibitions shall be payable half-yearly, viz., on 1st May and 1st November; but that payments shall be made in May to such students only as shall have obtained in the preceding part of that year at least one honor of the second rank or its equivalent. That a half-yearly payment held over in May, shall be made in the following November, provided an honor shall have been obtained in the meantime; and a payment for the entire year shall be made in November to such students as had not qualified before the 1st of May for a half-year's payment, and shall, between the 1st of May and 1st of November, have fulfilled all the requisites for the whole year.

24. That nothing in these regulations shall affect the rights of persons to whom Exhibitions have been awarded before the 1st day of January, 1896.

By order of the Governors,

FRANK BROWNE,

Registrar.

BOARD-ROOM, 40, HARCOURT-STREET, DUBLIN,

8th February, 1895.

SUMMARY OF SCHOLARSHIPS, EXHIBITIONS, AND PRIZES, AWARDED BY EXAMINATION IN THE UNIVERSITY OF TRINITY COLLEGE, DUBLIN.

At Entrance:—

Every year 12 Junior Exhibitions, value £25 a year for two years, and every fourth year the Kidd Scholarship, value about £76 a year for four years; open to all persons under 19, on the 1st of June preceding the Examination which is held in October, and who have just entered College, or, in the case of Candidates for Junior Exhibition, who pay a special fee of £1. The subjects of the Examination are:—Greek, Latin, Ancient History, English Essay, English Literature, English History and Modern Geography, Arithmetic, Algebra, Euclid with Deductions, and Trigonometry.

Twenty-two Entrance Prizes, namely, a First of £5 and a Second of £2 in each of the following subjects:—Greek Verse, Latin Verse, Greek Prose, Latin Prose, English Literature and Composition, English History and Modern Geography, French, German, Hebrew, Experimental Science, Natural Science, open with same limits of age.

In any year of their Course Students may compete for:—

About 10 Sizarships annually, in Mathematics, Classics, Hebrew and Irish, awarded by examination in June, limited to poor students. Sizars pay no half-yearly fees, have their Commons free, and their Sizarships generally last 4 years. The normal time for getting Sizarship is at Entrance.

About 16 Scholarships annually in Mathematics or Classics, or Experimental Science (limited to 2). Successful candidates are styled Scholars of the House, and are members of the Corporation of Trinity College; they receive a salary of £20 Irish, have their Commons free, their rooms at a reduced charge, pay only quarterly tuition fees of £1 1*s.*, and their Scholarships last usually for 5 years. The examination is held in Trinity Term.

The Marshall Porter Memorial Prize, £20, is awarded annually to the most deserving unsuccessful candidate for Classical Scholarship.

Term Honors and Prizes, and Prizes at Lectures:—

Every Term Examinations are held, at which Honors of the First and Second Rank are awarded to Candidates who exhibit sufficient merit. In Michaelmas Term, Prizes of £4 and £2 are awarded to Candidates who obtain First and Second Honors, respectively.

Two Prizes of £1 10*s.* each, for Composition, are awarded each Term to Freshman students attending the Honor Lectures in Classics, and three Prizes of £2 each for Composition in French, German, and English, are awarded each Term to the students attending the Professors' Lectures.

Prizes and Exhibitions open for Competition :—

In the Junior Freshman year :—

Term Prizes (see above) in Michaelmas Term in: Mathematics, Classics, Experimental Science, Natural Science, Modern History, English Literature, French, German.

Composition Prizes at the Honor Lectures in Classics every Term (see above).

Catechetical Prizes, £2 each, at all the Lectures and Examinations, to Students who exhibit sufficient merit.

The Townsend Memorial Prize in Mathematics, £23, awarded on the results of the Honor Examinations in Mathematics.

In the Senior Freshman year :—

Term Prizes (see above) in Michaelmas Term in: Mathematics, Classics, Experimental Science, Natural Science, Modern History, English Literature, French, German.

Prizes for Composition at the Honor Lectures in Classics, every Term (see above).

Catechetical Prizes, £2 each, at all the Lectures and Examination, to Students who exhibit sufficient merit.

Twelve Senior Exhibitions, value £25 a year for 2 years, awarded on the results of the Final Freshman Examination and the Honor Examinations of the Senior Freshman year.

The Jellett Prizes, £5 and £3, for first and second places at the Final Freshman Examination.

The Michael Roberts Prize, £7 10*s.*, in Mathematics; the William Roberts, £7 10*s.*, in Classics; the Dunbar Ingram, £8, in Modern History; and the Littledale, £8 10*s.*, in English Literature, are all awarded at the Term Prize Examinations in Michaelmas Term.

In the Junior Sophister year :—

Term Prizes in Michaelmas Term in: Mathematics, Classics, Logics, Experimental Science, Natural Science, Modern History, Modern Literature, Legal and Political Science.

Catechetical Prizes, £2 each, at all the Examinations to Students who exhibit sufficient merit.

The Lloyd Exhibition in Mathematics, value about £17 a year for 2 years, awarded at a special Examination in Michaelmas Term.

The Stewart Literary Scholarship, value £20 a year for 3 years, awarded on the results of the Term Honor and Prize Examination, in French, German, and Literature, in the Freshman and Junior Sophister years.

The Cluff Memorial Prize, £12, in Modern History, awarded at the Term Prize Examination in Michaelmas Term.

In the Senior Sophister year :—

The Wray Prize, £30, in Logics and Metaphysics, awarded at a special Examination in Hilary Term.

The Degree Examination can be passed by answering in any of the Honor Courses, viz.: Mathematics, Classics, Ethics and Logics, Experimental Science, Natural Science, History and Political Science, Modern Literature, Legal and Political Science. Successful Candidates are styled Senior or Junior Moderators, and receive Gold or Silver Medals. A Studentship, not exceeding £100 a year for 5 years, and a Brooke Prize of £40 are awarded to the first and second answerers, respectively, in Mathematics, combined with another Course; and a Studentship and Brooke Prize of similar values are awarded to the first and second answerers, respectively, in Classics, combined with another Course.

About £450 is awarded annually in other Prizes to deserving answerers at the Degree Examination.

Scholars who obtain Senior Moderatorships are usually granted Exhibitions of £10 a year for 3 years.

The FitzGerald Memorial Scholarship and Medal in Experimental Science, £50.

Catechetical Prizes, value £2 each, are awarded at the Term Examinations to Students who exhibit sufficient merit.

In the Junior Bachelor year:—

The Bishop Law Prizes, value £20 and £10, in Mathematics, in Michaelmas Term.

In the Bachelor years:—

Prizes in Political Economy, £10 and £5, in Trinity Term.

For Graduates of not more than 8 years standing:—

The Elrington Theological Prize, value £50, for an Essay on a Theological subject.

For Graduates:—

The Whately Memorial Prize in Political Economy, every fifth year, value about £60, awarded for an Essay on a specified Economic subject.

At the Examination for Fellowship, the first man out receives the Madden Prize, value about £310, provided there are two disappointed Candidates at least, and to him and other unsuccessful Candidates the Board usually grant Prizes, varying from £60 to £20, in order to encourage them in reading for Fellowship.

In any year of their College Course up to M.A. standing:—

Students may compete for the following special Scholarships or Prizes, which are all awarded annually, unless a statement to the contrary is made:—

In Mathematics:—

The M'Cullagh Prizes, value £30 and £20, on a special course.

Classics :—

Bishop Berkeley's Gold Medals (2), for a special subject.

Vice-Chancellor's Latin Medals (2 Gold), on a special subject.

Two Vice-Chancellor's Prizes, value £20 each, for Compositions on special subjects.

The Ferrar Memorial Prize, £18 15*s*., for Comparative Philology, a special course being set.

Tyrrell Memorial Gold Medal, every second year, for Composition.

Mullins Classical Exhibition, value £18 a year for three years, every third year, awarded on a dissertation and an Examination on a special course.

History and Political Science :—

The Helen Blake National History Scholarship, every fourth year, value about £92 a year for four years, awarded for an Essay on a specified subject.

The Cobden Prize of £20 and Silver Medal, every third year, awarded for an Essay on some subject connected with Political Economy.

English :—

The Vice-Chancellor's Prizes, £20 and £20, for English Prose and English Verse.

Prize in Early English. New Shakspere Society's Prize.

Languages :—

Hebrew, Chaldee, and Syriac, £40; Arabic, £10; Hindustani or Persian, £5; Sanskrit, £10: all awarded by Examination to Students attending the corresponding Lectures. Prizes in Irish, £20; Italian, £4 and £2; Spanish, £4 and £2.

In Subjects connected with the Study of Divinity :—

Wall Biblical Scholarship, value £20 a year for five years. Prizes in Biblical Greek, £15; in Ecclesiastical History, £10 and £5.

Prizes in the Professional Schools :—

Prizes in the School of Divinity :—

Each Term two Prizes for Composition, value £2 each, one for the Senior Class, and one for the Junior. The Carson Biblical Prize, £18 12*s*. The Ryan Prize, £3 6*s*. Archbishop King's Divinity Prizes, £12, £8. Bishop Forster's Divinity Prizes, £17 10*s*. The Downes' Divinity Premiums: for Written Composition, £20 and £10; for Oratory, £12 and £8; and for Reading the Liturgy, £8 and £4. The Warren Church Formularies' Prize, £10. The Robert King Memorial Prize in Ecclesiastical History. Two Theological Exhibitions, value £60 and £20 a year, tenable for three years. The Kyle Irish Prize, £11. A Bedell Scholarship of £20 a year for four years, and a Bedell Prize of £10, are awarded from time to time.

Prizes in the School of Law :—

At the end of Trinity Term Prizes amounting to £45 can be awarded by the Professors to the best answerers of the Students attending their Lectures.

In December, an Honor Examination is held in Law, open to Students who have credit for a year's Lectures with each of the three Professors, and who compete not later than twelve months after the B.A. Examination of their Class; at this Examination are awarded:—The Reid Scholarship, £40, in Criminal and Constitutional Law, and Prizes, of £20 in Civil and International Law, and of £20 in Feudal and English Law. Further Prizes of £20 and £10 may also be awarded.

Prizes in the School of Physic:—

A Medical Scholarship of £20 a year for two years, and a Stewart Scholarship of £10 a year for three years, in Chemistry, Physics, Botany, and Zoology, open to Students who have not completed two years.

A Medical Scholarship of £20 a year for two years, and a Stewart Scholarship of £10 a year for three years, in Anatomy and Institutes of Medicine, open to Students who have not completed three years.

The John Mallet Purser Medal in Physiology and Histology, awarded at the ordinary Previous Medical Examination in June, open to Students who have not spent more than three years in the School.

The Fitzpatrick Scholarship of about £32 is awarded annually to the Student who obtains the highest aggregate marks at the five sections of the Final Medical Examination, provided that his Medical Course shall have been completed in the prescribed time of five years.

A Medical Travelling Prize, and a Surgical Travelling Prize, each of £100, in alternate years, open in Trinity Term to Students who have passed the Final Examination in Medicine, or in Surgery, as the case may be, within two years from the beginning of the Term.

The following Prizes are granted by the Professors: —Anatomy, £10; Chemistry, £5; Practice of Medicine, £5; Materia Medica, £5; Medical Jurisprudence, £5.

In the School of Engineering:

A Prize in Geology and Mineralogy of £10 to third year's men, and one of £5 to second year's men.

A great number of the above Prizes, &c., are paid out of Special Trust Funds, and accordingly are subject to variation, so that the amounts given must be taken only as fair averages.

Professional Schools.

THERE are four Professional Schools in the University, viz.: Divinity, Law, Physic, and Engineering. The Testimonials or Licenses of these Schools can only be obtained by attending prescribed Courses of Lectures during two or more years, and passing certain Examinations.

Students seeking credit for a Term by Lectures must, at the commencement of such Term, duly register with the Clerk of the Books their places of residence for that Term, and during Term notify a change of residence: if this rule be not observed, credit for the Term cannot be allowed.

DIVINITY SCHOOL.

§ 1. GENERAL RULES.

IN order to obtain the Divinity Testimonium, Students must pass the Regius Professor's Final Examination, having previously kept the Divinity Terms of two years: during the first year with Archbishop King's Lecturer in Divinity; during the second with the Regius Professor. Each year consists of three Terms, viz. Michaelmas Term, beginning in the last week of October or first week of November; Hilary Term, beginning in the last week of January or first week of February; Trinity Term, beginning in the last week of April or first week of May. The Lectures of each Term last about seven weeks. It is regular to keep the Terms in the order just stated; but this is not insisted on, and the Terms of each year may be kept in any order. When a Student has completed his attendance on three Terms' Lectures, and has satisfied the other requirements stated below, an Examination is held by Archbishop King's Lecturer. A Student cannot obtain credit for his first year, and is not permitted to commence attendance with the Regius Professor, until he has passed this Examination.

Students in Divinity are required to attend the Services in the College Chapel during Lecture Term; and they must satisfy the Regius Professor or Archbishop King's Lecturer that they are habitual communicants of the Church of Ireland. Should the Student not be a member of the Church of Ireland, or of a Church in communion therewith, this rule does not apply to him; but he will not receive the ordinary Testimonium at the end of the Second Year, a special form being substituted for it.

Students in Divinity who are also Students in Arts are not entitled to claim Professional Privileges in any Term in which they substitute for Classics one of the other Courses in Arts.

§ II. Admission to the Divinity School.

The Divinity School is open to all Students who have passed the Michaelmas (Final) Examination of the Senior Freshman year, and who have obtained satisfactory marks in Greek and Latin. It is possible for a Student joining in the Michaelmas Term at the beginning of his Senior Sophister Year, which may be regarded as the regular time for commencing, to obtain his testimonium without paying any fees in addition to those necessary for obtaining his Degree of Bachelor of Arts.[a]

Students of lower standing than Junior Sophisters, or even those who do not intend to pursue the Course in Arts at all, are allowed in special cases to present themselves at the Examination for Entrance into the Divinity School; but it is necessary for them to obtain written permission from Archbishop King's Lecturer. They are required to make application for such permission a month before the commencement of the Lectures they propose to attend; and they ought to state fully what grounds there are for dealing with them exceptionally, and in particular whether they have received an education in Arts elsewhere.

The examination for Entrance to the Divinity School embraces the following courses:—

I. The Greek text of the Gospel according to St. Mark, with questions on Greek Grammar.

II. Stewart's *Outlines of Moral Philosophy*, Part II., Chap. i., Section iv. to end of Chapter; and Chap. ii., Sect. i.; (being paragraphs 142–132).

III. Locke's *Essay on the Human Understanding*, Book ii., Chaps. 14, 17, 21 (sects. 1–10), 26; Book iv., Chaps. 1, 2, 9, 10.

All Students, whether Graduates or Undergraduates, who have not obtained satisfactory marks in Greek at the Final Freshman Examination, must pass in Course I.

Graduates are not required to take up Courses II. and III.

Undergraduates who have kept a Senior Sophister Term in Arts are required to pass in Course II.

All other Undergraduates must pass in Courses II. and III.

---

[a] The names of Graduate Divinity Students completing their last Term of Divinity Lectures of the Senior Year in the June Quarter are not struck off the College books until after the Final Examination of the Regius Professor of Divinity (Resolution of Board, May 8, 1886).

All Divinity Students before they are admitted to the Examination for the Divinity Testimonium are required to produce a Certificate from the Catechist that they have completed their Catechetical Course.[a]

§ III. Junior Divinity Year.

In each Term Archbishop King's Lecturer in Divinity delivers a Course of Prelections, on Mondays and Thursdays, at Eleven o'clock, A.M., in the Divinity School; and on the same days his Assistants lecture at One o'clock, P.M. The subjects of these Prelections and Lectures are given below. Archbishop King's Lecturer is authorized to set apart one of his Assistants to lecture such Students as he thinks fit in the Greek Testament, and they are required to attend these Lectures from 12 to 1 o'clock on Mondays and Thursdays. A Student cannot obtain credit for having kept a Term, if he shall have absented himself more than once from the Lectures of Archbishop King's Lecturer or from those of his Assistants in such Term, unless in the case of sickness or some other unavoidable impediment, when the omission of a number of Lectures, not exceeding one-fourth of the whole, may be allowed if approved by the Board.

For the convenience of Students, one of the Assistant Lecturers lectures at Ten o'clock; and Archbishop King's Lecturer may permit such of the Students as he thinks fit to attend at that hour.

On the first day of each Term an Examination is held in a portion of the Greek Testament, at which all Students in the Class, of whatever standing, must present themselves. Students who fail to pass a satisfactory Examination in the appointed Course of Greek on the first day of Term are required to attend Lectures in Greek during Term, in addition to the ordinary Divinity Lectures.

Examinations in Ecclesiastical History are held on the first days of Lectures in Hilary and Trinity Terms. One at least of these two preliminary Examinations must be passed before the Student is allowed to present himself at the Examination with which the Divinity Course for the first year closes. If neither of these Examinations is passed on the first day of Term, the Student loses credit for Trinity Term.

Six days, not ordinary Lecture Days, are appointed in each Term for English Composition; and credit for *four* attendances at least is necessary for keeping the Term. A premium of £2 is awarded by the Board in each Term, on the recommendation of Archbishop King's Lecturer, to the Student who shall have sent in the *three* written Essays of highest merit.

---

[a] Resolution of Board, October 31, 1891.]

The following are the Subjects prescribed for the Lectures and Examinations of each Term:—

Michaelmas Term.—On the first Lecture Day Students are examined in the Greek Text of the Epistle to the Philippians.[a]

Archbishop King's Lecturer delivers a Course of Prelections on the Evidences of Revealed Religion; and his Assistants lecture on the Greek text of St. Luke's Gospel.

Hilary Term.—On the first Lecture Day Students are examined in the Greek Text of the Epistle to the Galatians[a]; and also in Robertson's *History of the Christian Church*, Book I., chaps. iv.–vii. (*The Early Heresies;* and from A.D. 180 to A.D. 313); Book II., chaps. i., ii., iii., from A.D. 313 to A.D. 363.

Archbishop King's Lecturer lectures on the History of the Doctrine of the Incarnation, and his Assistants lecture on Maclear's *Introduction to the Creeds.*

Trinity Term.—On the first Lecture Day Students are examined in the Greek Text of the Acts of the Apostles[a]; and also in Robertson's Church History, Book II., chaps. iv., v. (from A.D. 363 to A.D. 395); Book III., chaps. iii., iv. (*Nestorianism; Eutychianism; The Council of Chalcedon; Advance of the Roman See*).

Archbishop King's Lecturer lectures on The Evidences of Natural Religion; and his Assistants lecture on the Greek Text of the Epistle to the Romans.

When a Student has obtained credit, according to the regulations already specified, for attendance at the Lectures of three Terms, he completes his Junior Year by passing a final Examination, conducted by Archbishop King's Lecturer and his Assistants, according to the following rules:—The principal Examination is held at the end of Trinity Term, for Students who have regularly commenced attendance with Michaelmas Term; but Supplemental Examinations are held at the end of each Term, for the benefit of Students terminating their Course at other times. A Supplemental Examination is also held at the beginning of Michaelmas Term, before the Lectures of the Senior Class begin. In rejecting a Candidate, Archbishop King's Lecturer determines whether he may present himself again at the Examination at the end of the next following Term, or whether he must be longer kept back.

Students are required to give notice to Archbishop King's Lecturer of their intention to present themselves at this Examination. This notice must be given one week before the day of Examination.

[a] Candidates are expected to be acquainted with the renderings of the Revised Version of the New Testament.

The Course for the Examination is as follows :—

1. The four Gospels and Acts of the Apostles in English.[a]

2. The four Gospels and St. Paul's Epistle to the Romans in Greek.[a]

3. Paley's Evidences. Butler's Analogy. Kirkpatrick's *Divine Library of the Old Testament.*

4. Maclear's *Introduction to the Creeds.* Liddon's Bampton Lectures, on "The Divinity of our Lord"; Lectures II. IV. V. VI. VII.

5. The portions of Robertson's *History of the Christian Church* appointed for the Hilary and Trinity Term Examinations.

6 The Prelections of Archbishop King's Lecturer.

Failure to satisfy the Examiners in either 1 or 2 will disqualify a Candidate from obtaining credit for this examination.

An additional Examination for Prizes (attendance on which is not compulsory) is held in Michaelmas Term. See below, "Prizes."

§ IV. Senior Divinity Year.

The Regius Professor receives into his Class those Students only whose names have been returned to him by Archbishop King's Lecturer as having satisfied all the requirements of the Junior Year. During the second year, the Students are required to attend the Regius Professor, and one of his Assistants. The Professor lectures on the Criticism and Interpretation of the Bible, the Controversy with the Church of Rome, and on the Liturgy and the Thirty-nine Articles.

The Regius Professor lectures on Tuesdays and Fridays, at 11 o'clock. His Assistants lecture on the same days, at 1 o'clock. For the convenience of Students, one or more of the Assistant Lecturers lecture at 10 o'clock; and the Professor may permit such of the Students as he thinks fit to attend at that hour.

The rules as to the numbers of Lectures to be attended are the same as in the Junior Year.

---

[a] Candidates are expected to be acquainted with the renderings of the Revised Version of the New Testament.

SUBJECTS OF THE ASSISTANTS' LECTURES.

Michaelmas and Hilary Terms. — The Thirty-nine Articles, with Commentary, as appointed for the Final Examination.

Trinity Term.—The portions of the Greek Testament appointed for the Final Examination.

Six days, not ordinary Lecture days, are appointed in each Term for English Composition; and credit for *four* attendances at least is necessary for keeping the Term. A Premium of £2 is awarded by the Board in each Term, on the recommendation of the Regius Professor, to the Student who shall have sent in the *three* written Essays of highest merit. (See below, "Divinity Composition Premiums.")

On the first Lecture day of each Term Students are *examined* in a portion of the Greek Testament; on the first day of Michaelmas Term, in the two Epistles to Timothy and the Epistle to Titus; on the first day of Hilary Term, in the First Epistle to the Corinthians; and on the first day of Trinity Term, in the Epistle of St. James and the two Epistles of St Peter.[a]

Students who fail to pass a satisfactory Examination in the appointed Course of Greek on the first day of Term are required to attend Lectures in Greek during Term, in addition to the ordinary Divinity Lectures.

On the first Lecture days of Hilary and Trinity Terms, an Examination is held in the following subjects, *in addition* to the portions of the Greek Testament just mentioned:—

Hilary Term.—Robertson's Church History:—Book III.; Book IV. chaps. i. ii.

Bishop H. Browne's Commentary on Articles VI. XXII. XXVIII.

Trinity Term.—Hardwick's History of the Reformation:—Introduction; chap. i. (Germany); chap. ii. (Switzerland); chaps. iv. vi. chap. viii. (Roman Communion, English Communion).

Procter and Frere's New History of the Book of Common Prayer, part i.

It is necessary to pass one, at least, of these Term Examinations, in order to qualify for the final Examination.

This final Examination is held at the end of Trinity Term, for all Students who have attended and obtained credit for the three preceding Terms of the Senior Divinity year, and have complied with the foregoing regulations. A similar Examination is held at the end of the Michaelmas and Hilary Terms, for Supplementalists who have completed their attendance on Divinity Lectures in those Terms respectively. A Supplemental Examination is held also at the beginning of Michaelmas Term.

Students are required to give notice to the Regius Professor of their intention to present themselves at the final Divinity Examination. This notice must be given one week before the day of Examination.

[a] Candidates are expected to be acquainted with the renderings of the Revised Version of the New Testament.

The Examination is conducted by the Regius Professor and his Assistants; and the Professor of Ecclesiastical History takes part in the Examination in his own department. Those Students who have passed the Examination are arranged in three classes, according to their respective answering. Students who come out in the first class receive a special Honorary Certificate, in addition to the usual Divinity Testimonium.

The Course appointed for this Examination is as follows:—

1 and 2. *Holy Scripture in the Authorized Version.*[a]—(1) Old Testament; (2) New Testament.

3. *Hebrew.*—Optional. (See the Regulations below.)

4. *Greek.*—St. Paul's Second Epistle to the Corinthians, and the Epistle to the Hebrews; with Hammond's Outlines of Textual Criticism

5. *Latin.*—Psalms II.–VIII., XIX.–XXIV., XXIX.–LI., LVII.–LX., LXVII.–LXXIV., LXXXVII.–XCI., XCV.–CII., CIX.–CXVIII.; Vulgate; with the English (*Revised* and *Prayer Book*) Versions.

6. *Ecclesiastical History.*—The portions of Robertson's Church History appointed for the Hilary Term Examination, and the portions of Hardwick's History of the Reformation appointed for the Trinity Term Examination.

Stokes, Ireland and the Celtic Church, Lectures i.-vii.

7. *Liturgy and Church Government.*—The Book of Common Prayer with Procter and Frere's New History of the Book of Common Prayer (1901).

8 and 9. *Articles of Religion.*—(8) Articles I.–XVI., and Articles XXII., XXVIII., with Bishop H. Browne's Commentary; (9) Article VI. and Articles XVII. to end, with Bishop Burnet's Commentary.

A subject for English Composition, and a paper of questions on the public Prelections of the Regius Professor, are also proposed to the Candidates at the final Divinity Examination.

Any Student who has kept one or more Terms in the Senior Year may obtain permission to present himself at the Examination at the close of any Term, in not less than three of the subjects above numbered 1, 2, 3, 5, 6, and 7; reserving the rest for his Final Examination.

Hebrew.—The following are the Regulations under which Hebrew forms part of the Course prescribed for the final Divinity Examination:

(*a*) Those Students who have passed one or more Examinations with the Regius Professor of Hebrew shall not be re-examined, but shall receive such Marks as the Professor of Hebrew shall have awarded them.

(*b*) Other Students shall be examined in the following Course:—

Hebrew Grammar; and Genesis, chaps. i. to iv., and xii. to xv.

(*c*) Answering in this Course is to be estimated after the same manner as in the other subjects of the Examination.

(*d*) A special Certificate shall be given to such Students as shall

[a] Candidates are expected to be acquainted with the renderings of the Revised Version of the New Testament in all the books the Greek of which they have had to prepare for examination in the Divinity School.

have answered creditably in Hebrew at the final Examination, and have not previously obtained the Professor of Hebrew's Certificate.

(*e*) At the final Divinity Examination all Students who take up Hebrew may, at their option, substitute it for subject 5 (*Latin*).

When attendance upon the whole Divinity Course has been thus completed, the Divinity Testimonium is given in the following form

Testamur A. B. per biennium sedulo interfuisse Prælectionibus atque Examinationibus in Sacra Theologia per leges Academicas requisitis.

——— *Professor Reg. in Sacr. Theol.*
——— *Prælector in Sacr. Theol.*

E Coll. SS. Trin. juxta Dublin.

An annual Examination is held by the Regius Professor at the close of Hilary Term, at which Exhibitions are awarded for distinguished answering. Attendance on this Examination is not compulsory. For the regulations and subjects of this Examination, see below, § VI., "Prizes."

§ V. Additional Lectures.

In addition to the foregoing Lectures, which are compulsory upon all Divinity Students, instruction is also given upon various subjects in connexion with the Divinity School. These Courses are as follow:—1. Hebrew. 2. Biblical Greek. 3. Ecclesiastical History. 4. Irish. 5. Pastoral Theology. 6. English Bible. 7. Reading the Liturgy. 8. Church Music. The hours of instruction in these departments are so arranged as not to interfere with those of the Divinity Professors and their Assistants. Students are thus enabled to complete their attendance upon any or all of these Courses during the period of their ordinary Divinity studies.

The several Professors connected with the Divinity School, viz., the Professors of Biblical Greek, of Ecclesiastical History, of Irish, and of Pastoral Theology, are authorized to grant certificates of attendance on their respective Courses to Graduates who have obtained the Divinity Testimonium, and to them only.[a] The Lecturer on the English Bible is also authorized to grant a like Certificate.

1. Hebrew Lectures.

1. All Students, of whatever standing, are permitted to attend Hebrew Lectures, which are continued for three years.

2. Students who have completed the first year in Hebrew may obtain from the Professor a Testimonium to that effect.

3. To complete the *first* year, the Student must attend three Terms with one of the Assistants to the Professor, the Course being as follows:—

Hebrew Grammar. Genesis, chaps. i. to iv., and xii. to xv.: 1 Kings, xvii. to xxii. and 2 Kings, i. to iii.

He must also pass an Examination in the above Course, to be held at the end of the third Term. Additional credit will be allowed at the Examination to Students who bring up also 2 Kings iv. to ix.

[a] Order of the Board, July, 1853.

4. Students who have completed two years will be entitled to a Testimonium to that effect.

5. To enter upon the second year, a Student must have kept the three Terms of the first year, and passed the Examination.

6. Any Student who shall have passed a qualifying Examination to the satisfaction of the Professor, shall be permitted at once to join the Middle Class at Hebrew Lectures.[a]

7. To complete the *second* year, the Student must keep three Terms, by attendance on the Lectures of the Professor, and also on the Lectures of one of the Assistants, the Course lectured on by the Assistants being as follows:—

Psalms xlii. to lxxii.

He must also pass an Examination in this portion of the Book of Psalms, to be held at the end of the third Term.

8. To enter upon the *third* year, the Student must have kept the two former years, and passed the Examinations: and to complete the year, he must attend the Professor's Lectures in Isaiah for three Terms, and pass an Examination at the end of the third Term. The subject of the Lectures and Examination is Isaiah, chaps. i. to xi., and lii. to lix.

9. Students who have completed three years will be entitled to a Special Testimonium to that effect.

10. Prizes are given to the best answerers at the Annual Examinations. The names of all Students who pass the Examinations are placed in the order of merit, and published by the Professor.

11. *Prizes in Chaldee and Syriac.*—At the end of Trinity Term, in each year, Premiums will be given in the Syriac and Chaldee languages, at the Examination for the Hebrew Prizes, on the following conditions: —

1. Candidates must have passed the ordinary Hebrew Examination of the first year.

2. They must answer in the following Course:

Chaldee and Syriac Grammars.
The Book of Ruth, in the Hebrew and Chaldee (the edition of the Rev. C. H. H. Wright, M. A., is recommended).
St. Mark's Gospel, Chapters ix. to xvi. (both inclusive), and St. Paul's First Epistle to Timothy, in the Peshitto version.

Candidates for this Prize must give their names to the Professor of Hebrew, on or before the 1st day of June.

2. BIBLICAL GREEK.

The Professor of Biblical Greek delivers a Course of public general Prelections during two of the three Academical Terms of each year.

[a] Resolutions of Board and Council, January 23, and February 10, 1886.

He also delivers special Lectures on particular books of the LXX, or the New Testament, to such Students as may desire to attend them. The subjects and days of Lecture are announced at the beginning of each Term.

The Examination for Prizes is held in Hilary Term. For the regulations and subjects of this Examination, see under "Prizes in Biblical Greek."

3. ECCLESIASTICAL HISTORY.

The Professor of Ecclesiastical History delivers a Course of public general Prelections during two of the three Academical Terms of each year. The Course of Lectures is intended to extend over two years. The Lectures are delivered in the Divinity School, on Tuesdays and Thursdays, at two o'clock.

The Examination for Prizes is held in Trinity Term, the exact date being announced in the Calendar. For the regulations and subjects of this Examination, see under "Ecclesiastical History Prizes."

4. IRISH.

The Professor of Irish lectures on two days of the week during Term. The Students attending these Lectures are divided into three Classes—Junior, Middle, and Senior. The Lectures to the First Class are elementary; those to the Middle and Senior Classes are intended for such Students as have made some progress in the Irish Language. Notice of the days and hours of Lecture is given at the beginning of each Term.

The Examination for Prizes is held in Trinity Term. For the regulations of the Examination, see under "Prizes in Irish."

5. PASTORAL THEOLOGY.

The Professor of Pastoral Theology delivers a Course of Prelections each Term. The Lectures are delivered on Saturdays at 9.30 a.m., in the Divinity School. After each Lecture the Professor gives instructions in preaching, reading the Liturgy, and practical parochial work.

6. ENGLISH BIBLE.

Mr. White lectures on the English Bible on two days in the week.

7. READING THE LITURGY.

The Wallace Lecturer gives instruction once a week in voice production and in reading. See regulation 5 under Wallace Divinity Lectureship.

8. CHURCH MUSIC.

Mr. C. G. Marchant, Mus. B., gives instruction in Church Music on two days in the week in the College Chapel.

§ VI. Prizes.

THEOLOGICAL EXHIBITIONS.

For the further promotion of Theological learning, the Board of Trinity College, with the consent of the Visitors, on the 18th of December, 1858, founded "Theological Exhibitions," in place of the Prizes formerly known as the "Divinity Professor's Premiums."

The Examination for these Exhibitions is held each year at the end of Hilary Term, on the days stated in the Almanac (see p. 172, below).

To the best answerers at this Examination two Exhibitions are given, one of £60, and one of £40 per annum, provided there be sufficient merit. Each of these Exhibitions is tenable for a period not exceeding three years.

Candidates for these Exhibitions must not be of more than one year's standing as M. A., reckoned from the Michaelmas Examination of the Senior Freshman year; they must have completed the six Terms of the Divinity Curriculum; and they must present themselves at the Examination immediately subsequent to the Term in which they have completed their Divinity Course. No person can offer himself as a Candidate a second time.

Candidates for these Exhibitions whose names have gone off the College Books, are permitted to replace them on payment of the Junior Bursar's fee of 15*s.*, provided that they shall have previously passed the Final Divinity Examination; otherwise such Candidates shall pay the usual Replacement Fee for Graduate Divinity Students of £1 16*s.*[a]

The Exhibition Examination, if passed creditably, will reckon in lieu of the General Divinity Examination.

The following is the Course appointed for 1904:—

I.

The Old Testament in the Authorized Version.[b] *Special Subject*,—*Job*[c] (English and Septuagint).

The following Articles in Hastings' *Dictionary of the Bible*:—*Job, Book of; Vulgate* (so far as relates to *Old* Testament).

Swete's *Introduction to the Old Testament in Greek;* Part I., cc. i., ii., iii., v.; Part II., cc. iv., v.; Part III., cc. ii., iv., v., vi.

II.

Hebrew.—The Book of *Zechariah*.[d]

The Article *Zechariah*, in Hastings' *Dictionary*.

---

[a] Resolutions of Board, March 12, 1887.

[b] Candidates are expected to be acquainted with the renderings of the Revised Version, especially in the books appointed as *Special Subjects*.

[c] Driver's edition (*International Critical Commentary*) is recommended.

[d] Dr. C. H. H. Wright's *Zechariah*, and Lowe's *Commentary on Zechariah*; also Orelli's (Banks' translation, 1893) edition of *The Minor Prophets*, may be consulted.

III.

Greek.—The New Testament.[a] *Special Subject,—Epistle to the Romans; First Epistle to the Corinthians.*[b]

Westcott & Hort's New Testament—The Introduction, and so much of the Appendix as relates to the *Epistles of St. Paul.*

Salmon's *Introduction to the New Testament*, Lectures iv., v., xviii., xx.–xxv.

Nestle's *Textual Criticism of the New Testament* (in Williams & Norgate's *Theological Translation Library*).

IV.

Hardwick's *History of the Articles.*

The Doctrinal Decrees of the Council of Trent,[c] viz. those passed in Sessions 3, 4, 5, 6, 13, 14, 21, 22, 23, 24, 25, omitting the Decrees on Reformation.

Salmon's *Infallibility of the Church*, Lectures ii., iii., iv., xi., xii., xiv., xviii.–xxiii.

Waterland's *Doctrine of the Eucharist.*[d]

Hooker's *Ecclesiastical Polity*, Book 5.

The Book of Common Prayer[e] (England and Ireland).

V.

Eusebius, *Ecclesiastical History*,—(for the History).

Gairdner's *English Church in the 16th Century* (being vol. iv. of Stephens and Hunt's *History of the English Church*).

Stokes's *Ireland and the Celtic Church.*

Milman's *Latin Christianity*, books vii., viii., ix.

VI.

Latin—Tertullian, *De Anima.*[f]

Greek—Ignatius, the *Seven Epistles*, and the *Acts of Martyrdom.*[g]

The Articles in Smith and Wace's *Dictionary of Christian Biography*: *Tertullianus* (1), and *Ignatius* (1).

The Examination for Theological Exhibitions will be held March 8, 9, 10.

The Examination for B.D. Degree will be held March 8, 9, 10, 11; June 7, 8, 9, 10; and December 6, 7, 8, 9.

---

[a] Candidates are expected to be acquainted with the renderings of the Revised Version, especially in the books appointed as *Special Subjects.*

[b] For *Romans*, Sanday and Headlam's edition (*International Critical Commentary*), or Gifford's (*Speaker's Commentary*) may be used: for 1 *Corinthians*, Bishop Ellicott's, or Findlay's (*Expositor's Greek Testament*).

[c] Accessible in the Tauchnitz edition of the *Canones*, &c. (Leipzig); also in Denzinger's *Enchiridion* (Stahl's edition).

[d] Reprinted, 1896 (Clarendon Press).

[e] Procter's *History of the Book of Common Prayer* (revised by Frere, 1901) is recommended.

[f] Accessible in Migne's *Patrologia Latina*, tom. ii.; and in the Vienna *Corpus Scriptorum Eccl. Latinorum*, tom. xx.

[g] Edition recommended, Bishop Lightfoot's, 1885.

The following will be, on each occasion, the order of Examination:—

First Day, 10 a.m., Division VI.; 2 p.m., Division II.
Second Day, 10 a.m., Division I.; 2 p.m., Division III.
Third Day, 10 a.m., Division V.; 2 p.m., Division IV.
Fourth Day, 11 a.m., Division VII. (for B.D. only).

For 1905, the following will be substituted:—In I., *Ecclesiastes* and *Canticles*; in II., 1 *Kings*; in VI., Tertullian, *Apologeticus*, and Clement of Alexandria, *Stromateis*, lib. vii.—in each case with corresponding changes in the collateral books. Other changes may be also made; but III. will remain as for 1904. The whole Course for 1905 will be finally arranged and issued in or before Trinity Term, 1904.

ARCHBISHOP KING'S DIVINITY PRIZES.

These Prizes were founded by the Board in the year 1836. They are called Archbishop King's Divinity Prizes, because they are given at an annual Examination held by Archbishop King's Divinity Lecturer.

This Examination is held in the beginning of Michaelmas Term[a]; and such Students only can be Candidates for the Prizes as are selected by the Examiners at the general Divinity Examination, at the end of Trinity or beginning of Michaelmas Term.

The Course for the Examination is as follows:—

1. The four Gospels and Acts of the Apostles, in English.
2. The four Gospels, the Acts of the Apostles, and the Epistles to the Romans, Galatians, and Philippians, in Greek. *Special subject*: for 1903, The Acts of the Apostles; and for 1904, The Epistle to the Romans.
3. Butler's *Analogy*.
4. Paley's *Evidences* and *Horae Paulinae*.
5. Maclear's *Introduction to the Creeds*, and Swete's *The Apostles' Creed*.
6. Sanday on *Inspiration*, Lectures I., II., III., VI., VII., VIII.
7. Liddon on *The Divinity of our Lord*, and Kirkpatrick's *Divine Library of the Old Testament*.
8. Robertson's *History of the Christian Church*, A.D. 64–590.
9. The Prelections of Archbishop King's Lecturer.

Two Prizes, one of £12 and the other of £8, are given to the best answerers (if sufficient merit be shown by the Candidates): and Certificates to such as answer sufficiently.

The Certificate cannot be given to any Student until he has completed his whole Divinity Course, and obtained the Divinity Testimonium.

BISHOP FORSTER'S DIVINITY PREMIUMS.

In the year 1738, the sum of £200 was given to the College by the Right Rev. Nicholas Forster, D. D., Lord Bishop of Raphoe,

[a] Resolution of Board, July 7, 1885.

sometime Senior Fellow of Trinity College, Dublin, on condition that it should be applied to the purpose of encouraging the study of Theology, in connexion with the Lectures of Archbishop King's Lecturer in Divinity. When the office of Archbishop King's Lecturer was placed on a new foundation, in the year 1836, the endowment of Bishop Forster was included in the Prizes then instituted by the Board, for the Junior Divinity Class. The fund, along with the unappropriated balance of interest, is now invested in £146 3*s.* 4*d.* Stock of the Bank of Ireland, producing annually about £17 10*s.*, and the annual interest is distributed in Premiums to the two best answerers in the subjects of the Lectures of Archbishop King's Lecturer, at the Examination for Archbishop King's Divinity Prizes, if sufficient merit be shown by the Candidates.

CARSON BIBLICAL PRIZE.

In Michaelmas Term, 1891, the Rev. Joseph Carson, D.D., Vice-Provost, gave to the Provost and Senior Fellows of Trinity College the sum of £500, to found a Prize for the purpose of promoting among Divinity Students an accurate knowledge of the text of the English Bible. The Examination for the Prize is under the control and management of Archbishop King's Lecturer in Divinity, subject to such rules and regulations as the Provost and Senior Fellows may from time to time prescribe.

The Examination is held in the Hilary Term of each year. The Prize is open to all Students in the Junior Divinity Class, and the Examination, which is public, is conducted *vivâ voce*. No Student can compete for the Prize a second time.

The fund is at present invested in £155 1*s.* 1*d.* Stock of the Bank of Ireland, producing annually about £18 12*s.*

For the purpose of the Examination, the subject is divided into four parts, as follows:—

I. Pentateuch, and Historical Books.
II. Job to Malachi.
III. Gospels, and Acts of the Apostles.
IV. Epistles, and Revelation.

In each year, particular books of the above Course will be prescribed for *special* Examination.

The hours of Examination are the same as those appointed for Moderatorship Examinations, viz. from 9 to 12, and from half-past 1 to half-past 4.

Special Books appointed:—

For 1904—*Old Testament.*—Jeremiah.
New Testament.—The Epistles to the Corinthians.

DOWNES DIVINITY PREMIUMS.

In the year 1797, these Premiums were established out of a fund bequeathed to the College for the purpose, by the Rev. Dr. Downes, of Waterford. The fund produces annually about £46 12*s*. The regulations concerning these Prizes (which are open to all Students in Divinity during the two terms antecedent to that in which the examinations are held) are as follows[a]:—

1. *Written Composition.*—The Examiners are the Regius Professor of Divinity, Archbishop King's Lecturer in Divinity, and the Professor of Oratory. The subject is announced in the last week of Hilary Term by Archbishop King's Lecturer. On an appointed day in Trinity Term the Candidates deliver discourses on the proposed subject without hesitation, no discourse to exceed one quarter of an hour in delivery. A Premium of £20[b] is adjudged to the best, and £10 to the next best, or such inferior Premiums as they shall appear to merit, regard being had as well to the manner of pronouncing such discourses as to the matter of them. No Candidate can compete oftener than three times.

2. *Oratory.*—Prizes of £12 and £8 are placed at the disposal of the Professor of Pastoral Theology each Trinity Term, to be awarded at his discretion to those Students who have profited most by his instructions in preaching and in the delivery of sermons. No Candidate can obtain either Prize a second time.

3. *Reading the Liturgy.*—Prizes of £8 and £4 are placed at the disposal of the Wallace Lecturer each Trinity Term to be awarded at his discretion to those Students who have profited most by his instructions. No Candidate can obtain either Prize a second time.

The following is an extract from the will of Dr. Downes, respecting the disposal of unappropriated Premiums:—

"And whereas it may from time to time so happen that Candidates meriting such Premiums may not appear, in such case, the savings in each year shall go to the augmentation of the fund, and be laid out, from time to time, in the purchase of Government securities, the interest thereof to be added to the fund for the increase of said Premiums in future."

Dr. Downes also founded certain Exhibitions, to be held by Students who have distinguished themselves in the studies of the Divinity School. The conditions on which these Exhibitions are awarded will be found under the title "Downes' Exhibitions."

---

[a] Resolutions of Board, July 4, 1797, April 1834, July 1879.

[b] It is to be remarked that all the Premiums here mentioned are in the old Irish currency.

CHURCH FORMULARIES PRIZE.

An Annual Prize of £10 was founded in the year 1868, by the Right Hon. Robert R. Warren, late M.P. for the University, in order to encourage the study of the Creeds and Articles of the Church. This Prize is given to the best answerer in the Church Formularies, among the Students placed in the First Class, at the General Divinity Examination held by the Regius Professor in Trinity Term.

DIVINITY COMPOSITION PREMIUMS.

The Regius Professor of Divinity and Archbishop King's Lecturer recommend to the Board, in each of the three Terms of the Divinity year, the names of those Students, in the Senior and Junior Classes, respectively, who have sent in the best written Compositions on subjects proposed to the Class during the Terms, and whom they deem worthy of encouragement. To these Students Premiums of £2 are awarded.

RYAN PRIZE.

In 1812 a debenture of £100 was granted to Trinity College by Edward Ryan, Esq., for the purpose of founding a Prize. (See Benefactors of 1812, in vol. III., 1901.)

At the end of Trinity Term this Prize is awarded by Archbishop King's Lecturer to that member of the Junior Divinity Class (being under M.A. standing) who shall have been most diligent in attendance at Composition Lectures. The quality of the Essays written during the year will be taken into consideration.

The Fund which yields the Prize is invested in £120 17*s.* Consols, producing annually about £3 6*s.* 4*d.* The Prize is payable in November by the Bursar.

ROBERT KING MEMORIAL PRIZE IN ECCLESIASTICAL HISTORY.

On June 28, 1902, the friends of the late Rev. Robert King, B.A. (Sch., 1835), presented the sum of £112 to the Board for the purpose of founding a Prize in memory of him. The following conditions were suggested by the subscribers, and agreed to by the Board:—

1. That the money be invested, and the interest be awarded as a Prize to the best answerer in Ecclesiastical History at the Final Divinity Examination held in Trinity Term, provided sufficient merit is shown.

2. That the Prize be known as the "Robert King Memorial Prize in Ecclesiastical History."

3. That, if in any year sufficient merit is not shown, the interest for that year be added to the capital.

BEDELL SCHOLARSHIPS.

The Committee of the Irish Society, with the sanction of the Provost and Senior Fellows of Trinity College, have founded two Scholarships in the University, denominated "The Bedell Scholarships," and placed them under the superintendence of Trustees, named by the founders.

The Scholarships are designed for such Students only as give reasonable hope that they will be competent on their ordination to preach in the Irish Language. One Scholar is elected whenever a vacancy takes place.

The regulations are as follow:—

1. The value of each Scholarship shall be £20 per annum, payable half yearly, in the last weeks of October and April.

2. An Examination of Candidates shall be held annually, as soon after the Trinity Term Examination as possible, on a date to be fixed by the Trustees, in conjunction with the Professor of Irish.

3. The Scholarships shall be open to Students of any standing in the University, unless they be Irish Sizars; and shall be tenable by them for four years, if they shall keep their names so long on the College Books, and have not been admitted to Holy Orders.

4. They shall be required to reside in or near Dublin, and to attend the Lectures of the Professor of Irish (if not specially exempted by the Trustees of this fund); and to attend also Divinity Lectures, when of sufficient standing.

5. They shall be required to pass an Annual Examination, at the commencement of Michaelmas Term, in the Irish Language. The subjects of this Examination to be fixed by the Trustees, in conjunction with the Professor of Irish.

6. On the day of payment in April, the Scholars shall produce to the Trustees, or their Secretary, a certificate from the Professor of Irish, that they have satisfactorily passed the above-mentioned Annual Examination in Irish; they shall also obtain from their College Tutors, and at the same time present to the Trustees, or their Secretary, a certificate of the judgments and Honors, if any, which were given to them at the Term, Catechetical, and Divinity Examinations, during the previous year.

7. On failure of any of these conditions, the payment then due shall be withheld; and on a second failure, the Scholarship shall become void.

8. The names of the Candidates, and their qualifications, shall be returned, after the Examination, to the Trustees, in whom the election shall be vested.

At the Examination for the Bedell Scholarship, the best answerer of the unsuccessful Candidates, if recommended by the Professor of Irish, obtains a prize of £10.

The following subjects have been appointed for the Examination for the Bedell Scholarship:—

1. Irish Grammar.
2. Translation of the Gospels from Irish into English, and *vice versâ*.
3. The Lord's Prayer, Creed, and Ten Commandments, in Irish, by heart; the Creed proved from Holy Scripture.
4. The Thirty-nine Articles proved from Holy Scripture.
5. Composition.

ANNUAL EXAMINATIONS.

First Year.

1. Translation of the Pentateuch.
2. Church Catechism in Irish by heart, and proved from Holy Scripture.
3. Composition in Irish.

Second Year.

1. Translation of the Epistles.
2. Irish Composition.
3. Declamation in Irish (Extempore).

Third Year.

1. The Historical Books of the Irish Bible.
2. Composition.
3. Declamation in Irish.

Fourth Year.

1. The remainder of the Bible.
2. Composition.
3. Declamation in Irish.
4. The Book of Common Prayer compared with Scripture.

KYLE IRISH PRIZE.

A Prize for the encouragement of the Study of the Irish Language was founded in the University in 1852, in commemoration of the Right Rev. Samuel Kyle, Bishop of Cork, Cloyne, and Ross, and formerly Provost of Trinity College. The following are the Resolutions entered into by the Trustees of the Fund, and agreed to by the Provost and Senior Fellows:—

1. That the Funds collected shall be invested in Government securities, or Bank Stock, in the joint names of the Provost and Senior Fellows of Trinity College, the Professor of Irish, and the Dean and Archdeacon of Cork, all for the time being.

2. That the Endowment shall consist of one year's interest of the principal sum so invested.

3. That the competition shall in the first instance be open to persons born in the United Diocese of Cork, Cloyne, and Ross, or who may have been educated in that Diocese for not less than two years, if any such shall be found; but, in any year, when no such Candidate presents himself (or no one of sufficient merit), then it shall be open to the like class of Divinity Students from any one of the Dioceses of Limerick, Ardfert, and Aghadoe; Killaloe, Kilfenora, Clonfert, and Kilmacduagh; and Tuam, Killala, and Achonry.

4. The Kyle Prize to be attainable only by Divinity Students, at an annual Examination in the Irish Language, held during their Divinity Course.

5. The Divinity Student so obtaining the Prize may again become a Candidate for it in the next succeeding year, but not oftener, nor can he hold it for more than two years.

6. The Candidates for Examination shall be examined in the Irish Grammar, the Four Gospels, the Acts of the Apostles, the Epistle to the Romans, 1st and 2nd Timothy, the Epistle to the Hebrews, and Composition.

7. In the event of there being, in any year, no Candidate for the Prize, or want of sufficient merit, the interest of the sum so invested in the Funds shall be added to the principal sum.

The fund is at present invested in £404 10*s.* 6*d.* Consols, producing annually about £11.

BUTCHER EXHIBITIONS.

A sum of money having been subscribed in memory of the Right Rev. Samuel Butcher, D.D., late Bishop of Meath, the following plan for the application of the Fund was agreed to at a Meeting of the "Butcher Memorial Committee," held on 24th April, 1877, the Provost in the Chair, and adopted by the General Synod, April 26th, 1877:—

The interest on the money in the hands of the Representative Body to the credit of the above Fund (when it shall have reached the sum of £2500), and of such further sums as may be paid in to its credit as subscriptions, or unallocated interest (as hereinafter referred to), to be applied in providing Exhibitions in connexion with the Divinity School of the Church of Ireland, to be called the "BUTCHER EXHIBITIONS," under the following rules:—

1st. That the Exhibitions be awarded by a Board, consisting of the Archbishop of Dublin, for the time being; the Bishop of Meath, for the time being; and the Regius Professor of Divinity, for the time being; or (in the event of there being no Regius Professor of Divinity) the Professor who may discharge the duties now discharged by him; two of whom shall form a quorum.

2nd. That the Exhibitions be conferred on meritorious Divinity Students who purpose entering the ministry of the Church of Ireland, and who in consequence of their limited means may require assistance in completing their theological education, regard at the same time being had to their attainments and their general fitness for the ministry of the Church.

3rd. That these Exhibitions be conferred on Students who shall have completed their Junior Divinity year, and be tenable during their Senior year, on condition of their duly proceeding with their Divinity Course.

4th. That the Board determine the number and amount of the several Exhibitions, provided that the amount of any one shall not be more than £50 or less than £25.

5th. That in the event of there not being a sufficient number of deserving and qualified Candidates, or the entire interest on the Fund within any year not being expended, from any other cause, the Board be empowered to place the unapplied portion of the annual interest to the credit of the capital of the Fund.

6th. That the Exhibitions be paid quarterly, on 1st Oct., 1st Jan., 1st April, and 1st July, in each year, by an order on the Representative Body, signed by the Regius or other Professor of Divinity on the Board.

7th. That it be in the power of the General Synod, on the application of the Board, to vary the foregoing regulations as circumstances may require.

8th. That in the case of unavoidable absence, any member of the Board be empowered to appoint, by writing, a substitute to act for him.

DAUNT MEMORIAL EXHIBITIONS.

A sum of money having been subscribed in memory of the late Very Rev. Achilles Daunt, Dean of Cork, the following plan for the application of the fund was adopted at a Meeting of the Daunt Memorial Committee, held June 26, 1879, the Bishop of Cashel in the Chair, and approved by the General Synod of the Church of Ireland, April 27, 1880:—

1. That the Exhibitions be awarded by a Board, consisting of the Archbishop of Dublin, for the time being; the Regius Professor of Divinity, for the time being, or (in the event of there being no Regius Professor of Divinity) the Professor who may discharge the duties now discharged by him in connexion with the Divinity School; and the Incumbent of St. Matthias's Church, for the time being; two of whom shall form a quorum.

2. That the Exhibitions be conferred on meritorious Divinity Students who purpose entering the ministry of the Church of Ireland, and who, in consequence of their limited means, may require assistance in completing their theological education, regard at the same time being had to their attainments and their general fitness for the ministry of the Church.

3. That these Exhibitions be conferred on students who shall have commenced their Junior Divinity year, and be tenable during the Junior year, on condition of their duly proceeding with their Divinity Course.

4. That the Board determine the number and amounts of the several Exhibitions, provided that the amount of any one shall not be more than £40 or less than £20.

5. That in the event of there not being a sufficient number of deserving and qualified candidates, or the entire interest on the fund within any year not being expended from any other cause, the Board be empowered to place the unapplied portion of the annual interest to the credit of the capital of the fund.

6. That the Exhibitions be paid quarterly, on 1st October, 1st January, 1st April, and 1st July in each year, by an order on the Representative Body, signed by the Regius or other Professor of Divinity on the Board.

7. That it be in the power of the General Synod, on the application of the Board, to vary the foregoing regulations as circumstances may require.

8. That in the case of unavoidable absence, any member of the Board be empowered to appoint, by writing, a substitute to act for him.

The Regius Professor of Divinity receives applications for the Daunt and Butcher Exhibitions in the first week of Divinity Lectures of Michaelmas Term.

THE WILLIAM BROOKE EXHIBITION.

A sum of money having been subscribed in memory of the late Right Hon. William Brooke, the following resolutions were adopted at meetings of the "William Brooke Memorial Committee," held on the 1st and 8th of November, 1881, and on the 27th of February, 1882:—

"That an Exhibition for Students attending Divinity Lectures, preparatory to taking Orders in the Church of Ireland, shall be founded as a Memorial of the late Right Honourable William Brooke."

"That acquaintance with the Greek Testament shall be the qualification for such Exhibition, regard being also had to personal character, and insufficiency of private means."

The following Regulations were also adopted:—

1. The sum of £500, and such other sums as may be contributed for the purpose, shall be held by the Representative Body of the Church of Ireland for the use of the "William Brooke Exhibition."

2. The interest of this Fund shall be paid every year to an Exhibitioner elected by a Board, consisting of the Archbishop of Dublin, the Regius Professor of Divinity, and the Professor of Biblical Greek, all for the time being; two of whom shall form a quorum.

3. Candidates for this Exhibition shall satisfy the Board as to their good character, their intention to enter the Ministry of the Church of Ireland, and the insufficiency of their means to pay the expenses of a theological education.

4. In electing a Candidate so qualified, regard shall be had to his answering in the Greek Testament at the final Examination of the Junior Divinity Class, or at such other Examination as shall be appointed by the Board, who shall also have power to withhold the Exhition if they shall not be satisfied with the qualifications or answering of the Candidates.

5. The Candidate so elected shall hold the Exhibition for one year on condition of his proceeding regularly with the Divinity Course during that year.

6. In the event of the interest for any year not having been wholly expended during that year, the Board shall place the unexpended portion to the credit of the capital of the Fund.

7. It shall be lawful for the General Synod of the Church of Ireland by Act duly passed, and also for the Board by Resolution, to vary the Regulations of the said Exhibition, as may from time to time appear expedient, in any manner consistent with the Resolutions adopted by the Committee at their meetings aforesaid: provided that any Resolutions passed by the Board for this purpose shall be presented to the General Synod at its first meeting after the passing of such Resolution.

CARSON MEMORIAL EXHIBITION.

In Michaelmas Term, 1898, a sum of £180 Bank of Ireland Stock, equivalent to about £700 cash, was given by Miss Frances Anna Carson to found an Exhibition in the Divinity School, in memory of her father the late Rev. Joseph Carson, D.D., Vice-Provost of Trinity College. The sum yields annually about £21 12*s*. The dividends accrue half yearly, in February and March.

The following Regulations were suggested by the donor, and have been adopted by the Provost and Senior Fellows:—

1. The Exhibition shall be called the Carson Memorial Exhibition.

2. It shall be awarded annually by a Board consisting of the Provost, the Regius Professor of Divinity, and Archbishop King's Lecturer.

3. This Board shall, in Michaelmas Term, elect as Exhibitioner a Student who, in that Term, shall have entered the Senior Divinity Class, and shall declare his intention of offering himself for the ministry of the Church of Ireland or some Church in communion therewith.

4. In electing, the Board shall have regard to the character, ability, attainments, and general promise of fitness for the sacred office, of such Student, as well as to his need of pecuniary assistance.

5. The Exhibitioner is entitled to receive in December the dividend of the preceding August, on his producing a certificate from the Regius Professor, that he has satisfied the requirements of the School to the end of Michaelmas Term; and the February dividend in June, on production of a similar certificate for Trinity Term.

6. The Exhibitioner shall be required, on election, to promise that he will not receive Holy Orders until he shall have obtained the Divinity Testimonium.

WALLACE EXHIBITION.

In Trinity Term, 1899, the Rev. William Wallace, D.D., gave to the College a sum of £500 to found an Exhibition in the Divinity School.

The following Regulations have been adopted by the Provost and Senior Fellows:—

1. The Exhibition shall be called the Wallace Exhibition.

2. It shall be awarded annually by a Board consisting of the Provost, the Regius Professor of Divinity, and Archbishop King's Lecturer, provided always, that if the Provost for the time being be not a member of the Church of Ireland, the Senior of the Fellows who is such shall take his place on the electing Board, it being the intention of the Donor that the Board shall always consist of Members of the Church of Ireland.

3. The remaining Regulations shall correspond with those in force for the Carson Memorial Exhibition.

The Fund given by Dr. Wallace is invested in Bank of Ireland Stock, producing annually about £15 2*s*.

WALLACE DIVINITY SCHOOL AID FUND.

In the month of July, 1903, the Rev. William Wallace, D.D., Litt.D., deposited a sum of £600 with the Bursar of Trinity College, Dublin, as the nucleus of a Fund to aid the Divinity School of Trinity College, in any way expedient, and specially if it be found fitting to help in instances coming under the knowledge and discretion of the Board of Trustees appointed in 1899 for the Wallace Exhibition, otherwise called the "Electing Board" of that Exhibition.

The Fund shall be called the "Wallace Divinity School Aid Fund." The Trustees shall have the power, in the first instance, to draw on the Bursar annually for the average sum of £50, to be expended in aiding any Student or Students of the Divinity School, in defraying the cost of residence within the College during their attendance upon Lectures, the amount of aid and its direction and continuance being at the discretion of the Trustees.

The Trustees shall not be bound to expend any part of the Fund, if the suggested purpose of the Fund cannot be secured; any interest accruing being added to the Capital of the Fund. At the end of six years the Trustees shall determine whether the intention of the Founder should be revised in the interest of the Divinity School, the Board of Trinity College giving their consent. The Trustees also shall inquire into the condition and prospects of the Fund at the end of this period.

Any Student aided by this Fund must make the declaration of intention expressed in the Regulations of the Carson and Wallace Exhibitions existing at the present date.

In the event of the Divinity School ever being separated from Trinity College, Dublin, the said Trustees shall be the Trustees of all moneys given or bequeathed to this Fund at any time, and shall use such moneys for the general object of aiding the Teachers and Students of the Divinity School as shall seem to them most expedient.

Dated July 9th, 1903.

Approved by the Board, July 20th, 1903.

THE WALLACE DIVINITY LECTURERSHIP.

WHEREAS a sum of £200 Bank of Ireland Stock has been given by the Rev. William Wallace, D.D., LITT.D., Rector of St. Luke's Church, Bow, London, E., to aid the teaching of the Divinity School in any way expedient, and specially, if it be found fitting, towards the provision of instruction in voice production and in reading; and whereas a further sum of £50 Bank of Ireland Stock has been given for the like purpose by the Rev. George Salmon, D.D., Provost, it was resolved on December 17, 1901:—

1. That a Lecturership to be called the "Wallace Divinity Lecturership" shall be established on this foundation, and that to the office a salary shall be attached, arising from the interest on the above-mentioned sums and on such other moneys as may hereafter be added to the fund.

2. That the Lecturer shall hold office for a period of five years only, but that he shall be eligible for re-election.

3. That the Board of Electors shall consist of the Provost, the Regius Professor of Divinity, and Archbishop King's Lecturer in Divinity; provided always that if the Provost for the time being be not a member of the Church of Ireland, the Senior of the Fellows who belongs to that Church shall take his place on the Board, it being the intention of the founder, the Rev. Dr. Wallace, that the Board of Election shall always consist of members of the said Church.

4. That the duties attaching to the office shall be defined from time to time by the said Board, consisting of the Provost, the Regius Professor of Divinity, and Archbishop King's Lecturer; who shall also, in the event of the Divinity School ever being separated from Trinity College, be the Trustees of all moneys given or bequeathed to the Wallace Divinity Lecture Fund.

5. That the Regius Professor of Divinity and Archbishop King's Lecturer shall have power to require, from any Divinity student in whose case they think fit so to do, attendance on the Lectures delivered under this trust, as a condition precedent to the issuing of his Divinity Testimonium.

On May 10, 1902, the founder, Rev. Dr. Wallace, gave a further donation of £190.

LAW SCHOOL.

THE Law School of the University of Dublin is under the control of the Provost and Senior Fellows of Trinity College, who, however, act in concurrence with the Benchers of the King's Inns.

Its staff consists of four Professors:—

The Regius Professor of Laws[a].
The Regius Professor of Feudal and English Law.
The Professor of Jurisprudence and International Law.
The Reid Professor of Constitutional and Criminal Law.

REGULATIONS.[b]

The Regius Professor of Laws delivers Lectures on Roman Law during the three Terms of the Academic Year. The Books used will be:—

The Institutes of Justinian (Moyle's Edition).
Williams' Institutes of Justinan, illustrated by English Law.

The Regius Professor of Feudal and English Law delivers Lectures on—

English Law of Property.

MICHAELMAS TERM. *Interests in Possession.*

Williams' Real Property, chapters 1 to 8, inclusive.
Strahan & Baxter, Parts 1 & 2.
Digby, History of the Law of Real Property, chapters 1 to 4, inclusive.

HILARY TERM. *Interests in Possession continued, and Future Interests.*

Williams, to end of Chapter 4, Part 2.
Digby Chapter 5.

TRINITY TERM. *Rights in Alieno Solo. Personal Interests in Real Estate.*

Title and Conveyance, Williams', Part 2, Chapter 5, Parts 4, 5, and 6.
Strahan and Baxter, Parts 3, 4, and 5.

---

[a] The Professorship, in the Statutes of Charles I., is described as the Profession of Jurisprudence, and the Professor, in the Letters Patent of Charles II., is styled, "Our Professor of the Laws." In the Decrees of the Board and Visitors, the title generally used is that of the Professor of Civil Law. The above is the style adopted by the Professor in his official acts.

[b] Resolutions of Board and Council, June 15 and 12, 1889.

The Professor of Jurisprudence and International Law will lecture on International Law as follows:—

MICHAELMAS TERM.

The Character and Sources of International Law. The Rights and Duties of States in time of Peace.

HILARY TERM.

The Law of War. The Law of Neutrality.

TRINITY TERM.

The Principles of Private International Law.

The Reid Professor lectures during the year on the following subjects:—

MICHAELMAS TERM. *The Principles of Criminal Law.*

Kenny, Outlines of Criminal Law.
Kenny, Cases on Criminal Law.

HILARY TERM. *Constitutional Law.*

Dicey, Law of the Constitution.

TRINITY TERM. *The Law of Evidence.*

Stephen, Digest of the Law of Evidence.

Twelve Lectures are delivered in each Term. He is bound to publish in each year six of these Lectures. The Lectures on Penal Legislation are open to the public. A fee of One Guinea a Term is payable by other Students (not being Students of Trinity College or the King's Inns) who attend the second and third Courses of Lectures.

The Regius Professor of Laws is bound to deliver not less than fifteen Lectures, and each of the other Professors not less than twelve Lectures in each of the three College Terms. Of the Lectures of the Regius Professor of Laws twelve only count towards the keeping of Terms, and these are delivered on Tuesdays and Fridays at 9 o'clock, a.m.; the remainder are delivered at such times as the Professor shall announce; those of the Regius Professor of Feudal and English Law on Wednesdays and Saturdays at 9 o'clock, a.m. Those of the Professer of Jurisprudence and International Law on Wednesdays and Saturdays at 11 o'clock, a.m., and those of the Reid Professor on Mondays and Thursdays in each week at 9 o'clock, a.m.

The Ordinary Law Lectures are open to Students and to the Public, save as above mentioned, without payment, and no Fee is required from Students of the King's Inns beyond that already paid by them on admission into that Society.

In each Term, Lectures are delivered in the Honor Course in Legal and Political Science, see under HONOR COURSES.

It is the duty of each Professor to attend the Examination in person while the Students are engaged upon his Paper. In case he is unable so to attend, he is bound to give notice thereof to the Registrar of the Law School. On receiving such notice, the Registrar is required to provide a substitute from among the Fellows and Professors, whose duty it is to keep the Hall during such Examination.

The Professors are bound at the end of Michaelmas and Hilary Term to furnish to the Senior Lecturer a List of all Students having their names on the College Books, and of all King's Inns Students who have had credit for the Term. At the end of Trinity Term they are bound to furnish to the Senior Lecturer a List of all Students having their names on the College Books, and of all King's Inns Students who have had credit for the Term, as well as of those who have obtained Academic credit for the year.

KEEPING OF TERMS.

A Term is kept by attendance at three-fourths of the Lectures, and by passing the Examination held at the end of the Term.

A General Examination is held by each Professor in Trinity Term at the end of the Academic year.

To obtain Academic credit for the year with any Professor, Students must keep three consecutive Terms, commencing with Michaelmas Term, and pass the General Examination held at the close of Trinity Term.

A Supplemental Examination is held in December for Law Students who have not passed the Annual Law Examination at the end of Lectures in Trinity Term.

LAW PREMIUMS.

At the end of Trinity Term Prizes amounting to £45 may be awarded by the Professors at their discretion to the best answerers among the College Students who obtained Academic credit for the year. The merits of the Candidates will be determined by the aggregate of marks obtained by them at the three Examinations which follow, respectively, the Michaelmas, Hilary, and Trinity Courses of Lectures.

DUTIES OF THE REGISTRAR OF THE LAW SCHOOL.

It shall be the duty of the Registrar of the Law School to copy the Lists furnished by the Professors to the Senior Lecturer into separate Books, to be provided for that purpose.

It shall be the duty of the Registrar of the Law School to give to all Students, including those of the King's Inns, such certificates of attendance as they may be entitled to and may require.

The Registrar of the Law School shall be authorised to issue Certificates of Attendance on the lectures of the Professors of the Law School by Solicitors' Apprentices who are not Students of Trinity College, on condition that for each year of such attendance, a fee of £3 3*s.* shall be paid to the Junior Bursar, Trinity College, by every such apprentice who requires a Certificate.

RULES *of the Honorable Society of King's Inns, with regard to the Admission of Students into the Society, and to the Degree of Barrister-at-Law.*

Admission of Students.

I. Every person in or after Trinity Term, 1903, applying to be admitted a Student into this Society shall present at the Under Treasurer's Office, three clear days at the least before the first day of Term, a Memorial in the printed form adopted by the Benchers, such Memorial to be signed and lodged by the person applying to be admitted a Student, and the Certificate annexed thereto to be signed by a practising Barrister of at least Ten years' standing.

The Under Treasurer's Office opens fourteen days before the first day of each Term.

II. Every person applying to be admitted a Student shall pay the sum of One Guinea, upon application for the form of Memorial.

III. Every person applying to be admitted a Student, on presenting such Memorial, shall produce a Certificate of having paid at the Stamp Office the Stamp Duty of Twenty-five Pounds Sterling, and shall also pay to the Under Treasurer the sum of Twenty-two Pounds Ten Shillings, which includes Five Guineas for admission to the Library, and Five Guineas for Professors' Fees—the balance being the Fee for admission into the Society as a Student.

IV. Every Student shall, in addition to the sum of Five Guineas, Professors' Fees paid on admission, also pay the sum of Five Guineas Professors' Fees, and One Guinea Examiner's Fee, for every year after the first year, during which he shall attend the Lectures of the Professors of the King's Inns. And no Student shall be admitted to attend the Lectures of any Professor of the King's Inns except on production of the Certificate of the Under Treasurer that he has paid such Fees.

V. Every person not otherwise disqualified, and who shall have passed a Public Examination at any University within the British Dominions, or for the First Class of the Home Colonial, or for the Indian Civil Service, or for the Consular Service, or who shall be a Student of any of the Inns of Court in England, having passed the Preliminary Examination therein, shall be entitled to be admitted a Student without passing a Preliminary Examination.

VII. Every person, who does not come under Rule 5 or Rule 6, applying to be admitted a Student shall, before admission, satisfactorily pass an Examination in the following subjects, viz.:

(*a*) The English Language.
(*b*) The Latin Language.
(*c*) English History and Literature.

This Examination shall be conducted by an Examiner or Examiners to be appointed by the Education Committee; it shall be held at such time and place, and in such course, as the Education Committee may from time to time prescribe.

The following shall be the Course for this Preliminary Examination:—

(*a*) The English Language:—

Grammar and Composition; Selections from Latham's History of the English Language.

(*b*) The Latin Language:—

Grammar and Composition.
Cæsar—Commentaries, Books I. and II.
Virgil—Æneid, Books I. to VI.
Horace—Odes, Book I.; Satires, Book I.

(*c*) English History and Literature:—

The Student's Hume; The Student's Manual of English Literature.

Any three of the following subjects, at the Candidate's election:—

1. Chaucer—Prologue and Knighte's Tale (Clarendon Press Series).
2. Spenser's Faërie Queene, Book I. (Clarendon Press Series).
3. Shakspeare—Any three of the following Plays:—Julius Cæsar, Macbeth, Hamlet, Othello, King John, Henry V., Richard II., Midsummer-Night's Dream, As You Like It, The Tempest.
4. Milton—Paradise Lost, Books I. to VI., and The Sonnets.
5. Bacon's Essays:—Of Truth, Of Adversity, Of Revenge, Of Atheism, Of Superstition, Of Travel, Of Innovation, Of Nature in Man, Of Building, Of Studies.
6. Dryden:—Absalom and Achitophel, and Religio Laici, or, The Hind and the Panther.
7. Pope—Essay on Man, and Rape of the Lock.
8. Byron—Childe Harold.
9. Tennyson—Lesser Poems, as in Edition of 1852, or the Arthurian Legends.
10. Johnson—Lives of Milton, Dryden, Pope, and Addison.
11. Macaulay—Essays on Warren Hastings, and Lord Clive, or Essays on Frederick II. (of Prussia), and Lord Chatham.

Each Candidate shall state in his application for Examination the subjects in which he elects to be examined.

Keeping Terms.

VIII. Subject to the exceptions mentioned in the Rules, every Student shall keep twelve Terms' Commons in the Dining Hall of the Society, but each Student may, at his option, substitute for four of such Terms four Terms' Commons kept in one of the Four Inns of Court in London, in accordance with the regulations of such Inn; the Term in which the Student applies to be called to the Bar, may be kept as the last of the said twelve Terms. The Fee for Commons shall be £1 for each Term.

IX. Every Student shall keep Term by dining in the Hall of the Society on four days at the least in the Term. No day's attendance in the Hall shall be available for the purpose of keeping Term, unless the Student attending shall have been present at the grace before dinner, during the whole of dinner, and until the concluding grace shall have been said, unless one of the Benchers for the day shall permit the Student to leave earlier.

X. The Terms in each year shall commence as follows:—Michaelmas Term shall commence on October 25th; Hilary Term shall commence on January 11th; Easter Term shall commence on April 15th; and Trinity Term shall commence on June 1st. When any of these days falls upon a Sunday or holiday, the Term shall commence upon the next succeeding day which shall not be a Sunday or holiday. Each Term shall continue for twenty-three days exclusive of Sundays.

Legal Education.

XI. Subject to the exceptions mentioned in other Rules, every Student, after admission as a Student, and before being called to the Bar, shall complete a course of Legal Education extending over a period of Three Years at the least, commencing with Michaelmas Term, and comprising attendance at Lectures and passing Examinations as prescribed by these Rules, in accordance with the Regulations made by the Education Committee, and in force for the time being.

XII. Every Student who does not come under any other Rule shall, in his First Year, attend one continuous and complete course, commencing in Michaelmas Term, of three Terms of Lectures of the Professor of Feudal and English Law, and a like course of one other of the Professors, in the Law School of Trinity College, Dublin, and shall pass the Examinations in the subjects of the Lectures held at the end of each Term. In the case of Students of Trinity College, Dublin, (*a*) Attendance by a Junior Sophister at the Lectures above prescribed, and obtaining Honors in "Legal and Political Science" at two Honor Examinations in the year, of which the Examination held in Michaelmas Term shall be one; or (*b*) Attendance by a Senior Sophister at the Lectures above prescribed, and obtaining an Honor in "Legal and Political Science" at the Honor Examination in Hilary or Easter Term, and a Moderatorship in the same subject at the Moderatorship Examination in Michaelmas Term of the same year, shall be deemed a compliance with this Rule.

XIII. Every Student who does not come under any other Rule shall, in his Second Year, attend one continuous and complete course, commencing in Michaelmas Term, of three Terms of Lectures for the Junior Class, of each of the two Professors of Law at the King's Inns, and shall pass the Examinations prescribed in Rules XVII. and XVIII. In the case of Students of Trinity College, Dublin, who have not previously complied with Rule XII., by attending Lectures and obtaining Honors and Moderatorship in the Senior Sophister Class, attendance at the Honor Lectures of any two of the Professors in the Law School of Trinity College, Dublin, and obtaining an Honor in "Legal and Political Science" at the Honor Examination in Hilary or in Easter Term, and a Moderatorship in the same subject at the Moderatorship Examination in Michaelmas Term of the same year, shall be deemed a compliance with this Rule.

XIV. Every Student who does not come under any other Rule shall, in his Third Year, attend one continuous and complete course, commencing in Michaelmas Term, of three Terms of Lectures for the Senior Class, of each of the two Professors of Law at the King's Inns, and shall pass the Examinations prescribed in Rules XVII. and XVIII.

Ordinary Examinations.

XVII. An Examination shall be held by each Professor at the King's Inns, at the end of each Michaelmas Term and Hilary Term, in the subject of the Lectures of the Term, at which the Students who have attended the Lectures shall be bound to present themselves for Examination; and no Student shall be entitled to credit for attendance on the Term of Lectures without a Certificate of having passed this Examination to the satisfaction of the Professor.

XVIII. An Annual Examination shall be held at the close of Easter Term, within a month after the termination of each continuous Course of Lectures at the King's Inns, on days to be fixed by the Education Committee, in the subjects of the Lectures constituting such Course, and no Student shall be entitled to credit for any continuous Course of Lectures without a Certificate of having passed this Annual Examination to the satisfaction of the Examiners. The Students shall be lectured and examined in two distinct Classes: the Junior Class shall consist of those Students who are keeping their Second Year; and the Senior Class shall consist of those Students who are keeping their Third Year. Each Annual Examination shall be conducted by a practising Barrister or Barristers, other than the Lecturer, and in the presence of a Bencher.

To obtain credit for the Continuous Course of Three Term Lectures to either Class, the Student must pass the Annual Examination held at the close of Easter Term, and at this Examination the following percentages of answering must be obtained—

For First Class, . .	75 per cent.
For Second Class, . .	60 per cent.
To Pass, ...	50 per cent.

Subject to the power of the Education Committee to vary these percentages upon special grounds.

XIX. The Victoria Prizes of the respective amounts of £25, £15, and £10, shall be awarded at each Annual Examination of each Class, on the recommendation of the Education Committee, to the Three Students who shall pass the best Examination. No Student shall be entitled to compete a second time in the same Class, and the Benchers may withhold all or any of the Prizes, in case the Education Committee report that they do not consider the answering sufficiently meritorious.

Honor Examination.

XXIII. An Honor Examination, to be conducted by Members of the Bench and the Professors at the King's Inns, shall be held in October in each year. The Honor Examination shall be in the following subjects, viz. :—1. The History of Law, Constitutional Law, and Criminal Law. 2. Jurisprudence, Civil Law, and International Law. 3. The Law of Real Property. 4. The Law of Personal Property. The time, place, and subjects of Examination shall be published by the Education Committee at least six months before each Honor Examination.

XXIV. Every Student who shall, within the three years preceding the Examination, have kept at least eight Terms Commons, and attended the Lectures and passed the Examinations prescribed for the First and Second Years of his Legal Education, shall be qualified to compete at the Honor Examination, on entering his name at the Under Treasurer's Office, seven clear days at the least before the day of holding such Examination, but no Student may compete at more than one Honor Examination.

XXV. The "John Brooke Scholarship" of Fifty Pounds per annum, to continue for three years, shall be conferred on the Student obtaining the first place at each Honor Examination, and an Exhibition of Twenty Guineas per annum, to continue for three years, shall be conferred on the Student obtaining the second place at each Honor Examination. A prize of Twenty Guineas shall be conferred on the Student obtaining the third place at each Honor Examination, and Certificates of Honor may be conferred on Students failing to obtain the first, second, or third places, where the Education Committee report that the answering merits such distinction. Each Student obtaining a Scholarship, Exhibition, Prize, or Certificate of Honor, may, if so recommended by the Education Committee, be excused from keeping not more than two Terms Commons, and from attending not more than three Terms of Lectures, which would be otherwise required for his Call to the Bar.

XXVI. Each Scholarship and Exhibition shall be tenable for the three years next following the holder's Call to the Irish Bar, provided such Call shall take place not later than in the Hilary Sittings next following the award of the Scholarship or Exhibition; otherwise the period of three years shall be computed from the Call Day of such Sittings, but the payment shall not accrue until the date of the holder's Call to the Bar, and shall, if necessary, be apportioned. Each Scholarship and Exhibition shall continue so long only as the holder shall remain a practising member of the Irish Bar, and shall retain the personal benefit of such Scholarship or Exhibition.

XXIX. At each Call to the Bar, those Students who have obtained Scholarships, Exhibitions, Prizes, or Certificates of Honor, shall take rank in seniority over all other Students who shall be called on the same day, and those who have obtained Scholarships, Exhibitions, Prizes, or Certificates of Honor, shall take rank in seniority among themselves, according to their respective merits.

Call to the Bar.

XXX. Every Student, having complied with the foregoing Rules, desiring to be admitted to the Degree of a Barrister-at-Law, and being of the full age of twenty-one years, shall present a Memorial, in the printed form adopted by the Benchers, at the Under Treasurer's Office, three clear days, at the least, before the First day of Term, such Memorial to be signed by the Student himself; the Certificate annexed thereto to be signed by a practising Barrister of at least ten years' standing, and the Declaration at foot thereof to be signed by a Bencher.

XXXI. Every Student so applying for admission to the Degree of a Barrister-at-Law, shall, on presenting his Memorial, pay to the Under Treasurer the sum of Forty Pounds, being the payment to the Society thereon, and shall lodge, at the same time, a Certificate of having paid Fifty Pounds Stamp Duty at the Stamp Office, Certificates of the prescribed attendance upon Lectures or at Chambers, and passing of Examinations, and where all his Terms shall not have been kept in the Dining Hall of the King's Inns, a Certificate of having kept the required number of Terms in one of the Inns of Court in London.

By Order,

RICHARD ARMSTRONG,
Under Treasurer.

KING'S INNS, *Trinity Term*, 1903.

EXTRACT *from the Consolidated Regulations of the Four Inns of Court in England, dated June*, 1899.

1. Every person, not otherwise disqualified, who shall have passed a Public Examination at any University within the British dominions, shall be entitled to be admitted as a Student, without passing a preliminary Examination.

11. Students who shall at the same time be Members of any of the Universities of Oxford, Cambridge, Dublin, London, Durham, the Royal University of Ireland, St. Andrews, Aberdeen, Glasgow, Edinburgh, or the Victoria University, Manchester, shall be enabled to keep Terms by dining in the Halls of their respective Inns of Court, any three days in each Term.

15. So long as the Regulations affecting the Call to the Bar in Ireland remain substantially as at present, any Member of the Bar of Ireland of three years' standing at the Irish Bar may, upon presenting a Certificate of his Call duly authenticated, and a Certificate from the Attorney-General or the Solicitor-General of Ireland that the applicant is a fit and proper person to be called to the English Bar, become a Member of an Inn of Court and be called to the English Bar upon keeping Three Terms without submitting to any Examination.

28. Students shall be provided with the means of Education in the general principles of Law, and in the Law as practically administered in this country, and for the purpose of such Education, Systematic Instruction shall be given in the following subjects:—

1. Roman Law and Jurisprudence and International Law, Public and Private (Conflict of Laws).
2. Constitutional Law (English and Colonial) and Legal History.
3. Evidence, Procedure (Civil and Criminal), and Criminal Law.
4. English Law and Equity, viz.:—

(*a*) Law of Persons, including:—
- Marriage and Divorce.
- Infancy.
- Lunacy.
- Corporations.

(*b*) Law of Real and Personal Property and Conveyancing, including:—
- Trusts; Mortgages.
- Administration of Assets on Death; on Dissolution of Partnerships; on Winding-up of Companies, and in Bankruptcy.

Practical instruction in the preparation of Deeds, Wills, and Contracts.

(*c*) Law of Obligations.
- Contracts.
- Torts.
- Allied Subjects (implied or quasi contracts), estoppel, &c.
- Commercial Law, with especial reference to Mercantile Documents in daily use, which should be shown and explained.

41. There shall be four Examinations for Calls to the Bar in each year—one before each Term, and in sufficient time to enable the requisite Certificates to be granted by the Council before the first day of each Term.

42. No Student will receive a Certificate of fitness for Call to the Bar unless he passes a satisfactory Examination in the following subjects:—

I. Roman Law.

II. Constitutional Law (English and Colonial) and Legal History.

III. Evidence, Procedure (Civil and Criminal), and Criminal Law.

IV. Such of the other Heads of English Law and Equity mentioned in Rule 28 (4) as may be prescribed by the Council.

44. The Council may accept as an equivalent for the Examination in Roman Law—

i. A Degree granted by any University within the British Dominions, for which the qualifying Examination included Roman Law;

ii. A Certificate that any Student has passed any such Examination, though he may not have taken the Degree for which such Examination qualifies him.

50. The Council shall grant Certificates of Honour to such persons as may be reported worthy of the same by the Examiners.

51. At the Hilary and Trinity Examinations in each year a Studentship of One Hundred Guineas per annum, tenable for three years, will be awarded to the Student who passes the best Examination in Subject IV., and obtains a Certificate of Honour. The Council shall not award a Studentship if the result of the Examination is such as, in their opinion, not to justify the award. Where Candidates appear to be equal or nearly equal in merit, the Council may divide the Studentship between them equally or in such proportions as they consider just.

52. No Student shall be eligible for a Studentship who is over twenty-five years of age on the first day of the Examination. Only Members of an Inn who have not been awarded a Certificate of fitness for Call to the Bar shall compete for a Studentship or Honors.

RULES *with regard to the Admission of Apprentices as Attorneys or Solicitors.*

I.—ADMISSION IN IRELAND.

The 12th, 14th, 15th and 17th sections of "The Solicitors (*Ireland*) Act, 1898" (61 & 62 Vict.), provide as follows:—

Sect. 12. "Every person having taken the degree of Bachelor of Arts or Bachelor of Laws in any of the universities of Dublin, Oxford, Cambridge, Durham, London, or in Victoria University, or in the Royal University of Ireland, or the degree of Bachelor of Arts, Master of Arts, Bachelor of Laws, or Doctor of Laws in any of the universities of

Scotland (none of such degrees being honorary degrees), and who at any time after having taken such degree, and either before or after the commencement of this Act, has been bound by indentures of apprenticeship to a practising solicitor, shall only be required to be bound and serve thereunder for the term of three years."

Sect. 14. "Every person who, after the commencement of his apprenticeship, and previous to his admission as a solicitor, takes the degree of Bachelor of Arts in the University of Dublin, or in the Royal University of Ireland, shall only be required to serve under indentures of apprenticeship to a practising solicitor for the term of four years."

Sect. 15. "Every person who, as a matriculated or as a non-matriculated student of the University of Dublin or of any of the Queen's Colleges in Ireland or the Royal University of Ireland, attends any prescribed lectures, and passes any prescribed examinations of the professors of the faculty of law in the said University of Dublin or in any of the Queen's Colleges in Ireland or in the Royal University of Ireland for a period of two collegiate years, shall only be required to serve under indentures of apprenticeship to a practising solicitor for the term of four years. 'Prescribed' in this section means prescribed by any regulations made by the Incorporated Law Society."

Sect. 17. "A certificate of having passed a preliminary examination under this Act shall not be required from any person coming within the twelfth or thirteenth section of this Act, or who has passed the first public examination before Moderators at Oxford, or the previous examination at Cambridge, or the examination in Arts for the second year at Durham, or who has passed one of the local examinations established by the University of Oxford, or one of the non-gremial examinations established by the University of Cambridge, or one of the examinations of the Oxford and Cambridge Schools Examination Board, or one of the open public matriculation examinations of the Universities of Dublin, London, or the preliminary examination of Victoria University or the Royal University of Ireland, or in any of the Queen's Colleges in Ireland, or the examination for the first-class certificate of the College of Preceptors incorporated by Royal Charter in 1849. The above exemption may be extended by regulations made under this Act to any persons who pass any examination held in any of the above-mentioned universities, or in any other university, college, or educational institution, specified in such regulations."

II.—ADMISSION IN ENGLAND.

By the 2nd section of the English Attorneys Act (23 & 24 Vict. c. 197), Graduates of Dublin University may be admitted as Attorneys or Solicitors in England, after three years' service under Articles of Clerkship.

The 5th section of the English Act provides that

"The Lords Chief Justice of the Courts of Queen's Bench and Common Pleas, and the Lord Chief Baron of the Court of Exchequer, jointly with the Master of the Rolls, may, if they think fit, from time to time, by regulations to be made by them, direct that any person having successfully passed an Examination, now or hereafter to be established in

any of the Universities hereinbefore mentioned, and to be specified in such Regulations, may be admitted and enrolled as an Attorney or Solicitor, after having been subsequently bound by, and having duly served under, Articles of Clerkship to a practising Attorney or Solicitor, for the term of four years, and been examined and sworn as aforesaid."

On the 26th of July, 1861, it was accordingly ordered by the Judges so authorized:—

"That from and after the 1st day of Hilary Term, 1862, every person who, before entering into Articles of Clerkship, shall produce to the Registrar of Attorneys a Certificate that he has successfully passed the first Public Examination before Moderators at Oxford, or the Previous Examination at Cambridge, or the Examination in Arts for the second year at Durham, or the Matriculation Examination at the Universities of Dublin or London, and has been placed in the first division on such Matriculation Examination, shall be entitled to the benefit of the 5th section of the Attorneys Act (23 & 24 Vict. c. 127)."

REGULATIONS *of the University with regard to Degrees in Law.*

The Regius Professor of Laws is Moderator in all disputations for Degrees in Law, and presents the Candidates for those Degrees at the Commencements.

The Degrees are Bachelor and Doctor *in utroque Jure*.

1. *Bachelor of Laws.*[a]

1. A Candidate for a Degree must have performed all the necessary exercises for taking the Degree.

2. A Candidate for the Degree of *Bachelor of Laws* must have taken the Degree of Bachelor of Arts or the degree of Master of Arts in Dublin (unless he seek the degree *ad eundem* as an LL.B. of Cambridge, or a B.C.L. of Oxford). The following is the Course for the Examination for LL.B.:—

Holland's Elements of Jurisprudence.
Wheaton's International Law (Boyd's Edition).
Williams' Principles of the Law of Personal Property.
Williams' Principles of the Law of Real Property.
Anson's Principles of the English Law of Contracts.
Phipson on Evidence.
Smith's (H. A.) Principles of Equity.
Pollock's Law of Torts.
The Institutes of Justinian.

---

[a] Resolutions of Board and Council, June 8 and 5, 1878. Meeting of Senate, June 29, 1878.

In and after Trinity Term, **1905**, the following arrangements shall be made:—

LL.B.

The Examination for LL.B. shall be divided into two Sections, A and B, to be taken separately or together, at the option of the Candidate.

SECTION A.:—

(1) Jurisprudence [Holland, or Markby].
(2) International Law [Hall, or Lawrence].
(3) Roman Law [Justinian's Institutes (Edited Moyle)].
(4) Constitutional Law and History [Anson].

SECTION B.:—

(1) Law of Property (Real and Personal):—
Strahan & Baxter's Law of Property.
Williams' Personal Property.
Williams' Real Property; *or* Edwards' Real Property.

(2) Law of Obligations:—
[Anson on Contracts.
Pollock's Law of Torts.]

(3) Equity [H. A. Smith, or Snell].
(4) Criminal Law (Elements of) [Kenny's outlines].
(5) Law of Evidence [Stephen].

Text-books given in brackets are intended to indicate approximately the general knowledge required of Candidates under each head.

The Examinations are mainly by Papers; but each Examiner is at liberty to supplement his Examination by questions *vivâ voce*.

Candidates presenting themselves at the Examination are required to have their names on the College Books at the time of the Examination, and must either have passed the Examination for the Degree of B.A., or be in a position to present themselves at that Examination. They may replace their names for the Law Examinations by giving a day's notice to the Registrar of the Law School.

Candidates who are not Students of Trinity College, Dublin, must pay the fees necessary for the Degree *ad eundem* which they propose to take previous to presenting themselves at the Examinations for the Degrees of LL.B. or LL.D.

2. *Doctor of Laws.*[a]

3. A Candidate for the Degree of Doctor of Laws must be a B.A. of three years' standing in either Dublin, Oxford, or Cambridge; and must have taken the LL.B. Degree.

Candidates may qualify themselves to obtain the Degree—

(1). By passing an Examination in the following Course:—

[a] Resolutions of Board and Council, June 8 and 5, 1878. Meeting of Senate, June 29, 1878.

Course for LL.D.

Bentham's Theory of Legislation (*Hildreth's Translation*, pp. 1–236).
Maine's Ancient Law.
Foote's Private International Law.
Digby's History of the Law of Real Property.
Holland's Elements of Jurisprudence.
Wheaton's International Law (Boyd's Edition).
The Institutes of Justinian.
Hannis Taylor's Origin and Growth of the English Constitution.

A Candidate may present himself for Examination for the Degrees of LL.B. and LL.D. on the same occasion.

(2). By presenting to the Regius Professor of Civil Law, for the consideration of the Examiners, a printed Thesis, composed by the Candidate on a subject in the Law Course approved of by the Professor. The Candidate will be liable to be examined on subjects connected with his Thesis. The Thesis must be presented to the Professor one month before the Commencements, and, if it be approved by the Professors of the Law School, a copy shall be deposited in the College Library.

(3). The Degree of LL.D. may also be obtained by a Candidate who is the author of a published work connected with legal or political science, of merit sufficient, in the judgment of the Examiners, to entitle the Candidate to the Degree.

(4). Candidates for Degrees by the methods (2) and (3) are required to notify to the Registrar of the Law School, one month before the Commencements, the particular qualifications which they propose to offer. For other Candidates one day's notice is sufficient.

In and after Trinity Term, **1906**, the following regulations shall be in force:—

A Candidate for LL.D. Examination must have passed for LL.B. one year previously. In special cases (reserved for decision of the Board) this rule may be relaxed.

The following Course shall be substituted for that given in (1):

(1) Roman Law.
(2) English Law (selected subjects).
(3) Jurisprudence.
(4) International Law (Public and Private).
(5) Theory of Legislation.
(6) Legal History.

Nos. (1) *and* (2) *to be compulsory: but every Candidate must in addition answer in two of the four remaining subjects.*

Candidates must send to the Registrar of the Law School notice of their selection one month before the Examination.

NOTE.—A Decree, of which the following was a clause, was passed by the Senate on the 16th of June, 1885 :—

"Proviso tamen quod omnibus quibus unquam per Statuta licuerit Baccalaureatum vel Doctoratum in utroque jure secundum regulas antehac [ante annum 1885] vigentes capessere, post hac etiam liceat secundum eas regulas pro illis gradibus supplicare."

The Examinations for a Degree in Law, whether LL.B. or LL.D., lasts three days, and, for 1904, the Examinations for—

LL.B. will begin on	June 18,	December 7.
LL.D. ,, ,,	June 22,	December 10.
Degrees will be conferred on	June 30, or	December 20.

Bachelors of Laws of Oxford or Cambridge, who are also Bachelors of Arts in either of these Universities, may present themselves for the LL.D. Examination on taking an *ad eundem* LL.B. Degree in the University of Dublin. Fees, £11 15*s*.

Specimens of Papers set at recent Examinations for the LL.B. and LL.D. Degrees can be obtained on application to the Registrar. The Examiners require a minimum of 40 per cent. of the questions to be answered on the aggregate of the papers. The answers sent in to each examiner must not fall much below this percentage.

In the LL.B. and LL.D. Courses, as in the other parts of the University Curriculum, changes are introduced from time to time by the Board and Council; and also the publishers issue new editions of the books. But this latter change is not allowed to operate to the disadvantage of any Candidate who has prepared himself for Examination in the prescribed Course.

The Fees for the Degrees of LL.B. and LL.D. are, respectively, £11 15*s*. and £22.

REID LAW SCHOLARSHIP AND PRIZE EXAMINATIONS IN LAW.

IN order to promote the better study of Law, the Board of Trinity College, Dublin, established, in 1900, an annual Honor Examination in all the departments of Law, subject to the following conditions :—

1. Candidates must have attended a year's lectures and passed the General Examinations with each of the Professors of Law.

2. No Candidate will be allowed to compete later than twelve months after the December B.A. Examination of his class.

3. The Course will consist of the subjects taught in the three terms of Lectures of the three Professors, together with special books named by the Professors, two years' notice being given for any change in the Course.

4. The following prizes will be awarded:—

In Criminal and Constitutional Law:

The Reid Scholarship, value £40.

In Civil and International Law:

A Prize of £20.

In Feudal and English Law:

A Prize of £20.

All of these being subject to the qualifications in § 6.

Further Prizes of £20 and £10 may be awarded, if sufficient merit be shown, in the department of the Reid Professor.

5. No Candidate can obtain any one of these Prizes unless he has satisfied the Professors in the other subjects, by answering at least 40 per cent. in their part of the Examination.

6. The same Candidate may be awarded Prizes in all three departments, but no Candidate shall be awarded the same Prize more than once.

7. In cases of very close competition, the Board shall have power to vary the distribution of the amounts.

In cases of equality the Examiners may take into consideration the answering of various Candidates in the other subjects.

8. Certificates will be issued to the winners of the three first Prizes, and in exceptional cases, a Certificate may be granted to such other Candidates as shall be recommended by the Examiners for distinguished answering.

9. The Board of Trinity College will invite an Examiner, nominated by the Benchers, to take part in the Examination.

Special Books suggested by the Professors of Law.

I.—Civil and International Law.

1. Lawrence's International Law.
2. Holland's Jurisprudence.
3. The Institutes of Justinian.

II.—Feudal and English Law.

1. Digby's History of the Law of Real Property.
2. The following Selections from Tudor's Leading Cases on Real Property, with the Notes:—

   Seymour's Case.
   Tyrrell's Case.
   Shelley's Case.
   Doe *v.* Hiscocks.

III.—Criminal and Constitutional Law, &c.

1. Warburton's Leading Cases in Criminal Law, Pollock and Wright on Possession in the Common Law, part ii. (possession in relation to Criminal Law).
2. Stephen's Digest of the Law of Evidence.
3. Anson's Law and Custom of the Constitution.

   Candidates will also be required to have an elementary knowledge of English Constitutional History.

IV.—*The Extern Examiner* will set a paper in

Anson on Contracts.

For the Honor Course and Moderatorships in Law and Political Science, see under "Honor Courses" and "Moderatorships."

SCHOOL OF PHYSIC.

PART I.

REGULATIONS OF THE SCHOOL OF PHYSIC.

THE School of Physic in the University of Dublin consists of the following Staff for 1903 :—

Regius Professor of Physic.—James Little, M.D., LL.D.
Regius Professor of Surgery.—Sir Charles B. Ball, M. D., Ch. M.
University Professor of Anatomy and Chirurgery.—Andrew Francis Dixon, M.B., D.Sc.
University Professor of Chemistry.—
University Professor of Botany.—E. Perceval Wright, M.D.
University Professor of Surgery.—Edward H. Bennett, M.D., Ch.M.
University Anatomist.—Sir Charles B. Ball, M.D., Ch.M.
Professor of Zoology and Comparative Anatomy.—H.W. Mackintosh, M.A.
Erasmus Smith's Professor of Natural Philosophy.—William E. Thrift, M.A., F.T.C.D.
King's Professor of Institutes of Medicine.—William H. Thompson, M.D.
King's Professor of Practice of Medicine.—John Magee Finny, M.D.
King's Professor of Materia Medica and Pharmacy.—Walter G. Smith, M.D.
King's Professor of Midwifery.—Arthur Vernon Macan, M.B., M.A.O.
University Lecturer in Medical Jurisprudence.—Henry T. Bewley, M.D.
University Lecturer in Pathology—Alex. C. O'Sullivan, M.D., F.T.C.D.
University Examiner in Anatomy—Edward H. Taylor, M.D.
University Examiner in Clinical Surgery for 1903.—R. C. B. Maunsell, M.D.
University Examiner in Ophthalmic Surgery for 1903.—H. R. Swanzy, M.B.
University Examiner in Midwifery for 1903.—John L. Lane, L.R.C.P. & S.I.
University Examiners in Medicine for 1903.—R. A. Hayes, M.D.; J. Hawtrey Benson, M.D.
University Examiner in Vital Statistics for 1903.—R. E. Matheson., LL.D.
University Examiner in Dental Surgery for 1903.—A. W.W. Baker, M.D.
University Examiner in Sanitary Engineering for 1903.—William Kaye Parry, M.A.
University Examiner in Mental Diseases for 1903.—Conolly Norman, F.R.C.P. & S.I.

Curator of Museum of Zoology and Comparative Anatomy.—Henry W. Mackintosh, M.A.

Curator of Pathological Museum.—Edward H. Bennett, M.D., Ch. M.

Curator of Materia Medica Museum.—Walter G. Smith, M.D.

Registrar.—Henry W. Mackintosh, M.A.

Demonstrators in Anatomy.—R. A. Stoney, M.B., B.Ch., B.A.O., *Chief Demonstrator.*
G. Jameson Johnston, M.A., M.B.
William S. Haughton, M.B., B.Ch., B.A.O.
R. Travers Smith, M.D.
T. P. C. Kirkpatrick, M.D.
R. H. Kennan, M.D.
E. J. M. Watson, M.D.
T. G. Moorhead, M.D.
C. A. K. Ball, M.D.

Assistant to Professor of Chemistry.—E. A. Werner, F.C.S.

Assistant to Professor of Institutes of Medicine.—Harold Pringle, M.D.

Assistant to Lecturer in Pathology.—J. T. Wigham, M.B., B.Ch., B.A.O.

University Demonstrator in Röntgen Photography.—William S. Haughton, M.B., B.Ch., B.A.O.

MATRICULATION.

No Student can be permitted to attend any of the Courses of Instruction in the School of Physic until he has Matriculated. There is no special Examination; the Entrance Examination of Trinity College, or any other of the Preliminary Examinations recognized by the General Medical Council, being accepted as equivalent. The Matriculation Fee is Five Shillings. It is not necessary for a Student to have his name on the College Books, or to attend any of the Academical duties of the University, unconnected with the School of Physic, unless he desire to obtain a Diploma or Degree in Medicine, Surgery, and Midwifery.

A Student may matriculate at the commencement of either the Winter or the Summer Session. The 25th November is the last day of admission to the Winter Session. In the Summer Session the day varies a good deal according to the time at which Easter occurs, and the Courses of Lectures for which the Student proposes to enter.

(For Order of Study and Fees see pp. 222–5.)

WINTER SESSION, 1903–1904.

The Winter Session commences on the 1st October by the opening of the Dissecting-room, and terminates on the 26th March. Lectures commence on the 1st November.[a]

[a] The Term Courses commence on days to be duly announced.

LECTURES.

Physics.—Mr. Thrift, at 1 o'clock, on Mondays, Wednesdays, and Fridays, during Michaelmas and Hilary Terms.

Chemistry.— , at 1 o'clock, on Tuesdays and Thursdays, and at 11 o'clock on Saturdays.

Systematic Anatomy.—Dr. Dixon, at 12 o'clock, on Mondays, Wednesdays, and Fridays.

Descriptive Anatomy.—Dr. Dixon, at 12 o'clock on Tuesdays, Thursdays, and Saturdays.

Physiology.—Dr. Thompson, at 12 o'clock, on Mondays, Wednesdays, and Fridays.

Surgery.—Dr. Bennett, at 12 o'clock, on Tuesdays, Thursdays, and Saturdays.

Applied Anatomy.—Dr. Dixon and Mr. R. A. Stoney, at 2 o'clock, on Mondays, Wednesdays, and Fridays.

Practice of Medicine.—Dr. Finny, at 1 o'clock, on Tuesdays, Thursdays, and Saturdays.

Midwifery.—Mr. Macan, at 3 o'clock, on Mondays, Wednesdays, and Fridays.

Pathology.—Dr. O'Sullivan, at 2 o'clock on Tuesdays and Thursdays, and at 12 o'clock on Saturdays.

Practical Physiology.—Dr. Thompson, at 12 o'clock, on Mondays, Wednesdays, and Fridays.

Six months' Dissections are required.

Christmas Vacation commences on 20th December, and terminates on 2nd January.

DEPARTMENT OF PRACTICAL ANATOMY.

The Dissecting-room is subject to the following Rules, ordered by the Board:—

I. The Official Hours for Dissections are from 10 A.M. to 5 P.M., during which time assistance and instruction are afforded to Students dissecting.

II. Students are allowed to dissect before 10 A.M., if they please; and, to facilitate such Dissections, the Gate leading into the College Park shall be opened at 7 o'clock, A.M., except during December and January, when it shall be opened at 8 o'clock. (Demonstrators attend from 10 A.M. to 5 P.M.)

III. The Professor of Anatomy shall attend at the Anatomical School during two hours each day, including the hour of Lecture.

IV. One or more of the Demonstrators shall attend during Official Hours for Dissections.

During the Summer Session the Dissecting-room will be open from 8 o'clock, A.M., to 5 o'clock, P.M. Demonstrations on Topographical Anatomy will be given twice daily.

DEPARTMENT OF CHEMISTRY.

The Class attending the Professor's Winter Lectures work in the Chemical Laboratory on each Saturday morning at 11 *o'clock, repeating in the Laboratory many of the experiments shown at Lectures.*

Students requiring Laboratory Practice in special branches of Chemistry are admitted for either one, three, six, or nine months. A Student can enter for a single month's practice at any time during the Academic year, the fee being £3 3*s*.

The Professor of Chemistry gives a short Course of Demonstrations and Laboratory practice in the Analysis of Water and Air for Sanitary purposes, and the examination of Articles of Food and Drink for Adulterants. This Course terminates on the 30th of November. Fee for the Course, £5 5*s*.

The Course given in the Trinity College Laboratory during the Summer Session comprises practical Instruction in the Detection of Acids, Metals, and their Salts (especially those of a poisonous nature); in the Detection of the Vegetable Alkaloids, and of other organic compounds; in Volumetric Analysis and Testing, according to the British Pharmacopœia; in Qualitative and Quantitative Urinary Analysis.

Students are provided with full sets of Apparatus and Tests.

DEPARTMENT OF PHYSIOLOGY.

Two Courses of Lectures are required. Part of the first Winter's Course comprises attendance, at some period of the Session, on a short Practical Course in Physiological Chemistry, for which no extra fee will be charged, and of which due notice will be given.

Practical Physiology.—During and after the Winter Session of 1902–3, Students of the third year will be required to attend a Laboratory Course of Instruction in Practical Physiology, consisting of at least eighteen to twenty lessons of two hours' duration. The fee for this Course will be £2 2*s*. Notice will be given of the hours at which the Class will be held.

Special Courses in Advanced Practical Physiology and Physiological Chemistry will be arranged, should a sufficient number of Students desire to attend. To such Students the Laboratory will be open on every week-day, and, in addition to the systematic instruction at stated hours, assistance will also be given when required.

Research Work.—To encourage the prosecution of original investigation into Physiological Subjects having a practical bearing on Clinical Medicine, Students who are Graduates in Medicine will be given every facility by the Professor, and will be charged no fee beyond what may be required to cover cost of materials.

SUMMER SESSION, 1904.

The Summer Session commences on the 11th April, and terminates on the 30th June.

PRACTICAL INSTRUCTION.

Laboratory Instruction in Chemistry.—

This Course comprises full instruction in Qualitative and Quantitative Chemical Analysis as applied to Medicine. Students work in the Laboratory from 1 to 3 o'clock, on Mondays, Wednesdays, and Fridays. Each Student is provided with full sets of Apparatus and Tests.

Laboratory Instruction in Histology.—Dr. Thompson.

This Course will be given in the Physiological Laboratory on Mondays, Wednesdays, and Fridays, from 3 to 5 o'clock. On Thursdays, at 3 o'clock, a Lecture will be given in the Theatre; after which, Illustrative Preparations will be shown in the Laboratory. Each Student will have his own place in the Laboratory, a Microscope, and a full set of Apparatus and Reagents. The Laboratory will be open to Members of the Class daily, except during Class hours.

Demonstrations in Operative Surgery.—Dr. Bennett.

The Course of Operations will be given during the months of April and May, at 8 o'clock, a.m., on Mondays, Wednesdays, and Fridays, and at 11 o'clock, a.m., on Tuesdays, Thursdays, and Saturdays.

Demonstrations in Obstetric Medicine and Surgery.—Mr. Macan, at 12 o'clock, on Tuesdays and Fridays.

Pathology.—Dr. O'Sullivan from 2 to 4 o'clock, daily, except Saturdays.

The Course will be given in the Pathological Laboratory. The whole Class will attend on Mondays; on the other days the Class will be divided into two sections, one working on Tuesdays and Thursdays, the other on Wednesdays and Fridays. Each Student will have a place allotted to him, with a Microscope and the necessary Apparatus. The Laboratory will be open to Members of the Class from 10 to 1 o'clock daily.

LECTURES.

Botany.—Dr. E. Perceval Wright, at 10 o'clock on Tuesdays, Thursdays, and Saturdays.

(N.B.—When Arts Lectures begin, the Lectures in Botany will be given at 9 o'clock on Tuesdays, Thursdays, and Saturdays.)

Physics.—Mr. Thrift, at 1 o'clock on Tuesdays and Thursdays, and 12 o'clock on Saturdays during Trinity Term.

Zoology.—Mr. Mackintosh, at 11 o'clock on Mondays, Wednesdays, and Fridays.

(N.B.—When Arts Lectures begin, the Lectures in Zoology will be given at 2 o'clock on Tuesdays and Thursdays, and at 11 o'clock on Saturdays.)

Materia Medica.—Dr. W. G. Smith, at 12 o'clock on Wednesdays, Thursdays, Fridays, and Saturdays.

Medical Jurisprudence and Hygiene.—Dr. Bewley, at 1 o'clock on Mondays, Wednesdays, Thursdays, and Fridays.

Easter Vacation commences on 27th March and terminates on 9th April.

ATTENDANCE ON LECTURES.

Each Student is expected to attend all the Lectures or Demonstrations delivered in each Course for which he enters, whether in the Winter or the Summer Session; but in order to provide for unavoidable absence, such as illness or attendance at Examinations, he is allowed credit for a Course if he has been present at three-fourths of the Lectures or Demonstrations actually delivered. If this proportion involve a fraction, the next highest whole number is reckoned as the minimum. If more than one-fourth have been missed, application must be made through the Committee of the School of Physic to the Board of Trinity College, by whom each case is decided on its merits, but the applicant must produce satisfactory reasons for omission of *all* the Lectures missed, not of the excess above one-fourth only. No Student will be allowed credit for a Course who has not been found diligent in his attendance, when not prevented by illness or other cause considered sufficient by the Board.

PRACTICAL PHARMACY.

A Course of Demonstrations in Practical Pharmacy is given by the Professor of Materia Medica in the Museum of Materia Medica during the Summer Session. Each Student works at a separate compartment, and is provided with the necessary Apparatus and Reagents. The Course is open to Extern Students.

RÖNTGEN PHOTOGRAPHY.

A Course of Instruction in the principles and practice of Röntgen Photography is given by the University Demonstrator during the Summer Session.

DENTAL STUDENTS.

Special facilities are provided in the School for Dental Students.

DEGREES AND DIPLOMAS IN MIDWIFERY, SURGERY, AND MEDICINE.

The Degrees and Diplomas in Medicine, Surgery, and Midwifery, granted by the University are as follow:—

The Degrees are:—

1. Bachelor in Medicine.
2. Bachelor in Surgery.
3. Bachelor in Obstetric Science.
4. Doctor in Medicine.
5. Master in Surgery.
6. Master in Obstetric Science.

The Diplomas are:—

1. Diploma in Public Health.[a]
2. Diploma in Medicine.
3. Diploma in Surgery.
4. Diploma in Obstetric Science.

REGULATIONS FOR OBTAINING THE DEGREES OF M.B., B.Ch., AND B.A.O.

The following conditions must be fulfilled in order to qualify for the Degrees in Medicine (M.B.), Surgery (B.Ch.), and Midwifery (B.A.O.):—

I. The Student must be of B.A. standing, and his name must be for at least five (Academic) years on the Books of the Medical School, reckoned from the date of his Matriculation. He may carry on his Arts Course concurrently with his Medical Course, and he need not have taken his B.A. before presenting himself for his Final Medical Examinations, but he cannot have the Medical Degrees conferred without the Arts Degree.

II. The following Courses must have been attended:—

[NOTE.—The Courses marked thus (*) must have been taken out before the Student can present himself for any part of the Final Examination. In addition, the Courses marked thus (†) must have been taken out before he can present himself for Section B; the Courses marked thus (‡) before he can present himself for the Final Examination in Midwifery; the Courses marked thus (§) before he can present himself for the Final Examination in Surgery; and the Courses marked thus (**) before he can present himself for the Final Examination in Medicine.

1. LECTURES.

WINTER COURSES.

**Systematic Anatomy.*
**Descriptive Anatomy, 1st year.*
**Descriptive Anatomy (with Dissections), 2nd year.*
**Applied Anatomy (with Dissections).*
**Practical Physiology.*
**Chemistry.*
†Surgery.
**Physiology (two Courses).*
†Practice of Medicine.
‡Midwifery.
†Pathology.

SUMMER COURSES.

**Practical Chemistry.*
**Practical Histology.*
**Botany.*
**Zoology.*
**Materia Medica and Therapeutics.*
†Medical Jurisprudence & Hygiene.
§Operative Surgery.
†Practical Pathology.

TERM COURSES.

**Physics.*—Michaelmas, Hilary, and Trinity Terms.

---

[a] Formerly Qualification in State Medicine.

‡§**2. HOSPITAL ATTENDANCE.

1. Three Courses of nine months' attendance on the Clinical Lectures of Sir Patrick Dun's or other Metropolitan Hospital recognized by the Board of Trinity College. (See p. 229 for list of recognized Hospitals.)

Students who shall have diligently attended the practice of a recognized London or Edinburgh Hospital for one year, of a recognized County Infirmary, or of a recognized Colonial Hospital for two years previous to the commencement of their Metropolitan Medical Studies, may be allowed, on special application to the Board of Trinity College, to count the period so spent as equivalent to one year spent in a recognized Metropolitan Hospital.

**3. PRACTICAL VACCINATION.

One month's instruction in Practical Vaccination to be attended at the Vaccine Department, Local Government Board for Ireland, 45, Upper Sackville-street; at No. 1 East Dispensary, 11, Emerald-street; or, until further notice, at the Grand Canal-street Dispensary.

**4. MENTAL DISEASE.

A Certificate of attendance on a three months' Course of Practical Study of Mental Disease in a recognized Institution. (See p. 230 for list of recognized Institutions.)

‡5. PRACTICAL MIDWIFERY.

A Certificate of attendance on a six months' course of Practical Midwifery with Clinical Lectures, including not less than thirty cases. (See p. 230 for list of recognized Hospitals.)

§6. OPHTHALMIC SURGERY.

A Certificate of attendance on a three months' Course of Ophthalmic Surgery. (See p. 230 for list of recognized Hospitals.)

III. The following Examinations must be passed:—

The Previous Medical or Half M.B. Examination.
The Final Examination.

The Previous Medical Examination must be passed in all its parts before any part of the Final can be entered for, except in the case of Candidates for Diplomas.

A.—PREVIOUS MEDICAL EXAMINATION.

This Examination is divided into—

1. Physics and Chemistry.
2. Botany and Zoology.
3. Anatomy and Institutes of Medicine (Practical Histology and Physiology).

The Examination in Anatomy includes Examination on the dead subject.

Before presenting himself for Examination in any of the subjects the Student must have obtained credit for the corresponding Courses of Lectures and Practical Instruction.

It is not necessary that the Student should pass in all these groups of subjects at the same Examination; he is allowed to present himself for Examination in as many, or as few of them, as he pleases.

A Candidate rejected at the May Examination will not be allowed to present himself for Examination *in the same subjects* at the June Examination.

Candidates who fail in any part of the Examination are liable to be excluded from further Examination *in the same subjects*, for a period not exceeding six months, if, in the opinion of the Examiners, they have given evidence of careless preparation.

Any Student who has obtained a Moderatorship in Natural Science, or a First Honor in Natural Science in both his Junior and Senior Sophister years, and has credit for attendance at not less than thirty Lectures in Botany and Zoology in his Sophister years, may present himself at the Previous Medical Examination in these subjects.

Examinations will be held on Nov. 9, Jan. 11, May 2, June 16, June 20, and following days. Notice must be given to the Registrar of the School of Physic between Nov. 2 and 6, Jan. 4 and 8, April 25 and 29, June 7 and 14, June 13 and 17, respectively.

No Candidate will be allowed in for any Examination unless he has given notice within the days specified.

The Final Examination is arranged as follows:—

FIRST PART.

Section A.

Applied Anatomy (Medical and Surgical); paper.
Applied Physiology, *vivâ voce.*
Materia Medica and Therapeutics; paper and *vivâ voce.*

Examinations will be held on Nov. 16, Jan. 18, June 6, and following days. Notice must be given to the Registrar of the School of Physic between Nov. 9 and 13, Jan. 11 and 15, May 30 and June 3, respectively.

Section B.

Medical Jurisprudence and Hygiene; paper and *vivâ voce.*
Medicine; paper and *vivâ voce.*
Surgery; paper and *vivâ voce.*
Pathology; paper and *vivâ voce.*

Examinations will be held on Dec. 7, Jan. 25, June 20, and following days. Notice must be given to the Registrar of the School of Physic between Nov. 30 and Dec. 4, Jan. 18 and 22, June 13 and 17, respectively.

Section A may be passed in any part of the Fourth Year, provided the corresponding Curriculum shall have been completed; Section B not before Trinity Term of the Fourth Year.

Section A must be passed before the Candidate can present himself for Examination in Section B. Both Sections must be passed at least one Term before the Candidate can present himself for the Final Examinations in Surgery, Medicine, or Midwifery.

Fee for the *Liceat ad Examinandum*, £5, to be paid when the Candidate enters for Section A.

No Candidate will be allowed in for any Examination unless he has given notice within the days specified.

SECOND PART.

Surgery.

Clinical Surgery.
Operations.
Ophthalmic Surgery (Clinical).

Examinations will be held on Nov. 16, Feb. 1, May 9, and following days. Notice must be given to the Registrar of the School of Physic between Nov. 9 and 13, Jan. 25 and 29, May 2 and 6, respectively.

Medicine.

Clinical Medicine.
Mental Disease (Paper).

Examinations will be held on Dec. 7, Feb. 8, May 24, and following days. Notice must be given to the Registrar of the School of Physic between Nov. 30 and Dec. 4, Feb. 1 and 5, May 16 and 20, respectively.

Midwifery.

Midwifery; paper and *vivâ voce*.
Gynæcology; paper and *vivâ voce*.
Obstetrical Anatomy; paper.

Examinations will be held on Nov. 30, Jan. 25, May 16, and following days. Notice must be given to the Registrar of the School of Physic between Nov. 23 and 27, Jan. 18 and 22, May 9 and 13, respectively.

One Section of the Second Part must be passed in Trinity Term of the Fifth Year, or subsequently. The other two may be passed

in any Term of the Fifth Year, provided the corresponding Curriculum shall have been completed. Subject to this provision the Sections may be taken in any order.

Fee for the *Liceat ad Examinandum*, £5, to be paid when the Candidate enters for the Section for which he first presents himself.

The Candidate must also produce Certificates of attendance at the Hospitals where the Courses prescribed for each Section are to be taken out.

No Candidate will be allowed in for any Examination unless he has given notice within the days specified.

UNIVERSITY DIPLOMAS.

Candidates for the Diplomas in Medicine, Surgery, and Obstetric Science, must be matriculated in Medicine, and must have completed two years in Arts, and five years in Medical Studies.

The dates, regulations, and subjects of Examination are the same as for the Final Examination, except that it is not necessary to attend the Courses of Lectures in Botany and Zoology, nor to pass the Previous Medical Examination in these subjects.

A Diplomate on completing his Course in Arts, and proceeding to the Degree of B. A., may become a Bachelor, by attending the Lectures on Botany and Zoology, passing the Previous Medical Examination in those subjects, and paying the Degree Fees.

The *Liceat* fees are the same as for the Finals.

Each Candidate who has completed the prescribed Courses of study and passed all the Examinations, will be entitled, if a Graduate in Arts, to have conferred on him the Degrees of M.B., B.Ch., B.A.O., on payment to the Senior Proctor of the Degree Fees amounting to £17. A corresponding regulation applies to the Diplomas, the Fees for which are £11. He will also obtain from the Senior Proctor a Diploma entitling him to be entered on the Register of Medical Practitioners under the Medical Act, 1886.

1.—*Master in Obstetric Science.*

A Master in Obstetric Science must have passed the Final Examinations in Medicine, Surgery, and Midwifery, and produce a Certificate of having attended a Summer Course in Obstetric Medicine and Surgery.[a]

He is then required to pass an Examination in the following subjects:—

1. Practice of Midwifery.
2. Gynæcology.
3. Anatomy of Female Pelvis and Elementary Embryology.
4. Clinical Gynæcology.

[a] Existing Graduates in Medicine of the standing of M.D. are not required to attend this Course.

Fee for the Degree of Master in Obstetric Science, £5.

Notice should be given to the Registrar of the School of Physic a month before the first day of the Examination. The dates are the same as those for the Final Examination in Midwifery.

2.—*Master in Surgery.*

A Master in Surgery must be a Bachelor in Surgery of the University of Dublin, of not less than three years' standing, and must produce satisfactory evidence of having been engaged for not less than two years from the date of his Registration in the study or practice of his profession. He must then pass an Examination in the following subjects:—

1. Clinical Surgery.
2. Operative Surgery.
3. Surgical Pathology.
4. Surgery.
5. Surgical Anatomy (on the dead subject).

And one of the following optional subjects, viz.:—

1. Surgery, in one of its recognized branches, viz.: Ophthalmic and Aural; Gynæcological; Dental.
2. Mental Disease.
3. Medical Jurisprudence and Hygiene.
4. Advanced Anatomy and Physiology.
5. Comparative Anatomy.

Graduates in Surgery of the University of Dublin, of not less than ten years' standing, may be recommended for the Degree of M. Ch., by the vote of the Court of Examiners, on such Examination as they shall determine. Candidates claiming this privilege must give one month's notice to the Registrar of the School, state in full their qualifications, and name the optional subject selected.

Fee for the Degree of Master in Surgery, £11.

Notice should be given to the Registrar of the School of Physic a month before the Examination begins, the optional subject selected being named at the same time. The dates are the same as those for the Final Examination in Surgery.

3.—*Doctor in Medicine.*

A Doctor in Medicine must have passed the Final Examinations in Medicine, Surgery, and Midwifery, and must be of M.A. standing. He must also read a Thesis publicly before the Regius Professor of Physic, or must undergo an Examination before the Regius Professor of Physic, according to Regulations to be approved by the Provost and Senior Fellows.

The Regius Professor attends at 12 o'clock on the day before Commencements to hear Theses.

Candidates who intend to present themselves are required to send a notification to the Regius Professor not less than a week before the appointed day. Forms of notice may be obtained from the Registrar of the School.

Commencements will be held on Dec. 18, Feb. 16, April 21, June 30.

Fee for the Degree of Doctor in Medicine, £13.

REGISTERED PRACTITIONERS.

Registered Practitioners will be admitted to the Degree of M.B. on the following conditions:—

1. That their names have been on the Medical Register for not less than five years.
2. That they hold the Degree of B.A. of Dublin, Oxford, or Cambridge; or are qualified to proceed to that Degree.
3. That they have passed Section A, Section B, omitting Surgery, and the Final in Medicine, Examinations.
4. They must have passed Sections A and B, and the necessary Examinations for B.A., before being admitted to the Final in Medicine.

DIPLOMA IN PUBLIC HEALTH.

This Diploma is conferred, after examination, by the University of Dublin, upon Candidates fulfilling the following conditions:—

1. The Candidate must be a Doctor in Medicine, or Graduate in Medicine and Surgery, of Dublin, Oxford, or Cambridge.
2. The name of the Candidate must have been on the Medical Register at least twelve months before the Examination.
3.[a] The Candidate must have completed, subsequent to Registration, six months in a Laboratory, recognized by the Provost and Senior Fellows, in practical instruction in Chemistry and Bacteriology applied to Public Health, and also have attended, practically, outdoor Sanitary work for six months, under an approved Officer of Health, of which at least three months shall be distinct and separate from the period of Laboratory Instruction.
4.[a] The Candidate must, after obtaining a registrable Qualification, have attended during three months the practice of a Hospital for Infectious Diseases at which opportunities are afforded for the study of Methods of Administration.

Note (1). Methods of Administration shall include the methods of dealing with patients at their admission and discharge, as well as in the wards, and the Medical Superintendence of the Hospital generally.

---

[a] This condition does not apply to Practitioners registered or entitled to be registered on or before 1st January, 1890.

Note (2). In the case of a Medical Officer of the Royal Army Medical Corps, a certificate from a Principal Medical Officer under whom he has served, stating that he has, during a period of at least three months, been diligently engaged in acquiring a practical knowledge of Hospital Administration in relation to Infectious Diseases, may be accepted as evidence under *Rule* 4.

NOTE.—These Regulations have been approved by the Board of Trinity College. No opportunity has occurred for submitting them to the Council.

The Examination to be passed by the Candidate is prescribed as follows:—

PART 1.

CHEMISTRY—Paper and Practical.
EXPERIMENTAL PHYSICS AND METEOROLOGY—Practical.
BACTERIOLOGY AND PATHOLOGY—Paper and Practical.

Candidates are liable to be examined in the method of conducting *post-mortem* Examinations.

PART II.

HYGIENE AND EPIDEMIOLOGY—Paper.
SANITARY ENGINEERING—Paper.
PUBLIC HEALTH ACTS AND VITAL STATISTICS—Paper.
PRACTICAL SANITARY REPORT.

The two Parts may be passed consecutively or with an interval between, at the option of the Candidate, provided that the requisite curriculum for each Part has been completed before the Candidate presents himself.

Examinations for Part I. will begin on Dec. 14, March 21, and June 6; for Part II. on Dec. 17, March 24, and June 9.

Candidates are required to send in their names to the Registrar of the School of Physic at least a week before the first day of Examination.

Candidates who have registered since 1st January, 1890, are required to apply to the Board of Trinity College for leave to present themselves, a month before the Examination begins, and to submit at the same time Certificates of the required Courses of Study.

There is no fee.

The attention of Students is directed to the importance of obtaining a Diploma in Public Health as soon as possible after they obtain their Medical Degrees. An increasing number of Public Bodies are requiring it as well as the usual Qualifications in Medicine, Surgery, and Midwifery.

A collection of Sanitary Appliances has been placed in the Engineering Museum, with which Candidates should make themselves familiar.

PRIVILEGES AND PRIZES ATTACHED TO THE SCHOOL OF PHYSIC.

PRIVILEGES OF MATRICULATED STUDENTS.

Medical Students, being Junior or Senior Sophisters on the College Books, and in attendance on Hospital, Dissections, or full Courses of Professional Instruction, are exempted from the optional Courses of the Junior Sophister year, and from one of the two optional Courses (Mathematical Physics, Languages, Experimental Science, Natural Science, History and Political Science) required in the Senior Sophister year. To obtain this privilege, it is necessary that the Student be matriculated in Medicine, and that the proper Certificates of his attendance on the necessary Courses be submitted by him, through the Registrar of the School of Physic, to the Senior Lecturer. In order to obtain Professional Privileges in respect of Hospital Attendance, it is necessary that the Returns from the Hospitals be lodged with the Registrar of the School of Physic on or before 1st December.

At the Degree Examination, a Student can only claim Professional Privileges if he has credit for full Professional attendance for the entire year (*i.e.* the three Terms) either preceding the December Degree Examination of his Class, or preceding the Degree Examination at which he presents himself.

Freshmen Students will be allowed to substitute parts of the Medical for parts of the Arts Course conditional upon passing a Test Examination. For details see Course in Arts, § 23.

Students in Arts are entitled to attend a Course of Lectures in Surgery, in Botany, and in Zoology at a reduction of one-half, and in Chemistry at a reduction of one-third, of the usual Fees. They are also entitled to a Course of Experimental Physics free.

Sophister Students and Graduates in Arts are entitled to attend a Course of Pathology at a reduction of one-half of the usual Fees.

PRIZES.

The following Prizes, obtainable either during, or at the completion of, the preceding Courses of Education, are open to the Students of the School of Physic.

MEDICAL AND SURGICAL TRAVELLING PRIZES.

A Prize of £100, founded in 1869, is awarded by the Board, in alternate years, to the best answerer at a special Examination in Medicine or in Surgery, provided that the merit be deemed sufficient. The successful Candidate is required to spend three months in the study of Medicine or Surgery, as the case may be, in Berlin, Paris, or Vienna. Before he can obtain the first instalment of £50, he must satisfy the Senior Lecturer that he possesses sufficient knowledge of a Continental Language to derive full benefit from the Prize. The Examination is held in June, and is open to Students who have passed the Final Examination in Medicine

or in Surgery, as the case may be, within two years of the Examination.

In order to obtain the second sum of £50, the Prizeman must have furnished to the Regius Professor his formal Report on the Hospitals attended by him, within two years from the time of obtaining the Prize.

The subjects of the Medical Travelling Prize Examination are Clinical Medicine, Practice of Medicine, Therapeutics, Pathology, and Obstetric Medicine.

The subjects of the Surgical Travelling Prize Examination are Clinical Surgery, Operative Surgery, Pathology, Surgical Anatomy, and Ophthalmic Surgery.

In accordance with the above conditions, an Examination in Surgery will be held on 13th June, 1904, and following days, at which a Surgical Travelling Prize, of the value of £100, will be competed for.

A similar Travelling Prize in Medicine will be competed for in June, 1905.

Notice must be given to the Registrar of the School of Physic a week before the first day of Examination.

Any Student who has passed the Final Examination in Medicine in or after Trinity Term, 1902, may offer himself as a Candidate for this Prize.

MEDICAL SCHOLARSHIPS.

Two Medical Scholarships, founded in 1860, are offered annually, tenable for two years, with a Salary of £20 per annum, one being for Anatomy and Institutes of Medicine, the other for Chemistry, Physics, Botany, and Zoology.

The following Regulations have been adopted:—

(1). No Student can compete for the Scholarship in Anatomy and Institutes of Medicine after the completion of his third year; nor for that in Chemistry, Physics, Botany, and Zoology, after the completion of his second year.

Students who enter the Medical School in a Summer Session will be allowed to compete for Scholarship in Anatomy and Institutes of Medicine at the end of their Fourth Summer Session, provided that they have not taken out a Course of Practical Anatomy or Histology in their first Summer Session.

(2). No Student can hold both Scholarships together.

(3). Sixty per cent. of the marks at the Examination for the Scholarship in Chemistry, Physics, Botany, and Zoology, are allowed to the two former, and the remaining forty per cent. to the two latter subjects.

The best answerers at the Examination are elected to these Scholarships, provided that they are in the Senior Freshman or some higher Class, that they have their names on the College Books, that they have kept one *Annus Medicus* in the School of Physic, and that their answering is of a high order.

Graduates in Arts otherwise qualified may be Candidates for Medical Scholarships without having their names on the College Books.

Candidates for the Scholarship in Chemistry, Physics, Botany, and Zoology, are recommended to attend the Demonstrations of the Professors of Botany and Zoology during Michaelmas, Hilary, and Trinity Terms.

An Examination for Scholarship in Chemistry, Physics, Botany, and Zoology will be held on June 16 and following days, and for Scholarship in Anatomy and Institutes of Medicine, on June 20 and following days. Notice must be given to the Registrar of the School of Physic a week before each Examination begins.

Candidates for Medical Scholarship will be allowed to substitute attendance on the Lectures and Demonstrations in Zoology and Comparative Anatomy given in Michaelmas, Hilary, and Trinity Terms for attendnce on the Lectures in Zoology given during the Summer Session.

Stewart Scholarships in Anatomy and Institutes of Medicine, and in Chemistry, Physics, Botany, and Zoology, of the value of £10 per annum, tenable for three years, are awarded from time to time to the second-best answerers, provided sufficient merit be shown.

The Regulations are:—

No Student can compete for the Scholarship in Anatomy and Institutes of Medicine after the completion of his third year; nor for that in Chemistry, Physics, Botany, and Zoology, after the completion of his second year.

Students who enter the Medical School in a Summer Session will be allowed to compete for Scholarship in Anatomy and Institutes of Medicine at the end of their Fourth Summer Session, provided that they have not taken out a Course of Practical Anatomy or Histology in their first Summer Session.

They may be of any standing in Arts.

Sixty per cent. of the marks at the Examination for the Scholarship in Chemistry, Physics, Botany, and Zoology are allowed to the two former, and the remaining forty per cent. to the two latter subjects.

No Student is allowed to compete a second time for Scholarship in the same subjects.

Stewart Scholarships in Mental Disease are also awarded from time to time. The last two awarded were of value £50 per annum, and were tenable for three years. For Regulations see under Stewart Scholarships.

FITZ-PATRICK SCHOLARSHIP.

This Scholarship was founded in November, 1901, by Mrs. Fitz-Patrick, in memory of her husband, Thomas Fitz-Patrick, M.D. (Dub.). It consists of the interest on £1000. It will be

awarded annually to the Student who obtains the highest aggregate marks at the five Sections of the Final Examinations, provided that he has completed his Medical Course in the prescribed period of five years.

PROFESSORS' PRIZES.

The Professor of Practice of Medicine gives Prizes in the Winter Course amounting to £5.

The Professor of Materia Medica gives Prizes in the Summer Course amounting to £5.

The Lecturer on Medical Jurisprudence gives Prizes in the Summer Course amounting to £5.

All the Professorial awards are open to Extern as well as College Students.

Sessional Examinations in Anatomy are held, at which Honor Certificates are awarded to those Candidates who show sufficient Merit.

THE JOHN MALLET PURSER MEDAL.

The past pupils of Dr. John Mallet Purser, King's Professor of the Institutes of Medicine in the School of Physic, Trinity College, wishing to permanently record their appreciation of him as a teacher, their respect for him as a scientist, and their regard for him as a friend, at the completion of the twenty-fifth year of his Professorship, subscribed a sum of money for the purpose of founding a medal in the School of Physic to be called the "John Mallet Purser Medal." The dies, which cost £73 10*s*., and the sum of £42 were handed over to the Board to present annually a bronze medal in Physiology and Histology at the Half M.B. Examination. The Board accepted the gift, and agreed to the following conditions:—

1. That the Medal be called "The John Mallet Purser Medal."
2. That the Medal be awarded annually to the student who, at the ordinary June Previous Medical Examination, shall obtain the highest marks in Physiology and Histology, provided that, at the same time, he be successful in passing the Previous Medical Examination.

3. That no student may compete for the Medal who, at the time of the Examination, shall have spent more than three years since entering for his first classes in the Medical School.

The Medal will be presented to the successful Candidate at the opening meeting of the University Biological Association, which is usually held in November

---

Registrar's Office.

The Registrar of the School of Physic attends in his Office in the School of Physic during the Medical year as follows:—From 1st October to 25th November, from 11 A.M. to 2.30 P.M. daily; during the remainder of the Medical year, from 1 to 2 P.M. on Mondays, Tuesdays, Wednesdays, Thursdays, Fridays, and from 11 A.M. to 12 noon on Saturdays. The Office is closed during the Christmas and Easter Vacations, and for the Summer Vacation about 15th July. No Certificates or Schedules can be issued or signed during the Vacations.

PAYMENT OF FEES.

Fees for Pathology, both Winter and Summer Courses, are to be paid to the Junior Bursar.

Fees for Winter Courses (except Pathology) are to be paid to the Registrar of the School.

Fees for Summer Courses (except Pathology) are to be paid to the Professors.

Seats in the Lecture Theatres are assigned in the order in which Fees are paid.

ORDER OF STUDY RECOMMENDED.[a]

The following order of Study, subsequent to Matriculation (see p. 204), is recommended by the Board and Council:—

FIRST YEAR.

Winter.

	£	s.	d.
1. Descriptive Anatomy,	3	3	0
2. Systematic Anatomy,	3	3	0
3. Chemistry,	2	2	0
4. Physics, Michaelmas and Hilary Terms,	0	0	0

Summer.

5. Practical Chemistry,	3	3	0
6. Physics, Trinity Term,	0	0	0
7. Botany,	1	11	6
8. Zoology,	1	11	6
	£14	14	0

Students who enter in the Winter Session are recommended to present themselves for the Previous Medical Examination in Physics, Chemistry, Botany, and Zoology, at the end of their first year.

Students who enter in the Summer Session are recommended to take out Lectures and pass the previous Medical Examination in Botany and Zoology at the end of their First Summer Session.

Graduates, Sophisters, and such Freshmen as have kept two terms in Arts (one of which must be by Examination), and have attended the Lectures and passed the Medical School Examination in Botany and Zoology, are permitted to dissect in their first Medical year, provided that, in each case, the Student, if an Undergraduate, obtain a letter from his Tutor, certifying that this Course will not be detrimental to his studies in Arts.

SECOND YEAR.

Winter.

	£	s.	d.
1. Descriptive Anatomy and Dissections,	8	8	0
2. Physiology (1st Course),	3	3	0
3. Sir P. Dun's or other recognized Clinical Hospital,[b]	12	12	0

Summer.

4. Histology,	5	5	0
	£29	8	0

[a] In the Table of Fees here given, the Reductions specified on p. 217 have already been made.

[b] This Fee covers nine months' Clinical Instruction and twelve months' attendance at the Hospital.

THIRD YEAR.

Winter.

1. Applied Anatomy and Dissections,	8	8	0
2. Physiology (2nd Course),	3	3	0
3. Surgery,	2	2	0
4. Practical Physiology,	2	2	0
5. Sir P. Dun's, or other recognized Clinical Hospital,	12	12	0

Summer.

6. Medical Jurisprudence and Hygiene,	3	3	0
7. Materia Medica and Therapeutics,	3	3	0
	£34	13	0

Students are recommended to present themselves for the Previous Medical Examination in Anatomy and Institutes of Medicine (Physiology and Histology) at the end of their third year.

FOURTH YEAR.[a]

Winter.

1. Practice of Medicine,	3	3	0
2. Midwifery,	3	3	0
3. Pathology,[b]	2	2	0
4. Sir P. Dun's, or other recognized Hospital,	12	12	0

Summer.

5. Operative Surgery,	2	12	6
6. Practical Pathology,[c]	2	2	0
	£25	14	6

Vaccination (Fee, £1 1*s.* 0*d.*) should be taken out in the fourth year. Students are recommended to present themselves for the two Sections of the First Part of the Final Examination during their fourth year.

FIFTH YEAR.

1. Practical Midwifery,[d]	10	10	0
2. Mental Disease,	3	3	0
3. Ophthalmic Surgery,	3	3	0
	£16	16	0

Students are recommended to present themselves for the three Sections of the Second Part of the Final Examination during their fifth year.

TOTAL EXPENSES OF FOREGOING COURSES.

I. Lectures,	66	13	6
II. Hospitals,	55	13	0
III. Degrees (B.A.O., B.Ch., M.B.),	27	0	0
TOTAL,	£149	6	6

[a] Students who have credit for two years' Dissections in the Dissecting Room of Trinity College, and wish to dissect during the fourth or fifth year, can do so on payment of Two Guineas for the Winter Session.

[b] Freshman Students pay £3 3*s.*

[c] Freshman Students pay £5 5*s.*

[d] The average amount of the fee for this subject.

ORDER OF STUDY RECOMMENDED.[a]

(FOR STUDENTS WHO ENTERED THE SCHOOL BEFORE 1901.)

The following order of Study, subsequent to Matriculation (see p. 204), is recommended by the Board and Council:—

FIRST YEAR.

Winter.

	£	s.	d.
1. Practical Anatomy,	8	8	0
2. Systematic Anatomy,	3	3	0
3. Chemistry,	2	2	0
4. Physics, Michaelmas and Hilary Terms,	0	0	0

Summer.

5. Practical Chemistry,	3	3	0
6. Physics, Trinity Term,	0	0	0
7. Histology,	5	5	0
	£22	1	0

Students who enter in the Winter Session are recommended to present themselves for the Previous Medical Examination in Physics and Chemistry at the end of their first year.

Students who enter in the Summer Session are recommended to take out Lectures and pass the Previous Medical Examination in Botany and Zoology at the end of their First Summer Session.

SECOND YEAR.

Winter.

	£	s.	d.
1. Practical Anatomy,	8	8	0
2. Physiology (1st Course),	3	3	0
3. Sir P. Dun's, or other recognized Clinical Hospital,[b]	12	12	0

Summer.

4. Botany,	1	11	6
5. Zoology,	1	11	6
	£27	6	0

Students who enter in the Winter Session are recommended to present themselves for the Previous Medical Examination in Botany and Zoology at the end of their second year.

---

[a] In the Table of Fees here given the Reductions previously specified (p. 217) have already been made.
The order of Study for Students who entered the School before 31st December, 1891, will be found in the *University Calendar* for 1900.

[b] This Fee covers nine months' Clinical Instruction and twelve months' attendance at the Hospital.

THIRD YEAR.

	£	s.	d.
Winter.			
1. Applied Anatomy and Dissections,	8	8	0
2. Physiology (2nd Course),	3	3	0
3. Practice of Medicine,	3	3	0
4. Surgery,	2	2	0
5. Sir P. Dun's, or other recognized Clinical Hospital,	12	12	0
Summer.			
6. Medical Jurisprudence and Hygiene,	3	3	0
7. Materia Medica,	3	3	0
	£35	14	0

Students are recommended to present themselves for the Previous Medical Examination in Anatomy and Institutes of Medicine (Physiology and Histology) at the end of their third year.

FOURTH YEAR.[a]

	£	s.	d.
Winter.			
1. Midwifery,	3	3	0
2. Pathology,[b]	2	2	0
3. Sir P. Dun's, or other recognized Hospital,	12	12	0
Summer.			
4. Operative Surgery,	2	12	6
5. Practical Pathology,[c]	2	2	0
	£22	11	6

Vaccination (Fee, £1 1*s*. 0*d*.) should be taken out in the fourth year. Students are recommended to present themselves for the two Sections of the First Part of the Final Examination during their fourth year.

FIFTH YEAR.

	£	s.	d.
1. Practical Midwifery,[d]	10	10	0
2. Ophthalmic Surgery,	3	3	0
3. Mental Disease,	3	3	0
	£16	16	0

Students are recommended to present themselves for the three Sections of the Second Part of the Final Examination during their fifth year.

TOTAL EXPENSE OF FOREGOING COURSES.

	£	s.	d.
I. Lectures,	69	16	6
II. Hospitals,	55	13	0
III. Degrees (B.A.O., B.Ch., M.B.)	27	0	0
TOTAL,	£152	9	6

[a] Students who have credit for three years' Dissection in the Dissecting Room of Trinity College, and wish to dissect during the fourth or fifth year, can do so on payment of Two Guineas for the Winter Session.

[b] Freshman Students pay £3 3*s*.

[c] Freshman Students pay £5 5*s*.

[d] The average amount of the fee for this subject.

PART II.

SIR PATRICK DUN'S HOSPITAL.

Consulting Physicians.—Sir John Banks, M.D., Physician-in-Ordinary to His Majesty the King in Ireland.
John Mallet Purser, D.Sc., M.D.

Physicians.—Walter George Smith, M. D., King's Professor of Materia Medica and Pharmacy.
John Magee Finny, M. D., King's Professor of Practice of Medicine.
Henry C. Drury, M.D.
Arthur Vernon Macan, M. B., M. A. O., King's Professor of Midwifery.

Assistant Physician.—T. Gilman Moorhead, M.D., Demonstrator of Anatomy, Trinity College, Dublin.

Surgeons.—Edward H. Bennett, M. D., M.Ch., University Professor of Surgery.
Sir Charles B. Ball, M.D., M.Ch., Regius Professor of Surgery.
Edward H. Taylor, M.D., University Examiner in Anatomy.

Pathologist.—Alexander C. O'Sullivan, M.D., Lecturer in Pathology.

Assistant Surgeon.—C. A. K. Ball, M.D., Demonstrator of Anatomy, Trinity College, Dublin.

Anæsthetist and Röntgen Photographer.—Edward J. Watson, M.D., Demonstrator of Anatomy, Trinity College, Dublin.

House Surgeon.—J. S. Joly, M.B., B.Ch., B.A.O.

Hours for Clinical Instruction.

Hours	Monday.	Tuesday.	Wednesday.	Thursday.	Friday.	Saturday.
9 to 10 o'c.	Dr. Smith (Medicine).	Sir C. Ball (Surgery).	Dr. Finny (Medicine).	Dr. Taylor (Surgery).	Dr. Drury (Medicine.)	Dr. Bennett (Surgery).
10 to 11 o'c.	Dr. Bennett (Operations). Dr. Smith (Elementary Medicine).	Dr. Drury (Medicine). Sir C. Ball (Elementary Surgery).	Sir C. Ball (Operations). Dr. Finny (Elementary Medicine.)	Dr. Smith (Medicine). Dr. Taylor (Elementary Surgery).	Dr. Taylor (Operations). Dr. Drury (Elementary Medicine).	Dr. Finny (Medicine). Dr. Bennett (Elementary Surgery).
10.30 to 11.30.	—	—	—	—	Dr. O'Sullivan (Pathology).	—

The Surgical Operating Theatre, which has recently been erected, is equipped upon the most approved principles, and is thoroughly in accord with modern surgical requirements. At the same time, however, the educational advantages to be derived from it by the Students attending the Hospital have not been lost sight of, and every facility for inspecting operations has been afforded them.

Diseases of Women.—Tuesdays and Fridays, at 10 A.M. Mr. Macan.

Fevers.—There is a special wing devoted to Fever cases, and regular Clinical Instruction is given by the members of the Medical Staff throughout the Winter and Summer Sessions.

Out-Patient Department.

A new Out-Patient Department has recently been erected and equipped upon the most modern system.

Medical.—Mondays, Wednesdays, and Fridays, 10 A.M. to 12 noon, Dr. T. Gilman Moorhead.

Surgical.—Tuesdays, Thursdays, and Saturdays, 10 A.M. to 12 noon, Dr. C. A. K. Ball.

Special Classes for Students commencing their hospital studies will be held in this department during the months of October, November, and December. They will embrace the elements of Medicine and Surgery, including note-taking. Dr. Moorhead will give instruction in Medicine on Mondays, Wednesdays, and Fridays, at 10 A.M.; and Dr. Ball in Surgery on Tuesdays, Thursdays, and Saturdays, at 10 A.M. Opportunities are also afforded to Students for examining cases of Throat, Ear, and Eye Diseases, as well as for performing minor surgical operations and bandaging.

Demonstrations are given upon Diseases of the Skin.

Pathology.

Pathological and Bacteriological Demonstrations will be given each Friday, at 10.30 A.M., by Dr. O'Sullivan during the Winter and Summer Sessions in the new Pathological Laboratory, and Students of the Hospital will have the opportunity of acquiring a practical knowledge of this important branch of medicine.

X-Ray Department.

This department is under the control of Dr. E. J. Watson, and opportunities are given the members of the Hospital Class of seeing the various applications of the X-Rays to the diagnosis and treatment of injury and disease.

Hospital Attendance and Clinical Lectures.

The payment of Twelve Guineas entitles a Student to the

benefits of Hospital attendance and Clinical teaching for the Winter and Summer Sessions, commencing October 1st.

Fee for Winter Session only.—EIGHT GUINEAS.
Fee for Summer Session only.—FIVE GUINEAS.

N.B.—The Fees will be received by Dr. Taylor (Hon. Sec.), or by the Registrar of the School of Physic in Trinity College.

SIR PATRICK DUN'S MATERNITY.

Practical Midwifery.

Students desirous of entering for Twelve months' Instruction in Practical Midwifery are required to pay a Maternity Fee of Three Guineas each to the Registrar of the Hospital, and to send in their names to the Board of Governors, before the 1st January in each year.

Students of Trinity College are not liable to any other payment for Instruction in Practical Midwifery.

Other Students are required to pay Three Guineas each to the King's Professor, for Twelve months' Practical Instruction, in addition to the Hospital Maternity Fee.

Students who have paid the Hospital Maternity Fee are entitled to attend the Demonstrations in Obstetric Surgery, given by the King's Professor, at 10 A. M. on Fridays.

Total Fees for College Students—THREE GUINEAS.
Total Fees for Externs—SIX GUINEAS.

The Certificates of Sir Patrick Dun's Hospital are recognized by the Royal University and the Royal Colleges of Surgeons of England, Ireland, and Scotland.

THE HAUGHTON CLINICAL MEDALS AND PRIZES.

Clinical Medals and Prizes will be awarded in Medicine and in Surgery, respectively, in accordance with the will of the late Rev. Samuel Haughton, M.D., S.F.T.C.D.

The Examination will consist of:—

(1) Written Reports, with commentaries on Medical or Surgical cases, recorded by the Candidate while acting as Clinical Clerk, Dresser, or Resident Pupil. These Reports must be handed in to Dr. Taylor *not later than a week before the Examination.*

(2) A Clinical Examination.

(3) An Oral Examination. This will be conducted publicly by the Staff, and will embrace the Theories of Medicine and Surgery, respectively.

The next Examination will be held on Monday, April 25th, 1904.

House Surgeon.

A House Surgeon is elected annually in the month of December.

Resident Pupils.

Four Resident Pupils are appointed each half-year. Candidates for the post must have completed a period of three years' attendance at the Hospital, or have already paid the Fees for the Session during which they wish to act. The appointments are made at the end of April and October. Applications should be lodged with Dr. Taylor, Hon. Sec.

Surgical Dressers and Clinical Clerks.

Six Surgical Dressers and six Clinical Clerks are appointed each month. The names of those wishing to act should be given to the House Surgeon.

Nurses' Training Institution.

Women are trained in the nursing of Medical, Surgical, and Fever patients in the wards of the Hospital, and after a full period of probation are sent to nurse private cases.

Applications for trained Nurses for private cases should be made to the Lady Superintendent at the Hospital.

SCHOOLS AND HOSPITALS RECOGNIZED BY THE BOARD OF TRINITY COLLEGE.

The following Schools, in addition to the School of Physic, are recognized by the Board of Trinity College:—

The School of the Royal College of Surgeons in Ireland.	The School of the Catholic University.

The Returns of the names of Trinity College Students attending these Schools will not be accepted unless lodged with the Registrar of the School of Physic on or before 21st April for the Winter Session, and 21st July for the Summer Session.

The following Hospitals, in addition to Sir P. Dun's Hospital, are recognized by the Board of Trinity College:—

General Hospitals.

Adelaide Hospital.	Mercer's Hospital.
City of Dublin Hospital.	Meath Hospital.
Dr. Steevens' Hospital.	Richmond, Whitworth, and Hardwicke Hospitals.
Jervis-street Infirmary.	St. Vincent's Hospital.
Mater Misericordiæ Hospital.	

Ophthalmic Hospitals.

The National Eye and Ear Infirmary.	St. Mark's.

Midwifery Hospitals.

Sir P. Dun's Maternity.	Coombe.
Rotunda.	National Maternity.

Hospitals for Study of Mental Disease.

Richmond Lunatic Asylum.	Swift's.

Two consecutive *anni medici*, taken at any period in the medical curriculum of five years in :—

Queen's College, Belfast,	University of Madras,
University College of South Wales, Monmouthshire,	University of Melbourne,
University of Adelaide,	University of Otago,
University of Bombay,	University of Sydney,
University of Calcutta,	University of Toronto,
University of Lahore,	M'Gill College,

are recognised as qualifying for admission to Examinations in the School of Physic.

SCHOOL OF ENGINEERING.

Teaching Staff.

I.—*Mathematics.*

A. W. Panton, M.A., SC.D., Fellow and Tutor of Trinity College, Dublin, and Donegal Lecturer in Mathematics in the University of Dublin.

II.—*Mechanics.*

M. W. J. Fry, M.A., Fellow and Tutor of Trinity College, Dublin, and Assistant to the Professor of Natural Philosophy in the University of Dublin.

III.—*Experimental Physics.*

W. E. Thrift, M.A., HON. M. INST. C.E.I., M.I.E.E.; Fellow of Trinity College, Dublin, and Erasmus Smith Professor of Natural and Experimental Philosophy in the University of Dublin.

J. T. Jackson, M.A., Assistant to the Erasmus Smith Professor of Natural and Experimental Philosophy.

IV.—*Chemistry.*

J. E. Reynolds, M.D., SC.D., F.R.S., V.P.C.S., Professor of Chemistry in the University of Dublin.

E. Werner,
W. C. Ramsden, } Assistants to the Professor of Chemistry.

V.—*Geology, Petrology, Mineralogy, and Mining.*

John Joly, M.A., B.A.I., SC.D., F.R.S., Professor of Geology and Mineralogy in the University of Dublin.

VI.—*Engineering.*

T. Alexander, M.A.I., Member of the Institute of Civil Engineers of Ireland, and Professor of Civil Engineering in the University of Dublin.

W. E. Lilly, M.A.I., M.A., WH. EX. M.I.C.E.I., Assistant to the Professor of Civil Engineering, and Lecturer in Mechanical Engineering.

VII.—*Electrical Engineering.*

P. S. Sheardown, Electrical Engineer to the Dublin United Tramways Company, Lecturer in Electric Traction.

Wm. Tatlow, B.A.I., M.I.C.E.I., Lecturer in the Practice of Electrical Engineering.

Introductory.

THE School of Engineering in the University of Dublin was established in the year 1842 for the purpose of affording to such Students as intend becoming Civil Engineers systematic instruction in those branches of knowledge which are most useful to the Engineer in the practice of his profession.

While keeping this object in view, it has been deemed advisable to require the Student, during his Course in the School, to be a member of Trinity College, and subject to its regular discipline, giving him at the same time the opportunity of obtaining the advantages of a general University Education.

Membership of Trinity College.

In order to become a member of the College, it is necessary to pass an Examination (which may be done at any time of the year) in the following subjects:—

Arithmetic.
Algebra (the first four rules and fractions).
Geometry (Euclid, Books I. II. and III.).
English History and Composition, and Modern Geography.
Any two Latin authors of the Candidate's choice, and Latin Composition.

And any one of the following three Languages:—

Greek, any two Greek authors of the Candidate's choice.
French, Voltaire, Charles XII.
German, Schiller's Belagerung von Antwerpen.

The Examination in French and German will be partly *viva voce* in the prescribed books, and partly by papers, containing passages (unprescribed) for translation from these Languages into English, and passages for translation from English into the same.

If successful in passing this Examination, he must pay an Entrance Fee of £15.

Admission to the School of Engineering.

Having thus become a member of the College, the Student is eligible for admission to the School of Engineering, which is obtained by his passing a further Examination (in the subjects enumerated below), held annually at the end of Trinity and also at the beginning of Michaelmas Term at which period of the year only can a Student join the classes.

Subjects for Entrance Examination to Engineering School.

Arithmetic.
Algebra (to the end of Quadratic Equations).
Geometry (Euclid, first six Books).
Trigonometry (to the end of Solution of Plane Triangles).
Elementary Mechanics.

Upon passing this Examination the Candidate is admitted to the School, and begins his studies in it.

Duration and Subjects of Professional Course.

The Professional Course continues for three or four years, as explained below, from the time of entering the School, during which instruction is given partly by Lectures, and partly in Laboratories and in the Field, being arranged thus:—

First Year (Junior Class).

Mathematics.
Mechanics.
Experimental Physics.
Chemistry.
Elementary Geology and Mineralogy.
Drawing and Practical Geometry.

Second Year (Middle Class).

Practical Mechanics.
Theory of the Steam Engine.
Chemistry—Analyses of Ores, Minerals, &c.
Elementary Geology.
Drawing, Designing, and Office Work.
Levelling, Surveying, and General Engineering.
Electrical Engineering.

Third Year (Senior Class).

Mineralogy, Petrology, Field Geology, and Mining.
Drawing, Designing, and Office Work.
Levelling, Surveying, and General Engineering.
Electrical Engineering.

Fourth Year (Optional).

Electrical and Mechanical Engineering.

An optional fourth year's Course has been instituted, and Students wishing to make a special study of Electrical Engineering are recommended to do so in this fourth year.

Students taking the ordinary three years' Course are allowed to specialise during part of the third year, and to present themselves accordingly in special Papers at the Final B.A.I. Examination: those who may wish to devote themselves to the ordinary

Civil Engineering work being only required to study a certain part of the Electrical Engineering work, and to take at the B.A.I. Examination a certain part of the Electrical Engineering Examination in addition to the full Civil Engineering Examination; and those who may wish to devote themselves to Electrical Engineering, being allowed to substitute the Electrical Engineering Lectures and Demonstrations of the Lecturer in the Practice of Electrical Engineering, for certain parts of the Civil Engineering work, as arranged by the Professor of Civil Engineering, and to be allowed to substitute the Electrical Engineering Examination for two of the Papers set by the Professor of Civil Engineering at the B.A.I. Examination: the Drawing in the School of Students thus specializing, will be arranged so as to be suited to their Electrical Engineering work as far as possible.

Examinations.

At the end of the Trinity Term, in each year, the Junior and Middle Classes are examined as to their proficiency in the subjects they have been lectured in previously; and no Student can rise from a lower to a higher Class except he shall have *first* obtained credit for the necessary attendance at the Lectures delivered to his Class, and at Laboratory and Field Work and in the Drawing School, during each of the three Terms of the Academic Year then closing, and also have passed the Examination at the end of the Trinity Term above mentioned or a Supplemental Examination at the beginning of the following Michaelmas Term.

A Student who has failed to pass one of these Examinations may, on payment of half the Fee for the corresponding year, attend over again the Lectures in the subjects in which he was deficient.

The regular Final (or Degree) Examination of the Senior Class is held in Michaelmas Term, and there is a corresponding Supplemental Examination (for those of the Class who do not pass in Michaelmas) at the beginning of the next Trinity Term.

Students are required to give notice to the Registrar of the School of their intention to present themselves at any of these Examinations at least a week before the commencement of the Examination, and at the same time to send in their Drawings, &c., to the Professor of Engineering or his Assistant.

Attendances at Lectures, &c.

In order to obtain credit for attendance at Lectures, a Student must have attended at least three-fourths of the Lectures delivered to his Class by each Lecturer during each of the three Terms in the Academic Year.

To obtain credit for *Office Work, &c.*, the following attendance in the Drawing School is necessary :—

Middle Class, at least 14 hours each week during Term.
Senior Class, ,, 16 ,, ,, ,,

That is, the work done by each Student in the Drawing School from week to week must be equivalent to these numbers of hours work in the judgment of the Professor of Engineering.

To obtain credit for *Field Work*, the Student must attend during the entire time on at least three out of every four occasions when the Professor of Engineering or his Assistant takes the Class out for practical instruction in the Field.

And he must further make out and plot as many Surveys and Sections as the Professor of Engineering may consider it desirable to require of him, in order to insure his proficiency in these branches.

The time thus occupied will be credited to the Student as if spent in the Drawing School.

The hours spent at Arts Lectures or Laboratory Work count as half that number of hours' attendance in the Drawing School. Notice must, however, be given to the Assistant to the Professor of Engineering during the first week of such attendance.

Eighteen hours' attendance is sufficient for the fortnight within which a Student has to pass an Arts Examination, and a similar notice to that mentioned in the preceding paragraph must be given in order to obtain this remission.

The attendance of the Middle and Junior Classes in the School during Trinity Term is not compulsory for the fortnight preceding the annual Examination of these Classes.

Certificate in Engineering.

Upon concluding the Senior Year of his Course, and obtaining credit for the required attendance at Lectures, and at Field and Office Work, the Student, after passing the final Examination, will be entitled to receive the Certificate in Engineering granted by the Professors of the Engineering School.

License in Engineering.

A Student who has not only completed his Course in the Engineering School, but has also completed the first two years of the Course in Arts, and passed the Final Freshman Examination ("Littlego"), will be entitled to receive the License in Engineering granted by the University.

Degree of Bachelor in Engineering.

A Student who has not only completed his Course in the Engineering School, but also graduated in Arts, will be entitled to proceed to the Degree of Bachelor in Engineering.

Degree of Master in Engineering.

A Bachelor in Engineering, who has been actually engaged upon Engineering Works for a period of three years, is entitled to proceed to the Degree of Master in Engineering.

Diploma in Electrical Engineering.

A Course in Electrical and Mechanical Engineering is provided for those Students who may study the subject in the Optional fourth year, and a Diploma in Electrical Engineering is awarded to Students taking out this Course satisfactorily.

Honors in the Engineering School.

Honors are awarded at the Degree Examination by giving Special Certificates for superior merit in each of the following subjects:—

1. Practical Engineering.
2. Mechanical and Experimental Physics.
3. Mining, Chemistry, Geology, and Mineralogy.
4. Electrical Engineering.

In the first and fourth, Honors are awarded on the results of the corresponding parts of the Degree Examination; in the second, on the combined results of Examinations in the subjects at the close of the Junior and Middle Years; and in the third, on the combined results of Examinations in Chemistry at the close of the Junior and Middle Years; in Elementary Geology at the end of the Middle Year; and in Mineralogy, Petrology, Geology, and Mining at the Degree Examination.

No private Certificate can be issued by any Professor or Lecturer connected with the School.

Scale of Fees and Charges.

COLLEGE FEES.

Entrance Fee to College (which must be paid at latest within twelve days after his Entrance Examination is passed), ...	£15	0	0
Half-yearly Fee for keeping name on College Books, payable to the Junior Bursar *before* the first Saturday in May and the first Saturday in November, . .	8	8	0

ENGINEERING SCHOOL FEES.

In addition to the foregoing College Fees for Entrance to College and keeping name on Books, the Student will have to make the following annual payments:—

In the Junior Class, ...	£10	0	0
,, Middle ,, ...	£15	0	0
,, Senior ,, ...	£15	0	0
,, Optional fourth year,[a] . .	£15	0	0

[a] If the Student paying this Fee be a graduate, he is not required to continue paying the ordinary College half-yearly Fees.

These latter annual payments in the Engineering School should be made to the Junior Bursar *before* Nov. 20 in each year. After that date a fine of 5*s*. per week commenced is inflicted, and after two weeks the names of all Students whose Fees are then unpaid are removed from the books of the Engineering School.

Students in Engineering requiring to use the Drawing School only, may do so on payment of £5 for the half year in which they use it.

The Fee for the License in Engineering or for the Degree of Bachelor in Engineering is £1.

The Fee for the Degree of Master in Engineering is £10.

A Fee of 10*s*. is payable on taking out the *Testimonium* of the Degree of Master in Engineering.

All the Fees are payable to the Junior Bursar, except those for Licenses and Degrees in Engineering, which are payable to the Senior Proctor.

A Student in the Engineering School may, should he so desire, pursue his Course in Arts at the same time, without having to pay any further Fees than those already specified.

Students who have passed the B.A. Degree Examination need not pay the half-yearly College Fee in May of their Senior Year, as their names are kept on the College books till the end of June. Such Students must pay a *liceat ad examinandum* fee of One Guinea and the ordinary replacement fee of 15*s*. before entering for their final Engineering Examination.

Laboratories and Museums, &c.

Attached to the School there are large Laboratories, Museums, and a Model Room, containing numerous valuable models of Engineering Works and Machinery, which are of great assistance to the Students in pursuing their studies.

Syllabus of the Course.

The instruction given to the Students by the different Professors and Lecturers connected with the School is arranged as follows, subject to such modifications and alterations as the circumstances require:—

I.—Mathematics.

The Lecturer in Mathematics delivers about 90 Lectures to the Students, during the first year of their Course, upon the following subjects:—

1. Plane Trigonometry, and the nature and use of Logarithms.
2. Differential Calculus.
3. Integral Calculus and Mensuration, &c.

II.—Mechanics, &c.

The Lectures and Demonstrations upon Mechanics and Mechanism, Hydrostatics, &c., extend over the first two years, and reach the number of about 120, the subjects treated of being—

In the Junior Year—

Theoretical Mechanics.
Demonstrations with practical instruction in Elementary Mechanics.

In the Middle Year—

Applied Mechanics, including Kinematics of Machines.
Demonstrations with practical instruction in Experimental Mechanics and Mechanism.

III.—Experimental Physics.

The Erasmus Smith Professor of Experimental Physics and his assistant deliver about 52 Lectures to the Junior Class, 30 to the Middle Class, and 20 to the Senior Class, on the subjects enumerated below :—

To the Junior Class.

1. Heat.
2. Electricity and Magnetism.
3. Sound and Light.

To the Middle Class.

The Theory of the Steam Engine.
Electrical Engineering.

The Steam Engine Lectures are delivered to the Middle Class in Michaelmas Term, the practical work thereon is carried out in Hilary Term, and the Preliminary Theoretical Lectures in Electrical Engineering by the Professor of Experimental Physics are delivered in Trinity Term.

To the Senior Class.

Electrical Engineering.

The Professor of Experimental Physics concludes his Course of Lectures in Electrical Engineering in the Michaelmas Term of the Senior year, and all Students are required to attend this Course. The Lecturer in Practical Electrical Engineering gives such of his Demonstrations as he considers necessary for all Students in Michaelmas Term ; the Special Electrical Engineering Lectures and Demonstrations are given in Hilary and Trinity Terms.

Six Lectures and Demonstrations on the Dublin United Electrical Tramways system are given by the Lecturer in Electric Traction.

In addition to these Lectures, the Students are given Courses of Laboratory Instruction in Physical Measurements, in the practical study of a small steam engine, and in studying the electrical installation.

The Students can, at any period of their Course, take out special Courses of practical instruction in Physical Measurements.

IV.—Chemistry.

The Professor of Chemistry's Lectures and Demonstrations are the following :—

Junior Class.

Lectures.—On three days in each week during Michaelmas and Hilary Terms. As part of the Course, the Students conduct Experiments in one of the Laboratories, which relate, as far as possible, to the processes and materials concerned in the Arts of Construction.

Middle Class.

LABORATORY PRACTICE.—During four hours in each week, from November to March, inclusive. The Course of Instruction comprises the Qualitative and Quantitative Analysis of Metallic Ores and Minerals, Assays of Metals, Testing Cements, estimation of Carbon in Iron and Steel, Analysis of Water, of Fuels, and of Furnace Gases, &c. In addition (during Hilary Term), Lectures are given on Metallurgical Processes, open to members of both Classes.

V.—MINERALOGY, PETROLOGY, GEOLOGY, AND MINING.

The Junior Class attend in *Trinity Term* a Course of Lectures introductory to the Sciences of Mineralogy and Geology in so far as these concern the Engineer. In these the Student is instructed in the nature and properties of the more important minerals and rock-forming substances. The Examination, which is held in June, is entirely practical, the Student being expected to identify and pronounce on the nature of such minerals and rocks as have been submitted to him in the Course of the Lectures.

The Middle Class attend in *Michaelmas Term* a Course of Lectures in General Geology. This Course (which is also open to Arts Students and to the Public) is prefaced by a School Course of about six Lectures recapitulating and extending the work done in the Junior Year.

The Course on General Geology extends over about twenty Lectures, and embraces Physiography and Physical Geology.

At the Examination held in May a Prize of £5 is awarded for the best answering. The Examination is conducted in part on paper and is in part practical—Minerals and Rock-specimens being submitted for identification.

The Senior Class—

In *Michaelmas Term* attend a Course of Lectures on the Mineralogy and Physical properties of the more important Rocks and Building Stones.

In *Hilary Term* a School Course of about eleven Lectures and Demonstrations on Building Stones, followed by a Course in Stratigraphical Geology and Palæontology (open to Arts Students and to the Public) extending over about eighteen Lectures.

In *Trinity Term* a Course of Lectures on Applied Geology, Ores, and Mining.

At intervals, during the year, the Class accompanies the Professor to places of Geological interest in the neighbourhood of Dublin, for practical instruction in the Field.

Candidates for the final Examination are required to prepare an original Geological Section, which must be sent in to the Professor of Geology at least a week before the final Examination. At this Examination a Prize of £10 is awarded on the marks obtained.

The Prizes in Geology and Mineralogy, awarded to second and third year's men, were founded by the Board in December, 1887.

VI.—Engineering.

During his first year in the School, the Student is instructed in Drawing by the Assistant to the Professor of Engineering, who delivers to the Class three Courses of Lectures, accompanied by Demonstrations (one Course each Term), making about 120 Lectures altogether on the following subjects:—

1. Use of Drawing Instruments, Scales, &c.
2. Practical Examples in Plane Geometry.
3. ,, ,, in Conic Sections.
4. Descriptive Geometry.
5. Shadows, &c.
6. Isometric Projection.

In the second and third years, Levelling and Surveying are taught practically in the Field by the Professor of Engineering and his Assistant; and the Student, when sufficiently expert, is required to perform these operations himself repeatedly and to plot his work on paper.

Regular attendance is also required in the Drawing School, where the object kept prominently in view is to make the Student an intelligent and efficient Draughtsman and familiar with the taking out of Quantities, the calculation of Strains on Bridges, Roofs, and other structures, and Office Work generally.

During the third year demonstrations with practical instruction are given on testing cements, a testing machine and other apparatus being provided for this purpose.

A small Steam Engine and a Gas Engine are available for instruction in testing their efficiency by means of indicator diagrams, measurement of water, coal, and gas consumption, &c.

In addition to this, during the two years, about 230 Lectures are delivered by the Professor of Engineering as follows:—

To the Middle Class.

On four days of each week of each Term.

Surveying.—Embracing Levelling and Surveying of all descriptions, with the nature, use, and adjustment of the instruments. Plotting plans and sections, and taking out quantities from plans. Construction of Earthwork tables. Simpson's Rules and Amslar's Integrator, and their application to areas, volumes, and the locating of centres of gravity.

Road and Railway Construction.—Route and preliminary survey, ruling gradients, equalizing earthworks, profile and side slopes. Formation and maintenance of plank and paved roads, of the Macadam and Telford road and tramway. Setting out railway curves. Execution and drainage of earthworks and rock cuttings. Formation of the permanent way, points and crossings, over and under bridges, culverts, stations. The specification, and estimate, and standing orders of Parliament.

Descriptive Engineering.—The technical arrangement of plans and sections of Engineering Works, manner of finishing and marking dimensions, illustrated by the description in detail, of some work, *e.g.* a bridge. Foundations, piling, concrete, brick and metal cylinders and

cofferdams. Tunnelling. Building construction, the preparation, preservation, and testing of the materials used in Masonry, Carpentry, and Metal trades.

Text Books.—Rankine's Civil Engineering; Barry's Railway Appliances; Seddon's Builders' Work.

Books of Reference.—Gilespie's Road Making; Simms on Tunnelling; Jackson's Surveying; Johnston's Surveying (American); Usil's Surveying.

To the Senior Class.

On one day of each week of Hilary and Trinity Terms.

A consecutive Course of descriptive Lectures on some of the subjects comprised under Hydraulic Engineering. Portions of standard works will be prescribed as reading.

On alternate years the subjects may be—*Water Works and River Engineering*, or *Sanitary Engineering, Drainage, and Harbours.*

Books of Reference.—Humber's Water Works; Latham's Sanitary Engineering; Stevenson's Canals and Rivers; Stevenson's Harbours. Also Harcourt's Works; Roorkee Experiments on the Ganges Canal. Crimp on Sewage Disposal Works. Turner and Barton's Treatises on Waterworks. Moore's Sanitary Engineering.

On four days of each week of each Term.

Engineering Science and some applications, *e.g.*—

Earthworks.—Rankine's method of the ellipse of stress with Alexander's Kinematic Model, showing its application to the design of embankments, foundations, retaining walls, sea walls, sewers, tunnel roofs, inverts and side walls.

Strength, Elasticity, and Resilience of Materials.—Application of Graphic and Analytic Methods, bending moment and shearing force diagrams for fixed and moving load systems, illustrated by the Alexander and Thomson Moment Delineator: (*Trans.* Institute of Engineers, Scotland, 1889). The distribution of the internal direct and shearing stress for lineal, transverse, and compound states of strain. Lines of stress in beams, illustrated by a method of examining strained glass prisms on the polariscope, and drawing the lines with a mechanical pen as described by Peter Alexander, M.A., in the *Transactions* of the Royal Society of Edinburgh. Scientific and commercial testing.

Frame Work Structures.—Their stability, strength, stiffness, and durability. Graphic Statics. Details, numerical calculation of the ties, struts, beams, stiffeners, stays, and fasteners. Fidler's systematic application of the Rankine-Gordon formula to the design of long struts. Levy's analyses of triangular trussing with three variables for the form, number of bays, and ratio of depth to span, Fink, Bollman, and other systems. Plate girders and distribution of rivets after Stoney.

Block Work Structures.—The rectangular buttress, piers, chimneys. The equilibrium of the masonry arch. Theoretical equilibrium curves for different loads. The design of the Elliptic Arch by Rankine's

approximations from the linear 'Hydrostatic,' 'Geostatic,' and 'Stereostatic' arches. Fuller's inverse graphic construction. The construction of tables from the properties of the 'Two-nosed Catenary,' and their application to the immediate and direct numerical design of masonry arches in brick, sandstone, or granite, for dead and live loads.

Iron Arched Girders, Suspension Bridge, and Componed Structures.—Rankine's 'Sloping Beam,' its application to the approximate design of arched ribs of uniform stiffness. Simpler parts of Rankine's analysis and Levy's detailed graphical constructions for completely determining the direct thrusts and bending moments on arched ribs of any section, either hinged at crown or abutments or otherwise fixed and subjected to complete or partial loading. Fidler's treatment of great cantilever bridges.

Text-Books.—Rankine's Civil Engineering; Alexander and Thomson's Elementary Applied Mechanics.

One or more copies of the following books lie in the office for daily reference:—

Molesworth Pocket Book; Rankine's Applied Mechanics; Stoney on Strains, 1886; Fidler's Practical Bridge Construction, 1887; Du Bois, Strains on Framed Structures (American), 1885; Walmisley on Iron Roofs; Unwin's Testing of Materials of Construction, 1888; Levy's Statique Graphique, 1888. Tables and Numerical Examples from Alexander and Thomson's Paper on 'Two-nosed Catenaries' in the *Transactions* of the R.I.A., 1888. Matheson's Aid Book, 1889. Clark's Steam Engine, 1889. Trans. I. C. E. Longman's Engineering Series, now being published.

Engineering Scheme.

In Trinity Term the Students of the Senior Class in groups of four or five prepare the office and field work of an Engineering Scheme for a short line of Railway, Tramway, Road, or Canal or other work approved of by the Professor of Engineering. The details of this scheme are carried out during the long vacation by the Students themselves over the concrete plans, specifications, and detached drawings submitted at the Final Examination in the following October. This scheme forms an integral part of the work for Degrees in Engineering.

VII.—Electrical and Mechanical Engineering.

The Lectures of the Professor of Experimental Physics are on the general theory of Electricity as applied to Electrical Engineering.

The Lectures of the Lecturer in the Practice of Electrical Engineering are on the following subjects:—

Generation of electric currents—Continuous current dynamos and motors—Transmission of power—Alternating current generators for single-phase and for polyphase currents.

Synchronous motors, induction motors.

Alternating current transformers—Motor-generators, rotary convertors, boostors.

Storage batteries—Switchboards, regulating apparatus, and safety devices.

Distributing systems for the supply of light and power—Measurement of power—Meters.

Wires, cables, and transmission lines—Insulators and insulating materials.

The wiring of buildings for electric light and power—Testing—The use of ordinary electric measuring instruments, testing of magnetic properties of iron, location of faults in dynamos and cables, measurement of efficiency of dynamos and transformers.

Arc and incandescent lamps.

Telephones and signalling apparatus.

General arrangement of plant for electric lighting, and for power transmission—Operation of railways and tramways by electricity—Production of chemicals by electricity.

The Lectures will be supplemented by Practical work in the Laboratory, and Demonstrations on the above.

A Laboratory and workshop has been constructed, which contains a gas engine of 8 H. P. for driving the dynamos, a storage battery, rotary convertor, continuous current dynamo, a potentrometer, oscillograph, and outfit of modern electrical measuring instruments.

A supply of three-phase alternating current will be available as soon as the new Corporation Electric Light Station is completed.

Lending Library.

In the Trinity College Lending Library there are copies of new and important books on Engineering.

It is open for the lending and return of books on three days of each week during Term, from 1.30 to 2.30 o'clock. A Catalogue can be obtained for one shilling on application to the Clerk in charge. The Lending Library is situated in the Engineering School Building.

Further Information.

Communications from persons desirous of further information should be addressed to the Registrar, Engineering School, Trinity College, Dublin.

Dublin University Engineering Students' Society.

The object of this Society is to afford an opportunity for the discussion of subjects of interest to Engineers.

Meetings are held fortnightly in the Engineering School.

The Professor of Engineering is President of the Society.

The Hon. Secretary will be happy to supply any further information regarding the Society.

Library of Trinity College.

The Library is open from 10 o'clock, A. M., to 4 o'clock, P. M., in summer, and from 10 o'clock to 3 o'clock, P. M., in winter, *i.e.* from November 1 to February 1. The Reading-room is open till 6, P.M. (except as stated below). but the door leading to the Library is closed when the Library itself is closed. The only week-days on which the Library is closed are as follows: Christmas Day and the three days following; Good Friday; Easter Eve; Easter Monday[a]; Monday in Whitsun week[b]; the King's Birthday; for a fortnight in July (see Almanac for dates), and the first Monday in August, while for the rest of July and August the Reading-room closes at 4 p.m.

Permanent or life admission to the Library is only granted to Graduates of the Universities of Dublin, Oxford, or Cambridge.[c] The Librarian is empowered to issue tickets of admission to the Library for six months to all Students having their names on the College Books, who have passed the final Examination of the Senior Freshman Class. He is likewise empowered to issue similar tickets to Students in either of the Freshman Classes, upon special application, to be approved by the Provost and Senior Fellows. These tickets are renewable on the expiration of the term, if the Student applying shall continue to keep his name on the Books.

Strangers, not Students or Graduates, on being admitted by the Provost and Senior Fellows to the privilege of reading in the Library, receive from the Librarian tickets of admission for six months, these tickets being renewable on the expiration of that term, on application to the Librarian.

In the year 1601, the Spanish troops were defeated by the English at Kinsale, and Her Majesty's army, to commemorate their victory, subscribed the sum of £1800, from the arrears of their pay, to establish in the University of Dublin a public Library. Dr. Challoner and Mr. James Ussher, afterwards the celebrated Archbishop, were selected by the benefactors as the trustees of their donation, and commissioned to purchase such books as they should judge most necessary and useful for the advancement of learning. "And it is somewhat remarkable" (says Dr. Parr) "that at this time [1603], when the said persons were at London about the laying out this money in books, they then met Sir Thomas Bodley there, buying books for his new erected Library at Oxford, so that there began a correspondence between them upon this occasion, helping each other to procure the choicest and best books on several subjects that could be gotten; so that the famous Bodleian Library at Oxford, and that of Dublin, began together."

---

[a] Order of the Board, December 14, 1878.
[b] Order of the Board, June 26, 1880.
[c] Decree of the Board and Visitors, February 21, 1856.

The private collection of Ussher himself, consisting of 10,000 volumes, with many MSS. of great value, was the first donation of moment which the Library received; and for this also literature is indebted to the officers and soldiers of the English army. In 1640, Ussher left Ireland, and the insurgents soon after destroyed all his personal property, with the exception of his books, which were fortunately secured, and soon after conveyed to Chester, and from thence to London.[a] In 1642, Ussher was nominated one of the Westminster Assembly of Divines, but refused to attend, and even preached against their proceedings at Oxford.[b] For this crime his library, or a portion of it, which he had left behind him at Chelsea College, was seized and confiscated by order of the House of Commons, as the property of a delinquent; but John Selden, his particular friend, by the interference of Dr. Featly, obtained permission to purchase them as if for his own use, though really for the purpose of restoring them to their original owner. On the Archbishop's death in 1655, although he had destined his books for Trinity College, the misfortunes of the times compelled him to leave them to his only daughter, Lady Tyrrell, then mother of a numerous family,[c] and in narrow circumstances. Proposals were soon after made to her for the purchase of the library, by the King of Denmark and Cardinal Mazarin; but Cromwell issued an order prohibiting the Primate's family from selling it without his consent, and he refused to permit it to be brought out of the kingdom. Soon after, the officers and soldiers of the army then in Ireland, wishing to emulate those of Elizabeth, purchased the whole Library for the sum of £2,200 together with all the Archbishop's Manuscripts, and a choice though not numerous collection of ancient coins, with the design of presenting them to the College. But when the books were brought over to Ireland, Cromwell refused to permit the intentions of the donors to be carried into effect, alleging that it was his intention to found a new College or Hall, in which the collection might more conveniently be preserved separate from all other books. The library, therefore, was deposited in the Castle of Dublin, and being there kept with great negligence, an immense number of valuable books and MSS. were stolen or destroyed. At length, on the Restoration, his Majesty King Charles II. ordered that what remained of the Primate's library should be given to the University, according to the generous purpose of the original purchasers.

In 1674, Sir Jerome Alexander, one of the Justices of the Common Pleas in Ireland, left his collection of law books to the College, with £100 for fitting up a place for them; as also the valuable MSS. contained in Class G in the Manuscript Room.

In the year 1726, the Library received an addition of upwards of 4000 volumes, from the books bequeathed to it by Dr. William Palliser, Archbishop of Cashel, who had been a Fellow of the College,

---

[a] Parr, p. 47. [b] Ibid., p. 50. [c] Ibid., p. 102.

and also during his lifetime a munificent benefactor to it. The following extract from his will contains the conditions of this valuable bequest:—

"Item, I devise unto the Provost, Fellows, and Scholars of the College of the Holy Trinity near Dublin, and their successors, such of my books of all kinds as they now have not, or at the time of my death shall not be furnished with, to be sorted, and set out by the Rev. Doctor Claudius Gilbert, and my said son, William Palliser. Item, I devise unto the said Provost, Fellows, and Scholars, and successors, such editions of my books as they now have not, or at the time of my death shall not be furnished with, to be in like manner sorted and set out by the said Doctor Gilbert and my said son, William Palliser. Provided always, and my will is, that the editions and books hereby devised shall go by the name, and be always called *Bibliotheca Palliseriana*, and that the same shall be, and continue placed and kept next to the library devised to the Provost, Fellows, and Scholars, by the late Lord Primate Ussher, now called *Bibliotheca Usseriana*. And my farther will and meaning is, that if the said Provost, Fellows, and Scholars, or their successors, shall at any time fail to call the editions and books hereby devised by the name of *Bibliotheca Palliseriana*, or shall at any time fail to keep them next to the said library, devised by the late Lord Primate Ussher, the disposition hereby made to the said Provost, Fellows, and Scholars, and their successors, shall, upon such failure, become void and of no effect."

Another most valuable addition to the Library was the collection of Dr. Claudius Gilbert, Vice-Provost and Regius Professor of Divinity, consisting of nearly 13,000 volumes. In the year 1735 he retired on the living of Ardstraw, and soon after presented his Library to the College, having spent his whole life in collecting books for that purpose.[a]

In 1741, Dr. John Stearne, Bishop of Clogher, and Vice-Chancellor of the University, bequeathed to the Library the valuable collection of MSS. preserved in Class F of the Manuscript Room, together with all such books from his private collection as were not already in the Library.

Besides these, the Manuscript Library is indebted to Dr. Miles Sumner, admitted a Fellow during the Commonwealth, and afterwards for many years Donegal Lecturer in Mathematics in the University; to Sir William Gore; Sir Henry Prescot; Dr. Henry Jones, Bishop of Meath and Vice-Chancellor of the University; Dr. John Parker, Archbishop of Dublin; William Barry, M. A.; John Lyon, M. A., and Librarian; Thomas Hey of Chester ("Cestensis Signifer"), A. D. 1646; Gordian Strowbridge; Murtogh Dowling, Esq., A. D. 1693; Charles Willoughby, M. D.; Cornelius

[a] The following passage appears in the "Annual Register" for 1759:—
Doctor Claudius Gilbert, formerly Vice-Provost of Trinity College, Dublin. This excellent person, besides other valuable donations, bequeathed to that College a collection of books, consisting of 13,000 volumes, chosen with great discernment and care. His bust was this day (Feb. 1, 1758) placed at the head of the books. It is the workmanship of Verproil, and for expression and elegance does great credit to the taste and skill of the Statuary.

Higden; and Edward Worth, M. D. Besides these, Peter Carewe, President of Munster in the reign of Elizabeth, gave to the Library a valuable collection of Irish Manuscripts.

In 1774, the sum of £100 was bequeathed to the Library by Thomas Holles, Esq., to be applied to the purchase of books written by English, Irish, or Scotchmen, upon Politics, Natural and Civil History, and Mathematics.

A very considerable addition was made to the Library in the year 1802, when the Fagel Library, consisting of upwards of 20,000 volumes, was purchased by the Board of Erasmus Smith for £10,000, and presented to the University. This valuable collection was made by M. Greffier Fagel, Pensionary of Holland, and in 1794, when the French invaded that country, was removed to England for sale, and there purchased for the College.

In the year 1805, a small but choice collection of books, including many *Editiones Principes* of the Classics, was bequeathed to the Library by Henry George Quin, Esq., under the conditions expressed in the following extract from his will, dated September 23, 1794:—

"I give and bequeath my large mahogany book-case, together with such of my books and manuscripts as are specified in a catalogue bound in red morocco leather, written in my own hand, and marked with the letters L. T. C. D., which book-case, books, and manuscripts, together with the catalogue itself, and the hammer which was presented to me at Amsterdam by Signor Crevanna, I give and bequeath for ever to the Provost and Fellows of Trinity College, Dublin, in order that they may be placed in the Library of the College. And as most of the books hereby bequeathed are of considerable value, and on that account the more liable to be stolen if placed in a situation easy of access, it is my will and desire that they be deposited, not in the great public room of the Library, but in that part of it called the Manuscript Room. And it is my will that the book-case hereby bequeathed which is to contain them, may be placed exactly in the centre of the side of the room, opposite to the door of entrance, and I desire that the words *Bibliotheca Quiniana*, in capital letters, two inches in height, and gilt on a dark-coloured ground, be put on the top of the two central doors of the aforesaid book-case, one word on each door. And it is my will and desire, that the said book-case be generally kept locked, and that it be never opened, or the books handled by any person, but in presence of the librarian or his assistant, one of whom shall always keep the key thereof. And it is my desire that none of the books hereby bequeathed shall ever be taken out of the Manuscript Room. I desire likewise that none of them shall ever be rebound, or any new or additional covering or lettering of any kind be put upon them, but that they shall always remain precisely in the same state wherein they shall be found at the time of my decease. And I desire that a copy of the part of my will which relates to the disposal of my books be sent by my executors to the Provost and Senior Fellows, within one month after my decease, in order that my bequest may, in every particular, be fully carried into effect."

The Library is continually increased by copies of every book

published in England. This privilege it enjoys by Act of Parliament,[a] 54 Geo. III. cap. 156.

Presentations made to the Library between July 1, 1902, and June 30, 1903:—

The Papyrus of Nas-Khem. By S. Birch. Printed for private circulation by desire of H.R.H. The Prince of Wales. (1863.)
From His Majesty the King.

Niels Henrik Abel; Mémorial publié à l'occasion du Centenaire de sa Naissance.
Presented by the University of Norway to the Provost of Trinity College, and by him deposited in the Library.

An Engraved Portrait of Alexander Knox.
From Miss H. S. Jacobson, London.

An Engraving by W. H. Simmons of E. M. Ward's painting, "Scene from the early life of Oliver Goldsmith."
Presented to the Board by Rev. William Wallace, D.D., Litt.D., Vicar of St. Luke's, Stepney.

1. Studien zur Geschichte der Sammlung der althebräischen Literatur. Von J. S. Bloch.
2. Mitteilung über eine alte Handschrift des Targum Onkelos. Von E. Kautzsch.
3. Die altpersischen Keilinschriften. Von Fr. Spiegel.
4. Les préfaces jointes aux livres de la Bible dans les MSS. de la Vulgate. Mémoire posthume de M. Samuel Berger.
5. Zeitschrift für die alttestamentliche Wissenschaft. Vols. 1–22 (1881–1902).
6. Syriac New Testament and Psalms. (*New York*, 1886.)
7. Moral Aphorisms in Arabic, and a Persian Commentary in Verse: translated by Stephen Weston.
From Rev. T. K. Abbott, Litt.D., S.F.T.C.D., Librarian.

Bibliographie des travaux de Léopold Delisle. Par P. Lacombe.
From Dr. E. P. Wright.

1. Twelfth Census of the United States, 1900, 10 vols.: with Abstract.
2. Annual Report of the Interstate Commerce Commission, 1901.
From Dr. J. K. Ingram.

1. Cartilla para ensenar a ler a los ninos. 2. Glosa a la obra de don Jorge Manrique; hecha por Diego Barahona. 3. Bias contra Fortuna; hecho por coplas: por el marques de Satillana.
4. La Araucana de Don Alonso de Erzillay.
5. Reportorio de todos los caminos de españa.
6. Las Julianas de Hernando Merino Españolo.
7. La historia de los nobles cavalleros Oliveros de Castilla y Artus Dalgarbe.

---

[a] The privilege was first given in the year 1801. (41 Geo. III. cap. 107.) By 5 and 6 Victoria, chapter 45, the right of obtaining a copy of every book printed in the United Kingdom is confined to five Libraries, viz.:—The British Museum; the Bodleian Library; the Public Library at Cambridge; the Library of the Faculty of Advocates at Edinburgh; and the Library of Trinity College.

8. Cartilla y Luz en la Verdadera, Destreza, Sacada de los Escritos de D. Luis Pacheco y Narvaez y de los Autores que refiere. Por D. Nicolas Tamariz. (*Sevilla*, 1696.)
9. Ars Moriendi.
10. Pinto de Morales, Maravillas del Parnaso, 1637.
11. Escriva, Veneris Tribunal, 1537.
12. Pineda, Libro del Passo Honroso, 1588.
13. Rimas Varias, 1630.
14. Entremés de los Sordos. Lope de Vega. (Facsimile of MS.)
15. Libro y primera parte de los Victoriosos hechos del Cav. Aluaro de Bacan, 1561.
16. Collection of Spanish documents in the British Museum.
17. Romancero Espiritval compuesto por Lope de Vega Carpio, 1624.
18. Cancionero llamado Villete de Amor compuesto por Baptista Montidea.

Facsimile Reprints, from Archer M. Huntington, Esq., New York.

1. Sir Francis Berkeley of Askeaton.
2. The Cists, Dolmens, and Pillars of the eastern half of Co. Clare. (Two papers.)
3. Notices of the Ancient Forts of Ireland.
4. Notes on Askeaton. Part I.

From T. J. Westropp, Esq., M.A.

1. Books, Tracts, &c., printed in Dublin in the seventeenth century. By E. R. McC. Dix. Part III.
2. Notes on the Literary History of Strabane. By A. A. Campbell.
3. List of Books, Pamphlets, &c., printed at Cork in the seventeenth and eighteenth centuries. By E. R. McC. Dix. Parts V., VI., VII.
4. Erasmi Colloquia Selecta, with an English Translation: eleventh edition, by John Clarke. (*Waterford*, 1773.)

From E. R. McC. Dix, Esq.

1. Latin Exercises. By James Melvin. 2 vols.
2. Lessons in Latin Prose. By W. W. Bradley. 2 vols.
3. Contanseau's Guide to French Translation. 2 vols.
4. Gasc's French Prose Composition. 2 vols.
5. Havet's Morceaux traduits des prosateurs anglais; and French Composition.
6. Handbook of French Composition.

With the following works by H. M. Wilkins:—

1. Translations from Caesar and Cicero for Retranslation.
2. Easy Latin Prose Exercises. 2 vols.
3. Latin Prose Exercises. 2 vols.
4. A Manual of Latin Prose Composition. 2 vols.
5. Elementary Exercises in Greek Prose Composition. 2 vols.
6. A Manual of Greek Prose Composition. 2 vols.
7. Exercitationes Iambicae. By E. R. Humphreys.
8. Lyra Hellenica. By E. R. Humphreys.

From M. J. McGauran, Esq., B.A., Killiney.

Landmarks of History: Middle Ages. By C. M. Yonge.

LENDING LIBRARY.

As the Royal Statutes by which the General Library is regulated forbid the removal of any book from its precincts, except for binding or other special cause,[a] the Provost and Senior Fellows, many years since, established a Lending Library, consisting of books on the general subjects of collegiate study, which it was desirable that Students should be able to read in their own chambers, but which might prove too costly for ordinary purchase. The Lending Library receives constant augmentations of books, either from special donations, or from the proceeds of a grant made from time to time, out of the College funds.

The Lending Library contains an extensive collection of mathematical, classical, and theological books, as well as works connected with civil engineering. Medical Students are privileged to borrow books from the Medical Library of the College of Physicians.

The Lending Library is usually open for the lending and receipt of books, on three days in each week from 1.30 to 2.30 o'clock, P.M., during Term. A large room in the Museum Building is fitted up to receive the books of the Lending Library. Students can be furnished with Catalogues on application to the Clerk in charge of the Library.

Astronomical Observatory of Trinity College.

THE Observatory is at Dunsink, five miles from the College. It is the official residence of the Royal Astronomer for Ireland. The principal instruments are a Meridian Circle by Pistor and Martins; a Chronograph by Grubb; a 12-inch refractor by Canchoix, presented by Sir James South, and a 15-inch silvered glass reflector by With, presented by Isaac Roberts, Esq., both of which are mounted equatorially. The Observatory is open on the first Saturday of each month from 7 to 9 p.m. during the winter half of the year, from October to March inclusive, and from 8 to 11 p.m., during the other months. Special arrangements are made in Hilary Term to enable Students to see the instruments, and have their use explained, and in Michaelmas Term Weekly Demonstrations are held to which Students are invited.

Time-Service.—The clock in the Museum Building and two clocks in the office of the Dublin Port and Docks Board are under the direct electrical control of the Mean-time Clock at the Observatory, and by a relay the control is extended to other

clocks in Dublin. For the convenience of mariners a time-ball is dropped on week-days on the roof of the Port and Docks Office at one o'clock Greenwich mean time, by electrical arrangement.

Publications.—"Astronomical Observations and Researches made at Dunsink, the Observatory of Trinity College, Dublin" (printed by order of the Board of Trinity College):—

PART.
I. Results of Observations made with the South Refractor. 1870.
II. Further Researches on the Parallax of Stars, 1873.
III. Results of Observations made with the South Refractor. 1879.
IV. Mean Places of 321 Red Stars. 1882.
V. Observations in search of Stars with an Annual Parallax. 1884.
VI. Mean Places of 1012 Southern Stars. 1887.
VII. Mean Places of 717 Stars with large Proper Motions. 1896.
VIII. Mean Places of 1101 Stars with large Proper Motions. 1899.
IX. Mean Places of 321 Stars of reference for Clusters and of Zodiacal Stars. 1900.

Museums of Trinity College.

THE principal Museums which are used for the purposes of practical instruction in Trinity College are the following:—

1. Museum of Natural Philosophy.
2. Museum of Anatomy and Zoology.
3. Museum of Anthropology.
4. Museum of Geology and Mineralogy.
5. Museum of Engineering Models.
6. Museum of Surgical and Medical Pathology.
7. Museum of Materia Medica.
8. Herbarium and Botanical Laboratory.

I.—MUSEUM OF NATURAL PHILOSOPHY.

Curator—WILLIAM EDWARD THRIFT, M. A., Professor of Experimental Philosophy.

This Museum was founded about the year 1730, when Dr. Richard Helsham was Professor of Natural Philosophy. It contains a collection of various Philosophical Instruments, chiefly in connexion with the sciences of Optics and Practical Mechanics, Theory of Heat, Electricity, and Magnetism. Steps have lately been taken by the Board of Trinity College to place this Museum in a condition more suited to the purposes of modern scientific research, as well as more adapted to illustrate the Lectures given in Natural and Experimental Philosophy.

II.—MUSEUM OF ZOOLOGY AND COMPARATIVE ANATOMY.

Curator—HENRY W. MACKINTOSH, M.A., Professor of Zoology and Comparative Anatomy.

The present building was completed in 1876, and contains the Zoological Collection formerly kept in the Regent House; and the Comparative Anatomy Collection, formerly combined with that of Pathology, and kept in the Medical School.

The Zoological Museum was founded in 1777, and contains a large series of typical specimens. The Mammals, Birds, and Reptiles are arranged on the ground-floor, in the pier-cases between the windows, and in the centre floor-cases. The Amphibians and Fishes are in the gallery. The Invertebrates are arranged in the table cases, with the exception of the Insects, which are in cabinets in the Curator's room. The centre of the hall is occupied by the skeletons of large Mammals and Birds. The Galleries contain the Anatomical collection, and a set of Microscopes, under which are arranged specimens, specially intended for the Students attending the Lectures in Zoology during the Summer Session.

There is a Zoological Laboratory and Reading-room in connexion with the Zoological Department, to which Students are admitted during Terms on payment of a Fee of Five Shillings per Term. The Laboratory is provided with Microscopes and Appliances, and Students are supplied with specimens. The Reading-room contains preparations illustrating the principal animal types, and a small number of standard text-books.

The Museum is open to Students daily from 11 A. M. to 4 P. M.

III.—ANTHROPOMETRIC MUSEUM AND LABORATORY.

Curator—CHARLES R. BROWNE, M.D.

A portion of the Zoological Museum has been fitted up for an anthropometric Laboratory. It is open on Tuesdays, Thursdays, and Saturdays during the Medical year, from 2 P.M. to 4 P.M., free of charge.

IV.—MUSEUM OF GEOLOGY AND MINERALOGY.

Curator—JOHN JOLY, Sc.D., F.R.S., Professor of Geology and Mineralogy.

This Museum is intended principally for the use of Students in Engineering. It contains typical collections of Minerals and Fossils, arranged for the use of Students, and also some rare specimens of Fossil Reptiles and Deer.

V.—MUSEUM OF ENGINEERING MODELS.

Curator—THOMAS ALEXANDER, M.A.I., Professor of Engineering.

This Museum was founded in 1846. It contains a variety of Engineering Models, amongst which will be found a series of models illustrating the progress of invention in the Steam Engine; a model of a Locomotive Engine (scale one-fourth); a model of a Cornish Pumping Engine (scale one-twelfth); a large collection of timber bridges; a model of the lifting apparatus of the Conway Tube; a model of the Boyne Viaduct, and other lattice structures. It contains likewise a complete collection of the weights and measures of the Metric System.

VI.—MUSEUM OF SURGICAL AND MEDICAL PATHOLOGY.

Director—EDWARD H. BENNETT, M.D., Professor of Surgery.

This Museum is intended for the use of the Students in Medicine, and to illustrate the Professors' Lectures. It is open daily to Students from 11 A.M. to 4 P.M.

VII.—MUSEUM OF MATERIA MEDICA.

Curator—WALTER G. SMITH, M. D., King's Professor of Materia Medica and Pharmacy.

A Course of Demonstrations on Practical Pharmacy will be given in the Museum of Materia Medica. Each Student will be provided with apparatus and tests.

The Museum is open to Students from 11 A.M. to 4 P.M.

VIII.—HERBARIUM AND BOTANICAL LABORATORY.

Keeper of the Herbarium.—E. PERCEVAL WRIGHT, M.D., Professor of Botany.

Assistant to Professor.—HENRY H. DIXON, Sc.D.

The Herbarium is open for reference during Term, from 11 till 3; and at other times on special application to the Professor.

It contains—

1. A Herbarium, containing the Plants indigenous to Great Britain and Ireland.

2. A General Herbarium, open to receive the Plants of all countries. This latter is particularly rich in the Plants of North America (including Mexico and California), British India, South Africa, and Australia; and less so in those of South America, North Asia, and parts of Europe.

Donations of specimens from all countries are solicited from Students of the University.

Attached to the Herbarium is a Botanical Laboratory, furnished with the necessary means for research. Students reading for the Moderatorship in Natural Science, or for Honors in Botany, have the preference in entering their names for practical work. A fee of 10*s.* is payable each Term to cover cost of reagents, &c. During the lecture periods of each Term the Assistant to the Professor of Botany attends and gives demonstrations as needed. Fresh material is received, as required, from the Botanical Gardens. Prizes to the extent of £5 are given by the Professor for competition among the members of the Senior Sophister class.

The Board allows an annual sum for the support of the Herbarium.

BOTANIC GARDENS.

Curator of Gardens—F. W. Burbidge.

The Gardens are situated about one mile from the College, near Ball's Bridge, and now contain about eight acres of ground.

Since their inception in 1806, the Gardens have been added to in 1832 and in 1848.

The inner, or original Garden, contains a well-arranged collection of the principal Natural Orders of hardy plants for teaching purposes, and there are also heated plant-houses in which choice and tender exotics are grown.

A small pond is utilised for the growth of aquatic and marsh plants, and there are borders of rock-edging of considerable extent, on which herbaceous, alpine, and bulbous plants are grown.

The Gardens are open to Students on week-days—in summer, from 6 A.M. to 6 P.M.; and in winter, from 10 A.M. to 4 P.M. Strangers to Dublin are also admitted on presenting their cards: and all other visitors, by orders from the Provost, any of the Fellows, or the Professor of Botany.

Buildings of Trinity College.[a]

Of the buildings of the original College of Queen Elizabeth no portion now remains.

A grant was made by the Corporation of Dublin, July 20, 1592, in which the bounds of Trinity College are recited as follows (Thomas Smith, Mayor, George Kennedy and John Myles, Sheriffs):

"Sicut se extendunt in longitudinem a campo vocato Anglice Hoggin Greene ex parte occidentali usque ad terram nuper Monasterii Beatæ Mariæ Virginis juxta Dublin nunc in tennure Johannis Dongan generosi; ex parte orientali et sicut jacet in latitudine a venella quæ ducit ad fontem St. Patricii ex parte australi usque ad terram prædictam nuper Monasterii Beatæ Mariæ Virginis et flumen Anliffey ex boreali parte."

In 1695–6 there were 144 hearths in Trinity College.

LIBRARY.

The foundation of the Library was laid May 12, 1712, the Provost and Fellows having obtained a grant of £5000 from Queen Anne, on the address of the Irish House of Commons, for the purpose of building a Library. The building itself was finished in 1724, but some years elapsed before it was prepared for the reception of books. The total cost was about £17,000, of which £15,000 in all was provided by the Parliament. The architect was Thomas Burgh.

The Long Room is 209 feet in length and 40 feet in breadth, 8 feet 4 inches being occupied on either side by the Stalls.

In 1743 Dr. Gilbert bequeathed a sum of £500 to purchase busts for the Long Room. Among the busts first placed in the Library, which were executed by Roubillac, is one of Dean Swift, which was presented to the College, in 1745, by the Senior Sophister Class. The busts of Lord Plunket and M'Cullagh are by Christopher Moore; that of Sir William Hamilton by the late J. H. Foley; that of Provost Humphrey Lloyd is by A. Bruce Joy.

In 1890 it was decided to enlarge the Library by enclosing the colonnades.

PRINTING HOUSE.

The Printing House was built between 1758 and 1761, by Dr. Stearne, Bishop of Clogher and Vice-Chancellor of the University.

---

[a] For most of the statements contained under this head, the Editor is indebted to the kindness of the late Dr. Stubbs.

DINING HALL.

The Dining Hall was erected between 1740 and 1745. It contains a number of portraits, chiefly of Chancellors of the University.

The portrait of Frederick Prince of Wales, over the entrance, was painted by Hudson, master of Sir Joshua Reynolds, and was presented to Trinity College by George III. Its frame was carved by G. Gibbons, and was originally in Windsor Castle.

FRONT OF TRINITY COLLEGE.

The West Front of Trinity College was erected in 1759, the architect being Sir William Chambers, who constructed Somerset House in London. The College received £40,000 from George II. upon the address of the Irish House of Commons, for the purpose of building this Front and the adjoining Parliament Square.

The statues of Goldsmith and of Burke, standing in front of the College, executed by J. H. Foley, were erected by public subscription in 1864 and 1868.

PROVOST'S HOUSE.

The Provost's House was erected in 1760, at a cost of £13,000, by Provost Andrews. It is a fac-simile of a house designed by the Earl of Burlington, and erected for General Wade, in Piccadilly, London.

The Provost's House contains original portraits of Queen Elizabeth and Archbishop Ussher, painted by Zuccheri, and a fine portrait of the Duke of Bedford, by Gainsborough.

PUBLIC THEATRE.

The Public Theatre, usually called the Examination Hall, was opened in 1787. It contains a Monument to Provost Baldwin (who died in 1758), and a number of portraits. Those of Queen Elizabeth and Archbishop Ussher are copies of the original portraits in the Provost's House. That of Bishop Berkeley is copied from a picture in Lambeth Palace. The portrait of Edmund Burke was painted by Hopner.

In the gallery is the case belonging to the organ of the old chapel. This organ was built in Holland for a church in Spain, but was taken from the Spaniards in Vigo Bay, 1702, and repaired and enlarged in 1705. It was presented to the College by the Second Duke of Ormonde.

CHAPEL OF TRINITY COLLEGE.

The present Chapel is the third which has existed in Trinity College. It was opened in 1798, and cost £22,000. It contains three painted glass windows:—

One, representing the Recapitulation of the Law by Moses and the Restoration of the Jews, was erected in memory of Richard

Graves, D.D., author of "Lectures on the Pentateuch," by his son and other relatives, in 1865.

The corresponding window on the other side of the Communion Table was erected in 1867, in memory of Bishop Berkeley, by the Right Honourable Robert Richard Warren, Judge of the Court of Probate.

The central window, directly over the Communion Table, was painted in Munich, and was erected in memory of Archbishop Ussher, by Dr. Butcher, late Bishop of Meath, in 1867.

The Chapel which preceded the present was consecrated in 1686. Its dimensions were the same as those of the present structure.

CAMPANILE.

The Campanile was erected in 1853, by Lord John George Beresford, Archbishop of Armagh and Chancellor of the University. The Bell, which was cast at Gloucester in 1744, weighs 36 cwt. 12 lbs.; and its clapper 2 cwt. 13 lbs.

MUSEUM BUILDING.

This Building was erected by the Provost and Senior Fellows in 1857.

It contains the Museums of Natural Philosophy, Geology, and Mineralogy, and of Engineering Models, the Drawing Room of the Engineering School, the Room of the Lending Library, a Physical Lecture Room and Laboratory, the Lecture Room of the Schools of Divinity and Law, and a number of other Lecture Rooms. It contains also a Clock in electric connexion with the Observatory clock at Dunsink.

MEDICAL SCHOOL BUILDINGS.

These comprise three blocks.

In the middle one are :—

I. The Anatomical Department, which includes a large Dissecting Room with electric light; a Bone Room, in which are Sections of the frozen body, and various preparations and models illustrating the Development and the Topography of the Brain; a Lecture Theatre, with a powerful projecting Lantern; the Professors' rooms.

II. The Chemical Science School, including four general Laboratories, as well as special Laboratories for Quantitative and Gas Analysis; a Balance Room; a Chemical Museum, in which are a number of the rarer Chemical substances; a large Lecture Theatre; the Professors' rooms and laboratory.

III. A spacious Pathological Museum (see p. 258), with rooms for the Professor of Surgery.

IV. The Department of Materia Medica and Therapeutics, including a Laboratory, a Museum (see p. 258), and the Professors' rooms.

V. Two Lecture Theatres, Professors' rooms, the Office of the Registrar of the School, a Tutorial Class Room and a Students' Luncheon Room.

This part of the block was completed in 1887.

VI. The Museum of Anatomy and Zoology (see p. 257), completed in 1876.

At the north end of the Zoological Museum is the block containing the Department of Institutes of Medicine, which includes a large Laboratory for Histology, a Theatre in which the Lectures in Physiology are given, and the Professors' rooms. This block was finished in 1878; and subsequently enlarged in 1901.

On the south of the middle block is the School of Pathology, which contains a large Laboratory, a Theatre, the Lecturer's room, and a number of work and preparation rooms. In this building also accommodation is at present provided for the Department of Röntgen photography.

This building was completed in 1898.

All the Theatres have their seats numbered consecutively, one being assigned to each Student on entering for the corresponding course of Lectures.

SQUARES.

The Front Square, also known as Parliament Square, was erected along with the West Front.

The Library Square contains the oldest buildings in College, some of which were standing in the latter part of the seventeenth century.

The greater part of Botany Bay Square was built about the year 1816.

The New Square was begun in 1838, and finished in 1844.

GRADUATES' MEMORIAL.

The north side of the Library Square, which contained the old houses numbered 28 to 31, was demolished in 1899.

The Graduates' Memorial occupies the centre of the new building which has been erected in the space thus vacated, and contains a theatre, a library, a reading room, recreation rooms, rooms for the use of the College Societies, cloak rooms, &c.

The wings of the new building contain forty sets of single students' chambers, and the entrances are at the east and west ends.

Undergraduate Ordinary Examination Papers.

1902–1903.

Michaelmas Term, 1902.

AUTUMN ENTRANCE.

OCTOBER.

ARITHMETIC AND ALGEBRA.

MR. FRY.

1. Divide

$$x^3 + 3x^2y + 3xy^2 + y^3 - z^3 \quad \text{by} \quad x + y - z.$$

2. Solve the equation

$$\frac{2x+5}{3} + \frac{3x-5}{4} = \frac{4x+1}{5} + x - 4.$$

3. A garrison of 1500 men having provisions for 50 days was reinforced after 15 days, and from that time the provisions only lasted 25 days. Find the number of the reinforcement.

4. Simplify

$$\frac{4(x-3)^2 - (x-1)^2}{9(x+1)^2 - (x-9)^2} \times \frac{x^2 + x - 30}{6x^2 - 23x + 21}.$$

5. Add together

$$1 + \frac{6}{x-1} + \frac{19}{(x-1)(x-2)} + \frac{26}{(x-1)(x-2)(x-3)}.$$

6. Solve the equation

$$\frac{5-x}{4+3x} + \frac{x+4x^2}{16-9x^2} = \frac{5+2x}{4-3x}.$$

7. Multiply 82·755 by ·231, and divide the result by ·0189.

8. Find the expense of lining a cistern 10 ft. 3 in. long, 6 ft. 6 in. broad, and 5 ft. $4\frac{1}{2}$ in. deep, with lead, at £2 2*s.* per cwt., which weighs 8 lbs. per sq. ft.

9. Find the value of 17 cwt. 1 qr. 12 lbs. at £1 19*s.* 8*d.* per cwt.

10. Find the present worth of £903 14*s.*, due 2 years and 2 months hence, at $3\frac{1}{2}$ per cent. per annum simple interest.

HISTORY AND GEOGRAPHY.

MR. GOLIGHER.

1. State the principal provisions of the Constitutions of Clarendon.

2. Write a short account of the reign of Richard II. *or* Henry V.

3. What occasioned the war of the Spanish Succession? Mention the chief events in this war, adding dates.

4. What do you know of—(*a*) The Anti-Corn-Law League; (*b*) Domesday Book; (*c*) the Grand Remonstrance; (*d*) the Self-denying Ordinance; (*e*) Tallage?

5. What important events took place in 1815, 1832, 1837, 1854, 1857?

6. Name the principal towns in Lancashire and Yorkshire.

7. What are the chief colonies and dependencies of Great Britain in the Western Hemisphere?

8. Where are Barcelona, Bonn, Tiflis, Adelaide, Vera Cruz?

9. Name the states of Northern Africa, with their capitals.

10. What are the principal rivers in Ireland?

LATIN COMPOSITION.

MR. KENNEDY.

In all the army one officer alone proved false. Labienus kept his word to Pompey, and stole away to Capua. He left his effects behind, and Caesar sent them after him untouched. Finding that all the rest could be depended on, he sent back over the Alps for two more legions to follow him. He crossed the little river Rubicon, which bounded his province, and advanced to Rimini, where he met the tribunes, Antony, Cassius Longinus, and Curio, who were coming to him from Rome. At Rimini the troops were reassembled. Curio told them what had passed. Caesar added a few more words. The legionaries, officers and privates, were perfectly satisfied; and Caesar, who, a resolution once taken, struck as swiftly as his own eagles, was preparing to go forward.

ENGLISH COMPOSITION.

MR. BEARE.

Write an essay on *one* of the following:—

(*a*) Outdoor sports on land or water.

(*b*) 'Cromwell, I charge thee—fling away *ambition*.'

(*c*) Your favourite author.

ENTRANCE EXAMINATION.

NOVEMBER.

ARITHMETIC AND ALGEBRA.

MR. SMYLY.

1. Divide $x^6 - 2x^3 + 1$ by $x^2 - 2x + 1$.

2. Find G. C. M. of $6x^4 + x^3 - x$ and $4x^3 - 6x^2 - 4x + 3$.

3. Show that $(bz - cy)^2 + (cx - az)^2 + (ay - bx)^2 + (ax + by + cz)^2$ is divisible by $a^2 + b^2 + c^2$ and by $x^2 + y^2 + z^2$.

4. Solve the equation

$$\frac{4}{x+2} + \frac{7}{x+3} = \frac{37}{x^2 + 5x + 6}.$$

5. The sum of two numbers is 5760 and their difference is equal to $\frac{1}{3}$ of the greater: find the numbers.

6. Find the value of $\sqrt{7}$ to four places of decimals.

7. Find the interest on £764 11*s*. 8*d*. for 5 years at $3\frac{1}{2}$ per cent. simple interest.

8. A and B together could do a piece of work in 40 days; after working 10 days they are assisted by C, and the work is then finished in 20 days more; C does as much in 2 days as B in 3 days. In how many days could each of them do the work alone?

9. How much stock can be purchased by the transfer of £5000 from the 3 per cents. at 72 to the 4 per cents. at 90? and what annual income will it produce?

10. A tradesman who makes 5 per cent. on his capital allows 2*d*. in the shilling discount off the price marked on each article. How much per cent. above cost price does he mark the articles for sale?

HISTORY AND GEOGRAPHY.

MR. GOLIGHER.

1. Give a short account of the reign of Henry II.

2. Name the combatants in the following battles, adding the dates and results:—Brunanburh, Evesham, Shrewsbury, Worcester, Plassey.

3. In what wars was Great Britain engaged between 1867 and 1882?

4. Give some account of *two* of the following statutes:—Mortmain, Labourers, Kilkenny, Drogheda.

5. How, and when, did the British acquire Canada, Cyprus, and Newfoundland?

6. Name the five largest towns in Spain.

7. Where are Manilla, Lake Baikal, Ispahan, the Khyber Pass, and Lhassa?

8. Name the principal islands round the coast of Africa, and state to whom they belong.

9. What are the chief States of South America?

10. What, and where, are the principal Irish lakes?

LATIN COMPOSITION.

MR. WILKINS.

When all this was reported, a sudden panic demoralized, in no ordinary degree, the whole army. It began with some civilians, who though they had not any military experience, had accompanied us out of friendship. By degrees, however, throughout the camp, old campaigners, men and officers, were unable to keep up their courageous looks, and each alleging special urgent reasons for retiring, hid themselves in their tents, to sign their wills or bewail their doom.

ENGLISH COMPOSITION.

MR. KENNEDY.

Write an essay on *one* of the following:—

1. Comparison of Home and School as places of Education for boys.
2. Ambitions of men at College.
3. Rivalry between Literature and Modern Science.
4. The Irish Language.
5. 'How small, of all that human hearts endure,
That part which laws or kings can cause or cure!'

EXAMINATION FOR PRIVILEGES IN FRESHMAN YEARS.

ALGEBRA.

MR. RUSSELL.

1. If α and β be the roots of $3x^2 + 17x - 14 = 0$, find the values of $\alpha + \beta$ and $\alpha\beta$.

2. Find the highest common factor of

$$4x^3 - 5x^2 + 9x - 8 \quad \text{and} \quad 8x^3 - 9x^2 + 5x - 4.$$

3. Solve the equations
$$x^2 - xy = 4,$$
$$xy + y^2 = 21.$$

4. Solve the equations
$$4x - 9y + 11z = 16,$$
$$9x - 11y + 4z = 6,$$
$$11x - 4y + 9z = 2.$$

5. Solve the equations
$$x^3 + y^3 = 56,$$
$$xy = -8.$$

6. Find the simplest value of
$$\frac{x}{x-a} - \frac{x}{x+a} - \frac{\dfrac{x+a}{x-a} - \dfrac{x-a}{x+a}}{\dfrac{x+a}{x-a} + \dfrac{x-a}{x+a}}.$$

7. Rationalize the equation
$$\sqrt{9x-5} - \sqrt{16x+9} + \sqrt{49x-40} = 0.$$

8. What is the income whose value after income tax at 1*s.* 3*d.* in the pound has been deducted is £198 0*s.* 6*d.*

9. Find, to 3 places of decimals, the value of
$$\frac{2\sqrt{2}}{\sqrt{3}+1}.$$

10. A person borrows £60, and at the end of each year pays £20 to reduce the loan and pays interest at 4 per cent. on the sum standing against him during that year. How much will he owe at the end of 3 years?

TRIGONOMETRY.

MR. RUSSELL.

1. If π denote the ratio of the circumference of a circle to its diameter, prove that its area is πr^2

2. Define the six elementary functions of an acute angle, and prove the formulæ

$$\sin^2 A + \cos^2 A = 1, \quad \frac{\sin A}{\cos A} = \tan A, \quad \sin A = \frac{\tan A}{\sqrt{1 + \tan^2 A}}.$$

3. Trace the changes, both in sign and magnitude, of the tangent of an angle as the angle changes from 0° to 360°. Obtain the tangents of 120°, 210°, 315°.

4. If $\tan A = \frac{1}{5}$, find the values of $\tan 2A$ and $\tan 4A$.

5. Find the simplest value of

$$\frac{\sin A + \sin B}{\cos A - \cos B} \cdot \frac{\sin A - \sin B}{1 + \cos (A - B)} \cdot \frac{\sin A + \sin B}{\sin (A + B)}.$$

6. In a triangle, prove the formula $\cos C = \dfrac{a^2 + b^2 - c^2}{2ab}$, and show that it is true whether C is acute or obtuse. Deduce the formula

$$\sin^2 C = \sin^2 A + \sin^2 B - 2 \sin A \sin B \cos C.$$

7. If A, B, C are the angles of a triangle, prove the formula

$$\tan A + \tan B + \tan C = \tan A \tan B \tan C.$$

8. Given that two sides of a triangle are 167 and 179, and the included angle is 67°, find the base angles.

9. Give any method for finding the height of an inaccessible object.

10. Find, from the 'Log Book,' $L \cos 43° 5' 17''$.

CLASSICS.

MR. BEARE.

Translate:—

I.

ἀλλὰ καὶ ὑμᾶς χρή, ὦ ἄνδρες δικασταί, εὐέλπιδας εἶναι πρὸς τὸν θάνατον, καὶ ἕν τοῦτο διανοεῖσθαι ἀληθές, ὅτι οὐκ ἔστιν ἀνδρὶ ἀγαθῷ κακὸν οὐδὲν οὔτε ζῶντι οὔτε τελευτήσαντι, οὐδὲ ἀμελεῖται ὑπὸ θεῶν τὰ τούτου πράγματα· οὐδὲ τὰ ἐμὰ νῦν ἀπὸ τοῦ αὐτομάτου γέγονεν, ἀλλά μοι δῆλόν ἐστι τοῦτο, ὅτι ἤδη τεθνάναι καὶ ἀπηλλάχθαι πραγμάτων βέλτιον ἦν μοι. διὰ τοῦτο καὶ ἐμὲ οὐδαμοῦ ἀπέτρεψε τὸ σημεῖον

καὶ ἔγωγε τοῖς καταψηφισαμένοις μου καὶ τοῖς κατηγόροις οὐ πάνυ χαλεπαίνω. καίτοι οὐ ταύτῃ τῇ διανοίᾳ κατεψηφίζοντό μου καὶ κατηγόρουν, ἀλλ' οἰόμενοι βλάπτειν· τοῦτο αὐτοῖς ἄξιον μέμφεσθαι.—PLATO.

(*a*) Parse—ἀπηλλάχθαι, κατηγόρουν, γέγονεν, πεπονθώς, δοκῶσι.

(*b*) State what you know of Socrates.

II.

ἐγὼ δ', ἐπειδὴ καὶ λίαν πυργοῖς χάριν,
Κύπριν νομίζω τῆς ἐμῆς ναυκληρίας
σώτειραν εἶναι θεῶν τε κἀνθρώπων νόνην.
σοὶ δ' ἔστι μὲν νοῦς λεπτὸς, ἀλλ' ἐπίφθονος
λόγος διελθεῖν, ὡς Ἔρως σ' ἠνάγκασε
τόξοις ἀφύκτοις τοὐμὸν ἐκσῶσαι δέμας.
ἀλλ' οὐκ ἀκριβῶς αὐτὰ θήσομαι λίαν·
ὅπῃ γὰρ οὖν ὤνησας, οὐ κακῶς ἔχει.
μείζω γε μέντοι τῆς ἐμῆς σωτηρίας
εἴληφας ἢ δέδωκας, ὡς ἐγὼ φράσω.
πρῶτον μὲν Ἑλλάδ' ἀντὶ βαρβάρου χθονὸς
γαῖαν κατοικεῖς, καὶ δίκην ἐπίστασαι,
νόμοις τε χρῆσθαι, μὴ πρὸς ἰσχύος χάριν.
πάντες δέ σ' ἦσθοντ' οὖσαν Ἕλληνες σοφὴν,
καὶ δόξαν ἔσχες· εἰ δὲ γῆς ἐπ' ἐσχάτοις
ὅροισιν ᾤκεις, οὐκ ἂν ἦν λόγος σέθεν.

EURIPIDES.

(*a*) Parse—δέδωκας, θήσομαι, ἠνάγκασε, πυργοῖς, ἐκσῶσαι.

(*b*) Write a note on the character of Medea.

III.

Quamquam haec quidem iam tolerabilia videbantur, etsi aequabiliter in rem publicam in privatos, in longinquos, in propinquos, in alienos in suos irruebat; sed nescio quomodo iam usu obduruerat et percalluerat civitatis incredibilis patientia. Quae vero aderant iam et impendebant, quonam modo ea aut depellere potuissetis aut ferre? Imperium si ille nactus esset—omitto socios, exteras nationes, reges, tetrarchas; vota enim faceretis ut in eos se potius immitteret quam in vestras possessiones, vestra tecta, vestras pecunias; pecunias dico? a liberis, a liberis, me dius fidius, et a coniugibus vestris numquam ille effrenatas suas libidines cohibuisset. Fingi haec putatis, quae patent, quae nota sunt omnibus, quae tenentur? servorum exercitus illum in urbe conscripturum fuisse, per quos totam rem publicam resque privatas omnium possideret.—CICERO.

(*a*) Parse—potuissetis, impetrasset, deiecit, compulit.

(*b*) Mention some of the chief events in the personal history of Cicero.

IV.

Fortes creantur fortibus et bonis;
Est in iuvencis, est in equis patrum
Virtus, neque imbellem feroces
Progenerant aquilae columbam;
Doctrina sed vim promovet insitam,
Rectique cultus pectora roborant;
Utcunque defecere mores
Indecorant bene nata culpae.

Quid debeas, o Roma Neronibus
Testis Metaurum flumen et Hasdrubal
Devictus et pulcher fugatis
Ille dies Latio tenebris
Qui primus alma risit adorea,
Dirus per urbes Afer ut Italas
Ceu flamma per taedas vel Eurus
Per Siculas equitavit undas.

HORACE.

(*a*) Parse—Defecere, insitam, risit, secto, habiturus.

(*b*) Give some account of the life of Horace.

LATIN COMPOSITION.

MR. BEARE.

On the following day Hannibal crossed the Anio, and drew out all his forces in order of battle. Nor did Flaccus and the consuls decline the contest. The troops on both sides having been drawn up to try the chances of a battle, in which the city of Rome was to be the conqueror's prize, a violent shower mingled with hail so disordered both the lines, that the troops, scarcely able to hold their arms, retired into their camps, with less apprehension of the enemy than of anything else.

ENGLISH COMPOSITION.

MR. BEARE.

Leisure—the meaning of it, the best ways of employing it.

GENERAL EXAMINATION FOR THE DEGREE OF BACHELOR OF ARTS.

MICHAELMAS TERM, 1902.

ASTRONOMY.

DR. PANTON.

1. Describe a *Meridian Circle*. How is the direction of the zenith obtained? How is the declination of a star obtained, the latitude of the observatory being supposed known?

2. Define *Annual Parallax*; and describe its effect on the apparent position of a star. What are the advantages of Bessel's method of finding it?

3. In the formula for computing the Moon's sidereal period, viz.,

$$P = \frac{365{\cdot}25 \times 29{\cdot}5306}{365{\cdot}25 + 29{\cdot}5306},$$

explain clearly what the numbers on the right-hand side of this equation represent, and by what observations their accurate values are obtained.

4. What is the *Metonic Cycle*, and for what purposes has it been used? Verify the statement contained in its definition.

5. Prove the formula for computing the periodic time of a superior planet; and apply it to find the periodic time of Saturn, the interval between two oppositions of this planet being assumed to be 380 days.

6. How is the velocity of the Earth in her orbit calculated? Assuming it to be 18·5 miles per second, find, by the aid of Bode's Law, the velocity of Saturn in his orbit.

7. Give reasons to justify the following conclusions:—(1) 'There must be two eclipses at least of the Sun every year,' and (2) 'There may be no eclipse of the Moon in a year.'

8. To what causes is the 'equation of time' due? If on Christmas day the Sun rises at $8^h\ 17^m$, and sets at $3^h\ 42^m$, what is the equation of time on that day?

9. Find the time at St. Petersburg (30° 20′ E.), and at Halifax (63° 35′ W.), when it is 10 o'clock A.M. at Dublin (6° 15′ W.).

10. Give some account of the applications of the spectroscope to Astronomy.

ETHICS.

MR. BEARE.

1. Describe the method of arguing adopted by Butler in his *Analogy* For what is he indebted to Origen?

2. 'Hence we conclude that virtue must be the happiness, and vice the misery, of every creature.' Whence?

3. Explain fully how it is a matter of experience that we are under *natural* government. On what hypothesis, however?

4. State the chief points in Butler's proof that the *natural* scheme of government is also a *moral* scheme.

5. The present world is *peculiarly* fit to be a state of moral discipline.' How does he show this?

6. How does he explain the origin of our notions of good and ill desert?

7. Our perception of 'good desert' is very weak with respect to common instances of virtue. What reasons does Butler suggest for this?

8. Explain, after Butler, the relationship between self-love and particular passions.

9. How does he show the absurdity of making no distinction, except that of *strength*, between one inward principle and another?

10. Revenge is never lawful. Why?

MR. MACRAN.

SUBJECT FOR ENGLISH COMPOSITION.

[Choose *one* subject.]

1. The defects of a purely scientific training.
2. Hamlet's conception of the function of the drama.

MATHEMATICAL PHYSICS.

MR. RUSSELL.

1. If three forces balance one another, prove that the sum of their moments round any point is zero.

2. Show, by a diagram, that it is possible for a yacht to sail against the wind so that the direction of motion makes 60° with it.

3. Three levers, ALB, CMD, ENF, of equal lengths and weights, whose fulcrums are at L, M, N, act in a line with C directly over B, and D over E: if each is 2 feet long and weighs 2 lb., find what weight will be balanced at F by a force of 4 lb. at A, being given that

$$AL = CM = EN = 16 \text{ inches.}$$

4. A particle is projected with a velocity of 27 feet per second up a rough plane inclined to the horizontal at an angle whose sine is $\frac{3}{5}$, and returns to the bottom again: if the coefficient of friction is $\frac{2}{3}$, find the velocity when it arrives at the bottom.

5. If masses of $17\frac{1}{2}$ lb. and $14\frac{1}{2}$ lb. be attached to the extremities of a string that hangs over a smooth pulley, find the tension in the string when motion begins, and the height through which the lighter weight will ascend in 4 seconds.

6. If the temperature of a constant mass of gas remains constant, state the relation between the varying volume and pressure, and indicate how it might be verified.

1040 cubic inches of gas is at a pressure of 30 inches of mercury and a temperature of 60° F.: find the volume, if the temperature be raised to 100° F. and the pressure to 56.

7. Define the terms 'density' and 'specific gravity.'

A mixture of 78 gallons of proof spirit and 22 gallons of water has a specific gravity of ·9376: find the specific gravity of proof spirit.

8. State Archimedes' Law; and hence obtain a condition for stability in a floating body.

9. Two double convex lenses A and B, whose focal lengths are 2 inches and 4 inches, respectively, are 9 inches apart: if an object be placed in front of A and 3 inches from it, find the position of the image formed by B.

10. If light falls *nearly perpendicularly* on a *thin* prism, find an expression for the deviation; and point out where the conditions involved in the words in italics enter into your work.

CLASSICS.

MR. EXHAM.

I.

1. Translate.:—

ARISTOPHANES.

2. Parse—ὄναιτ', καταπροΐξει, ἤσθην, εἰδόσιν, δώσεις.

2. Compare the Socrates of *The Clouds* with the real Socrates.

II.

1. Translate :—

Septimius, Claudi, nimirum intellegit unus,
Quanti me facias. Nam cum rogat et prece cogit
Scilicit ut tibi se laudare et tradere coner,
Dignum mente domoque legentis honesta Neronis;
Munere cum fungi propioris censet amici;
Quid possim videt ac novit me valdius ipso.
Multa quidem dixi cur excusatus abirem;
Sed timui me ne finxisse minora putarer
Dissimulator opis propriae, mihi commodus uni.
Sic ego maioris fugiens opprobria culpae,
Frontis ad urbanae descendi praemia. Quodsi
Depositum laudas ob amici iussa pudorem,
Scribe tui gregis hunc et fortem crede bonumque.

HORACE.

2. Parse—facias, munere, abirem, finxisse.

3. Who were—Aristippus, Ennius, Lysippus, Empedocles?

LATIN COMPOSITION.

MR. MOONEY.

The labour, which is not great, will hereafter be a great honour to you. By that path which you are now entering, many who were born in an humble and obscure station have arrived at the highest dignities. And even if no such rewards were proposed for literature, yet learning of itself would deserve to be loved: and nothing is more disgraceful in a freeborn man than ignorance of those things, a knowledge of which cannot be acquired without literature. The pleasure which is derived from disgraceful things quickly passes away, but leaves a lasting pain on the mind; but labour bestowed on honourable objects, itself, indeed, disappears, but leaves a remembrance of itself in the mind full of the noblest and purest pleasure. Think of these things, and farewell.

EXPERIMENTAL PHYSICS.

MR. THRIFT.

1. Describe how to measure the compressibility of a substance.

2. What is meant by a space being saturated with the vapour of a liquid?

Contrast the behaviour of saturated and unsaturated vapour when subjected to changes of pressure and temperature.

3. What are the laws of electromagnetic induction?

Describe the series of experiments which you would carry out in order to verify them.

4. Describe a method of measuring the velocity of sound in a gas.

5. How would you use a grating in order to measure the length of a wave of light?

CHEMISTRY.

DR. EMERSON REYNOLDS.

1. How many volumes of atmospheric air are required for the complete combustion of one volume of each of the following gases:—(*a*) hydrogen, (*b*) carbon monoxide, and (*c*) marsh gas?

2. Name the members of the carbon family of elements, and write the formulæ of their principal hydrides, oxides, and chlorides.

3. Point out the principles involved in the common process of 'lime burning.' What chemical change takes place when lime is 'slaked'?

4. The specific heat of zinc is 0·0935; deduce its atomic weight, and explain the principle involved.

5. Describe and explain the method by which ethyl alcohol can be made to afford common 'ether.' How has the molecular constitution of ether been determined?

6. Benzene can be made to afford three distinct compounds which consist of $C_6H_4Br_2$. How has the existence of these isomers been explained, and their orientation determined.

POLITICAL SCIENCE.

MR. BASTABLE.

1. Compare Adam Smith's account of 'natural price' with that of 'normal price' given by Walker.

2. 'It is not the actual greatness of national wealth, but its continual increase, which occasions a rise in the wages of labour.'

Examine this statement.

3. Explain the meaning of the terms 'supply' and 'demand'; and illustrate your answer by considering what constitutes the 'supply of,' and the 'demand for,' money.

4. Consider whether it is advisable to impose a special tax on ground-rents.

5. Show, by selected examples, the educational effect of representative government.

6. Point out the chief defects of a bureaucracy.
Give an example of this type of government.

7. Consider the expediency of entrusting the power of dissolving the legislature to the chief of the executive.

8. Summarise Bagehot's objections to schemes for the representation of minorities.

JUNIOR SOPHISTERS AND SENIOR SOPHISTER SUPPLEMENTALISTS.

MATHEMATICAL PHYSICS.

MR. ROBERTS.

1. Prove that two couples acting on the rigid body will equilibrate if their moments are equal and opposite.

2. A heavy beam AB, twelve feet long, is supported by props at A and B: find where a weight equal to the weight of the beam must be placed so that the pressure on the prop at A may be double that on the prop at B.

3. The arms of a false balance are 15 in. and 16 in. long, respectively, and the commodity sold is weighed in one scale as often as in the other. Find the gain or loss per cwt. to the seller.

4. A mass of 10 lbs. is projected on a rough horizontal table with a velocity of 16 feet per second: after what time will it come to rest if $\mu = \frac{1}{2}$?

5. With what velocity must a body be projected vertically upwards so that after two seconds it may be a distance of 2 ft. from the ground?

6. State Dalton and Gay-Lussac's Law, and prove the formula

$$V' = V \cdot \frac{460 + t'}{460 + t}.$$

7. A piece of rock weighs 4 lbs. in air, and 2·5 in water: find the volume occupied by 125 lbs. of the substance.

8. Define kinetic and potential energy, and determine the kinetic energy of a body which has been falling for four seconds.

9. Draw figures to illustrate the positions of the images of objects in (*a*) plane, (*b*) convex mirrors.

10. Find the deviation of a ray of light which passes through a thin lens.

ASTRONOMY.

MR. FRY.

1. Define the terms:—'right ascension,' 'declination,' 'celestial longitude,' 'celestial latitude.'

2. The observed meridian zenith distances of a circumpolar star are 28° 36′ and 54° 48′, and the corresponding corrections for refraction 33″ and 1′ 22″: find the latitude of the place and the declination of the star.

3. In Dublin (lat. 53° 20′), what values can the declination of the Sun have in order that twilight may last all night?

4. Deduce Kepler's Third Law from the Law of Gravitation.

5. Under what conditions must a transit of Venus occur? What condition must the interval of time between two transits satisfy approximately?

6. Show how to find the horizontal parallax of the Moon.

7. The star Regulus being on the ecliptic, and approximately 28° in the sign Leo of the zodiac, find the time of the year when he is most displaced owing to the aberration of light.

8. Show how to find the diameter of the section of the Earth's shadow where the Moon crosses it.

9. Taking the equation of time to be + 14 m., find the apparent time at Washington (long. 5 h. 8 m. 12 s. W.), and at Hongkong (long. 7 h. 36 m. 42 s. E.), when the mean time at Dublin (long. 25 m. 22 s., W.) is 11 a.m.

10. Describe a method for getting the latitude at sea which will apply when the Sun is not on the meridian.

11. What do you understand by the terms—'double stars,' 'binary stars,' 'variable stars'? Where is the star Algol, and what do you know about it?

ENGLISH COMPOSITION.

MR. MACRAN.

[I.]

(*For Junior Sophisters.*)

Write an essay on—

(*a*) The romantic temperament of Waverley.

Or,

(*b*) Coleridge's treatment of the Supernatural.

[II.]

(*For Senior Sophister Supplementalists, Hilary Term.*)

Write an essay on—

(*a*) Wordsworth's love of Nature in youth and age.

Or,

(*b*) The lyrics of Burns.

[III.]

(*For Senior Sophister Supplementalists, Trinity Term.*)

Write an essay on—

(*a*) The mistakes of Clive's administration.

Or,

(*b*) *The Palace of Art.*

νῆα.

τῶν γὰρ ἄκρων τὸ μέν ἐστιν ἁμαρτωλότερον τὸ δ' ἧττον· ἐπεὶ οὖν τοῦ μέσου τυχεῖν ἄκρως χαλεπόν, κατὰ τὸν δεύτερόν φασι πλοῦν τὰ ἐλάχιστα ληπτέον τῶν κακῶν.—ARISTOTLE.

1. Aristotle makes a threefold division of *τὰ ἐν τῇ ψυχῇ γενόμενα*. How does he decide the place of virtue among them?

2. Give the Aristotelian meanings of—*περιγίνεσθαι, προαιρεῖσθαι, ἐνεργεῖν, ὑποτιθέναι, διακεῖσθαι.*

II.

Translate :—

Et tamen ita probanda est mansuetudo atque clementia, ut adhibeatur, reipublicae caussa, severitas, sine qua administrari civitas non potest. Omnis autem et animadversio et castigatio contumelia vacare debet; neque ad eius, qui punitur aliquem aut verbis castigat, sed ad reipublicae utilitatem referri. Cavendum est etiam, ne maior poena, quam culpa sit : et ne iisdem de caussis alii plectantur, alii ne appellentur quidem. Prohibenda autem maxime est ira in puniendo. Numquam enim, iratus qui accedet ad poenam, mediocritatem illam tenebit, quae est inter nimium et parum; quae placet Peripateticis, et recte placet, modo ne laudarent iracundiam et dicerent utiliter a natura datam. Illa vero omnibus in rebus repudianda est; optandumque, ut ii, qui praesunt reipublicae, legum similes sint, quae ad puniendum non iracundia, sed aequitate ducuntur.—CICERO.

1. Explain the following phrases :—In aerariis relinquere—adversus hostem aeterna auctoritas—Non cauponantes bellum sed belligerantes.

2. Define *κατόρθωμα, καθῆκον, ὁρμή, σοφία, φρόνησις*, giving the Latin equivalents.

1. State briefly the position taken up by Thrasymachus.

2. What different form of reward does Socrates propose for those who hold offices of State?

II.

Translate into English:—

Si vero, quoniam casus apibus quoque nostros
Vita tulit, tristi languebunt corpora morbo;
Quod iam non dubiis poteris cognoscere signis:
Continuo est aegris alius color; horrida vultum
Deformat macies; tum corpora luce carentum
Exportant tectis, et tristia funera ducunt;
Aut illae pedibus connexae ad limina pendent,
Aut intus clausis cunctantur in aedibus omnes,
Ignavaeque fame et contracto frigore pigrae.
Tum sonus auditur gravior, tractimque susurrant:
Frigidus ut quondam silvis immurmurat Auster,
Ut mare sollicitum stridit refluentibus undis;
Aestuat ut clausis rapidus fornacibus ignis.
Hic iam galbaneos suadebo incendere odores,
Mellaque arundineis inferre canalibus, ultro
Hortantem et fessas ad pabula nota vocantem.

VIRGIL.

1. What does Virgil allude to when he talks of Ascraeum carmen—mystica vannus Iacchi—Pellaei gens fortunata Canopi—Nisus and Scylla?

2. Give the meanings of—funda, fiscina, stipula, mergus, imbrex, tilia.

LATIN COMPOSITION.

MR. BURY.

After the extinction of the house of Severus, the Roman world remained three days without a master. The troops, with some reluctance, proclaimed Macrinus emperor, for they despised his military talents, and suspected his personal courage. The senate, of course, ratified the choice of the army; but they were indignant that a man of equestrian rank should dare to invest himself with the purple, instead of bestowing it on some distinguished senator, equal in birth and dignity to the splendour of the Imperial station. Macrinus might have despised the manners of the senate if he had possessed the affections of the army.

EXPERIMENTAL PHYSICS.

MR. THRIFT.

1. Describe methods of determining the volumes of irregularly-shaped solids.

2. Describe a method of determining the coefficient of expansion of a liquid with temperature.

3. Enunciate and explain Ohm's Law, defining the terms 'electric pressure' and 'resistance.'

4. Describe a graphic method of determining the pitch of a note.

5. Describe experiments in support of the wave-theory of light.
How may the wave-length of yellow light be measured by means of a grating?

Senior Sophister Supplementalists must substitute the following question for No. 2, above:—

*2. Define the conductivity for heat of a substance.
Explain a method of determining its value for a bad conductor.

CHEMISTRY.

DR. EMERSON REYNOLDS.

(*For Junior Sophisters.*)

1. The free molecule of hydrogen gas includes two atoms of the element: what experimental evidence can be cited in support of that statement?

2. Give some account of the two oxides of carbon, and point out their distinctive characters.

3. How are the alkali metals distinguished as a class? By what means can common salt be made to afford carbonates and a hydrate of the metal?

4. How many volumes of atmospheric air are required for the complete combustion of one volume of marsh gas? What volume will their products occupy when cooled to the initial temperature?

(*For Senior Sophister Supplementalists.*)

1. What is meant by the term 'homologous series' as used in Organic Chemistry? Give examples of such series.

2. Acetone and ordinary aldehyde are simply related in constitution and in some of their properties: point out the nature of these relations.

3. How is ethylamine obtained and distinguished from ammonia?

4. How would you prove, experimentally, that methyl or ethyl alcohol includes the hydroxyl group?

HISTORY.

MR. BASTABLE.

1. Write a note on the position of Ireland under Henry VIII.

2. Explain briefly the points at issue in the following cases:—

(*a*) The case of the *post-nati*.

(*b*) Bate's case.

(*c*) The five knights' case.

3. Give a short account of the military operations preceding the battle of Naseby. What were the results of that battle?

4. Sketch the career of (*a*) Charles Montague, *or* (*b*) Bolinbroke.

5. Specify the noteworthy features in (*a*) the Trafalgar campaign, (*b*) the campaign of Austerlitz.

6. What were the Decrees of August 4th, 1789?

7. Give a short account of Marshal Saxe.

8. What were the principal objects of Mazarin's policy? Notice, in particular, his relations with Cromwell.

9. Consider the influence of Francis I. in promoting the progress of science and art.

ETHICS AND LOGICS.

MR. BEARE.

[A.]

(*For Hilary Supplementalists.*)

1. How does Locke distinguish the different *degrees* of human knowledge? Give illustrations.

2. How, according to Locke, is the *extent* of human knowledge limited?

3. How far is our knowledge concerning *substances* rea ?

4. What are the various kinds of 'trifling' propositions enumerated by Locke?

5. 'We have a threefold knowledge of existence.' Explain and illustrate this.

6. How does Stewart trace the appearances of design in nature?

7. State and explain, after Stewart, the duties which we owe to our fellowmen.

8. What difficulties have been raised about the nature and origin of *moral obligation*, and how does Stewart explain them ?

9. Enumerate, after Stewart, 'the active and moral powers.' What is the meaning of 'active' here ?

10. Explain the meaning of *evil*. What theories have been framed to account for the origin of evil in this world ?

[B.]

(*For Trinity Supplementalists.*)

Candidates will answer Questions 6 *to* 10 *of part* [A.] *above, together with the following :—*

1. 'The true notion or conception of the Author of Nature is that of a master or governor.' How does Butler prove this?

2. What are the 'circumstances in the natural course of punishments at present,' noticed by Butler as being 'analogous to what religion teaches us concerning a future state of punishment'?

3. Give the leading points of Butler's argument to show that 'the present life is intended to be a state of discipline for a future one.'

4. 'It is ridiculous to assert that self-denial is essential to virtue and piety.' Why?
Is it 'essential to discipline and improvement'?

5. 'That we have this moral approving and disapproving faculty is (says Butler) certain.' On what various grounds does he make it appear certain ?

FINAL FRESHMAN EXAMINATION AND SENIOR FRESHMEN SUPPLEMENTING HILARY AND TRINITY EXAMINATIONS.

MICHAELMAS TERM, 1902.

ALGEBRA AND ARITHMETIC.

MR. ROBERTS.

1. Simplify
$$\frac{(x+y)^3(x^2-y^2)+(x-y)^5-2x^5+2y^5}{(x-y)\{5xy-x^2-y^2)}.$$

2. Find the value of
$$x^3+y^3+z^3-3xyz$$
when
$$x=b-c,$$
$$y=c-a,$$
$$z=a-b.$$

3. Solve the equations
$$xy=3x+20y,$$
$$\frac{5}{x}+\frac{7}{y}+2=0,$$

4. Solve
$$2\sqrt{x^2+7x+11}=\sqrt{x+3}+\sqrt{x+2}.$$

5. Find the square root of
$$\frac{b^2c^2}{(b-c)^2}+\frac{c^2a^2}{(c-a)^2}+\frac{a^2b^2}{(a-b)^2}.$$

6. A number, consisting of two digits, when divided by their sum is equal to 7; if the first digit exceed the second by 3, find the number.

7. Divide £46 10*s*. 9*d*. among 3 men, 5 women, and 4 boys, giving each boy $\frac{1}{4}$ and each woman $\frac{1}{3}$ of what each man gets.

8. A man invests £4297 10*s*. in Three per Cents. at $95\frac{1}{2}$. He sells a third of the Stock at 94, £1600 at $96\frac{1}{4}$, and the rest at par. How much does he gain?

9. *A* and *B* can do a piece of work in 2 days, *B* and *C* can do it in 4 days, *B* alone can finish it in $5\frac{1}{2}$ days: how long will it take *A* and *C* respectively to do it alone?

10. *A* and *B* row up a stream flowing at the rate of $1\frac{1}{4}$ miles per hour to a place 3 miles distant, occupying 1 hour 12 minutes. How long will it take them to row back?

TRIGONOMETRY.

MR. CULVERWELL.

1. Prove the formula for $\cos(A+B)$ in terms of A and B, omitting no necessary step.

2. Prove that $\sin^2 A - \sin^2 B = \sin(A+B)\sin(A-B)$.

3. Show that if the ordinary rule as to lines starting in opposite directions having opposite signs, were not followed, the expression for $\cos(A+B)$ would not be true if $A+B$ were between 90° and 270°.

4. Express, without extracting square roots, all the trigonometrical functions of an angle whose sine is one-third. How many such angles are there from 0° to 360°?

5. Assuming $\pi = 3{\cdot}14159$, calculate the number of seconds in a radian.

6. Two objects, A and B, are distant 100 ft. from the observer, and the ground on which they stand is at the level of the observer's eye. If A subtends an angle of 30″ and B an angle of 45°, find, to the nearest foot, their respective heights.

7. The bottom of a tower appears to an observer 30° above the horizon, while the top appears 45° above the horizon, its horizontals measured towards the tower being 100 yards. Find, to the nearest foot, how much higher the top of the tower is than the hill on which it stands.

8. Find, to the nearest square foot, the area of the triangle whose sides are 90 ft., 72·5 ft., and 62·5 ft.

9. Find the sine or the cosine of the smallest angle of the triangle in question 8.

10. Explain the fundamental principle of logarithms, and why their use shortens the labour of calculation so much.

MECHANICS.

MR. RUSSELL.

1. If three forces act from the vertices of a triangle towards the middle points of the opposite sides, and if the forces be proportional to the lengths of the bisectors along which they act, prove that they balance one another.

2. If three parallel forces balance one another, prove that the middle force divides the distance between the other two portions inversely proportional to the extreme forces.

3. Define the terms—'component of a force in a direction inclined at an angle to the force,' 'moment of a force round a point,' and 'moment of a couple.'

Prove that the moments of two forces round any point on their resultant are equal in magnitude but opposite in sign.

4. A load of 5 cwt. is placed on a rough plane whose length is 41, height 9, and coefficient of friction $\frac{1}{8}$: will it remain in equilibrium if left unsupported? Find the least force parallel to the plane that is necessary to move it up.

5. Draw a diagram of the system of pulleys in which all the strings are attached to the weight; and find the relation between the power and the weight in the case where there are four pulleys.

6. State Newton's second law of motion. A body is moving in a given direction, and is struck a blow which causes it to move with unaltered velocity in a direction making 120° with its original line of motion: find the direction in which the blow was struck.

7. In uniformly accelerated motion, assuming that

$$v = u + ft \quad \text{and} \quad s = \tfrac{1}{2}(u + v)\, t,$$

prove the formulæ

$$s = ut + \tfrac{1}{2}ft^2 \quad \text{and} \quad v^2 = u^2 + 2fs,$$

where u = initial velocity, f = acceleration, v = velocity at end of t seconds, and s = space passed over in t seconds.

8. A body of mass 4 lbs. is attached to a fixed point by means of a string 4 yards long, and moves with a velocity of 36 feet per second: find the angular velocity and the tension in the string.

9. A body is projected from a fixed point in a direction inclined to the horizontal at an angle $\sin^{-1}\frac{3}{5}$. If the initial velocity is 2000 feet per second, find its position at the end of 10 seconds.

10. Two smooth inclined planes A and B, whose common height is 9 feet, are placed together with their highest edges in contact. Given that the lengths of A and B are 15 feet and 41 feet, respectively, find the velocity with which a particle should be projected up A in order that it may just slide down B, and find the velocity when it has descended to the ground again.

[*Trinity Supplementalists will substitute the following for* 6, 7, 8, 9, 10.]

11. A square whose side is 12 inches, and weight 16 lbs., has weights of 9, 10, 11, 12 lbs. placed at the corners: find the position of the point at which it will balance.

12. Explain the principle of work. A force of 10 lbs. weight acts on a body, and the point of application moves through a distance of 10 feet in a direction inclined to the force at an angle of 60°: find the amount of work done.

13. Being given that the arms of a balance are not the same length, show how the true weight of a body may be found by it.

14. The interval between the threads of a screw is $\frac{1}{10}$th of an inch, and the circumference of the circle swept out by the extremity of the arm is 10 feet: find the least force applied to the arm necessary to produce a pressure of 1000 lbs.

CLASSICS.

ἀλλ' οὔτ' ἐραστὴς τῆσδε τῆς γνώμης ἔφυν
οὔτ' ἂν μετ' ἄλλου δρῶντος ἂν τλαίην ποτε.
καὶ τῶνδ' ἔλεγχον τοῦτο μὲν Πυθώδ' ἰὼν
πεύθου τὰ χρησθέντ', εἰ σαφῶς ἤγγειλά σοι·
τοῦτ' ἄλλ', ἐάν με τῷ τερασκόπῳ λάβῃς
κοινῇ τι βουλεύσαντα, μὴ μ' ἁπλῇ κτάνῃς
ψήφῳ, διπλῇ δὲ, τῇ τ' ἐμῇ καὶ σῇ, λαβών.
γνώμῃ δ' ἀδήλῳ μή με χωρὶς αἰτιῶ.
οὐ γὰρ δίκαιον οὔτε τοὺς κακοὺς μάτην
χρηστοὺς νομίζειν οὔτε τοὺς χρηστοὺς κακούς.
φίλον γὰρ ἐσθλὸν ἐκβαλεῖν ἴσον λέγω
καὶ τὸν παρ' αὑτῷ βίοτον, ὃν πλεῖστον φιλεῖ.
Sophocles.

Parse—*βαλεῖν, λαβών, χρησθέντ', πεύθου.*

II.

D. Quorsum isthuc? *M.* Quia tu, Demea, haec male iudicas.
Non est flagitium, mihi crede, adolescentulum
Rixari, neque lusisse; non est, neque fores
Effringere. Haec si neque ego, neque tu, fecimus,
Non sivit egestas facere nos. Tu nunc tibi
Id laudi ducis, quod tum fecisti inopia.
Iniurium est. Nam si esset unde id fieret,
Faceremus: et tu illum tuum, si esses homo,
Sineres nunc facere, dum per aetatem licet,
Potius quam, ubi te expectatum ciecisset foras,
Alieniore aetate post faceret tamen.
D. Pro Iupiter, tu me homo adigis ad insaniam.
Non est flagitium facere haec adolescentulum? *M.* Ah,
Ausculta, ne me obtundas de hac re saepius.

TERENTIUS.

Parse—excludetur, quieris, esses, effractus.

LATIN COMPOSITION.

DR. L. C. PURSER.

When these arrived at the hills where the enemy's guard was posted, struck with mutual fear, both parties stood as if stupefied. They then sent back messengers to their respective commanders; and when the first alarm subsided, they proceeded to action without further delay. The fight was begun by small advanced parties; and afterwards the number of the combatants was increased by reinforcements of men who supported those who gave way. The Romans, being far inferior to their adversaries in this contest, sent messages to the consul that they were being overpowered. On the receipt of these messages he sent five hundred horse and two thousand foot, mostly Aetolians, who relieved the hard-pressed Romans and restored the fight. The Macedonians, distressed in turn by this change of fortune, sent messages to their king to beg for aid; but as, on account of the general darkness from the fog, he had expected nothing less on that day than a battle, and had therefore despatched a great number of his men to forage, he was for a long time in perplexity and unable to form a resolution as to his best course of action.

ENGLISH COMPOSITION.

DR. R. Y. TYRRELL.

1. Analyse the character of Macbeth, illustrating your analysis by some of his most sublime utterances.

Or,

2. Give the purport of Bacon's thoughts on Friendship, and comment on the same as evidence for or against the theory that Bacon was the author of the Shakespearian plays.

(*For Hilary Supplementalists.*)

1. Give the *Spectator's* account of Sir Roger at the Play, *or* of Sir Roger in Westminster Abbey.

Or,—

2. Characterise the style of Addison, with illustration.

Or,—

3. Trace the train of thought in Gray's Elegy.

(*For Trinity Supplementalists.*)

1. Do you consider that *The Traveller* and *The Deserted Village* exhibit Goldsmith at his best? Give reasons for your opinion, and support it by quotations.

Or,—

2. Compare *Stella* and *Vanessa*.

JUNIOR FRESHMEN.

EUCLID.

MR. FRY.

1. Prove that the sum of any two sides of a triangle is greater than the third side.

2. Find a line such that the square on it shall be equal to the difference of the squares on two given lines.

3. Give the proof of the proposition in geometry which corresponds to the algebraic one that

$$(x - y)^2 + 2xy = x^2 + y^2.$$

4. Prove all the cases of the proposition that the angle at the centre of a circle is double the angle at the circumference standing on the same arc.

5. If two chords of a circle intersect in a point within the circle, prove that the rectangle contained by the segments are equal.

6. What theorems are referred to by the terms :—*alternando*, *dividendo*, *addendo*, *ex aequali*?

7. If two triangles have the same altitude, and if the base of one is $\frac{3}{5}$ths of the base of the other, prove that one triangle is $\frac{3}{5}$ths of the other.

8. If two triangles have an angle of the one equal to an angle of the other, and the sides about the equal angles reciprocally proportional, prove that the triangles are equal in area.

9. Construct an equilateral triangle which shall be equal to a given square.

10. Two parallelograms have an angle of the one A equal to an angle of the other B: what can you state about the parallelograms when the containing sides of A and B are given to be (*a*) of A 56, 24, of B 15, 35; (*b*) of A 13, 18, of B 9, 26; (*c*) of A 21, 35, of B 49, 20?

ALGEBRA AND ARITHMETIC.

MR. ROGERS.

1. Solve the equation

$$\frac{x+1}{2} + \frac{x+2}{3} = \frac{x+3}{4} + \frac{x+4}{5}.$$

2. Solve the equation

$$\frac{x^2-1}{x^2-3} = \frac{3x-1}{3x-3}.$$

3. Find the value of

$$a^2(b-c)+b^2(c-a)+c^2(a-b)$$

when

$$a=17,\quad b=18,\quad c=19.$$

4. If 7 men and 4 boys do in 1 day the same amount of work as 3 men and 3 boys could do in 2 days, what proportions of the work can be done in a day by one man and one boy, respectively?

5. Solve the equation

$$\sqrt{7x+1}+\sqrt{5x}=11,$$

and verify your answer.

6. If the cost of carpeting a floor, 15 feet by 20 feet, is £7 4*s*. 6*d*., what is the cost of carpeting a floor, 12 feet by 15 feet, with the same material?

7. A crew rows a distance of $4\frac{1}{4}$ miles in 20 minutes at an average rate of 34 strokes a minute. What average distance does the boat travel each stroke?

8. Find the present value of a loan which is to be paid back by three yearly instalments of £50 made at the end of each year, at 5 per cent. interest.

9. Multiply $\cdot 000\dot{6}$ by $6\cdot 8\dot{3}5\dot{1}$.

10. Find to the nearest whole number how many times 7*s*. 9*d*. will divide into £5 6*s*. 4*d*., and state the remainder.

TRIGONOMETRY.

MR. ROBERTS.

1. Assuming the value of π to five places of decimals, determine the number of seconds in the angular unit.

2. The moon's disc subtends an angle of 1920″ at the Earth's surface. Calculate in miles the Moon's diameter, assuming that her distance is sixty times the Earth's radius.

3. Prove the formula for $\cos(A-B)$.

4. If $\sin A=\frac{40}{41}$ calculate $\cos A$ and $\tan\frac{A}{2}$.

5. Simplify $$\frac{\sin 3A-3\sin A}{4\sin^2 A\cos A}.$$

6. In a triangle $a=85$, $b=116$, $c=93$ find $\sin A$ and the area.

7. If $\sin A = \frac{\sqrt{3}-1}{2\sqrt{2}}$, and $\cos B = \frac{\sqrt{3}}{2}$, find

$\sin(A+B)$, being given that A and B are both acute angles.

8. Prove the formula

$$\frac{\tan\frac{1}{2}(A-B)}{\tan\frac{1}{2}(A+B)} = \frac{a-b}{a+b}.$$

9. Explain what is meant by the ambiguous case of triangles.

(*a*) When is there no ambiguity?

10. The elevation of the top of a tower is α, from a given point A on a horizontal plane passing through the base of the tower, and β from a point 100 feet nearer the base; calculate the height of the tower.

CLASSICS.

MR. MACRAN.

I.

Translate into English:—

τῶνδε δὲ εἵνεκεν προσεδεήθησαν αὐτῶν σχεῖν πρὸς Σαλαμῖνα Ἀθηναῖοι, ἵνα αὐτοὶ παῖδάς τε καὶ γυναῖκας ὑπεξαγάγωνται ἐκ τῆς Ἀττικῆς, πρὸς δὲ καὶ βουλεύσωνται τὸ ποιητέον αὐτοῖσι ἔσται. ἐπὶ γὰρ τοῖσι κατήκουσι πρήγμασι βουλὴν ἔμελλον ποιήσεσθαι ὡς ἐψευσμένοι γνώμης. δοκέοντες γὰρ εὑρήσειν Πελοποννησίους πανδημεὶ ἐν τῇ Βοιωτίῃ ὑποκατημένους τὸν βάρβαρον τῶν μὲν εὗρον οὐδὲν ἐὸν, οἱ δὲ ἐπυνθάνοντο τὸν Ἰσθμὸν αὐτοὺς τειχέοντας, τὴν Πελοπόννησον περὶ πλείστου τε ποιευμένους περιεῖναι καὶ ταύτην ἔχοντας ἐν φυλακῇ, τὰ δὲ ἄλλα ἀπιέναι.—Herodotus.

1. Parse the words—*σχεῖν, ὑπεξαγάγωνται, κατήκουσι, ἐὸν, ἀπιέναι* in the above passage.

2. In what senses does Herodotus employ *ὁ, ἡ, τό*?

II.

Translate into English:—

Scipio nec vexationem vulneris in via iactanti ultra patiens et collegam —iam enim et revocatum ex Sicilia audierat—ratus exspectandum, locum, qui prope flumen tutissimus stativis est visus, delectum communiit. Nec procul inde Hannibal quum consedisset, quantum victoria equestri elatus, tantum anxius inopia, quae per hostium agros euntem nusquam praeparatis commeatibus maior in dies excipiebat, ad Clastidium vicum, quo magnum frumenti numerum congesserant Romani, mittit. Ibi quum vim pararent, spes facta proditionis, nec sane magno pretio nummis aureis quadringentis Dasio Brundisino praefecto praesidii corrupto, traditur Hannibali Clastidium. Id horreum fuit Poenis sedentibus ad Trebiam.—Livy.

1. Parse—*venierunt, praesensum, trita, diffisi, erectam.*

2. Give the meanings of—*funditor, conquisitor, concionabundus, manipulus, Vergiliae.*

LATIN COMPOSITION.

MR. BEARE.

Ten days ago you were eagerly longing for a battle: do you now shrink back? Ask yourselves whether you prefer a glorious death or an inglorious flight. At these words the soldiers were filled with fury; they cast aside fear, they forgot their complaints, and promised one another to conquer or to die: and there was not one who thought victory for a moment doubtful. Soon afterwards all retired to their several tents, and there, by the command of the general, rested themselves till night brought darkness and the conflict. The general then ordered all the bravest centurions to appear before him, for the purpose of receiving their several instructions.

ENGLISH COMPOSITION.

MR. GOLIGHER.

[Choose *one* subject.]

1. Pope's characterisation of Belinda.

2. The influence of the ruling passion in man.

3. The controversy which produced the *Battle of the Books*, with special reference to Swift's attitude towards it.

SPECIAL EXAMINATION FOR MEDICAL STUDENTS.

DR. L. C. PURSER.

Translate into Latin:—

1. Socrates was brought to trial on the charge of corrupting the youth, but in reality because he had become suspected by those in power.

2. Your sister blamed you for not writing three letters to her in the whole of a year.

3. The enemy at once sounded a retreat. When he heard this, the consul bade his men also retire to take food and sleep.

4. Caesar asked his soldiers why they distrusted their own valour or his energy. 'Are you not' (said he) 'too brave to fear death?' [Use *oratio obliqua*.]

5. You must be ignorant of your position. You cannot hope that it will be your good fortune to escape.

DR. L. C. PURSER.

[A.]

1. Decline—*πολίτης, ὕδωρ, κύων.* Compare *γεραιός.*
Write out the ordinal numerals in Greek from 1 to 10.

2. Write out, in full, the present and imperfect indic. active of *ἵστημι.* What are the transitive and intransitive tenses of *ἵστημι*?

3. Translate into idiomatic Greek—

(*a*) They used to shoot (*τοξεύειν*) in the very act of running away.
(*b*) He entered the city without being noticed.
(*c*) He arrived before me on the fourth day.
(*d*) What must I do to oblige you? (*χαρίζεσθαι*).

4. Construct sentences (giving translations) to illustrate the usages of *οὐ μή*, and of *μὴ οὐ.*

[B.]

5. Decline *facinus, jecur, vis.* Compare *honorificus.*
Write out the adverbial numerals in Latin from 1 to 10.

6. Give the perf. subjunctive active, future active participle, and gerundive, of *pario, lacesso, cognosco, trudo, cano.*

7. Explain (giving examples with translations) the various ways of expressing a prohibition in Latin.

8. Construct sentences (with translations) illustrating the constructions of *interest, vereor, fungor, obliviscor.*

DR. L. C. PURSER.

1. Give some account of the principal Panhellenic games. What was the Amphictionic league?

2. Explain the terms—*cleruchia, crypteia, epheboi, graphè paranomon, polemarch, seisachtheia, theoric fund, thetes:*

3. Who were Artemisia, Callicratidas, Draco, Eubulus, Harpalus, Hyperbolus, Mardonius, Parmenio, Pheidon, Thucydides son of Melesias. State, approximately, when each lived.

4. Write an account, at some length, of the works of Aeschylus, *or* Pindar, *or* Plato, *or* Xenophon.

5. Write an account of the Licinian Laws, and the final equalization of the patricians and plebeians.

6. Give, with dates, the chief events in the Punic War from Cannae to Zama.

7. Write an essay on the legislation of Caius Gracchus.

8. Who were Bibulus, Decimus Brutus, Clodius, Fimbria, Laelius, Lucullus, Massinissa, Mithradates the Great, Scaurus, Tigranes? State, approximately, when each lived.

DR. L. C. PURSER.

Translate into English :—

Lucian's Imaginary Voyage.

Ὁρμηθεὶς γάρ ποτε ἀπὸ Ἡρακλείων στηλῶν καὶ ἀφεὶς ἐς τὸν ἑσπέριον ὠκεανὸν οὐρίῳ ἀνέμῳ τὸν πλοῦν ἐποιούμην. αἰτία δέ μοι τῆς ἀποδημίας καὶ ὑπόθεσις ἡ τῆς διανοίας περιεργία καὶ πραγμάτων καινῶν ἐπιθυμία, καὶ τὸ βούλεσθαι μαθεῖν, ὅ τι τὸ τέλος ἐστὶ τοῦ ὠκεανοῦ καὶ τίνες οἱ πέραν κατοικοῦντες ἄνθρωποι τούτου γέ τοι ἕνεκα πάμπολλα μὲν σιτία ἐνεβαλόμην, ἱκανὸν δὲ καὶ ὕδωρ ἐνεθέμην, πεντήκοντα δὲ τῶν ἡλικιωτῶν προσεποιησάμην τὴν αὐτὴν ἐμοὶ γνώμην ἔχοντας· ἔτι δὲ καὶ ὅπλων πολύ τι πλῆθος παρεσκευασάμην, καὶ κυβερνήτην τὸν ἄριστον μισθῷ μεγάλῳ πείσας παρέλαβον, καὶ τὴν ναῦν (ἄκατος δὲ ἦν) ὡς πρὸς μέγαν καὶ βίαιον πλοῦν ἐκρατυνάμην. ἡμέραν μὲν οὖν καὶ νύκτα οὐρίῳ ἀνέμῳ πλέοντες, ἔτι τῆς γῆς ὑποφαινομένης, οὐ σφόδρα βιαίως ἀνηγόμεθα· τῇ ἐπιούσῃ δὲ ἅμα ἡλίῳ ἀνίσχοντι ὅ τε ἄνεμος ἐπεδίδου καὶ τὸ κῦμα ηὐξάνετο καὶ ζόφος ἐπεγίγνετο καὶ οὐκέτ' οὐδὲ στεῖλαι τὴν ὀθόνην δυνατὸν ἦν. ἐπιτρέψαντες οὖν τῷ πνεύματι καὶ παραδόντες αὐτοὺς ἐχειμαζόμεθα ἡμέρας ἐννέα καὶ ἑβδομήκοντα· τῇ ὀγδοηκοστῇ δέ, ἄφνω ἐκλάμψαντος ἡλίου, καθορῶμεν οὐ πόρρω νῆσον ὑψηλὴν καὶ δασεῖαν, οὐ τραχεῖ περιηχουμένην τῷ κύματι· καὶ γὰρ ἤδη τὸ πολὺ τῆς ζάλης καταπέπαυτο.—LUCIAN.

II.

Praying for long life to a Tyrant.

(*a*) Syracusis senectutis ultimae quaedam mulier, civibus omnibus Dionysii tyranni exitum, propter nimiam morum acerbitatem et intolerabilia onera, votis expetentibus, sola quotidie matutino tempore deos, ut incolumis ac sibi superstes esset orabat. Quod ubi is cognovit, non debitam sibi admiratus benevolentiam, arcessit eam, et quid ita hoc aut quo suo merito faceret interrogavit. Tum illa, 'Certa est,' inquit, 'ratio propositi mei: puella enim, cum gravem tyrannum haberemus, carere eo cupiebam: quo interfecto, aliquanto taetrior arcem occupavit. Eius quoque finiri dominationem magni aestimabam: tertium te superioribus importuniorem habere coepimus rectorem. Itaque timens ne, si tu fueris absumptus, deterior quis in locum tuum succedat, caput meum pro tua salute devoveo.' Tam facetam audaciam Dionysium punire pudebat.

Praises of Italy.

(*b*) Hic ver assiduum, atque alienis mensibus aestas;
Bis gravidae pecudes, bis pomis utilis arbos.
At rabidae tigres absunt et saeva leonum
Semina, nec miseros fallunt aconita legentes:
Nec rapit immensos orbes per humum, neque tanto
Squameus in spiram tractu se colligit anguis.

Hilary Term, 1903.

ENTRANCE EXAMINATION.

JANUARY.

ALGEBRA AND ARITHMETIC.

MR. ROBERTS.

1. Divide
$$12x^3 + 11x^2 + 6x + 1 \quad \text{by} \quad 1 + 2x + 3x^2.$$

2. Find the simplest value of
$$\left\{ \frac{\frac{1}{x} + \frac{y}{x^2} - \frac{2}{y}}{\frac{1}{x} - \frac{1}{y}} \right\} \div \left(1 + \frac{x+y}{x} \right).$$

3. Multiply
$$x^2 + 2xy + y^2 + 2x + 4y + 4 \quad \text{by} \quad x - 2y - 2.$$

4. Write down the factors of
$$x^2 - y^2, \qquad x^3 + y^3, \qquad x^4 - y^4.$$

5. Solve the equation
$$\frac{x}{5} + \frac{x-3}{2} = 2(x-4).$$

6. Simplify
$$\frac{6}{(a-1)(a-2)} - \frac{4}{(a-1)(3-a)} + \frac{2}{(a-2)(a-3)}.$$

7. Find the G. C. M. of
$$2x^3 + \dot{x}^2 + 2x + 1 \quad \text{and} \quad 4x^2 - 1.$$

8. Multiply $5\cdot\dot{7}1428\dot{5}$ by $7\cdot\dot{4}15\dot{8}$.

9. Reduce 1 ton 14 cwt. 2 qrs. 18 lb. to ounces.

10. If 24 lb. of tea cost £1 13*s*. what is the price of $17\frac{1}{2}$ lb.?

HISTORY AND GEOGRAPHY.

MR. EXHAM.

[*Only* THREE *questions to be answered in each section.*]

1. Give approximately the population, and name in order the boundaries, of the Russian Empire.

2. By what two routes may a voyage be made from Liverpool to Melbourne? Give the chief capes and ports passed on either route, and the latitude of each of these towns.

3. Trace the course of the following rivers, naming two towns in each:—Vistula, Volga, Tagus, Trent, Avon, Boyne, Indus, Euphrates, Amazon, Niger.

4. Where are—Avignon, Bonkok, Batavia, Belgrade, Caracas, Cronstadt, Hamburg, Kroonstad, Lima, Mantua, New Orleans, St. Pierre, Tientsin, Toronto, Utrecht?

---

5. Indicate, with dates, the most important stages in the growth of the British Parliament.

6. What do you know of—Anselm, Thomas-à-Becket, Thomas Cromwell, the Earl of Essex, the Earl of Strafford, Edmund Burke, John Dryden, Francis Bacon, John Wycliffe, Perkin Warbeck?

7. Name the chief events (with dates) in English history from 1600 to 1650 A.D.

8. Give a very brief account of the way in which England's continental territory was lost, and her colonial territory acquired.

LATIN COMPOSITION.

MR. SMYLY.

Crassus, pursuing his journey, came to Brundusium; and though the winter storms made the voyage dangerous, he put to sea, and lost a number of vessels in his passage. As soon as he had collected the rest of his troops, he continued his route by land through Galatia. There he paid his respects to Deiotarus, who, though an old man, was building a new city. Crassus laughed, and said, 'You begin to build at the twelfth hour of the day!' The king laughed in his turn and answered, 'You do not set out very early in the morning against the Parthians!' Crassus, indeed, was then above sixty years of age, and he looked much older than he was.—PLUTARCH.

ENGLISH COMPOSITION.

MR. E. J. GWYNN.

Write an essay on one of these subjects:—

1. A study of any one character in the novels of Scott, or Thackeray, or George Eliot.

2. The causes and effects of emigration from Ireland.

3. A letter to the *Field* describing, in detail, an average day's sport in your own county.

SENIOR SOPHISTERS AND SUPPLEMENTAL DEGREE EXAMINATION.

ASTRONOMY.

DR. PANTON.

1. Name six stars of the first magnitude (with the constellations to which they belong) visible to observers in these latitudes; and exhibit in a figure the relative positions of the *Plough*, *Cassiopeia's Chair*, the *Pole Star*, *Vega*, and *Capella*.

2. Describe the measurements and calculations necessary to obtain the length of the Earth's diameter.

3. Explain fully how the Moon's distance from the Earth is found.

4. How is it proved that the Sun is a spherical body? How is the length of the diameter obtained?

5. What is the cause of twilight? Where, on the Earth's surface, is its duration shortest, and why? Within what latitudes will it last all night on Midsummer Night?

6. Describe the phenomenon of the *precession of the equinoxes*. Why is it so called? What is its effect on (*a*) the latitude, and (*b*) the longitude, of a fixed star?

7. Prove that more than half the disc of a superior planet is always seen, and that the planet appears most gibbous in quadrature.

8. State clearly the causes of the inequality in the retardations of rising of the Moon at different periods of the year.

(*a*) Why is there more moonlight in the winter than in the summer?

9. Explain any method by which the accurate right ascension of one star is obtained.

10. State the principle by means of which longitudes of places on the Earth's surface are ascertained.

(*a*) Describe the 'lunar method' of finding longitudes at sea, and point out its defects.

ETHICS.

MR. BEARE.

[A.]

(*For Senior Sophisters.*)

1. 'We have,' says Locke, 'a three-fold knowledge of existence.' Explain.

2. How far is *general* certainty attainable by us?

3. What, according to Locke, are the 'causes of our ignorance?

4. Classify the 'qualities of body.' Enumerate the *primary* qualities.

5. How does Stewart distinguish *appetites* from *desires*?

6. How does he state and criticise the various theories proposed to explain the origin of evil? What is meant by *evil*?

7. What are the duties which we owe to our fellow-men?

8. On what points does he enter into controversy with Hume?

9. What accounts of the nature of the moral faculty were given by Cudworth and Hutcheson, respectively? What difficulties are connected with each?

10. What arguments does Stewart urge against those who would explain the moral faculty by regard for self-interest?

[B.]

[*Candidates supplementalizing Trinity Term will answer Questions* 6, 7, 8, 9, 10 *of* [A], *together with the following from Butler.*]

1. Explain after Butler the practical value of *probable* evidence.

2. 'Why does not the Author of Nature make his creatures happy without the instrumentality of their own actions?' How does Butler deal with this question?

3. Is virtue in this world its own reward? Answer from Butler.

4. 'Going over the theory of virtue in one's thoughts and drawing fine pictures of it'—is this conducive to moral improvement?

5. The 'opinion of necessity' is destructive of all religion. How?

6. Is benevolence, singly considered, the whole of virtue?

[C.]

[*Candidate for Degree will answer Questions* 3, 4, 5, 6 *of* [B], *together with the following.*]

1. 'Benevolence is not more disinterested than any of the particular passions.' Show this.

2. Explain the idea of a *system*, and apply it (after Butler) to human nature.

3. What are the various functions of *conscience*?

4. One thing belongs to and accompanies all excess of anger. What? How does Butler analyse it?

5. At what precise point does resentment become excessive?

6. How does Butler determine the natural object and occasion of resentment?

ENGLISH COMPOSITION.

MR. E. J. GWYNN.

(*For Senior Sophisters.*)

Write an Essay on *one* of these subjects:—

1. Nationalism and Cosmopolitanism in Literature.
2. Samuel Johnson in daily life.
3. Wordsworth's influence on English Poetry.

(*For Trinity Supplementalists.*)

Write an Essay on *one* of these subjects:—

1. Political morality in the age of Walpole.

2. Explain the position of the English in India in the eighteenth century, and the nature of the authority wielded by Clive.

3. Tennyson's treatment of Arthurian Legend.

(*For Degree Supplementalists.*)

Write an Essay on *one* of these subjects:—

1. A study of Polonius.

2. 'The proper study of mankind is Man.'

MATHEMATICAL PHYSICS.

MR. FRY.

1. Prove that the sum of the moments of two concurrent forces about any point is equal to the moment of their resultant.

2. A weight of 65 lbs. is just supported on a rough inclined plane, 13 feet long and 5 feet high, by a force of 13 lbs. weight acting parallel to the base: find the coefficient of friction, and the magnitude of the additional force acting parallel to the plane which will suffice to move the weight up.

3. In order that a uniform beam, 18 feet long, weighing 100 lbs., and having weights of 9, 7, 13, and 28 lbs. attached to it at points distant 1, 5, 11, and 16 feet from one end, may remain in a horizontal position in equilibrium, what forces must act on it at points distant 3 and 17 feet from the same end?

4. What force will bring a mass of 800 lbs., moving with a velocity of 60 feet per second, to rest in 5 seconds, and how far will the mass move before it is brought to rest?

5. A mass of 18 lbs., resting on a smooth horizontal table, is tied by a string, passing over a smooth pulley at the edge of the table, to a mass of 14 lbs. hanging freely: when motion is allowed to take place, find the tension of the string and the velocity acquired by the 14 lbs. in 3 seconds.

6. A body of mass 20 lbs., moving with a velocity of 18 feet per second, overtakes a body of mass 16 lbs., moving in the same direction with a velocity of 9 feet per second: if, after the impact, they both move forward with a common velocity, find its magnitude.

7. A cylindrical vessel containing water is closed with a piston whose cross-section is 2 square feet, and has an open pipe extending vertically from its side: when a man whose weight is 12½ stone stands on the piston, how far will the level of the water in the pipe be above the base of the piston, neglecting the weight of the latter?

8. A piece of glass, weighing 30 grams in air, weighs 18 grams in water, and 14·76 in glycerine: find the specific gravity of the glass and of the glycerine.

9. A candle-flame, 1½ ins. high, is placed at a distance of 16 ins. from a screen: where must a concave mirror of radius equal to 12 ins. be held in order to throw an image of the flame on the screen? What will be the size of the image, and will it be erect or inverted?

10. An image of the Sun is formed by a convex lens of focal length equal to 30 ins., and the rays, after traversing the lens, pass through a concave lens of focal length equal to 6 ins., held at a distance of 6 ins. from the first lens: find the position of the final image.

CLASSICS.

I.

μία μὲν οὖν αἰτία αὕτη, ἐξ αὐτοῦ τοῦ πράγματος· ἑτέρα δὲ, ἐξ ἡμῶν αὐτῶν· πρὸς ἃ γὰρ αὐτοὶ μᾶλλον πεφύκαμέν πως, ταῦτα μᾶλλον ἐναντία τῷ

μέσῳ φαίνεται· οἷον, αὐτοὶ μᾶλλον πεφύκαμεν πρὸς τὰς ἡδονάς· διὸ εὐκατάφοροί ἐσμεν μᾶλλον πρὸς ἀκολασίαν, ἢ πρὸς κοσμιότητα. ταῦτ' οὖν μᾶλλον ἐναντία λέγομεν, πρὸς ἃ ἡ ἐπίδοσις μᾶλλον γίνεται· καὶ διὰ τοῦτο ἡ ἀκολασία, ὑπερβολὴ οὖσα, ἐναντιωτέρα ἐστὶ τῇ σωφροσύνῃ.—ARISTOTLE.

1. Parse—*ἐγκεχρωσμένον, εἰρήσθω, δέξασθαι, συνειλημμένα*; and give the English of each word.

2. Write down in Greek Aristotle's definition of Virtue.

II.

Haec ita intelligi, possumus existimare ex eo decoro, quod poetae secuntur: de quo alio loco plura dici solent. Sed tum servare illud poetas, quod deceat, dicimus, cum id, quod quaque persona dignum est, et fit et dicitur. Ut, si Aeacus aut Minos diceret,

'Oderint, dum métuant': aut
— — *'natis sepulcro ipse ést parens'*:

indecorum videretur, quod eos fuisse iustos accepimus: at, Atreo dicente, plausus excitantur: est enim digna persona oratio. Sed poetae, quid quemque deceat, ex persona iudicabunt. Nobis autem personam imposuit ipsa natura, magna cum excellentia praestantiaque animantium reliquarum.—CICERO.

3. Parse—*dissidentia, dividendo, lacessitus, ulciscendi.*

4. Write a note on the *matter* of the above passage.

LATIN COMPOSITION.

MR. KENNEDY.

Pericles was not irresponsible; for at the end of any official year the people could decline to re-elect him, and call him to account for his actions. When he had once gained the undisputed mastery, the only forces which he used to maintain it were wisdom and eloquence. Whatever devices he may have employed in his earlier career for party purposes, he rejected now all vulgar means of courting popularity or catching votes. He believed in himself; and he sought to raise the people to his own wisdom; he would not stoop to their folly. The desire of autocratic authority was doubtless part of his nature; but his spirit was fine enough to feel that it was a greater thing to be leader of freemen whom he must convince by speech than despot of subjects who must obey his nod.

EXPERIMENTAL PHYSICS.

MR. THRIFT.

1. Explain fully how you would graduate a direct-reading hydrometer for the measurement of the densities of liquids?

2. Describe the principal parts of an ordinary steam-engine.

3. Enunciate and explain Lenz's law, giving examples of its application.

Show that it is a consequence of the law of conservation of energy.

4. Describe and explain what occurs when plates of zinc and copper, dipping in an acidulated liquid, are connected by a wire.

How would you verify, experimentally, the reasons why the current produced rapidly diminishes in strength?

5. What is meant by 'polarised' light?

Describe a method of obtaining a beam of plane-polarised light.

CHEMISTRY.

DR. EMERSON REYNOLDS.

1. Specify the conditions which must be established in order that the fermentation of a sugar may be completed. Explain the chemical changes involved in such a fermentation.

2. By what means can the synthesis of ethyl alcohol be effected from C_2H_6? Trace the changes with the aid of equations.

3. What do you understand by constitutional formulæ? Give examples.

4. By what general method can esters be distinguished?

5. How is aldehyde formed, and distinguished when present in a solution?

*6. State the Law of Mitscherlich, and explain its use in fixing the atomic weights of some elements.

*7. Specify the members of the tetrad group of elements, and write the formulæ of some of their characteristic compounds.

[N.B.—Questions marked thus * are for Degree Candidates in addition to those for Senior Sophisters.]

POLITICAL SCIENCE.

DR. L. C. PURSER.

1. What are the component parts of Price?

Show how they are sometimes confounded with one another in common language.

2. What is it in every country which determines the general character of the inhabitants as to industry or idleness?

3. Show that no commodities regulate themselves more easily or more exactly according to the effectual demand than gold and silver.

4. State and criticise Gresham's Law.

5. What excuse can be made for slavery?

Show that the excuse is only available in a very early state of society.

6. Write a short essay on what the French monarchy did for France.

7. What made the aristocracies of Rome and Venice such efficient governors?
How did the Roman aristocracy escape the characteristic disease of a bureaucracy?

8. What did Bentham mean by saying that 'Boards are screens.'?
What should be the nature of a Minister's Council, according to Mill?

9. What reasons may be assigned for maintaining the present slight bond of connexion between Great Britain and her colonies?

(*For Trinity Supplementalists.*)

10. High wages and high profits seldom go together; but they do sometimes.

11. What causes tend to diminish the rate of interest?
Adam Smith criticises a view of Locke's on this point?

12. What two circumstances render interest a less proper subject of direct taxation than rent?

13. The rent of mines is not wholly governed by the same law of rent which applies to land?

14. 'The efficient secret of the English Constitution may be described as the close union, the nearly complete fusion of the executive and legislative powers' (Bagehot). Show this.

15. How far is the House of Lords useful as a retarding chamber?

16. Bagehot notices six functions of the House of Commons. What are these? Which does he consider most important, and why?

17. What are the advantages and disadvantages of the 'Revolutionary' selection of rulers?

18. What are the conditions necessary to enable a country to get a good legislature, and to keep it good?

(*For Degree Candidates.*)

Questions 2, 4, 6, 8, 10, 11, 14, 16, 17.

JUNIOR SOPHISTERS.

MATHEMATICAL PHYSICS.

MR. RUSSELL.

1. The following forces act on a particle:—4 lbs. due east, $5\sqrt{2}$ lbs. due north-east, $3\sqrt{2}$ lbs. due south-east, and 7 lbs. due south Find the magnitude of the resultant.

2. Define 'the moment of a force,' and 'the moment of a couple.' Prove that, if two couples in the same plane balance one another, their moments will be equal.

3. $ABCD$ is a uniform square lamina, and E and F are the middle points of AB and AD; if the portion AEF be removed, find the position of the point on which the remainder will balance.

4. Define 'a poundal.' A mass of 64 lbs. moving uniformly with a velocity of 27 feet per second is acted on by a constant force; and at the end of 3 seconds, it is found to be moving at right angles to its former direction with a velocity of 36 feet per second: find the magnitude of the acting force.

5. In a uniform circular motion, prove the formula

$$f = \frac{v^2}{r},$$

where f is the acceleration towards the centre of a circle of radius r feet, and v is the velocity.

6. Two substances, whose specific gravities are 5 and 7, are mixed together to form a compound whose specific gravity is $6\frac{1}{2}$. If the total weight of the mixture be 26 ounces, find the weights of the two original substances of which it is composed.

7. Draw a diagram of a force-pump, and explain its action.

8. In a canal, a sluice-gate 2 feet wide is immersed to a depth of 10 feet: find the total pressure on it, and the position of the centre of pressure.

9. A double convex lens and a double concave lens whose focal lengths are, respectively, 8 and 10 inches, are placed in contact: find the position of the image of an object situated 15 inches from them.

10. Describe an astronomical telescope, and obtain an expression for its magnifying power.

ENGLISH COMPOSITION.

MR. MACRAN.

[Choose *one* subject.]

Subjects for Essay.

1. The Tea Duty of 1767.
2. Cowper's view of the clergy.

CLASSICS.

MR. GOLIGHER.

[A.]

1. Translate inio English :—

ἐς δὲ τὰς Ἀθήνας φρυκτοί τε ἤροντο πολέμιοι καὶ ἔκπληξις ἐγένετο οὐδεμιᾶς τῶν κατὰ τὸν πόλεμον ἐλάσσων. οἱ μὲν γὰρ ἐν τῷ ἄστει ἐς τὸν Πειραιᾶ ᾤοντο τοὺς πολεμίους ἐσπεπλευκέναι ἤδη, οἱ δ' ἐν τῷ Πειραιεῖ τήν τε Σαλαμῖνα ἠρῆσθαι ἐνόμιζον καὶ παρὰ σφᾶς ὅσον οὐκ ἐσπλεῖν αὐτούς· ὅπερ ἄν, εἰ ἐβουλήθησαν μὴ κατοκνῆσαι, ῥᾳδίως ἂν ἐγένετο, καὶ οὐκ ἂν ἄνεμος ἐκώλυσε. βοηθήσαντες δὲ ἅμ' ἡμέρᾳ πανδημεὶ οἱ Ἀθηναῖοι ἐς τὸν Πειραιᾶ ναῦς τε καθεῖλκον καὶ ἐσβάντες κατὰ σπουδὴν καὶ πολλῷ θορύβῳ ταῖς μὲν ναυσὶν ἐπὶ τὴν Σαλαμῖνα ἔπλεον, τῷ πεζῷ δὲ φυλακὰς τοῦ Πειραιῶς καθίσταντο. οἱ δὲ Πελοποννήσιοι ὡς ἤσθοντο τὴν βοήθειαν, καταδραμόντες τῆς Σαλαμῖνος τὰ πολλὰ καὶ ἀνθρώπους καὶ λείαν λαβόντες καὶ τὰς τρεῖς ναῦς ἐκ τοῦ Βουδόρου τοῦ φρουρίου κατὰ τάχος ἐπὶ τῆς Νισαίας ἔπλεον· ἔστι γὰρ ὅ τι καὶ αἱ νῆες αὐτοὺς διὰ χρόνου καθελκυσθεῖσαι καὶ οὐδὲν στέγουσαι ἐφόβουν.—THUCYDIDES.

2. Parse *ἤροντο, ἐσπεπλευκέναι, ἠρῆσθαι, ἐσβάντες, καταδραμόντες.*

3. Give the English of *ὀρρωδία, ὁλκάς, ὤκειλαν, ὑπηρέσιον, τροπωτήρ.*

4. How does Thucydides sketch the character of Pericles?

[B.]

5. Translate into English :—

Mirum inter haec silentium Claudii, Vitellius ignaro propior: omnia liberto oboediebant. Patefieri domum adulteri atque illuc deduci imperatorem iubet. Ac primum in vestibulo effigiem patris Silii consulto senatus abolitam demonstrat, tum quidquid avitum Neronibus et Drusis in pretium probri cessisse. Incensumque et ad minas erumpentem castris infert, parata contione militum; apud quos praemonente Narcisso pauca verba fecit: nam etsi iustum dolorem pudor impediebat. Continuus dehinc cohortium clamor nomina reorum et poenas flagitantium; admotusque Silius tribunali non defensionem, non moras temptavit, precatus ut mors adceleraretur. Eadem constantia et inlustres equites Romani cupidi maturae necis fuerunt.—TACITUS.

6. Give the principal parts of—abolitam, patefieri, infert, admotus, erumpentem.

7. What account of the origin and history of the quaestorship is given by Tacitus?

8. Give the English of—lintres, aestuaria, stationes, vallum, pugio.

LATIN COMPOSITION.

MR. WILKINS.

'If I am going to sail,' says Epictetus, 'I choose the best ship and the best pilot, and I wait for the fairest weather that my circumstances and duty will allow. Prudence and propriety, the principles which the gods have given me for the direction of my conduct, require this of me, but they require no more; and if, notwithstanding, a storm arises, which neither the strength of the vessel nor the skill of the pilot are likely to withstand, I give myself no trouble about the consequence. All that I had to do is done already. The directors of my conduct never command me to be miserable, to be anxious, desponding, or afraid. Whether we are to be drowned, or to come to a harbour, is the business of Jupiter—not mine. I leave it entirely to his determination, nor ever break my rest with considering which way he is likely to decide it, but receive whatever comes with equal indifference and security.'

EXPERIMENTAL PHYSICS.

MR. THRIFT.

1. Describe the vernier, pointing out its utility.

2. Being given a sphere, a vessel that you could completely fill with water, and a balance, how would you determine the weight of 1 c.c. of water, and then verify Archimedes' principle?

3. How would you determine the coefficient of apparent expansion of a liquid with temperature? In correcting for temperature the height of the mercury column in a barometer, should you use the coefficient of real or of apparent expansion of the mercury? Why?

4. Explain the meaning of the maximum vapour pressure of a liquid at a given temperature. How may the maximum vapour pressures of water for different temperatures be experimentally determined?

5. Explain a way of measuring quantities of heat. Describe how you would thus determine the quantity required to melt 1 gr. of ice at 0° C. to water at 0° C.

CHEMISTRY.

DR. EMERSON REYNOLDS.

1. Give examples of chemical changes which can be determined by the agency of light only, and explain each case.

2. Explain the usual method by which ammonia gas is prepared. How would you obtain free nitrogen from ammonia?

3. Two oxides of sulphur exist; write the formula of each body; explain its usual method of formation, and point out the characters by which the two compounds are distinguished.

4. Write a list of the elements which belong to the same natural family as nitrogen.

5. Deduce the formula of the compound which contains in 100 parts—

Hydrogen,	..	..	5.
Nitrogen,	..	..	35.
Oxygen,	..	..	60.

[Atomic weights: H = 1; O = 16; N = 14.]

HISTORY.

MR. BASTABLE.

1. Estimate the advantages of Constantinople as a site for the capital of the Roman empire.

2. Describe the condition of Italy under the rule of Theodoric.

3. Give a short account of the military achievements of Narses.

4. Indicate the extent of Charlemagne's power in (*a*) Italy, (*b*) Germany, (*c*) Spain.

5. Point out the several stages in the conquest of Africa by the Saracens.

6. (*a*) How did the conquest of Palestine by the Turks lead to the Crusades?

(*b*) Describe shortly the organization of the kingdom of Jerusalem.

7. Summarise the chief events in the reign of Amurath II.

8. Write brief notes on (*a*) Brancaleone, (*b*) Crescentius, (*c*) Rienzi, with special reference to their connexion with the city of Rome.

PROFESSOR SELSS.

Translate into French *or* German:—

Everybody has heard of the *Foreign Legion*. It is a small portion of the French army existing since 1831, and founded in order to protect the frontier of Algeria from the savage tribes of the interior of Africa. It is the only military force in the world where a man can enter without a question being asked. No matter what may be his name, his nationality, his colour, his religion, or his past, every man can be enrolled in the foreign legion, if he can carry arms, and if he be willing to obey orders. Consequently the legion consists of very heterogeneous elements. All the nations of Europe are represented in it, although the Poles and the Swiss are generally the most numerous. In return for the kindness extended to them at their reception, the men must expect to put up with some inconvenience. They must do some hard work; they must live in a dangerous climate; they have no tents and poor barracks; they fight in the front line, and occupy the most exposed places. Their French officers subject them to the severest discipline; the only punishment inflicted is that which cannot be repeated. As their life consists of periods of marauding and dissipation, they never attain an advanced age. The majority die after an interval of five years; and nearly all are anxious to leave, but find it impossible to re-enter civilised society after having served in the legion.

FINAL FRESHMAN SUPPLEMENTAL EXAMINATION.

ALGEBRA AND ARITHMETIC.

MR. RUSSELL.

1. Solve the equations

$$3x - 7y + 9z = 10$$
$$4x + 5y - 3z = 12$$
$$x + 9y - z = 18.$$

2. Find to two places of decimals the roots of

$$2x^2 - 3x - 6 = 0.$$

3. Simplify

$$\left(\frac{x-1}{2x-3} - \frac{x+1}{2x+3} - \frac{3}{4x^2-9}\right)(2x+3).$$

4. Find the values of x and y from

$$x - y = 7,$$
$$2x^2 + 3y^2 = 62.$$

5. Find the factors of

$$a^2(b-c) + b^2(c-a) + c^2(a-b).$$

6. Simplify

$$\frac{a^{\frac{3}{4}} \times b^{-\frac{5}{2}}}{(ab)^{\frac{3}{2}}} \div \frac{a^{\frac{1}{4}}}{b^3}.$$

7. Solve the equation

$$\sqrt{7x-7} - \sqrt{3x+1} = 2.$$

8. Calculate the present worth of £1123 15*s.* due $4\frac{1}{2}$ years hence at $2\frac{3}{4}$ per cent. simple interest.

9. If 5 horses require as much corn as 8 ponies, and 15 quarters of corn last 12 ponies for 64 days, how long may 25 horses be kept for £41 5*s.* when corn is 22*s.* a quarter?

10. A man invests £5187 10*s.* in three per cents. at 83, and when funds have risen to 84 he transfers three-fifths of his capital to four per cents. at 96: find the alteration in his income.

TRIGONOMETRY.

MR. CULVERWELL.

1. Find the height of two objects which, at the distance of 2000 feet, subtend, at the eye, angles of 45 seconds and 45 degrees, respectively.

2. Given $\sec A = \frac{101}{99}$, find the values of all the other trigonometrical functions of A.

3. Find the numerical values of $\sin 30°$ and $\cos 30°$; and hence obtain the values of the following:—

$$\sin 150°, \quad \cos 210°, \quad \sin 330°.$$

4. Write down the expressions for $\cos(A + B)$ and $\cos(A - B)$ in terms of the sines and cosines of A and B; and hence prove

$$\cos(A + B)\cos(A - B) = \cos^2 B - \sin^2 A.$$

(*a*) What does this formula become when $B = A$?

5. Given $\cos\theta = \frac{5}{13}$, find the values of $\cos 2\theta$ and $\tan\frac{1}{2}\theta$.

6. Simplify $\dfrac{\sin\alpha + \sin 3\alpha + \sin 5\alpha + \sin 7\alpha}{\cos\alpha + \cos 3\alpha + \cos 5\alpha + \cos 7\alpha}$.

7. Employing the usual notation, prove the formula in a triangle

$$\sin\tfrac{1}{2}A = \sqrt{\frac{(s-b)(s-c)}{bc}}.$$

8. Find the area of a triangle whose sides are 180, 145, and 125 feet.

9. In a plane triangle, if $A = 30°$, $b = 90$ feet, and $a = 30\sqrt{3}$ feet, find B, C, and c.

10. Why is the sum of the logs of two numbers the log of their product?

If a logarithm is negative, what can you infer?

MECHANICS.

DR. PANTON.

1. Forces equal to 279 and 40 units, respectively, act on a point at an angle of 60°: find the magnitude of their resultant.

2. State and prove the rule for finding the position and magnitude of the resultant of two unlike parallel forces.

3. A rod AB, $2\frac{1}{2}$ ft. in length and weighing 10 lbs., is trisected in the points C and D, and at the points A, C, D, B are placed particles of weights 2, 7, 8, 13 lbs., respectively: find the distance from A of the point on which the rod will balance.

4. Three pieces of uniform wire of unequal lengths are placed so as to form the perimeter of a triangle ABC: show how to find the position of their common centre of gravity, and prove that this point is the centre of the circle inscribed in the triangle formed by joining the middle points of the sides of ABC.

5. Two heavy particles are connected by a cord passing over a pulley at the common summit of two opposite inclined planes, and remain in equilibrium: prove that the pressures on the planes are inversely as the tangents of their inclinations.

6. The base of an inclined plane is 48 ft. in length and the height 36 ft.; a force of 40 lbs. acting parallel to the plane will just prevent a weight of 100 lbs. from sliding down: find the coefficient of friction.

7. If a heavy particle be placed at the top of a smooth plane of the same dimensions as the plane in the preceding question, find how long it will take to run down the plane to the bottom.

8. A particle is projected vertically upwards with a velocity of 120 ft. per second: find after what time it will have attained a height of 224 ft.

9. Define a *poundal*, and prove the equation

$$P = mf,$$

explaining clearly what numbers are represented by these symbols respectively.

10. Two particles, of masses m_1 and m_2, are connected by a light string; m_2 is placed on a smooth horizontal table, and the string passes over the edge of the table, m_1 hanging freely: find an expression for the common acceleration of the masses.

CLASSICS.

DR. TYRRELL.

Egregia interea coniunx arma omnia tectis
Emovet, et fidum capiti subduxerat ensem:
Intra tecta vocat Menelaum, et limina pandit;
Scilicet id magnum sperans fore munus amanti,
Et famam exstingui veterum sic posse malorum.
Quid moror? irrumpunt thalamo; comes additus una
Hortator scelerum Aeolides. Di, talia Graiis
Instaurate! pio si poenas ore reposco.
Sed te qui vivum casus, age fare vicissim,
Attulerint. Pelagine venis erroribus actus,
An monitu divum? an quae te Fortuna fatigat,
Ut tristis sine sole domos, loca turbida, adires?

VIRGIL.

3. Parse—*concretam*, *extinxem*, *fixerit*, *implessem*, *sprevisti*.

4. Relate the whole incident referred to in the above passage.

5. Quote from the prescribed books passages remarkable (*a*) for pathetic power, and (*b*) for rhetorical effect.

LATIN COMPOSITION.

MR. MOONEY.

The story runs, that at Athens, once upon a time, during the celebration of the games, an old gentleman considerably advanced in years entered the theatre. Among his countrymen who were present in that large assembly, no one offered him a place. He turned to the Lacedæmonians, who as ambassadors had a certain space allotted them. They rose in a body, and begged him to sit amongst them. Loud shouts of applause arose from the whole theatre; whereupon it was remarked, that the Athenians knew their duty, but were slow to exemplify it in their conduct.

ENGLISH COMPOSITION.

MR. MACRAN.

Trace the deterioration in the character of Macbeth.

Or,

Contrast Atheism and Superstition in respect of their causes and their effects.

SENIOR FRESHMEN

ALGEBRA AND ARITHMETIC.

MR. RUSSELL.

1. Reduce $\dfrac{3x^3-5x^2+5x-2}{6x^3-x^2-5x+2}$ to its simplest form.

2. Solve the equations $7x - 1{\cdot}1y = 21{\cdot}86$,

$$1{\cdot}1x + 7y = 20{\cdot}65.$$

3. Solve the equation $\dfrac{4x-3}{3x-4} + \dfrac{3x-4}{4x-3} = \dfrac{106}{45}$.

4. Solve the equations $x - y = 17$, $x^3 - y^3 = 1241$.

5. *A* goes to a pile of oranges, and after eating one, removes one-third of the remainder; *B* and *C*, in turn, do likewise, and it is then found that two-sevenths of the original number remain. How many oranges were there in the pile?

6. Express $\sqrt{\dfrac{11-4\sqrt{6}}{6}}$ in the form $\sqrt{x}-\sqrt{y}$.

7. Simplify $\left\{\dfrac{2}{b} - \dfrac{1}{a+b} + \dfrac{1}{a-b}\right\} \div \left(\dfrac{a+b}{a-b} - \dfrac{a-b}{a+b}\right)$.

8. The external dimensions of a closed wooden box are 16 inches long, 11 inches broad, and 9 inches high, and the thickness of the wood is half an inch: find the weight of a cubic foot of wood if the weight of the box is 12 lbs.

9. Calculate the square root of 145·829776.

10. Which is the best investment: $7\frac{1}{2}$ per cent. Stock at 225, or $2\frac{3}{4}$ per cent. Stock at 88? Find the difference in the incomes for every £100 invested.

TRIGONOMETRY.

MR. CULVERWELL.

1. The Sun's greatest angular diameter is 32 minutes 36 seconds; his least angular diameter is 31 minutes 32 seconds. Find the ratio of the greatest and least distances of the Sun from the Earth.

Why would you not be justified in applying the same method if the angles were, say, 40° and 41°?

2. Find—(*a*) the circular measure of 5° 4′ 3″ to four places of decimals; and (*b*) the number of seconds in the angle whose circular measure is ·75.

3. Given $\sin A = \frac{15}{17}$, find the other trigonometrical functions.

4. Prove, by the usual figure, that

$$\cos(A+B) = \cos A \cos B - \sin A \sin B.$$

Show that the formula still applies when $A+B$ is obtuse.

5. Find $\sin A$ and $\cos A$ in terms of $\sin 2A$; and hence calculate the value of $\sin 15°$ from $\sin 30°$ to three places of decimals.

6. Calculate, without extracting square roots, the remaining sides of the triangle ABC, being given

$$A = 15°, \quad B = 45°, \quad c = 100.$$

7. Being given $a = 20$, $b = 30$, $C = 60°$, calculate the length of the side c to two decimal places.

8. Calculate the area of the triangle in the ast question to two decimal places.

9. Calculate log 5 and log 25, being given log 2 = ·30103.

10. Prove that, in a plane triangle,

$$\tan\left(\frac{A-B}{2}\right) = \frac{a-b}{a+b}\tan\left(\frac{A+B}{2}\right);$$

and write down the corresponding logarithmic formula for expressing

$$\tan\left(\frac{A-B}{2}\right),$$

when a, b, and C are given.

CLASSICS.

MR. SMYLY.

I.

1. Translate:—

Τελευτῶν οὖν ἐπὶ τοὺς χειροτέχνας ᾔα· ἐμαυτῷ γὰρ ξυνῄδη οὐδὲν ἐπισταμένῳ, ὡς ἔπος εἰπεῖν, τούτους δέ γ' ἤδη ὅτι εὑρήσοιμι πολλὰ καὶ καλὰ ἐπισταμένους. καὶ τούτου μὲν οὐκ ἐψεύσθην, ἀλλ' ἠπίσαντο ἃ ἐγὼ οὐκ ἠπιστάμην καί μου ταύτῃ σοφώτεροι ἦσαν. ἀλλ', ὦ ἄνδρες Ἀθηναῖοι, ταὐτόν μοι ἔδοξαν ἔχειν ἁμάρτημα, ὅπερ καὶ οἱ ποιηταί, καὶ οἱ ἀγαθοὶ δημιουργοί· διὰ τὸ τὴν τέχνην καλῶς ἐξεργάζεσθαι ἕκαστος ἠξίου καὶ τἆλλα τὰ μέγιστα σοφώτατος εἶναι, καὶ αὐτῶν αὕτη ἡ πλημμέλεια ἐκείνην τὴν σοφίαν ἀπέκρυπτεν· ὥστε με ἐμαυτὸν ἀνερωτᾶν ὑπὲρ τοῦ χρησμοῦ, πότερα δεξαίμην ἂν οὕτως ὥσπερ ἔχω ἔχειν, μήτε τι σοφὸς ὢν τὴν ἐκείνων σοφίαν, μήτε ἀμαθὴς τὴν ἀμαθίαν, ἢ ἀμφότερα ἃ ἐκεῖνοι ἔχουσιν ἔχειν. ἀπεκρινάμην οὖν ἐμαυτῷ καὶ τῷ χρησμῷ, ὅτι μοι λυσιτελεῖ ὥσπερ ἔχω ἔχειν.—Plato.

2. Parse:—ᾔδη, ἐψεύσθην, ἀποκτείνητε, ἐξελῶσι, μόσχω.

3. Give the meaning of:—καλλιεπεῖσθαι, ἀτέχνως, διαβολή, ἀντιγραφή.

II.

1. Translate:—

Volturcius vero subito litteras proferri atque aperiri iubet, quas sibi a Lentulo ad Catilinam datas esse dicebat. Atque ibi vehementissime perturbatus Lentulus tamen et signum et manum suam cognovit. Erant autem sine nomine, sed ita: 'Quis sim, scies ex eo, quem ad te misi. Cura ut vir sis et cogita quem in locum sis progressus: vide, ecquid tibi iam sit necesse, et cura ut omnium tibi auxilia adiungas, etiam infimorum.' Gabinius deinde introductus, cum primo impudenter respondere coepisset, ad extremum nihil ex iis, quae Galli insimulabant, negavit. Ac mihi quidem, Quirites, cum illa certissima visa sunt argumenta atque indicia sceleris, tabellae, signa, manus, denique unius cuiusque confessio, tum multo certiora illa, color, oculi, vultus, taciturnitas. Sic enim obstupuerant, sic terram intuebantur, sic furtim nonnumquam inter sese aspiciebant, ut non iam ab aliis indicari, sed indicare se ipsi viderentur.—CICERO.

2. Parse:—scies, duint, insidiari, vereamini, scelerum.

3. To what audiences were the four speeches of Cicero addressed? What was the date of Cicero's consulship?

(*For Trinity Supplementalists.*)

3. Explain the phrases:—qui advorsum ierant, inieci scrupulum homini, cyatho sorbilans, ilico.

LATIN COMPOSITION.

MR. WILKINS.

Are you in prosperity? Do not confine the enjoyment of your good fortune to your own house, to the company of your own friends, perhaps of your flatterers, of those who build upon your fortune the hopes of mending their own; frequent those who are independent of you, who can value you only for your character and conduct, and not for your fortune. Neither seek nor shun, neither intrude yourself into, nor run away from, the society of those who were once your superiors, and who may be hurt at finding you their equal, or, perhaps, even their superior. The impertinence of their pride may, perhaps, render their company too disagreeable; but if it should not, be assured that it is the best company you can possibly keep; and if by the simplicity of your unassuming demeanour you can gain their favour and kindness, you may rest satisfied that you are modest enough, and that your head has been in no respect turned by your good fortune.—ADAM SMITH.

ENGLISH COMPOSITION.

DR. L. C. PURSER.

1. Write an essay on *one* of the following:—

(*a*) A description of, and literary criticism on, any *one* of Gray's Odes.

Or,

(*b*) 'Gray left much that is incomplete, but nothing that is unfinished.'

Or,

(*c*) The Spectator's opinions on apparitions.

Or,

(*d*) Sir Roger's visit with the Spectator to Westminster Abbey.

2. (*a*) 'Exact my own defects to scan,
What others are to feel, and know myself a man.'

In what connexion do these lines occur?

(*b*) A passage in the *Elegy* was possibly borrowed from Latin poet?

(*c*) 'Ye towers of Julius, London's lasting shame.' Explain.

(*d*) 'Hear from the grave, great Taliessin, hear.' Explain.

3. (*a*) Of whom did the Spectator Club consist?

(*b*) 'Aristotle and Longinus are much better understood by him [the Templar] than Littleton or Coke.' Explain.

(*c*) Give the name and subject of the tragedy which Sir Roger went to see?

(*For Trinity Supplementalists*).

1. Write an essay on *one* of the following:—

(*a*) The Traveller's account of Italy and Switzerland and their inhabitants.

Or,

(*b*) 'Goldsmith was deficient in imagination, but excelled in observation.' Illustrate this criticism from the *Deserted Village*.

Or,

(*c*) 'Swift truly said of himself that Ireland was his debtor.' Discuss this claim.

Or,

(*d*) Examine the merits and defects of Addison's *Cato*.

2. (*a*) 'Pride in their port, defiance in their eye.'

Quote the next line. In what connexion does the couplet occur?

(*b*) Quote the line in which Goldsmith mentions Niagara.

(*c*) 'Passing rich with forty pounds a year.' Who?

(*d*) 'In all the glaring impotence of dress.'

In what connexion does this line occur?

3. (*a*) What was the simile of the Angel?

(*b*) State what you know of the *Drapier's Letters*.

(*c*) By which of Pope's couplets was his own ear most gratified?

(*d*) Give some examples from Pope of what Johnson calls 'representative metre.'

JUNIOR FRESHMEN.

EUCLID.

MR. CULVERWELL.

1. Prove that two parallelograms between the same parallels and on the same base AB are equal, taking only the case in which the sides CD and EF opposite to AB, have no portion in common.

If AB were two inches long, and the perpendicular distance between AB and CD were three inches long, how many square inches would the area of the parallelogram $ABCD$ be equal to?

2. Prove the last proposition of the 1st Book.

3. Prove that the sum of the squares of two lines is less than the square of their sum by twice their rectangle.

4. Construct a square equal to a given triangle.

5. Prove that if lines be drawn from a point within a circle to the circumference, that which is nearer the centre is the longer.

6. If two chords AB and DE of a circle whose centre is C, intersect at a point F, prove, for the case in which AB passes through the centre, that the rectangles under their segments are equal.

7. Prove that if two triangles ABC, DEF have two sides AB and BC, in the same ratio as DE and EF, and the angle at B equal that at E, the triangles are similar.

8. Prove that if, in the above triangles, the sides were such that $AB : DE :: EF : BC$, then the areas are equal.

Calculate the ratio of the areas if the sides AB and BC were 9 and 7, while EF and BC were 27 and 63.

9. Show how to construct an equilateral triangle equal in area to a given square.

10. Divide a line into 7 equal parts by means of a proposition in Book VI.

ARITHMETIC AND ALGEBRA.

MR. THRIFT.

1. Divide

$$12x - 20x^{\frac{3}{4}}y^{-\frac{1}{3}} + 27x^{\frac{1}{2}}y^{-\frac{2}{3}} - 18x^{\frac{1}{4}}y^{-1} + 4y^{-\frac{4}{3}}$$

by

$$4x^{\frac{1}{2}} - 4x^{\frac{1}{4}}y^{-\frac{1}{3}} + y^{-\frac{2}{3}}.$$

2. Add together the fractions

$$\frac{1}{24 + 2x - x^2}, \quad \frac{-1}{x^2 + 2x - 8}, \quad \frac{2}{x^2 - 8x + 12}.$$

3. Reduce to its lowest terms

$$\frac{x^4 - a^2x^2 + 2abx - b^2}{x^4 + 2ax^3 + a^2x^2 - b^2}.$$

4. Find the value of x for which $\frac{x}{2} - \frac{1}{3}(x - 2)$ is equal to

$$\tfrac{1}{4}\{x - \tfrac{2}{3}(2\tfrac{1}{2} - x)\} - \tfrac{1}{3}(x - 5).$$

5. Solve the equation

$$\frac{3x - 7}{x} + \frac{4x - 10}{x + 5} = 3\tfrac{1}{2}.$$

6. A number consists of two digits, of which the first is twice the second. It exceeds by 27 the number formed by placing the digits in different order. Find the number.

7. In a composite race, in which the competitors first run round a track, and then cycle round it, A and B start and finish together. A cycles 7 yds. while B cycles 6 yds., but runs only 9 yds. while B runs 10 yds.: find his rate of running if he cycles at the rate of 25 miles an hour.

8. Find the cost of 12 cwt. 3 qrs. 16 lb. at £2 11*s.* 4*d.* per cwt.

9. Find a man's change in income if he sells out £2100 $2\frac{3}{4}$ per cent. Consols at $93\frac{3}{4}$, and invests the proceeds in 4 per cent. Railway Stock at $109\frac{3}{8}$.

10. Find to two places of decimals the value of

$$\frac{\sqrt{15} - \sqrt{3}}{\sqrt{5} - \sqrt{3}}.$$

CLASSICS.

MR. GOLIGHER.

[A.]

1. Translate:—

παρῆλθε δέ τις εἰς τὴν ἐκκλησίαν φάσκων ἐπὶ τεύχους ἀλφίτων σωθῆναι· ἐπιστέλλειν δ' αὐτῷ τοὺς ἀπολλυμένους, ἐὰν σωθῇ, ἀπαγγεῖλαι τῷ δήμῳ ὅτι οἱ στρατηγοὶ οὐκ ἀνείλοντο τοὺς ἀρίστους ὑπὲρ τῆς πατρίδος γενομένους. τὸν δὲ Καλλίξεινον προσεκαλέσαντο παράνομα φάσκοντες συγγεγραφέναι Εὐρυπτόλεμός τε ὁ Πεισιάνακτος καὶ ἄλλοι τινές. τοῦ δὲ δήμου ἔνιοι ταῦτα ἐπῄνουν, τὸ δὲ πλῆθος ἐβόα δεινὸν εἶναι, εἰ μή τις ἐάσει τὸν δῆμον πράττειν ὃ ἂν βούληται. καὶ ἐπὶ τούτοις εἰπόντος Λυκίσκου καὶ τούτους τῇ αὐτῇ ψήφῳ κρίνεσθαι ἥπερ καὶ τοὺς στρατηγούς, ἐὰν μὴ ἀφῶσι τὴν κλῆσιν, ἐπεθορύβησε πάλιν ὁ ὄχλος, καὶ ἠναγκάσθησαν ἀφιέναι τὰς κλήσεις. τῶν δὲ πρυτάνεών τινων οὐ φασκόντων προθήσειν τὴν διαψήφισιν παρὰ τὸν νόμον, αὖθις Καλλίξεινος ἀναβὰς κατηγόρει αὐτῶν τὰ αὐτά. οἱ δὲ ἐβόων καλεῖν τοὺς οὐ φάσκοντας.—Xenophon.

2. Give a short account of the trial referred to in the above passage.

3. What do the following words mean:—*δεκατευτήριον, ἐπακτρίς, ἐφοδιασάμενος, συναλίζων, τὰ εὐαγγέλια?*

[B.]

4. Translate:—

Condit quisque diem collibus in suis,
Et vitem viduas ducit ad arbores;

Μήδεια, βουλεύουσα καὶ τεχνωμένη·
ἕρπ' ἐς τὸ δεινόν· νῦν ἀγὼν εὐψυχίας.
ὁρᾷς ἃ πάσχεις; οὐ γέλωτα δεῖ σ' ὀφλεῖν
τοῖς Σισυφείοις τοῖς τ' Ἰάσονος γάμοις,
γεγῶσαν ἐσθλοῦ πατρὸς Ἡλίου τ' ἄπο.
ἐπίστασαι δέ· πρὸς δὲ καὶ πεφύκαμεν
γυναῖκες, ἐς μὲν ἔσθλ' ἀμηχανώταται,
κακῶν δὲ πάντων τέκτονες σοφώταται.

EURIPIDES.

2. Parse—*θήσω, ἐπίστασαι, ὀφλεῖν, γεγῶσαν.*

What is the construction of *ὧν* in the third line?

3. Give the substance of the messenger's speech.

LATIN COMPOSITION.

MR. BEARE.

The angry and sorrowful queen scarcely knew in this great calamity which alternative to prefer: whether it was better to give up her empire, or to run the risk of being killed. However, with her usual firmness, she soon decided on the fit course to pursue. Sending for the officer of her body-guard, she informed him of all that had occurred, and requested him to send the ten strongest men that he had, armed and prepared for a journey to Rome. 'Meanwhile,' she said, 'I shall remain here; and though I am now an object of pity, the time will come when I shall be admired by my friends and dreaded by my foes.'

ENGLISH COMPOSITION

MR. MACRAN.

Discuss Milton's choice of a subject for an epic poem

Or,—

Relate briefly the story of *Old Mortality*

Trinity Term, 1903.

ENTRANCE EXAMINATION.

APRIL.

ARITHMETIC AND ALGEBRA.

MR. FRY.

1. Find the value when $x = 11$ of

$$\sqrt[3]{(6x+9)\,(6x-3)\,(2x^2+3)}.$$

2. Divide

$$6x^4 + x^3 + 14x^2 + 23x + 28 \quad \text{by} \quad 2x^2 - 3x + 7.$$

3. Add together

$$\frac{x+3}{x-3}, \quad \frac{7}{(x-2)\,(x-3)}, \quad \frac{1}{(x-1)\,(x-2)\,(x-3)}.$$

4. Solve the equation

$$\frac{x+2}{3} - \frac{4x+3}{5} + \frac{3x+5}{4} - x + 8 = 0.$$

5. Solve the equation

$$(x-1)^3 + (x-4)^3 = (x-2)^2 + (x-3)^3.$$

6. Simplify

$$\frac{(3x+2)^2 - (2x-1)^2}{(4x-1)^3 - (3x-4)^3} \times \frac{(11x-6)^2 + 3\,(3x-4)^2}{(6x+1)^2 - x^2}.$$

7. Multiply 227·8 by ·2301, and divide the result by 2·21.

8. Find the cost of 3 cwt. 3 qrs. 11 lbs. at £7 16*s.* 4*d.* per cwt.

9. Find the simple interest on £423 4*s.* for 7 years 5 months at $3\frac{1}{8}$ per cent. per annum.

10. What is the least number which must be added to 378954 in order to make it a perfect square?

HISTORY AND GEOGRAPHY.

MR. GWYNN.

1. When was the 'Statute of *Præmunire*' passed, by what king, with what object?

2. Give the dates of the Battles of Halidon Hill, Nevill's Cross, Flodden, Solway Moss, and state briefly the circumstances of each.

3. State concisely the provisions of Poynings' Law, the Five Mile Act, the Bill of Rights, the Catholic Emancipation Act, and give the date of each of these measures.

4. When did the dispute over Ship Money arise? Explain its constitutional significance.

5. Describe the action of France and Spain during the American War of Independence.

6. What interest had England in the Russo-Turkish War of 1878?

7. Draw a railway-map of South Africa, showing the connexions of Cape Town, Port Elizabeth, De Aar, Bloemfontein, Johannesburg, Pretoria; Harrismith, Ladysmith, Durban. Mark the positions of the Orange River, the Vaal, the Tugela, and the Drachenberg.

8. What do you know of Jena, Kano, Gallipoli, Muscat, Strassburg, Galveston, Lima, Suakin, Ravenna, Ithaca?

LATIN COMPOSITION.

MR. SMYLY.

One day when Caesar's cavalry had nothing else to do, they diverted themselves with an African who danced, and played upon the flute with great perfection. They had left their horses to the care of boys, and sat attending to the entertainment with great delight, when the enemy, coming upon them at once, killed part, and entered the camp with others, who fled with great precipitation. Had not Caesar himself and Asinius Pollio come to their assistance, and stopped their flight, the war would have been at an end that hour. In another engagement the enemy had the advantage again; on which occasion it was that Caesar took an ensign, who was running away, by the neck, and making him face about, said, 'Look on this side for the enemy.'

SUBJECTS FOR ENGLISH COMPOSITION.

MR. MACRAN.

[Choose *one* subject.]

1. Any work of fiction that you admire.
2. The chief inventions of the nineteenth century.
3. The life and writings of Dean Swift.

MIDSUMMER ENTRANCE.

ARITHMETIC AND ALGEBRA.

MR. CULVERWELL.

1. If 5 men or 7 women can do a piece of work in 74 days, in what time will 7 men and 5 women do a piece of work twice as great?

2. A gallon of water weighs 10 lbs. A cubic foot of water weighs $62\frac{1}{2}$ lbs. Find the number of cubic inches in 1 pint.

3. Multiply 825·1 by 0·345.

4. Calculate the simple interest on £213 6*s.* 8*d.* from June 19th, 1903, to September 18th, 1903, at $4\frac{1}{2}$ *per cent.*

5. Find to 3 decimal places the square root of five-sevenths.

6. Ascertain whether or not the value $x = 5$ makes the quantity $\frac{2x+3}{x+1}$ equal to the quantity

$$\frac{4x+5}{4x+4} + \frac{3x+3}{3x+1}.$$

7. Multiply together

$$(x^2+y^2+z^2)(x^2+y^2-z^2)(x^2-y^2+z^2)(-x^2+y^2+z^2).$$

8. Find the quotient and remainder when $x^5 - x^4 - 2x^3 + 5x^2 - 2x + 3$ is divided by $x^2 - 2x + 1$.

9. Solve the equation

$$\frac{45}{2x+3} = \frac{57}{4x-5}.$$

10. Solve the equation $\sqrt{2x-1} + \sqrt{2x+4} = 5$.

HISTORY AND GEOGRAPHY.

MR. EXHAM.

1. What seas are connected and what lands separated by the following straits:—Bab-el-Mandeb, Bosphorus, Behring Strait, Straits of Gibraltar, the Sound?

2. Where are—Hobart, Chinde, Joppa, Shanghai, Lima, Cracow, Toledo, Chuquisaca, Falmouth, Lifford?

3. Name, in order from north to south, the eastern counties of England, and the chief rivers which issue on this coast.

4. Where are the following places, and how associated with important historical events:—Avignon, Utrecht, Blenheim, Jena, Khartoum, Aix-la-Chapelle, Metz, Arcot, Tewkesbury, Naseby?

5. What do you know of—Dunstan, Caractacus, Nicholas Brakespear, Simon de Montfort, John Balliol, Lady Jane Grey, Maria Theresa, John Locke, Ignatius Loyola?

6. What events in the history of Ireland are associated with the following years:—1171, 1367, 1494, 1607, 1689, 1801, 1829, 1869, 1870, 1881?

7. Summarize with dates the chief events of the reign of George III.

8. Name in order the countries or principalities which border on Servia.

LATIN COMPOSITION.

MR. BEARE.

There is no person in that age about whom historians have been more divided, or whose character has been drawn with such opposite colours. Personal intrepidity, military skill, sagacity and vigour in the administration of civil affairs, are virtues which even his enemies allow him to have possessed in an eminent degree. His moral qualities are more dubious, and ought neither to be praised nor censured without great reserve and many distinctions. In a fierce age he was capable of using victory with humanity, and of treating the vanquished with moderation. A patron of learning, which among martial nobles was either unknown or despised. Zealous for religion to a degree which distinguished him, even at a time when professions of that kind were not uncommon.—ROBERTSON.

SUBJECTS FOR ENGLISH COMPOSITION.

MR. MACRAN.

[Choose *one* subject.]

1. The Freedom of the Press.
2. Free Trade.
3. The victories of Nelson.
4. Any living novelist.
5. Modern discoveries and inventions.

SENIOR SOPHISTERS AND SUPPLEMENTAL DEGREE EXAMINATION.

ASTRONOMY.

MR. CULVERWELL.

1. Put in an unknown place, with astronomical instruments, how would you secure that the line of collimation of your transit instrument moved in the meridian?

What is the line of collimation?

2. How would you then determine the latitude?

3. How would you also determine the amount of the refraction, and how apply the correction to get the latitude accurately?

4. How would you determine the longitude?

5. How is the elliptical shape of the Earth's orbit round the Sun ascertained by observation?

6. How is the distance of the Earth from the Sun ascertained by experiment?

7. Why are the transits of Venus so rare? Why are those of Mercury not as rare?

8. Explain how to get the shape of the curve representing that part of the equation of time which is due to either of the two causes of inequality.

9. Describe the peculiarities and annual changes in appearance, as seen from the Earth, of any planet (and its satellites, if they are well known).

10. Draw a figure to show the phases of the Moon; and explain why there is more moonlight in winter than in summer.

ETHICS.

MR. MACRAN.

[A.]

(*For Senior Sophisters.*)

1. What is the chief constituent of Probability?

2. How does Butler dispose of the objection that the consequences of behaviour may be attributed merely to the course of Nature?

3. By what two facts does Butler explain the *natural* connexion in this world of reward and punishment with virtue and vice?

4. To what does Butler ultimately trace the necessity of this world's discipline for human nature?

5. Explain the doctrine of necessity, and give Butler's chief arguments against it.

6. How does Butler in the Dissertation on Virtue prove the existence of a moral faculty?

7. What characteristics distinguish Justice from the other virtues? Hume draws an additional distinction which Stewart will not allow?

8. Explain the difference between *a priori* and *a posteriori* arguments, and give examples of each.

9. How does Locke define Truth?
What does he mean by *real* Truth?

10. Why does our knowledge of co-existence extend such a short way?

[B.]

(*For Degree Candidates.*)

1. How does Butler show that benevolence is no more disinterested than any of the common particular passions?

2. What is the distinction between mere power and authority?
What is the analogue in the nature of man?

3. In some cases resentment is naturally not proportionate to the guilt involved in the resented act?
How does Butler explain this?

4. What is the degree in which we are commanded to love our enemies?

[C.]

(*For Hilary Supplementalists.*)

1. Explain the difference between primary and secondary qualities.
How do they, respectively, produce their ideas in us?

2. Distinguish the idea of space from that of solidity.
By what ways of experience do these ideas, respectively, enter our minds?

3. How far does our sensitive knowledge of existence extend?

4. State the several steps in Locke's proof of the existence of God.

5. What is the basis of moral obligation according to Stewart?

6. How does Stewart distinguish Absolute and Relative rectitude?

ENGLISH COMPOSITION.

DR. TYRRELL.

(*For Senior Sophisters.*)

Write an essay on *one* of the following subjects :—

(*a*) The English rule in India.

(*b*) The art of letter-writing.

(*c*) Tennyson's *Palace of Art*.

(*d*) Tennyson's sense of fitness as regards metre.

(*For Degree Candidates.*)

(*a*) The ideal University.

(*b*) 'In Shakspeare's tragic scenes there is always something wanting.'—Dr. Johnson.

(*c*) 'Shakspeare has exhibited the true perfection of the female character, the sense of weakness leaning on the strength of its affections for support.'—Hazlitt.

(*d*) 'We do not like to see Shakspeare's plays acted, and least of all *Hamlet*.'—Hazlitt.

(*e*) '*King Lear* is the best of his plays, but the same may be said of *Hamlet*, *Othello*, *Macbeth*, *As you like it*, and *A Midsummer Night's Dream*.'—H. Paul.

MATHEMATICAL PHYSICS.

MR. FRY.

1. A uniform beam, 6 feet long, weighing 30 lbs., has weights of 4, 5, 7, 7, 14, and 11 lbs. attached to it at distances of 0, 1, 2, 4, 5 and 6 feet from one end: find the point about which it will balance.

2. Find the centre of gravity of three rectangles, whose breadths are 18, 2, and 4 inches, and heights 2, 6, and 4 inches, placed in order on top of each other with their centres in the same vertical line.

3. A body moving in a straight line for 3 seconds with a uniform acceleration describes 54 feet; the acceleration then ceases; and during the next 3 seconds it describes 72 feet: find its initial velocity and the uniform acceleration.

4. A body is projected up a rough inclined plane, for which the coefficient of friction is $\frac{1}{4}$, and whose height is to its length as 3 to 5, with an initial velocity of 16 feet per second: how far up will it slide?

5. A projectile is thrown horizontally from the top of a cliff with a velocity of 80 feet per second, and strikes the water in 3 seconds: find the height of the cliff and the distance of the point where the projectile strikes the water from the foot of the cliff.

6. Prove the formula for getting the specific gravity of a mixture of given volumes of different liquids whose specific gravities are given.

7. How much poplar of sp. gr. ·4 must be tied to 117 lbs. of iron of sp. gr. 7·8 in order that the combination may just float in water?

8. A cylindrical diving-bell, whose height is 9 feet, is lowered till the level of the water in the bell is 17 feet below the surface. The height of the water-barometer being 34 feet, find the depth of the bottom of the bell.

9. The index of refraction of light passing from air into glass being $\frac{3}{2}$, and from air into water being $\frac{4}{3}$, find the index of refraction from water to glass. At a surface separating glass from water, in which medium can total refraction take place, and what will be the sine of the critical angle? Draw a diagram.

10. Light moving parallel to the axis of a concavo-convex lens, the radii of curvature of whose faces are 12 and 6 inches, and for which the index of refraction is $\frac{3}{2}$, passes through the lens: what will happen to the light?

CLASSICS.

MR. KENNEDY.

(For Senior Sophisters.)

I.

1. Translate:—

ἀλλὰ δὴ καὶ τόδε μοι χάρισαι καὶ λέγε· δοκεῖς ἂν ἢ πόλιν ἢ στρατόπεδον ἢ λῃστὰς ἢ κλέπτας ἢ ἄλλο τι ἔθνος, ὅσα κοινῇ ἐπί τι ἔρχεται ἀδίκως, πρᾶξαι ἄν τι δύνασθαι, εἰ ἀδικοῖεν ἀλλήλους; Οὐ δῆτα, ἦ δ' ὅς. Τί δ' εἰ μὴ ἀδικοῖεν, οὐ μᾶλλον; Πάνυ γε. Στάσεις γάρ που, ὦ Θρασύμαχε, ἥ γε ἀδικία καὶ μίση καὶ μάχας ἐν ἀλλήλοις παρέχει, ἡ δὲ δικαιοσύνη ὁμόνοιαν καὶ φιλίαν. ἦ γάρ; Ἔστω, ἦ δ' ὅς, ἵνα σοι μὴ διαφέρωμαι. Ἀλλ' εὖ γε σὺ ποιῶν, ὦ ἄριστε. τόδε δέ μοι λέγε· ἆρα εἰ τοῦτο ἔργον ἀδικίας, μῖσος ἐμποιεῖν ὅπου ἂν ἐνῇ, οὐ καὶ ἐν ἐλευθέροις τε καὶ δούλοις ἐγγιγνομένη μισεῖν ποιήσει ἀλλήλους καὶ στασιάζειν καὶ ἀδυνάτους εἶναι κοινῇ μετ' ἀλλήλων πράττειν; Πάνυ γε. Τί δέ; ἂν ἐν δυοῖν ἐγγένηται, οὐ διοίσονται καὶ μισήσουσι καὶ ἐχθροὶ ἔσονται ἀλλήλοις τε καὶ τοῖς δικαίοις; Ἔσονται, ἔφη. Ἐὰν δὲ δὴ, ὦ θαυμάσιε, ἐν ἑνὶ ἐγγένηται ἀδικία, μῶν μὴ ἀπολεῖ τὴν αὑτῆς δύναμιν, ἢ οὐδὲν ἧττον ἕξει.—Plato.

2. Parse—ἐωράκη, ἰέναι, ἄττα, ἐπεκτήσω, εἰδότι, ἀξιοῖς.

3. Write a note on—αὕτη ἐκείνη ἡ εἰωθυῖα εἰρωνεία Σωκράτους.

II.

1. Translate:—

Est in Carpathio Neptuni gurgite vates
Caeruleus Proteus, magnum qui piscibus aequor
Et iuncto bipedum curru metiture quorum.
Hic nunc Emathiae portus patriamque revisit

Pallenen; hunc et Nymphae veneramur et ipse
Grandaevus Nereus: novit namque omnia vates,
Quae sint, quae fuerint, quae mox ventura trahantur;
Quippe ita Neptuno visum est, immania cuius
Armenta et turpes pascit sub gurgite phocas.
Hic tibi, nate, prius vinclis capiendus, ut omnem
Expediat morbi causam, eventusque secundet.
Nam sine vi non ulla dabit praecepta, neque illum
Orando flectes; vim duram et vincula capto
Tende; doli circum haec demum frangentur inanes.
Ipsa ego te, medios cum sol accenderit aestus,
Cum sitiunt herbae et pecori iam gratior umbra est,
In secreta senis ducam, quo fessus ab undis
Se recipit, facile ut somno aggrediare iacentem.

VIRGIL.

2. Parse—*libemus, impressit, inspicat, stravit, capiere, saepem.*

3. Quote the line which follows after *Labor omnia vicit* ———

(*For Degree Candidates.*)

Ut mala quem scabies aut morbus regius urget
Aut fanaticus error et iracunda Diana,
Vesanum tetigisse timent fugiuntque poetam
Qui sapiunt; agitant pueri incautique sequntur.
Hic, dum sublimis versus ructatur et errat,

Si veluti merulis intentus decidit auceps
In puteum foveamve, licet, 'Succurrite,' longum
Clamet, 'Io cives!' non sit qui tollere curet.
Si curet quis opem ferre et demittere funem,
'Qui scis an prudens huc se proiecerit atque
Servari nolit?' dicam, Siculique poetae
Narrabo interitum. Deus immortalis haberi
Dum cupit Empedocles, ardentem frigidus Aetnam
Insiluit. Sit ius liceatque perire poetis:
Invitum qui servat idem facit occidenti.
Nec semel hoc fecit, nec si retractus erit iam
Fiet homo et ponet famosae mortis amorem.

HORACE.

2. Parse—*rupis, porrecta, adimam, collegit, metiri, mentita.*

3. Complete the following line:—

——————— mutant qui trans mare currunt.

LATIN COMPOSITION.

MR. WILKINS.

The subjugation of the will to the dictates of a higher law must be endeavoured, if we would succeed, almost in infancy and in very little things; from the earliest dawnings, as Hartley says, of understanding and desire. Children must first obey their parents, and those who have the care of them. The habit of sacrificing the will to another judgment being thus acquired, the mind is prepared to sacrifice the will to the judgment pronounced within itself. Show, in every practicable case, *why* you cross the inclinations of a child. Let obedience be as little blind as it may be. It is a great failing of some parents that they will not descend from the imperative mood, and that they seem to think it a derogation from their authority to place their orders upon any other foundation than their wills.

EXPERIMENTAL PHYSICS.

MR. THRIFT.

1. Describe the aneroid barometer, explaining what it measures and how it is graduated.

2. Explain clearly why you believe that heat is a form of energy, and how you would determine the number of ergs required to produce one calorie.

3. Define '*dip*'.
How would you determine the *dip* at a given place?

4. Define *electric pressure* and *electric resistance*, and explain how galvanometers can be used to measure electric pressures.

5. What is meant by the 'diffraction' of light?

What is an optical *grating*, and how may it be used to determine the wave-length of light?

CHEMISTRY.

DR. EMERSON REYNOLDS.

1. By what means can the presence of the hydroxyl (OH) be recognised in organic substances?

2. Point out the principle involved in the method of fractional distillation, and illustrate its application in any case known to you.

3. Explain the nature of the decomposition effected when ethyl acetate is distilled with an alkaline liquid. How would you recognise the products?

4. How are anhydrides of organo-metallic substances usually produced, taking zinc ethide as an example?

5.* Give some account of the natural relations of the metals of Mendeleeff's sixth group (the tin-lead family) of the elements.

6.* The equivalent of carbon is 3 (H = 1), and the specific heats of all forms of the element are irregular: how then has the *atomic* weight of carbon been determined?

Note.—The questions marked thus (*) are for Degree Candidates *in addition* to those set for Senior Sophisters.

(*For Senior Sophisters.*)

ZOOLOGY.

PROFESSOR MACKINTOSH.

1. Enumerate the chief forms of gametic reproduction in Protozoa.

2. Segmentation may be brought about in an ovum in different ways. What differences in the embryo might be expected to follow one or other?

3. Explain the diplodal type of Sponge.

4. What forms of calcification are found in, or growing out from, the skin of Asteroids, Echinoids, and Holothuroids?

5. Give an account of the general organisation of a Polyzoan.

6. Explain concisely the different forms of the nephric system in Hirudinea.

7. Compare the gills of *Nucula* with those of Mytilus.

8. The body of a *Helix pomatia* is fully extended as in creeping. Draw a referenced diagram of a cross-section taken about half-way between the anterior edge and the margin of the shell.

9. Apply accurately the terms 'dorsal,' 'ventral,' 'anterior,' 'posterior,' 'right,' 'left,' to the body of a Cephalopod.

10. Describe the digestive system of *Scyllium*.

POLITICAL SCIENCE.

MR. WARDELL.

[A.]

(*For Senior Sophisters only.*)

1. What 'four maxims' does Adam Smith mention with regard to taxation?

2. What, according to Adam Smith, are the principal circumstances which make up for a small pecuniary gain in some employments and counterbalance a great one in others?

3. 'The use of the House of Lords in its dignified capacity is very great.' Explain.

4. 'The product of industry is divided into four grand shares'—name them together with the classes that receive them. How does Walker define the term 'profits'?

[B.]

(*For all Candidates.*)

5. State clearly the Ricardian doctrine of Rent. How far is this doctrine applicable to the conditions of real life?

6. Indicate the difficulties which underlie the adoption of any scheme of co-operation.

7. What are the most important functions of the House of Commons?

8. Compare the doctrine of wages advanced by Adam Smith with that set forth by Walker.

[C.]

(*For Degree Candidates only.*)

9. Compare the advantages and disadvantages of Presidential and Cabinet Government.

10. What is the 'naturalistic' theory of politics, and within what limits does it hold good?

11. Criticise the statement that 'if a good despot be ensured, despotic Monarchy would be the best form of government.'

12. Enumerate the advantages derived from the 'division of labour.' State the causes which make 'market price' differ from 'normal price.'

SPECIAL DEGREE EXAMINATION.

ASTRONOMY.

DR. O'SULLIVAN.

1. Find the altitude of the pole of the ecliptic at sunrise and at sunset on the 21st March, in latitude 54° N.

2. State and prove the equation which gives the diurnal parallax of a body at any altitude.

3. By what observations can the truth of Kepler's first law be established?

4. Apply the second law to determine the ratio of the greatest to the least velocity of the Earth, assuming the eccentricity of its orbit to be 1/60.

5. Determine, by means of the third law, the mean distance from the Sun of a planet whose periodic time is equal to its synodic time.

6. Prove that if x be the number of minutes in the 'dip' of the horizon corresponding to a small elevation of h feet, $x^2 = \frac{9h}{8}$, very nearly, taking the Earth's diameter at 8000 miles.

7. Find the latitude of a place from the following data:—

Observed meridian altitude of Sun's lower limb, 52° 30′.
Sun's semidiameter, 15′ 45″.
Sun's declination, + 19° 7′ 13″.
Parallax at observed altitude, 4″.
Refraction at observed altitude, 44″.
Height of observer, 32 feet.

(The equation in question 6 may be assumed.)

8. When does the astronomical clock coincide with the ordinary clock?
Find the length of a sidereal hour in mean solar time.

9. How has the transit of Venus been used to determine the distance of the Sun?

10. Give an account of the planet Jupiter and its satellites.

ETHICS.

MR. MACRAN.

1. Explain the doctrine of Moral Sense. How does Stewart combat the sceptical consequences commonly deduced from it?

2. Give Stewart's reply to the question, 'Why was man made a free agent?'

3. How does Stewart answer Hume's statement that Justice is an artificial virtue?

4. What is meant by a final cause?
Explain Butler's remark that one cannot deny the government of God without denying final causes.

5. State *briefly* Butler's five arguments in proof of the moral government of God.

6. How does Butler show that his argument from our ignorance, while valid against the objections to religion, cannot be turned against religion itself?

7. What 'surprising confusion and perplexity' in the Epicureans and Hobbes is pointed out by Butler? He shows the way to avoid this confusion?

8. Give Butler's answer to the question, 'Allowing that we have a conscience, under what obligations are we to obey it?'

9. What two reflections does Butler gather from his account of resentment?

10. Butler points out a difference which distinguishes resentment from all other active principles in man?

ENGLISH COMPOSITION.

MR. MOONEY.

Write an essay on *one* of the following:—

(*a*) The Queen in *Hamlet*.

(*b*) The ends of a University education.

MATHEMATICAL PHYSICS.

MR. RUSSELL.

1. A picture hangs symmetrically by means of a string passing over a nail and attached to two rings in the picture: what is the tension of the string when the picture weighs 10 lbs., if the string be 4 feet long and the nail 1 foot 6 inches from the horizontal line joining the rings?

2. The lengths of the sides of a rectangular plate are

$$AB = CD = 12 \text{ inches}, \quad AD = BC = 8 \text{ inches},$$

and its weight is 15 lbs.; if weights of 8, 10, 6, 12 lbs. hang from A, B, C, D, respectively, find the point on which it will balance.

3. If a body be projected vertically upwards with a velocity of 160 feet per second, find the distance passed over in the 5th second and in the 7th second.

4. A mass of 6 ounces lying on a smooth horizontal table is attached to a string passing through a hole in the table, and from the other end of the string a weight of one ounce hangs. If the length of the portion of string on the table be 3 feet, find the velocity with which the six ounces should be projected in order that it may describe a circle.

5. A body of mass 100 lbs. moving initially due south with a velocity of 15 feet per second is acted on by a force of $2\frac{1}{2}$ lbs. weight acting always in an easterly direction: what will be its velocity at the end of 15 seconds?

6. A uniform rod, 3 feet long and of weight 4 lbs., is used as a steelyard whose fulcrum is 1 inch from one end, and the sliding weight is that of 1 lb. Find the greatest and least weights that can be measured. Where should the sliding-weight be placed to show 75 lbs.?

7. 1000 cubic inches of gas at a temperature of 30° C. and pressure of 25 inches has its pressure increased to 30 inches without change of temperature: find its volume. If now, without change of volume, its temperature be raised to 60° C., find the final pressure.

8. The apparent weights of a body when placed in the upper and lower cups of a Nicholson's hydrometer are 12 grains and 16 grains respectively: find the specific gravity of the body, being given that the apparent weight of the hydrometer is 22 grains.

9. A double concave lens has a focal length of 5 inches: find the position of the image of a small upright object placed 10 inches from the lens. Show by a diagram how the image is formed.

10. How would you find the index of refraction of a piece of glass in the form of a prism?

CLASSICS.

Cui potior patria fuit interdicta voluptas.

HORACE.

4. Parse *differtum*, *oblīti*, *oblĭti*, *siluit*, *dissiluit*, and give the English of each word.

5. Write notes on—
   (*a*) In cute curanda plus aequo operata iuventus.
   (*b*) Cantaber Agrippae, Claudi virtute Neronis Armenius cecidit.
   (*c*) Non equidem insector delendaque carmina Livi Esse reor, memini quae plagosum mihi parvo Orbilium dictare.
   (*d*) Iura neget sibi nata, nihil non arroget armis.

LATIN COMPOSITION.

MR. GOLIGHER.

There is no doubt that the general was aware of the enemy's intentions. Accordingly he ordered the cavalry to make a sudden charge, in order to prevent any of their soldiers from finding either his arms or his proper rank, and when the whole of the opposing army was thus thrown

into hopeless confusion, he led up his infantry. The result was a complete and brilliant victory. After the battle he addressed his troops in a short speech: he had warned them, he said, that the enemy was at hand, but it had been impossible to persuade them not to put faith in idle rumours and fictitious messages. All had now turned out well; but what would have happened if their folly had not been counterbalanced by the sagacity of his officers and by their own matchless intrepidity? He concluded by promising to divide two-thirds of the booty amongst them, and by expressing a hope that they would strive not to deserve even the lightest censure throughout the rest of the campaign.

EXPERIMENTAL PHYSICS.

MR. THRIFT.

1. Explain what is meant by a saturated vapour. Describe a method of determining how the pressure of a saturated vapour varies with the temperature.

2. How would you determine the direction and magnitude of the magnetic force due to a magnet at various points in its neighbourhood?

3. Describe a machine for transforming mechanical into electromagnetic energy.

4. What are musical intervals? How are they measured?

5. How would you measure the angle of a prism?

CHEMISTRY.

MR. E. A. WERNER.

1. Describe briefly the chemical changes produced in a starch solution by the enzyme diastase. How would you recognise the presence of the different products?

2. How is acetylene synthesised from its elements? What remarkable change does the gas undergo when heated to dull redness in a closed vessel?

3. State the law of diffusion of gases.
The diffusion rate of a given gas is = 0·25, that of hydrogen = 1·0. What is the specific gravity of the gas?

4. What are the products of the limited oxidation of ethyl alcohol? Write their constitutional formulæ.

5. Under what conditions may carbonic oxide be produced during combustion. Compare fully its properties with those of carbon dioxide.

6. Specify the members of the divalent group of metallic elements, and give the formulæ of their most characteristic compounds, so as to point out the relations of the group.

POLITICAL SCIENCE.

MR. BASTABLE.

[FOUR *Questions to be selected from each Section.*]

SECTION A.

1. Consider the connexion between the wages of labour and the price of food.

2. Define 'Capital.' Explain the statement that 'The general industry of the society can never exceed what the capital of the society can employ.'

3. How do you account for the slow progress of agriculture, as compared with manufactures?

4. On what grounds does Adam Smith criticise the English Poor Law system of his time? How was the system changed in the eighteenth century?

5. Explain shortly the advantages of bank-money.

6. Consider the effects of a tax upon the produce of land.

SECTION B.

7. State the chief merits and defects of local representative bodies.

8. What is Mill's judgment on the old colonial policy of reciprocal monopoly?

9. How may a democracy be best protected against the dangers arising from sinister interests?

10. Explain the division of sovereignty in the American Constitution.

11. What evils are produced by the English system of having a complete change of ministry?

12. Sketch shortly the political functions of the English King.

JUNIOR SOPHISTERS.

FORMAL LOGIC.

MR. KENNEDY.

1. Define Logic, and explain the words used in the definition.

2. State accurately what is meant by a Term, and give the derivation of the word as used by logicians.

3. Show by an example the relation of Denotation to Connotation. Which of the two is related to Definition, and which to Division?

4. Form examples of the violation of the rules for Division.

5. Give the divisions and subdivisions of Inference.
Exhibit, in a diagram, the relations of Subalternation and Opposition.
Which is safer to use in an argument—Contradictory or Contrary Opposition? Give the reason for your answer.
Convert—'All cats have been kittens.'

6. Prove (*a*) that from two particulars nothing follows; and (*b*) that the first figure is the only one in which the conclusion A can be drawn.

7. Write out the famous mnemonic lines to indicate the valid moods, and show how to use them.

8. Distinguish the old meanings from the present meanings of Enthymeme and Sorites.
Write down an example of the ordinary Sorites; and, breaking it up into its component syllogisms, prove its rules completely.

9. Give (*a*) the certain, and (*b*) the disputed, case in Disjunctive Syllogisms.
In Hypothetical Syllogisms, when may we argue from the affirmation of the consequent to the affirmation of the antecedent, or from the denial of the antecedent to the denial of the consequent?

10. Classify Fallacies.

MATHEMATICAL PHYSICS.

MR. RUSSELL.

1. If two forces act at a point, and be perpendicular to and proportional to the sides AB and BC of a triangle, prove that the resultant is perpendicular to and proportional to the side CA.

2. A four-sided lamina has two of its opposite sides parallel, and of lengths 11 inches and 5 inches, and the perpendicular distance between them is 16 inches. If it be suspended by a cord so that the parallel sides are vertical, find the distances of the cord from the parallel sides.

3. The base of an inclined plane is 4 feet in length, and the height is 3 feet; a force of 8 lbs. acting parallel to the plane will just prevent a weight of 20 lbs. from sliding down: find the coefficient of friction.

4. Two masses of 15 and 21 lbs. are fastened to the ends of a cord passing over a smooth pulley and allowed to move: find the tension in the cord.

5. A mass of 10 lbs. is moving on a smooth horizontal plane with a velocity of 160 feet per second, and is directly opposed by a force of 5 lbs. weight: find the time in which it will be stopped, and the distance it will have gone.

6. Describe the Fahrenheit and Centigrade Thermometers, and find the temperature recorded by the latter that corresponds to 98° F.

7. State Boyle's Law of Gases, and apply it to explain the diving-bell.

8. A body is weighed in two liquids of specific gravities ·8 and 1·5, and in the two cases the apparent weights are 42 and 35 ounces, respectively: find the weight of the body.

9. Two double convex lenses, whose focal lengths are 8 inches and 10 inches, are placed in contact: find the position of the image of an object situated 40 inches from them.

10. Find the relation between the apparent and real depths of a liquid.

ASTRONOMY.

MR. F. PURSER.

1. Describe, as fully as you can, the path and motion of the Sun among the fixed stars.

2. Eclipses of the Sun and Moon (*a*) do not recur at fortnightly intervals, nor (*b*) at the same time of the year in different years. What inferences as to the Moon's orbit may be drawn from these facts respectively?

3. Explain clearly what is meant by the line of collimation of a telescope, showing what is the importance of this line.

(*a*) How may the line of collimation of a telescope turning on a truly horizontal axis to which it is perpendicular be placed in a vertical position?

4. Explain the method by which the latitude of a ship at sea is determined.

5. Describe accurately the effect of refraction on the apparent position of a star.

(*a*) Show why the Sun appears oval at rising and setting.

6. Given that the horizontal parallax of the Sun is 8″·78, and the Earth's semi-diameter 3963 miles: find the Sun's distance.

7. Assuming the latitude of Dublin = 53° 23′ N., show how to determine the beginning and end of the period during which the nights are never completely dark.

8. Explain how the ratios of the distances of Venus and the Earth from the Sun, both being supposed to move uniformly in circular orbits, may be determined by observation.

9. State accurately Kepler's first and second laws of the planetary motions.

Show how it follows from these that summer is, at present, longer than winter.

10. Describe accurately the phenomenon known as the precession of the equinoxes, and briefly indicate its cause.

(*a*) Does precession involve an earlier recurrence of the equinox each year than the year before, and if not, why not?

SUBJECTS FOR ENGLISH ESSAY.

MR. SMYLY.

[Choose *one* subject.]

1. Imperfect Sympathies.
2. To fly from, need not be to hate, mankind.

CLASSICS.

MR. GOLIGHER.

[A.]

1. Translate:—

καὶ περὶ μὲν τῆς βοηθείας ταῦτα γιγνώσκω· περὶ δὲ χρημάτων πόρου, ἔστιν ὦ ἄνδρες Ἀθηναῖοι χρήμαθ' ὑμῖν, ἔστιν ὅσ' οὐδενὶ τῶν ἄλλων ἀνθρώπων· ταῦτα δ' ὑμεῖς οὕτως ὡς βούλεσθε λαμβάνετε. εἰ μὲν οὖν ταῦτα τοῖς στρατευομένοις ἀποδώσετε, οὐδενὸς ὑμῖν προσδεῖ πόρου, εἰ δὲ μή, προσδεῖ, μᾶλλον δ' ἅπαντος ἐνδεῖ τοῦ πόρου. "τί οὖν;" ἄν τις εἴποι, "σὺ γράφεις ταῦτ' εἶναι στρατιωτικά;" μὰ Δί' οὐκ ἔγωγε. ἐγὼ μὲν γὰρ ἡγοῦμαι στρατιώτας δεῖν κατασκευασθῆναι, καὶ μίαν σύνταξιν εἶναι, τὴν αὐτὴν τοῦ τε λαμβάνειν καὶ τοῦ ποιεῖν τὰ δέοντα· ὑμεῖς δ' οὕτω πως ἄνευ πραγμάτων λαμβάνειν εἰς τὰς ἑορτάς. ἔστι δὴ λοιπὸν οἶμαι πάντας εἰσφέρειν, ἂν πολλῶν δέῃ, πολλά, ἂν ὀλίγων, ὀλίγα. δεῖ δὲ χρημάτων, καὶ ἄνευ τούτων οὐδὲν ἔστι γενέσθαι νῶν δεόντων. λέγουσιν δὲ καὶ ἄλλους τινὰς ἄλλοι πόρους, ὧν ἕλεσθ' ὅστις ὑμῖν συμφέρειν δοκεῖ· καὶ ἔως ἐστὶ καιρός, ἀντιλάβεσθε τῶν πραγμάτων.—DEMOSTHENES.

2. Parse—κατασκευασθῆναι, ἕλεσθε, ἀντιλάβεσθε.

3. (*a*) What view of the power of Macedonia is put forward in the Second Olynthiac?

(*b*) How does Demosthenes, in the Third Olynthiac, propose to succour Olynthus?

[B.]

1. Translate:—

Sunt in fortunae qui casibus omnia ponant
Et nullo credant mundum rectore moveri
Natura volvente vices et lucis et anni,
Atque ideo intrepidi quaecumque altaria tangunt.
Est alius metuens ne crimen poena sequatur,
Hic putat esse deos et peierat, atque ita secum:
'Decernat quodcumque volet de corpore nostro
Isis et irato feriat mea lumina sistro,
Dummodo vel caecus teneam quos abnego nummos.
Et phthisis et vomicae putres et dimidium crus
Sunt tanti. Pauper locupletem optare podagram
Nec dubitet Ladas, si non eget Anticyra nec
Archigene; quid enim velocis gloria plantae
Praestat et esuriens Pisaeae ramus olivae?

JUVENAL.

2. Give the meanings of—ballaena, aulaea, capsa, lorica, aplustre, rota, gingiva, rogus, tomacula, semita.

3. (*a*) What does Juvenal advise men to pray for?

(*b*) What was his estimate of Cicero's poetry?

(*c*) What does he bid us regard as *summum nefas*?

LATIN COMPOSITION.

MR. BEARE.

Agrippa, having been condemned by Tiberius on the charge of having spoken insolently of him, was placed in chains before the palace gate. Oppressed with the terrific heat of the sun, he felt sure that he should die of thirst unless he could get some water. Seeing Thaumastus, a slave, pass by with a pitcher of water, he entreated him to give him leave to drink. The slave kindly gave him the pitcher; and having drunk, 'be sure,' he said, 'Thaumastus, that one day I shall be released from chains, and I shall not forget thy benevolence.' When Tiberius died, Agrippa was not only set free from prison by Caligula, but also soon after was chosen to occupy the throne of Judaea.

EXPERIMENTAL PHYSICS.

MR. THRIFT.

1. Describe fully how you would determine the weight of 1 c.c. of iron.

2. Explain clearly the difference between boiling and evaporation, and describe experiments illustrative of the laws of each.

3. Describe how to use Coulomb's torsion-balance to investigate the laws of magnetic force.
Why is it difficult to obtain good results by the method?

4. Enumerate the laws of electrolysis.
Explain how to measure an electric current by means of a voltameter, and when this is possible.

5. What is meant by the polarisation of an electric cell?
Explain some of the methods of preventing it.

CHEMISTRY.

DR. EMERSON REYNOLDS.

1. Give examples of chemical changes which can be determined by the agency of light only, and explain each case.

2. Explain the usual method by which ammonia gas is prepared.
How would you obtain free nitrogen from ammonia?

3. Two oxides of sulphur exist; write the formula of each body; state the law which they serve to illustrate; explain the usual methods of formation; and point out the characters by which the two compounds can be distinguished.

4. Write a list of the elements which belong to the same natural family as carbon, and point out their general relations.

5. Calculate the percentage composition of the substance represented by the formula Na_2HPO_4.

[Atomic weights: H = 1; O = 16; Na = 23; P = 31.]

HISTORY.

MR. WARDELL.

1. Give some account of the Danes in England.

2. What do you know of Ireland under Henry II. and John?

3. State the claim of Henry IV. to the throne. What were the circumstances which led to his accession?

4. Describe the French wars of Henry V.

5. Give a short account of the Fourth Crusade. Estimate its results.

6. Sketch the character and policy of Louis XI.

7. Narrate the career of Joan of Arc.

8. What do you know of Charles Martel, Rollo of Normandy, Bernard of Clairvaux, Abelard, the 'Armagnacs'?

SENIOR FRESHMEN AND FINAL FRESHMAN SUPPLEMENTALISTS.

ALGEBRA.

MR. CATHCART.

1. A rectangular field contains 30 acres: find the lengths of its sides when the square of the greater exceeds that of the less by 80 acres.

2. Solve the equation

$$\frac{12x+4}{5x-7} = \frac{45x-63}{3x+1}.$$

3. Write down the values of five continued proportionals intermediate between the quantities a and b.

4. Find the difference in income arising from £1000 invested in $2\frac{3}{4}$ per cents at 110, with income tax at $8d.$ in the £, and from the same sum invested in $2\frac{1}{2}$ per cents at 91 when income tax is $15d.$ in the £.

5. Verify that $x = 19$ satisfies the equation

$$\sqrt{3x+7} + \sqrt{5x+5} = \sqrt{17x+1},$$

and determine what other value does so, and with what signs of the radicals.

6. Write down in its simplest form the quadratic equation whose roots are $a \pm \sqrt{a^2 - b^2}$.

7. Simplify the expression

$$\frac{\dfrac{x+y}{1-xy} - \dfrac{2x}{1-x^2}}{1 + \dfrac{2x(x+y)}{(1-xy)(1-x^2)}} - \frac{\dfrac{x-y}{1+xy} + \dfrac{2y}{1-y^2}}{1 - \dfrac{2y(x-y)}{(1+xy)(1-y^2)}}.$$

8. Calculate to three places of decimals the value of

$$\left(\frac{\sqrt{3}+\sqrt{2}}{\sqrt{3}-\sqrt{2}}\right)^2 - \left(\frac{\sqrt{3}-\sqrt{2}}{\sqrt{3}+\sqrt{2}}\right)^2.$$

9. Find the values of x, y, and z, which satisfy the equations

$$\begin{aligned} 4x - 3y + z &= 5, \\ 9x + 7y - 5z &= 104, \\ 11x - 2y + 4z &= 15. \end{aligned}$$

10. Find the cost of 73 tons 14 cwt. 3 qrs. 4 lbs. at £1 7*s.* 8*d.* per cwt.

TRIGONOMETRY.

DR. O'SULLIVAN.

1. Explain how the signs + and − are used in Trigonometry to denote direction. Write down the values of $\sin 30°$, $\tan 135°$, $\sec 150°$.

2. Show that in any triangle $a^2 = b^2 + c^2 - 2bc \cos A$.

3. If $\sin A = \frac{1}{2}$ and $\sin B = \frac{12}{13}$, find the value of $\cos(A - B)$.

4. Show that in any triangle

$$\sin \tfrac{1}{2} A = \sqrt{\frac{s-b \,.\, s-c}{bc}},$$

where $a + b + c = 2s$.

5. If the sides a, b, c of a triangle be 14, 15, 16, respectively, find the values of $\tan \frac{1}{2} B$ to two decimal places.

6. Show that, in any triangle,

$$a = \frac{b}{\cos C + \sin C \cot A}.$$

7. Find the value of $\sin 3A$ in terms of $\sin A$.

8. If the angle B of a triangle be three times the angle A, show that

$$\tan^2 A = \frac{3a - b}{a + b}.$$

9. If, in any triangle, you are given two sides and the included angle, show how to find the other angles.

10. Two steamers leave the same port at the same time, one steering due south, and doing 22 knots an hour, the other steering S.E. by E. $\frac{1}{2}$ E., and doing 11 knots an hour. Find their distance and bearing from each other at the end of two hours after starting.

MR. CULVERWELL.

(For Senior Freshmen.)

1. A uniform rod 41 inches long and weighing 5 lbs. has weights of 7 lbs. and 15 lbs. attached to its extremities. At what distance from the centre will it balance?

2. Prove that if three forces maintain a body in equilibrium, their lines of action must meet in a point. What other conditions are necessary?

3. Define work, and determine the amount of work done in drawing a rough block of timber weighing 4 stone along a horizontal plane, a distance of 10 feet, the coefficient of friction being $\frac{1}{2}$.

4. A weight of 5 lbs., hanging by a string from a fixed point, is acted on by a force of 4 lbs. directed horizontally: find the magnitude of the force exerted by the string on the weight, when the latter is in equilibrium, and the sine of the angle by which the string is inclined to the vertical.

5. Give an accurate definition of the centre of gravity of a body.

Find the position of the centre of gravity of four weights of 3, 4, 5, and 6 lbs. placed in order at the corners of square *ABCD*.

6. If the interval between the threads of the screw in a screw-press be $\frac{1}{6}$th of an inch, and the diameter of the circle described by the handle be $1\frac{1}{2}$ ft., find what pressure a force of 40 lbs. exerted at the handle will apply.

7. The height of a rough inclined plane is 5 ft., its length is 13 ft., the coefficient of friction is $\frac{1}{2}$. Find the forces acting parallel to the plane which will just support and just move up the plane a body of 26 lbs. weight.

(*For Final Freshman Supplementalists.*)

1. What velocity will a body acquire in falling through 81 feet? How long will it occupy in falling?

2. Weights of 2 lbs. and 3 lbs. are hung on the ends of a string which passes over a smooth pulley. Find the tension of the string.

3. A body starting from rest slides down a smooth inclined plane, of length 13 feet, and height 5 feet. Find its velocity when it reaches the lowest point of the plane.

4. A force acts for 2 seconds on a mass of 4 lbs., and produces a velocity of 8 feet per second at the end of that time. If this force act on a mass of 2 lbs. for 1 second, what distance will it move it? How many lbs. are there in the force?

5. The speed of a train is reduced from 30 miles an hour to 10 miles an hour, whilst it travels 200 yds.: if the retardation be uniform, how much further will it travel before coming to rest?

Supplementalists will also take Questions 3–7, inclusive, of those for Senior Freshmen.

MR. WILKINS.

[A.]

(*For Senior Freshmen.*)

II.

Ne, pueri, ne tanta animis adsuescite bella
Neu patriae validas in viscera vertite viris;
Tuque prior, tu parce, genus qui ducis Olympo,
Proice tela manu, sanguis meus!—
Ille triumphata Capitolia ad alta Corintho
Victor aget currum caesis insignis Achivis:
Eruet ille Argos Agamemnoniasque Mycenas
Ipsumque Aeaciden, genus armipotentis Achilli,
Ultus avos Troiae templa et temerata Minervae.
Quis te, magne Cato, tacitum aut te, Cosse, relinquat?
Quis Gracchi genus aut geminos, duo fulmina belli,
Scipiadas, cladem Libyae, parvoque potentem
Fabricium vel te sulco, Serrane, serentem?
Quo fessum rapitis, Fabii? Tu Maximus ille es,
Unus qui nobis cunctando restituis rem.
Excudent alii spirantia mollius aera
(Credo equidem), vivos ducent de marmore voltus,
Orabunt causas melius caelique meatus
Describent radio et surgentia sidera dicent;
Tu regere imperio populos, Romane, memento
Hae tibi erunt artes; pacisque inponere morem,
Parcere subiectis et debellare superbos.

VIRGIL.

Explain the historical references in this passage.

LATIN COMPOSITION.

MR. SMYLY.

A little before I visited Athens, the following adventure is said to have happened. A soldier being summoned to appear before the commanding officer upon some misdemeanour, put the little gold he had in

the hands of the statue of Demosthenes, which were in some measure clenched. A small plane-tree grew by it, and many leaves, either accidentally lodged there by the winds, or purposely so placed by the soldier, covered the gold a considerable time. When he returned and found his money entire, the fame of this accident was spread abroad, and many of the wits of Athens strove which could write the best copy of verses to vindicate Demosthenes from the charge of corruption.

ENGLISH COMPOSITION.

MR. MOONEY.

(*For Senior Freshmen.*)

Write an Essay on *one* of the following subjects :—

1. The character of Swift.

2. How does Goldsmith show, in *The Traveller*, that every state has a particular principle of happiness, and that this principle in each may be carried to a mischievous excess ?

(*For Final Freshman Supplementalists.*)

Write an Essay on *one* of the following :—

1. The character of Lady Macbeth.

2. An examination of Bacon's views on Friendship *or* Riches.

JUNIOR FRESHMEN.

EUCLID.

MR. CATHCART.

1. When the areas of two squares are equal, prove that a side of one is equal to a side of the other.

2. When the middle points of two lines coincide, prove that the lines joining their extremities form a parallelogram.

3. When hypotenuse and a side of one right-angled triangle are severally equal to hypotenuse and a side of another, prove that the triangles are equal in every respect.

4. Divide a right line so that the rectangle under it and one segment may equal the square of the other segment.

5. Draw two tangents to a given circle from a point.

6. How large are the angles which a side of a regular pentagon inscribed in a circle subtends at points on the circumference?

7. When the bisector of the vertical angle of a triangle cuts the base inversely as the sides, what kind is the triangle?

8. Two triangles have two sides in one directly proportional to two sides in the other which contain equal angles: prove that they are similar in other respects.

9. Two triangles have two sides in one inversely proportional to two sides in the other which contain equal angles: prove that their areas are equal, and that unless they are isosceles they are dissimilar in other respects.

10. In a right-angled triangle, a rectilineal figure on the hypotenuse equals the sum of similar figures similarly placed on the sides.

ALGEBRA AND ARITHMETIC.

MR. ROBERTS.

1. Simplify the expression

$$\frac{x^2 - b^2 - c^2 + (x+d)^2 - 2x(x+d) + 2bc}{(x-b)^2 - (x-c+d)^2}.$$

2. Divide $2x^4 + 3x^2 + x - 6$ by $x - 1$.

3. Add together the fractions

$$\frac{1}{a+3b}, \quad \frac{6b}{a^2-9b^2}, \quad \frac{1}{a-3b}.$$

4. Solve the equation

$$\frac{x-5}{13}+\frac{2x-1}{9}=\frac{8-x}{3}.$$

5. Reduce to its simplest form the expression

$$\frac{(a+b\sqrt{2})^3+(a-b\sqrt{2})^3-8ab^2}{(a+b\sqrt{2})^2+(a-b\sqrt{2})^2}.$$

6. Solve the equation

$$\frac{x-1}{x}+\frac{x+3}{x+5}=\frac{8}{5}.$$

7. 2 pipes can fill a cistern in 8 hours, and 10 hours, separately. How long will it take to fill the cistern if both are opened?

8. If the cost of papering a room $8\frac{1}{4}$ yards long, by 6 yards 2 feet wide, with paper 2 feet wide, at 4*d.* per yard, be £2 19*s.* 8*d.*, what is the height of the room?

9. At what price must a man invest in 6 per cent. stock to obtain $7\frac{1}{2}$ per cent. for his money?

10. A man sells 3 per cent. stock and invests in $3\frac{1}{2}$ per cents. at $108\frac{1}{2}$. If his income remains the same, what is the price of the 3 per cent. stock?

TRIGONOMETRY.

MR. RUSSELL.

1. Prove the formulæ

$$\sin A=\frac{\tan A}{\sqrt{1+\tan^2 A}},\ \operatorname{cosec} A=\frac{\sec A}{\sqrt{\sec^2 A-1}}.$$

2. Express in degrees, minutes, and seconds the angles whose circular measure is 0·125.

3. Prove the formula

$$\cos(A+B)=\cos A\cos B-\sin A\sin B,$$

and deduce the formula

$$2\sin^2 A=1-\cos 2A.$$

4. Calculate tan 15° to three decimal places.

5. Given of a triangle

$$A=150^\circ,\ \cos B=\frac{5}{2\sqrt{7}},\ c=2,$$

find the remaining sides.

6. For a plane triangle, prove the formula

$$\tan \tfrac{1}{2}(A - B) = \frac{a - b}{a + b} \cot \tfrac{1}{2} C.$$

Of what practical importance is this formula?

7. Given $a = 51$, $b = 26$, $c = 55$, find the area of the triangle, and the sines of A, B, and C.

8. Simplify $$\frac{\sin A + \sin 3A + \sin 5A}{\cos A + \cos 3A + \cos 5A}.$$

9. Make a table of the signs of the trigonometrical functions of angles in the four quadrants.

10. Explain how you would find the distance of an inaccessible object.

CLASSICS.

DR. L. C. PURSER.

   (*c*) Exhibe librarium illud legum vestrarum, quod te aiunt eripuisse e domo, et ex mediis armis turbaque nocturna tamquam Palladium sustulisse.
3. What was the result of the trial of Milo ?

LATIN COMPOSITION.

MR. EXHAM.

Paulus was on the other side of the field. He had been seriously wounded at the very beginning of the battle by a bullet from a sling, but yet he repeatedly encountered Hannibal with a compact body of troops, and at several points restored the fortune of the day. He was protected by the Roman cavalry, who at last sent away their horses when the consul became too weak to manage his charger. Some one told Hannibal that the consul had ordered the cavalry to dismount. 'He might better hand them over to me bound hand and foot,' said he. The horsemen fought on foot as men were likely to fight, when, the victory of the enemy being beyond all doubt, the vanquished preferred dying where they stood to flight, and the victors, furious with those who delayed their triumph, slaughtered the foes whom they could not move.—LIVY.

SUBJECTS FOR ENGLISH COMPOSITION.

MR. MACRAN.

Relate the story of *Comus*, describing briefly the principal scenes.

Or,

Discuss the Unities of the Drama, with their advantages and disadvantages.

JUNIOR FRESHMEN SUPPLEMENTING HILARY EXAMINATION.

EUCLID.

MR. FRY.

1. If two triangles have the three sides of the one respectively equal to the three sides of the other, prove that the triangles are identically equal.

2. Show how to apply to a given straight line a parallelogram, which shall be equal to a given triangle, and have an angle equal to a given angle.

3. In any triangle prove that the square on a side opposite an acute angle is less than the sum of the squares of the sides containing the acute angle, by twice the rectangle contained by either of the latter lines and the projection of the other upon it.

4. Prove that the opposite angles of a cyclic quadrilateral are supplementary.

5. Show how to construct on a given straight line a segment of a circle containing an angle equal to a given angle.

6. If P, Q are two points on the productions of the sides BA, CA of a triangle ABC, and if PQ is parallel to BC, prove

$$BA : AP = CA : AQ.$$

(Prove the two cases of the proposition.)

7. If two triangles have one angle of the one equal to one angle of the other, and the sides about one other angle in each proportional, so that the sides opposite the equal angles are homologous, prove that the triangles have their third angles either equal or supplementary.

8. On a given line show how to describe a rectilineal figure similar to a given rectilineal figure.

(*a*) If the given figure had five unequal sides, in how many ways could the required figure be described on the given line?

9. Find two lines which shall be to one another in the same ratio as two given equiangular parallelograms.

10. If similar rectilineal figures are similarly described on the three sides of a right-angled triangle, prove that the figure on the hypothenuse is equal to the sum of the figures on the sides.

ALGEBRA AND ARITHMETIC.

MR. ROBERTS.

1. Add together the fractions

$$\frac{3x+2y}{x-y}, \quad \frac{x-3y}{x+y}, \quad \frac{3x^2+6y^2+xy}{y^2-x^2}.$$

2. Simplify the expression

$$\frac{(x^2-a^2)(b-c)+(x^2-b^2)(c-a)+(x^2-c^2)(a-b)}{(a-b)(b-c)(c-a)}.$$

3. Divide

$$x^4+4y^4 \quad \text{by} \quad x^2+2y^2-2xy.$$

4. Solve the equation

$$\frac{x-4}{4}+\frac{12-x}{2}=3(9-x).$$

5. Find the simplest value of the product of the following quantities

$$\frac{x^2+y^2}{x^2-y^2}, \quad \frac{x^6-y^6}{x^4+y^4+x^2y^2}, \quad \frac{x^2}{(x+y)^2+(x-y)^2}.$$

6. Solve

$$\frac{3}{2(x-1)}+\frac{2}{2-x}+\frac{1}{2x-6}=0.$$

7. A can do a piece of work alone in 3 hours; B can do it alone in 7 hours. How long will they take to do it when working together?

8. Find the square root of 7 to 4 decimal places.

9. A man buys £4786 5*s*. stock at 98, and sells at 99¾. What profit does he make?

10. In what time will £2505 amount to £4008 at 6 per cent.?

CLASSICS.

MR. GOLIGHER.

[*Candidates must attempt Section* [C], *and* EITHER *Section* [A] OR *Section* [B]].

[A.]

1. Translate:—

μετὰ ταῦτα ἀνήχθησαν εἰς Σάμον, κἀκεῖθεν Σαμίας ναῦς ἔλαβον δέκα· ἠθροισαν δὲ καὶ ἄλλας πλείους ἢ τριάκοντα παρὰ τῶν ἄλλων συμμάχων, εἰσβαίνειν ἀναγκάσαντες ἅπαντας, ὁμοίως δὲ καὶ εἴ τινες αὐτοῖς ἔτυχον ἔξω οὖσαι. ἐγένοντο δὲ αἱ πᾶσαι πλείους ἢ πεντήκοντα καὶ ἑκατόν. ὁ δὲ

Καλλικρατίδας ἀκούων τὴν βοήθειαν ἤδη ἐν Σάμῳ οὖσαν, αὐτοῦ μὲν κατέλιπε πεντήκοντα ναῦς καὶ ἄρχοντα Ἐτεόνικον, ταῖς δὲ εἴκοσι καὶ ἑκατὸν ἀναχθεὶς ἐδειπνοποιεῖτο τῆς Λέσβου ἐπὶ τῇ Μαλέᾳ ἄκρᾳ ἀντίον τῆς Μυτιλήνης. τῇ δ' αὐτῇ ἡμέρᾳ ἔτυχον καὶ οἱ Ἀθηναῖοι δειπνοποιούμενοι ἐν ταῖς Ἀργινούσαις. αὗται δ' εἰσὶν ἀντίον τῆς Λέσβου. τῆς δὲ νυκτὸς ἰδὼν τὰ πυρά, καί τινων αὐτῷ ἐξαγγειλάντων ὅτι οἱ Ἀθηναῖοι εἶεν, ἀνήγετο περὶ μέσας νύκτας, ὡς ἐξαπιναίως προσπέσοι· ὕδωρ δ' ἐπιγενόμενον πολὺ καὶ βρονταὶ διεκώλυσαν τὴν ἀναγωγήν.—XENOPHON.

2. (*a*) Give the present and 2nd aorist indicative (1st pers. singular) of *ἀνήχθησαν*. (*b*) What is the nom. sing. of *πλείους*? (*c*) Parse *αὐτοῦ*. (*d*) Why is *εἶεν* in the optative? (*e*) What is the genitive singular of *ὕδωρ*?

3. Give the English of *five* of the following words—*αἰθρία, ἀήττητος, αἰχμάλωτος, φόρος, σφράγισμα, ἀνεψιός, νεώς, πολιορκία, ἡμεροσκόπος, δεκατευτήριον*.

4. Who were the victors in the battles of Cyzicus, Notium, and Arginusae?

[B.]

1. Translate:—

ΜΗ. *μή μοι γένοιτο λυπρὸς εὐδαίμων βίος*
μηδ' ὄλβος ὅστις τὴν ἐμὴν κνίζοι φρένα
ΙΑ. *οἶσθ' ὡς μετεύξει καὶ σοφωτέρα φανεῖ;*
τὰ χρηστὰ μή σοι λυπρὰ φαινέσθω ποτέ,
μηδ' εὐτυχοῦσα δυστυχὴς εἶναι δόκει.
ΜΗ. *ὕβριζ', ἐπειδὴ σοὶ μὲν ἔστ' ἀποστροφή,*
ἐγὼ δ' ἔρημος τήνδε φευξοῦμαι χθόνα.
ΙΑ. *αὐτὴ τάδ' εἵλου· μηδέν' ἄλλον αἰτιῶ.*
ΜΗ. *τί δρῶσα; μῶν γαμοῦσα καὶ προδοῦσά σε;*
ΙΑ. *ἀρὰς τυράννοις ἀνοσίους ἀρωμένη.*
ΜΗ. *καὶ σοῖς ἀραία γ' οὖσα τυγχάνω δόμοις.*
ΙΑ. *ὡς οὐ κρινοῦμαι τῶνδέ σοι τὰ πλείονα.*

EURIPIDES.

2. (*a*) Parse *μετεύξει* and *δόκει*. (*b*) Give the present and 1st aorist indicative (1st person singular) of *προδοῦσα*. (*c*) Why is *μή* used instead of *οὐ* in the first line? (*d*) What is the nom. sing. of *φρένα*?

3. Give the English of *five* of the following words:—*πεσσοί, ἄση, βραβεύς, ἀρτίφρων, σιωπηλός, μνεία, σπανίζειν, αὐθαδία*.

4. How does Jason reply to Medea's accusations of ingratitude?

[C.]

1. Translate:—

Aurum per medios ire satellites
Et perrumpere amat saxa potentius
Ictu fulmineo. Concidit auguris
Argivi domus ob lucrum

Demersa exitio; diffidit urbium
Portas vir Macedo et subruit aemulos
Reges muneribus; munera navium
Saevos illaqueant duces.

Crescentem sequitur cura pecuniam
Maiorumque fames. Iure perhorrui
Late conspicuum tollere verticem,
Maecenas, equitum decus.
HORACE.

2. (*a*) Who was the *vir Macedo*? (*b*) Give the genitive singular and nom. pl of *decus*. (*c*) What is the present indic., 1st pers. sing. of *diffidit*? (*d*) Parse *exitio*. (*e*) What were the relations between Horace and Macenas?

3. Give the English of *five* of the following words:—Festa, robigo, mica, alea, specus, adorea, speculum, cadus, apium, fistula.

4. (*a*) In what connexion does Horace exclaim *pro curia inversique mores!* (*b*) To what fountain does he address an ode? (*c*) 'Codrus pro patria non timidus mori': what is the reference? (*d*) To what does Horace refer when he makes the boast, 'exegi monumentum aere perennius'?

LATIN COMPOSITION.

MR. WILKINS.

Although all things are injurious which exceed the proper limit, unlimited prosperity is the most dangerous. It affects the brain, awakens vain imaginations in the mind, and spreads over it a darkness that fluctuates between truth and error. Is it not better to endure continual misfortune, summoning virtue to one's aid, than to be ruined by an unceasing and immoderate prosperity? The gods, therefore, in dealing with good men, follow the plan which teachers employ with their pupils, who require more labours from those of whom they have the greatest hopes. Fortune scourges and wounds us: we endure it: it is not cruelty, it is a conquest: the oftener we undergo it, the braver we shall become. We must surrender ourselves to fortune to be hardened by her against herself. She may gradually make us a match for herself: the constant presence of danger will cause us to despise it.

MODERN LANGUAGES.

MR. MACRAN.

Translate into English:—

Raschke nickte mit dem Haupt. Wieder ging er heftig durch die Stube und sah zornig auf die Truhe.

Werner erhob sich und schellte. „Ich wünsche Magister Knips zu sprechen," sagte er dem eintretenden Gabriel, „ich lasse ihn ersuchen, sich so bald als möglich hierher zu bemühen."

„Wie werden Sie zu ihm reden?" frug Raschke besorgt vor dem Freund anhaltend.

„Ich bedarf selbst so sehr der Nachsicht," versetzte Werner, „dass Sie meine Heftigkeit nicht zu fürchten haben. Auch ich bin ein Kranker und ich weiss, dass ich mit Einem sprechen soll, der kränker ist als ich."

„Nicht krank," rief Raschke, „nur erschreckt, wie ich. Sie werden ihm sagen, was nothwendig ist, im Uebrigen überlassen Sie ihn seinem Gewissen."

„Ich werde nur sagen, was nothwendig ist," wiederholte der Professor vor sich hinstarrend.

Gabriel kehrte zurück und brachte die Nachricht, der Magister wollte gegen Abend, wenn er das Kabinet verlasse, beim Professor vorsprechen.

„Wie nahm der Magister die Botschaft auf?" frug Raschke.

„Er schien erschrocken, als ich ihm sagte, dass der Herr Professor im Gasthof wohnt."

Or,—

— Non... Restez... fit-elle, la voix brusque; et penchée sur le bureau du duc où s'allongeait sa main encore gantée pour le cheval, résolue, pressante, autoritaire:

— Rosen, de quoi vivons-nous depuis deux ans?... Oh! pas de détours... Je sais que tout ce que je croyais loué a été acheté en notre nom et payé.... Je sais que Saint-Mandé tout seul nous coûte plus d'un million, le million que nous avons rapporté d'Illyrie... Vous allez me dire qui nous assiste depuis lors et de quelles mains nous vient l'aumône?...

La figure bouleversée du vieillard, le tremblement piteux de ses mille petites rides avertit Frédérique.

— Vous!... C'est vous!...

Elle n'y aurait jamais songé. Et pendant qu'il s'excusait, balbutiant les mots 'devoir... gratitude... restitution...'

— Duc, dit-elle violemment, le roi ne reprend pas ce qu'il a donné, et l'on n'entretient pas la reine comme une danseuse.

Translate into French *or* German:—

We took the opportunity, when we were at Naples, of going to see Mount Vesuvius, which lies south-east from thence, at the distance only of four miles, if we reckon but to the beginning of the ascent, and four more they call it up to the top. Just at the beginning of the ascent stands a monument, with an inscription which is inserted, giving an account of the terrible manner of its eruptions.

ENGLISH COMPOSITION.

MR. GWYNN.

Write an Essay on *one* of these subjects:—

1. The Scottish peasantry, as represented by Scott and by recent writers.

2. Sir Walter Scott's political sympathies, and their influence on his treatment of history.

3. Pagan mythology in *Paradise Lost*.

4. Contrast Milton's Satan with the other diabolic leaders.

END OF VOL. I.

DUBLIN UNIVERSITY PRESS SERIES.

THE PROVOST and SENIOR FELLOWS of Trinity College have undertaken the publication of a Series of Works, chiefly Educational, to be entitled the DUBLIN UNIVERSITY PRESS SERIES.

The following volumes of the Series are now ready, viz.:—

The Apocalypse of St. John, in a Syriac Version hitherto unknown; Edited (from a MS. in the Library of the Earl of Crawford and Balcarres), with Critical Notes on the Syriac Text, and an Annotated Reconstruction of the Underlying Greek Text, by JOHN GWYNN, D.D., D.C.L., *Regius Professor of Divinity, and sometime Fellow of Trinity College, in the University of Dublin;* to which is prefixed an Introductory Dissertation on the Syriac Versions of the Apocalypse, by the Editor. 30*s.*

Six Lectures on Physical Geography. By the REV. S. HAUGHTON, M.D., Dubl., D.C.L., Oxon., F.R.S., *Fellow of Trinity College, and Professor of Geology in the University of Dublin.*

An Introduction to the Systematic Zoology and Morphology of Vertebrate Animals. By ALEXANDER MACALISTER, M.D., Dubl., *Professor of Comparative Anatomy in the University of Dublin.* 10*s.* 6*d.*

The Codex Rescriptus Dublinensis of St. Matthew's Gospel (Z). First Published by Dr. Barrett in 1801. A New Edition, Revised and Augmented. Also, Fragments of the Book of Isaiah, in the LXX. Version, from an Ancient Palimpsest, now first Published. Together with a newly discovered Fragment of the Codex Palatinus. By T. K. ABBOTT, B.D., *Fellow of Trinity College, and Professor of Biblical Greek in the University of Dublin.* With two Plates of Facsimiles. 21*s.*

The Parabola, Ellipse, and Hyperbola, treated Geometrically. By ROBERT WILLIAM GRIFFIN, A.M., LL.D., *Ex-Scholar, Trinity College, Dublin.* 6*s.*

An Introduction to Logic. By WILLIAM HENRY STANLEY MONCK, M.A., *Professor of Moral Philosophy in the University of Dublin.* [Second Edition.] 5*s.*

Essays in Political Economy. By T. E. CLIFFE LESLIE, Hon. LL.D., Dubl., *of Lincoln's Inn, Barrister-at-Law, late Examiner in Political Economy in the University of London, Professor of Jurisprudence and Political Economy in the Queen's University.* [Second Edition.] 10*s.* 6*d.*

The Correspondence of M. Tullius Cicero, arranged according to its Chronological Order; with a Revision of the Text, a Commentary, and Introductory Essays. By ROBERT YELVERTON TYRRELL, LITT.D., *Fellow and Public Orator, Trinity College, Dublin, Hon. Litt.D. Cantab., D.C.L. Oxon., LL.D. Edin., D.Lit. Q. Univ.*; and LOUIS CLAUDE PURSER, LITT.D., *Fellow and Professor of Latin, Trinity College, Dublin.*

Vols. I.–VI., which complete the Correspondence.
Vol. VII., Index Volume.

Faust, from the German of Goethe. By THOMAS E. WEBB, LL.D., Q.C., *Regius Professor of Laws, and Public Orator in the University of Dublin.* 12*s.* 6*d.*

The Veil of Isis; a series of Essays on Idealism. By THOMAS E. WEBB, LL.D., Q.C., *Regius Professor of Laws, and Public Orator; sometime Fellow of Trinity College and Professor of Moral Philosophy in the University of Dublin.* 10*s.* 6*d.*

The Correspondence of Robert Southey with Caroline Bowles, to which are added — Correspondence with Shelley, and Southey's Dreams. Edited, with an Introduction, by EDWARD DOWDEN, LL.D., *Professor of English Literature in the University of Dublin.* 14*s.*

The Mathematical and other Tracts of the late James M'Cullagh, F.T.C.D., *Professor of Natural Philosophy in the University of Dublin.* Now first collected, and edited by REV. J. H. JELLETT, B.D., and REV. SAMUEL HAUGHTON, M.D., *Fellows of Trinity College, Dublin.* 15*s.*

Elements of Quaternions. By the late SIR WILLIAM ROWAN HAMILTON, LL.D., M.R.I.A.; D.C.L. Cantab. Second Edition, edited by CHARLES JASPER JOLY, M.A., Fellow of Trinity College, Dublin: Andrews Professor of Astronomy in the University of Dublin, and Royal Astronomer of Ireland. In two volumes, each 21*s.* net.

Short Notes on St. Paul's Epistles to the Romans, Corinthians, Galatians, Ephesians, and Philippians. By T. K. ABBOTT, B.D., LITT.D. *Fellow of Trinity College, Dublin,* and *Professor of Hebrew in the University of Dublin.* 3*s.* net.

Theory of Equations: with an Introduction to the Theory of Binary Algebraic Forms. By WILLIAM SNOW BURNSIDE, M.A., *Erasmus Smith's Professor of Mathematics in the University of Dublin;* and ARTHUR WILLIAM PANTON, M.A., *Fellow and Tutor, Trinity College, Dublin.* Fourth Edition. In two volumes, each 9*s.* 6*d.*

The Parmenides of Plato: with Introduction, Analysis, and Notes. By THOMAS MAGUIRE, LL.D., D. LIT., *Fellow and Tutor, Trinity College, Dublin.* 7*s.* 6*d.*

The Medical Language of St. Luke: a Proof from Internal Evidence that "The Gospel according to St. Luke" and "The Acts of the Apostles" were written by the same Person, and that the writer was a Medical Man. By the REV. WILLIAM KIRK HOBART, LL.D., *Ex-Scholar, Trinity College, Dublin.* 16*s.*

Life of Sir Wm. Rowan Hamilton, Knt., LL.D., D.C.L., M.R.I.A., *Andrews Professor of Astronomy in the University of Dublin, and Royal Astronomer of Ireland, &c. &c.:* including Selections from his Poems, Correspondence, and Miscellaneous Writings. By ROBERT PERCEVAL GRAVES, M.A., *Sub-Dean of the Chapel Royal, Dublin, and formerly Curate in charge of Windermere.* Vol. I. (1882); Vol. II. (1885); each 15*s.* Vol. III., 15*s.*

Dublin Translations: Translations into Greek and Latin Verse, by Members of Trinity College, Dublin. Edited by ROBERT YELVERTON TYRRELL, M.A. Dublin, D. Lit. Q. Univ., *Fellow of Trinity College, and Regius Professor of Greek in the University of Dublin.* Second Edition. 6*s.*

The Acharnians of Aristophanes. Translated into English Verse by ROBERT YELVERTON TYRRELL, M.A. Dublin, D. Lit. Q. Univ., *Fellow of Trinity College, Dublin, and Regius Professor of Greek.* 2*s.* 6*d.*

Evangelia Antehieronymiana ex Codice vetusto Dublinensi. Ed. T. K. ABBOTT, B.D. 2 Vols. 20*s.*

The Eumenides of Æschylus: a Critical Edition, with Metrical English Translation. By JOHN F. DAVIES, M.A., Univ. Dubl.; D. Lit., Q.U.I.; F.R.U.I.; *Professor of Latin in the Queen's College, Galway.* Demy 8vo. 7*s.*

The Growth of the Homeric Poems: A Discussion of their Origin and Authorship. By GEORGE WILKINS, M.A., T.C.D., *Assistant Master, High School, Dublin.* 8vo cloth. 6*s.*

A Treatise on the Analytical Geometry of the Point, Line, Circle, and the Conic Sections, containing an account of its most recent extensions. By JOHN CASEY, LL.D., F.R.S., F.R.U.I., *Member of the Council of the Royal Irish Academy, and of the Mathematical Societies of London and France; and Professor of the Higher Mathematics and Mathematical Physics in the Catholic University of Ireland.* Crown 8vo, cloth. Second Edition. 12*s.*

The Æneid of Virgil, freely translated into English blank verse. By WILLIAM J. THORNHILL, B.A., *Late Scholar, Trinity College, Dublin, Canon of St. Patrick's Cathedral, and Rector of Rathcoole, Dublin.* 7*s.* 6*d.*

Greek Geometry from Thales to Euclid. By GEORGE JOHNSTON ALLMAN, LL. D., D. Sc., Fellow of the Royal Society; Professor of Mathematics in Queen's College, Galway; Member of the Senate of the Royal University of Ireland. 10*s.* 6*d.*

The History of the University of Dublin, from its Foundation to the end of the Eighteenth Century, with an Appendix, containing Original Documents which, for the most part, are preserved in the College. By JOHN WILLIAM STUBBS, D.D., *Senior Fellow, Trinity College, Dublin.* 12*s.* 6*d.*

The Scientific Writings of the late George Francis FitzGerald, Sc.D., F.R.S., Hon. F.R.S.E., *Fellow of Trinity College, and Erasmus Smith's Professor of Natural and Experimental Philosophy in the University of Dublin.* Collected and Edited, with a Historical Introduction, by JOSEPH LARMOR, Sec. R.S., *Fellow of St. John's College, Cambridge.* 15*s.*
